OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From
(Not Applicable)
Commission File Number 001-36636

(Exact name of the registrant as specified in its charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

05-0412693
(I.R.S. Employer
Identification Number)

One Citizens Plaza, Providence, RI 02903
(Address of principal executive offices, including zip code)

(203) 900-6715

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common stock, \$0.01 par value per share	CFG	New York Stock Exchange
Depository Shares, each representing a 1/40th interest in a share of 6.350% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series D	CFG PrD	New York Stock Exchange
Depository Shares, each representing a 1/40th interest in a share of 5.000% Fixed-Rate Non-Cumulative Perpetual Preferred Stock, Series E	CFG PrE	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☒ Yes ☐ No
Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☒ No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

The aggregate market value of voting stock held by non-affiliates of the registrant was \$12,304,245,801 (based on the June 30, 2023 closing price of Citizens Financial Group, Inc. common shares of \$26.08 as reported on the New York Stock Exchange). There were 458,756,723 shares of the registrant's common stock (\$0.01 par value) outstanding on February 1, 2024.

Documents incorporated by reference

Portions of Citizens Financial Group, Inc.'s proxy statement to be filed with the United States Securities and Exchange Commission in connection with Citizens Financial Group, Inc.'s 2024 annual meeting of stockholders (the "Proxy Statement") are incorporated by reference into Part III hereof. Such Proxy Statement will be filed within 120 days of Citizens Financial Group, Inc.'s fiscal year ended December 31, 2023.

GLOSSARY OF ACRONYMS AND TERMS

The following is a list of common acronyms and terms used regularly in our financial reporting:

AACL	Adjusted Allowance for Credit Losses
ACL	Allowance for Credit Losses: Allowance for Loan and Lease Losses plus Allowance for Unfunded Lending Commitments
AFS	Available for Sale
ALLL	Allowance for Loan and Lease Losses
ALM	Asset and Liability Management
AOCI	Accumulated Other Comprehensive Income (Loss)
ASU	Accounting Standards Update
ATM	Automated Teller Machine
Bank Holding Company Act	The Bank Holding Company Act of 1956
BHC	Bank Holding Company
Board or Board of Directors	The Board of Directors of Citizens Financial Group, Inc.
bps	Basis Points
Capital Plan Rule	Federal Reserve Regulation Y Capital Plan Rule
CBNA	Citizens Bank, National Association
CCAR	Comprehensive Capital Analysis and Review
CCB	Capital Conservation Buffer
CECL	Current Expected Credit Losses (ASU 2016-13, <i>Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments</i>)
CET1	Common Equity Tier 1
CEO	Chief Executive Officer
CET1 capital ratio	Common Equity Tier 1 capital divided by total risk-weighted assets as defined under the U.S. Basel III Standardized approach
CFPB	Consumer Financial Protection Bureau
Citizens, CFG, the Company, we, us, or our	Citizens Financial Group, Inc. and its Subsidiaries
CLTV	Combined Loan-to-Value
CMO	Collateralized Mortgage Obligation
COVID	Coronavirus Disease
CRA	Community Reinvestment Act
CRE	Commercial Real Estate
DE&I	Diversity, Equity and Inclusion
DIF	Deposit Insurance Fund
Dodd-Frank Act	The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010
EAD	Exposure at Default
EEO-1 report	Mandatory report on workforce demographics submitted annually to the U.S. Equal Employment Opportunity Commission
EPS	Earnings Per Share
ESG	Environmental, Social, and Governance
ESPP	Employee Stock Purchase Plan
EVE	Economic Value of Equity
Exchange Act	The Securities Exchange Act of 1934, as amended

Tier 1 capital ratio	Tier 1 capital, which includes Common Equity Tier 1 capital plus non-cumulative perpetual preferred equity that qualifies as additional tier 1 capital, divided by total risk-weighted assets as defined under the U.S. Basel III Standardized approach
Tier 1 leverage ratio	Tier 1 capital, which includes Common Equity Tier 1 capital plus non-cumulative perpetual preferred equity that qualifies as additional tier 1 capital, divided by quarterly adjusted average assets as defined under the U.S. Basel III Standardized approach
TOP	Tapping Our Potential
Total capital ratio	Total capital, which includes Common Equity Tier 1 capital, tier 1 capital and allowance for credit losses and qualifying subordinated debt that qualifies as tier 2 capital, divided by total risk-weighted assets as defined under the U.S. Basel III Standardized approach
USDA	United States Department of Agriculture
VA	United States Department of Veterans Affairs
VaR	Value at Risk
VIE	Variable Interest Entity

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statement that does not describe historical or current facts is a forward-looking statement. These statements often include the words “believes,” “expects,” “anticipates,” “estimates,” “intends,” “plans,” “goals,” “targets,” “initiatives,” “potentially,” “probably,” “projects,” “outlook,” “guidance” or similar expressions or future conditional verbs such as “may,” “will,” “should,” “would,” and “could.”

Forward-looking statements are based upon the current beliefs and expectations of management, and on information currently available to management. Our statements speak as of the date hereof, and we do not assume any obligation to update these statements or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

- Negative economic, business and political conditions, including as a result of the interest rate environment, supply chain disruptions, inflationary pressures and labor shortages, that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits;
- The general state of the economy and employment, as well as general business and economic conditions, and changes in the competitive environment;
- Our capital and liquidity requirements under regulatory standards and our ability to generate capital and liquidity on favorable terms;
- The effect of changes in our credit ratings on our cost of funding, access to capital markets, ability to market our securities, and overall liquidity position;
- The effect of changes in the level of commercial and consumer deposits on our funding costs and net interest margin;
- Our ability to implement our business strategy, including the cost savings and efficiency components, and achieve our financial performance goals, including the anticipated benefits of the Private Bank start-up investment and Investors acquisition;
- The effects of geopolitical instability, including the wars in Ukraine and the Middle East, on economic and market conditions, inflationary pressures and the interest rate environment, commodity price and foreign exchange rate volatility, and heightened cybersecurity risks;
- Our ability to comply with heightened supervisory requirements and expectations;
- Liabilities and business restrictions resulting from litigation and regulatory investigations;
- The effect of changes in interest rates on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgages held for sale;
- Changes in interest rates and market liquidity, as well as the magnitude of such changes, which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets;
- Financial services reform and other current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses;
- Environmental risks, such as physical or transition risks associated with climate change, and social and governance risks, that could adversely affect our reputation, operations, business, and customers;
- A failure in or breach of our compliance with laws, as well as operational or security systems or infrastructure, or those of our third-party vendors or other service providers, including as a result of cyber-attacks; and
- Management’s ability to identify and manage these and other risks.

In addition to the above factors, we also caution that the actual amounts and timing of any future common stock dividends or share repurchases will be subject to various factors, including our capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations, as well as any other factors that our Board of Directors deems relevant in making such a determination. Therefore, there can be no assurance that we will repurchase shares from or pay any dividends to holders of our common stock, or as to the amount of any such repurchases or dividends.

More information about factors that could cause actual results to differ materially from those described in the forward-looking statements can be found under Item 1A “Risk Factors.”

PART I

ITEM 1. BUSINESS

Citizens Financial Group, Inc. is headquartered in Providence, Rhode Island. We offer a broad range of retail and commercial banking products and services to individuals, small businesses, middle-market companies, large corporations and institutions. Our products and services are offered through more than 1,100 branches in 14 states and the District of Columbia and 105 retail and commercial non-branch offices, though certain lines of business serve national markets. At December 31, 2023, we had total assets of \$222.0 billion, total deposits of \$177.3 billion and total stockholders’ equity of \$24.3 billion.

We are a BHC incorporated under Delaware state law in 1984 and our primary federal regulator is the FRB. CBNA is our banking subsidiary, whose primary federal regulator is the OCC.

Business Segments

We manage our business through two primary business segments: Consumer Banking and Commercial Banking. Our activities outside these segments are classified as Non-Core or Other. Non-Core includes our indirect auto and certain purchased consumer loan portfolios that we discontinued the origination of as part of our recently announced balance sheet optimization strategy. Other includes treasury activities, wholesale funding, the securities portfolio, community development assets, and other unallocated assets, liabilities, capital, revenues, provision (benefit) for credit losses and expenses, including income tax expense. For additional information regarding our business segments see the “Business Operating Segments” section of Item 7 and Note 26 in Item 8.

Consumer Banking Segment

Consumer Banking serves consumer customers and small businesses with annual revenues of up to \$25 million, with products and services that include deposits, mortgage and home equity lending, credit cards, small business loans, wealth management and investment services largely across our 14-state traditional banking footprint. We also offer education and point-of-sale finance loans in addition to select digital deposit products nationwide. Citizens Private Bank, launched during 2023, integrates wealth management and banking services to serve high net-worth individuals and families, as well as businesses.

Consumer Banking operates a multi-channel distribution network with a workforce of approximately 5,300 branch colleagues, approximately 1,100 branches, including 187 in-store locations, and approximately 3,200 ATMs. Our network includes approximately 1,100 specialists covering lending, savings and investment needs as well as a broad range of small business products and services. We serve customers on a national basis through telephone service centers as well as through our online and mobile platforms where we offer customers the convenience of depositing funds, paying bills and transferring money between accounts and from person to person, as well as a host of other everyday transactions.

Commercial Banking Segment

Commercial Banking primarily serves companies and institutions with annual revenues of \$25 million to more than \$3.0 billion and strives to be a trusted advisor to our clients and preferred provider for their banking needs. We offer a broad complement of financial products and solutions, including lending and leasing, deposit and treasury management services, foreign exchange, interest rate and commodity risk management solutions, as well as syndicated loans, corporate finance, mergers and acquisitions, and debt and equity capital markets capabilities.

Commercial Banking is organized around client segments and their banking needs. Corporate Banking, Commercial Real Estate, Capital Markets and Advisory, and Treasury Solutions work together to understand client needs and provide comprehensive solutions to meet those needs. We acquire new clients through a coordinated approach to the market, leveraging deep industry knowledge in specialized banking groups and a geographic coverage model.

Corporate Banking serves commercial and industrial clients with annual gross revenues of \$25 million to \$500 million, and corporate clients with annual revenues of \$500 million to more than \$3.0 billion in the United States. In several areas, such as Aerospace, Defense and Government Services, Communications, Transportation and Logistics, Food and Restaurants, Human Capital Management, and Gaming we offer a more dedicated and tailored approach to better meet the unique needs of these client segments.

Commercial Real Estate provides customized debt capital solutions for middle-market operators, institutional developers, investors, and REITs. Commercial Real Estate provides financing for projects primarily in the multi-family, office, industrial, retail, healthcare and hospitality sectors.

Capital Markets and Advisory serves clients through key product groups including Corporate Finance, Capital Markets, and Global Markets. Corporate Finance provides advisory services to middle-market and mid-corporate clients, including mergers and acquisitions and capital structure advice. The team works closely with industry-sector specialists within capital markets to advise our clients. Corporate Finance also provides acquisition and follow-on financing for new and recapitalized portfolio companies of key sponsors, with services meeting the unique and time-sensitive needs of private equity firms, management companies and funds, and underwriting and portfolio management expertise for leveraged transactions and relationships. Capital Markets originates, structures and underwrites credit and equity facilities targeting middle-market, mid-corporate and private equity sponsors. They focus on offering value-added ideas to optimize their capital structures, including advising on and facilitating mergers and acquisitions, valuations, tender offers, financial restructurings, bond and equity underwriting, asset sales, divestitures and other corporate reorganizations and business combinations. Capital Markets also provides sales and trading across loan, fixed income and equity products, as well as other brokerage services including equity research. Global Markets provides foreign exchange, interest rate and commodities risk management services.

The Treasury Solutions product group supports Commercial Banking and certain small business clients with treasury management solutions, including domestic and international products and services related to receivables, payables, information reporting and liquidity management, as well as commercial credit cards and trade finance.

Business Strategy

Our mission is to help our customers, colleagues and communities reach their potential, and our vision is to become a top-performing bank distinguished by our customer-centric culture, mindset of continuous improvement, product innovation, and excellent capabilities. We strive to understand customer and client needs, so we can tailor advice and solutions to help make them more successful. Our business strategy is designed to maximize the full potential of our businesses, drive sustainable growth and enhance profitability. Our success rests on our ability to distinguish ourselves as follows:

Maintain a high-performing, customer-centric organization: We continually strive to enhance our “customer-first” culture by emphasizing the “voice of the customer” to deliver the best possible banking experience. We seek to deepen relationships with our customers by offering a full suite of products designed to meet their unique needs. In addition, we are taking talent management to the next level, with a goal of attracting, developing and retaining great people, while ensuring strong leadership, teamwork, and a sense of empowerment, accountability and urgency.

Develop differentiated value propositions to acquire, deepen, and retain core customer segments: Our focus is on select customer segments where we believe we are well positioned to compete. In Consumer Banking, we focus on serving mass affluent and affluent customers, small businesses and high-net-worth individuals and families. In 2023, we launched the Private Bank, which seeks to serve high-net-worth individuals and families, as well as commercial clients, to integrate our wealth management and banking services. In Commercial Banking, we focus on serving customers in the middle-market, mid-corporate, and select industry verticals. We have integrated the Investors acquisition and HSBC transaction and are focused on improving branch productivity and deepening relationships with those customers. By developing differentiated and targeted value propositions, building our fee-based businesses and developing innovative product solutions, we believe we can attract new customers, deepen relationships with existing customers and deliver an enhanced customer experience.

Build excellent capabilities designed to help us stand out from competitors: We strive to deliver seamless, multi-channel experiences that allow customers to interact with us when, where and how they choose. We are enhancing capabilities in key areas including consumer lending, wealth, capital markets and payments. We are on a multi-year digital transformation journey across our Consumer and Commercial organizations to digitize end-to-end customer experiences and transform our marketing to drive consumer-direct acquisition in order to satisfy rapidly changing customer preferences. We strive to use advanced data analytics and artificial intelligence for personalization and to provide timely, insight-driven, tailored advice in order to deliver solutions to consumer and commercial customers throughout their lifecycles.

Operate with financial discipline and a mindset of continuous improvement to self-fund investments: We believe that continued focus on operational efficiency is critical to our future profitability and ability to continue to reinvest to drive future growth. We launched the first Tapping our Potential (“TOP”) initiative in 2014 and have launched additional programs in subsequent years. These programs are designed to transform how we operate and to improve the effectiveness, efficiency, and competitiveness of our franchise. Our TOP 8 program was completed in 2023, and we launched a TOP 9 program to allow us to continue to self-fund investments.

Prudently grow and optimize our balance sheet: We operate with a strong balance sheet with regard to capital and liquidity, coupled with a well-defined and prudent risk appetite. We continue to focus on thoughtfully growing our balance sheet by actively managing capital and resource allocations towards relationships-oriented growth to generate attractive risk-adjusted returns. Our goal is to be good stewards of our resources and continue to rigorously evaluate our execution.

Modernize our technology and operational models to improve delivery, organizational agility and speed to market: We are continuing to modernize our technology environment by strengthening our infrastructure and migrating applications to the cloud. We have deployed and scaled an agile operating model to improve our speed-to-market, deliver innovative products and services and strengthen collaboration across teams. We will also continue to actively incubate new innovative ideas and harness external innovation through FinTech partnerships to help deliver differentiated value-added experiences for our customers.

Embed risk management within our culture and operations: Given that the quality of our risk management program directly affects our ability to execute our strategy, we continue to work to further strengthen our risk management culture. Moreover, we are committed to continuously enhancing our processes and talent, and to making improvements in the platform including ongoing investments in risk technology and frameworks. These actions are designed to support and enhance our risk management capabilities and regulatory profile.

Competition

The financial services industry is highly competitive. Our branch footprint is predominantly in the New England, Mid-Atlantic and Midwest regions, though certain lines of business serve national markets. Within these markets, we face competition from community banks, super-regional and national financial institutions, credit unions, savings and loan associations, mortgage banking firms, consumer finance companies, securities brokerage firms, insurance companies, money market funds, hedge funds and private equity firms. Some of our larger competitors may make available to their customers a broader array of products, pricing and structure alternatives while some smaller competitors may have more liberal lending policies and processes. In addition, some of our competitors may not be subject to the same regulatory requirements as we are and, therefore, may have lower costs they can pass on to customers in the form of more favorable terms. Competition among providers of financial products and services continues to increase, with consumers having the opportunity to select from a growing variety of traditional and nontraditional alternatives. The ability of non-banking financial institutions, including FinTech companies, to provide services previously limited to commercial banks has also intensified competition.

In Consumer Banking, the industry has become increasingly dependent on and oriented toward technology-driven delivery systems, permitting transactions to be conducted through online and mobile channels. In addition, technology has lowered barriers to entry and made it possible for non-bank institutions to attract funds and provide lending and other financial products and services. The emergence of digital-only banking models has increased and we expect this trend to continue. Given their lower cost structure, these models are often, on average, able to offer higher rates on deposit products than retail banking institutions with a traditional branch footprint. The primary factors driving competition for loans and deposits are interest rates, fees charged, tailored value propositions to different customer segments, customer service levels, convenience, including branch locations and hours of operation, and the range of products and services offered.

In Commercial Banking, we face competition in all our client segments from a variety of industry participants including traditional banking institutions, particularly large regional banks, as well as commercial finance companies, leasing companies, other non-bank lenders, and institutional investors, including collateralized loan obligation managers, hedge funds and private equity firms. Some larger competitors, including certain national banks that compete in our market area, may offer a broader array of products and, due to their asset size, may be in a position to hold more exposure on their balance sheet. We compete on a number of factors including providing innovative corporate finance solutions, quality of customer service and execution, range of products offered, price and reputation.

Human Capital Management

We believe that our long-term success depends on our ability to attract, develop, and retain a high-performing workforce. Our goal is to create an environment where colleagues can thrive personally and professionally and can maximize their potential. As of December 31, 2023, Citizens had 17,570 full-time equivalent employees, primarily across New England and the Mid-Atlantic. Our Board of Directors and its Compensation and Human Resources Committee are responsible for overseeing our human capital management strategy, with senior management providing regular updates to facilitate that oversight.

Leadership, Talent Development, and Talent Acquisition and Mobility

Our leaders are the catalysts to achieve the culture we want to foster. During 2023, we continued tailored leadership training and coaching for senior management following the detailed talent assessments conducted the prior year. We aim to equip all colleagues with the skills necessary to excel in their current roles and to build capabilities that will enable them to be highly valuable contributors in the future. We expanded our learning academies as well as badging and bootcamp programs focusing on critical skills such as Innovation, Agile, Next Gen Tech, Banking and Credit, and Data & Analytics. Our culture is one of continuous learning, which we believe is crucial for colleagues to thrive as part of our organization and to feel a sense of accomplishment and purpose.

The talent market remains competitive, particularly in emerging skill areas, and we implemented a strategy to fill critical gaps that utilizes a combination of external hiring in critical areas (e.g., technology, digital, cyber, risk, marketing, and data), a strong internal mobility program made possible by the expanded learning and development offerings provided to colleagues, and reliance on temporary workers for short-term or technical projects.

Employee Engagement

As part of our ongoing efforts to develop a high performing workforce and make Citizens a great place to work and build a career, we conduct an annual organizational health survey (“OHS”). The results of our survey are instrumental in helping management prioritize areas of change that are most important to colleagues. Survey results are used to refine our focus, address gaps, and strengthen efforts to improve our organizational effectiveness and colleague experience. Between our initial public offering and 2022, we had a 19-point increase in our overall survey score and achieved top quartile status within McKinsey’s global benchmarks. In 2023, with an eye toward continuing to evolve our strategy and culture, we transitioned to a new OHS tool. In 2023, 87% of colleagues participated in the OHS, which is our all-time highest participation rate.

Diversity, Equity and Inclusion

We foster a culture where all stakeholders feel respected, valued, and heard. Our DE&I strategy is focused on creating an environment of inclusion and belonging, building a more diverse workforce and evaluating the effectiveness of our initiatives.

Development programs are designed to build a strong pipeline of emerging talent, including diverse talent, internally, and have been effective in increasing the development of our overall colleague base as well as increasing the number of women and people of color in senior leader roles. We also partner with external organizations to offer additional resources for reskilling and upskilling colleagues, including diverse colleagues. We acknowledge that there are opportunities to further increase the representation of women and people of color, particularly in leadership roles, and we continue to develop strong partnerships with business and community organizations to help identify diverse candidates for roles within every segment of our organization. In addition, we ensure that interview slates for senior openings include candidates with diverse backgrounds and perspectives. An internal dashboard is used to monitor our progress across multiple DE&I metrics. Information regarding our workforce demographics can be found in our Environmental Social Governance Report and on our website, which includes a link to our most recently filed EEO-1 report.

Various resources are used by management to understand what drives a sense of inclusion and belonging and to identify what actions will be effective in attracting and retaining diverse colleagues. Analytics are used to help prioritize initiatives, including responses to our OHS, which we segment by various colleague populations to provide additional insights. In addition, we have seven business resource groups (“BRGs”), which are integral to identifying and formulating solutions to DE&I issues that are most important to customers, colleagues, and the community. Our BRGs include Citizens WIN (Women’s Impact Network), Citizens Elev8 (Rising Professionals), Prism (Multicultural), Citizens Pride (LGBTQ+), Citizens Veterans, and Citizens Awake (Disability Awareness). In 2023, we launched an additional BRG, Caring for Citizens (Caregivers). Each BRG is sponsored by a member of the executive team and approximately 3,500 colleagues belonged to at least one BRG as of December 31, 2023. We also offer education programs focused on embedding inclusive behaviors in our culture designed for colleagues at all levels of leadership.

Health, Well-Being, and Flexibility

We prioritize the health and well-being of our colleagues and their loved ones. Our benefit programs are designed to support colleagues’ physical, mental, and financial well-being and we have added several resources in recent years. In an effort to greater support each colleague’s unique journey, we enhanced our partnership with our BRGs by providing subject matter experts to share their experience and expertise with all BRG members, as well as increasing awareness of available tools and resources.

In late 2022, we enhanced our Parental Leave Policy to six weeks of paid time off for all permanent colleagues who become parents; birth mothers are eligible for an additional 10 weeks, for a total of 16 weeks. In 2023, we increased paid bereavement leave, added several mental health resources, and provided each colleague an extra day of paid time-off to be used as a wellness day. In recognition of the impact of inflation on colleagues there were also no increases to colleague premiums, co-pays or deductibles for medical, dental, and vision coverage for 2023.

We continue to embrace flexibility and manage our hybrid workforce in a manner that ensures colleagues are working in ways that best support our customers, foster engagement and innovation, and maintain our company culture.

Fair and Equitable Compensation

We strive to compensate our colleagues fairly based on market data, experience, and performance, and we compare our compensation to other companies in our peer group as well as others in the financial services industry.

Part of our commitment to building and fostering a diverse, inclusive, high-performing culture includes ensuring our compensation and benefits are fair and competitive for all colleagues. We engage an independent third-party expert firm to conduct an annual pay equity analysis, accounting for factors that appropriately explain differences in pay such as role, performance, and experience. Additional information about this analysis, including our most recent results, can be found in our Environmental Social Governance Report and on our website.

Sustainability

Our efforts relative to ESG matters are aligned with the needs, interests, and expectations of our stakeholders and are divided into four focus areas: Leading with Robust Corporate Governance, Driving Positive Climate Impact, Building the Workforce of the Future, and Fostering Strong Communities. These areas speak to the strengths of our company, align with our business priorities, and define how we can have an outsized impact on our business, society, and the planet.

In 2023, we announced a \$50 billion Sustainable Finance Target, including \$5 billion in green financing, by 2030. As part of this announcement, we committed to engage corporate clients in high-emitting sectors on climate-related topics, beginning with a target to engage 100% of our Oil & Gas clients by the end of 2024. In addition, we committed to achieving carbon neutrality by 2035.

For more details regarding ESG and other corporate responsibility matters, go to our website.

Regulation and Supervision

Our operations are subject to extensive regulation, supervision and examination under federal and state laws and regulations. These laws and regulations cover all aspects of our business, including lending practices, deposit insurance, customer privacy and cybersecurity, capital adequacy and planning, liquidity, safety and soundness, consumer protection and disclosure, permissible activities and investments, and certain transactions with affiliates. These laws and regulations are intended primarily for the protection of customers, depositors, the DIF and the banking system as a whole and not for the protection of shareholders or other investors. The discussion below outlines the material elements of selected laws and regulations applicable to us and our subsidiaries. Changes in applicable law or regulation, and in their interpretation and application by regulatory agencies and other governmental authorities, cannot be predicted, but may have a material effect on our business, financial condition or results of operations.

We are subject to examinations by federal banking regulators, as well as the SEC, FINRA and various state insurance and securities regulators. In some cases, regulatory agencies may take supervisory actions that may not be publicly disclosed, and such actions may restrict or limit our activities or activities of our subsidiaries. As part of our regular examination process, regulators may advise us to operate under various restrictions as a prudential matter. We have periodically received requests for information from regulatory authorities at the federal and state level, including from banking, securities and insurance regulators, state attorneys general, federal agencies or law enforcement authorities, and other regulatory authorities, concerning our business practices. Such requests are considered incidental to the normal conduct of business. For a further discussion of how regulatory actions may impact our business, see Item 1A “Risk Factors.” For additional information regarding regulatory matters, see Note 25 in Item 8.

Overview

We are a BHC under the Bank Holding Company Act and have elected to be treated as a FHC under amendments to this Act as effected by GLBA. As such, we are subject to the supervision, examination and reporting requirements of the Bank Holding Company Act and the regulations of the FRB, including through the Federal Reserve Bank of Boston. Under the system of “functional regulation” established under the Bank Holding Company Act, the FRB serves as the primary regulator of our consolidated organization. The OCC serves as the primary regulator for CBNA, and the SEC and FINRA serve as the primary regulators of our broker-dealer subsidiaries.

The federal banking regulators have authority to approve or disapprove mergers, acquisitions, consolidations, the establishment of branches and similar corporate actions. These banking regulators also have the power to prevent the continuance or development of unsafe or unsound banking practices or other violations of law. Federal law governs the activities in which CBNA engages, including the investments it makes and the aggregate amount of available credit that it may grant to one borrower. Various consumer and compliance laws and regulations also affect its operations. The actions the FRB takes to implement monetary policy also affect us.

In addition, CBNA is subject to regulation, supervision and examination by the CFPB with respect to consumer protection laws and regulations. The CFPB has broad authority to regulate the offering and provision of consumer financial products by depository institutions, such as CBNA, with more than \$10 billion in total assets. The CFPB may promulgate rules under a variety of consumer financial protection statutes, including the Truth in Lending Act, the Equal Credit Opportunity Act, the Electronic Funds Transfer Act and the Real Estate Settlement Procedures Act.

Enhanced Prudential Standards and Regulatory Tailoring Rules

As a BHC with over \$100 billion in total consolidated assets, we are currently subject to enhanced prudential standards and associated capital and liquidity rules (“Tailoring Rules”). The Tailoring Rules assign each BHC, including its bank subsidiaries, to one of four categories based on its size and certain risk-based indicators. CFG and CBNA are each subject to Category IV standards, the least restrictive of the requirements under the Tailoring Rules. As discussed in greater detail in “Capital and Stress Testing Requirements” and “Long-Term Debt Requirements”, the federal banking regulators proposed sweeping changes to the regulatory capital and liquidity rules that would significantly impact the application of those rules to the Company.

Bank and Financial Holding Company Regulation

As a FHC, we may engage in a broader range of activities than a BHC that is not also a FHC. These activities include securities underwriting and dealing, insurance underwriting and brokerage, merchant banking and other activities that are determined by the FRB, in coordination with the Treasury Department, to be “financial in nature or incidental thereto” or that the FRB determines unilaterally to be “complementary” to financial activities. In addition, a FHC may commence new permissible financial activities or acquire non-bank financial companies engaged in such activities, in either case, with after-the-fact notice to the FRB.

To maintain FHC status, a BHC and all of its depository institution subsidiaries must remain “well capitalized” and “well managed,” as described below under “Federal Deposit Insurance Act.” If a BHC fails to meet these regulatory standards, the FRB could place limitations on its ability to conduct the broader financial activities permissible for FHCs or impose limitations or conditions on the conduct or activities of the BHC or its affiliates. If the deficiencies persisted, the FRB could order the BHC to divest any subsidiary bank or to cease engaging in any activities permissible for FHCs that are not permissible for BHCs, or the BHC could elect to conform its non-banking activities to those permissible for a BHC that is not also a FHC. In addition, the CRA requires U.S. banks to help serve the needs of their communities. If a depository institution subsidiary of a BHC were to receive a CRA rating of less than “satisfactory”, the BHC would be prohibited from engaging in certain activities or acquisitions (see “Community Reinvestment Act” below).

Federal and state laws impose notice and approval requirements for mergers and acquisitions of other depository institutions or BHCs. As noted above, FRB approval is generally not required for BHCs to acquire a company engaged in activities that are financial in nature or incidental to activities that are financial in nature, as determined by the FRB. Prior regulatory approval is required, however, before a BHC may acquire or control more than 5% of any class of voting shares or substantially all of the assets of a BHC, including a FHC, or a bank. In considering applications for approval of acquisitions, the banking regulators may take several factors into account, including the competitive effects of the transaction in the relevant geographic markets; the financial and managerial resources and future prospects of companies involved in the transaction; the effect of the transaction on the financial stability of the U.S. banking or financial system; the companies’ compliance with anti-money laundering laws and regulations; the convenience and needs of the communities to be served; and the performance record of the IDIs involved in the transaction under the CRA.

Capital and Stress Testing Requirements

We are required to comply with the U.S. Basel III rules, which establish risk-based and leverage capital requirements. The risk-based requirements are based on a banking organization’s RWA, which is inclusive of the organization’s on- and off-balance sheet exposures. We calculate RWA using the standardized approach and have made the AOCI opt-out election, permitting us to exclude components of AOCI from regulatory capital. The leverage requirements are based on a banking organization’s average consolidated on-balance sheet assets.

Under the U.S. Basel III rules, the minimum capital ratios are:

- CET1 capital ratio of 4.5%;
- Tier 1 capital ratio of 6.0%;
- Total capital ratio of 8.0%; and
- Tier 1 leverage ratio of 4.0%.

For BHCs with \$100 billion or more in assets, such as us, the FRB's capital rules impose an institution-specific SCB on top of each of the three minimum risk-based capital ratios listed above. Banking institutions that fail to meet the effective minimum ratios including the SCB will be subject to constraints on capital distributions, including dividends and share repurchases, and certain discretionary executive compensation. The severity of the constraints depends on the amount of the shortfall and the institution's "eligible retained income", defined as the greater of four quarter trailing net income net of distributions and tax effects not reflected in net income, or the average four quarter trailing net income.

On January 1, 2020, we adopted the CECL accounting standard. In reaction to the COVID disruption, on September 30, 2020, the federal banking regulators adopted a final rule relative to regulatory capital treatment of the ACL under CECL. This rule allowed electing banking organizations to delay the estimated impact of CECL on regulatory capital for a two-year period ending December 31, 2021, followed by a three-year transition period ending December 31, 2024. The three-year transition period will phase-in the reversal of the aggregate amount of the capital benefit provided during the initial two-year delay.

As a Category IV firm under the Tailoring Rules, we are subject to biennial supervisory stress testing and are exempt from company-run stress testing and related disclosure requirements. The FRB supervises Category IV firms on an ongoing basis, including evaluating the capital adequacy and capital planning processes of firms during off-cycle years. We are required to develop, maintain and submit an annual capital plan for review and approval by our Board of Directors, or one of its committees, as well as FR Y-14 reporting requirements.

On July 27, 2023, the federal banking regulators issued a proposal to implement the Basel Committee on Banking Supervision's finalization of the post-crisis bank regulatory capital reforms. The proposal, commonly referred to as Basel III "Endgame," would significantly revise the capital requirements applicable to large banking organizations with total assets of \$100 billion or more, including the Company. Under the proposal, Category III and IV firms, including the Company as a Category IV firm, would become subject to the same capital treatment regarding the inclusion of AOI, deductions, and rules for minority interest as Category I and II firms. The proposal would also replace the existing models-based approaches for credit and operational risk, which currently apply only to Category I and II firms, with two new approaches applicable to Category I through IV firms. The first would use the existing standardized approach and a proposed revised market risk capital rule. The second would use a new expanded risk-based approach, consisting of new non-models-based approaches for credit risk, operational risk and credit valuation adjustment risk, as well as the proposed revised market risk capital rule. The approach resulting in the lower ratio would establish the binding ratio for purposes of satisfying regulatory capital requirements and buffers, including the SCB. Category III and IV firms would also be required to calculate counterparty credit exposure relating to derivative transactions using the standardized approach for counterparty credit risk. Additionally, Category IV firms would become subject to the supplementary leverage ratio and the countercyclical capital buffer. The Company estimates a pro forma CET1 ratio, adjusted for the AOI opt-out removal, of 9.0% as of December 31, 2023. In addition, the proposal is estimated to modestly increase our RWA on a fully phased-in basis. Under the proposal, the rule would take effect on July 1, 2025, with a three-year phase-in of the capital impact through June 30, 2028. Comments on the proposal were due by January 16, 2024. We continue to evaluate the full impact of the proposal.

For more details regarding our regulatory capital and SCB, see the "Capital and Regulatory Matters" section of Item 7. We are also subject to the FRB's risk-based capital requirements for market risk. See the "Market Risk" section of Item 7 for additional details.

Liquidity Requirements

The liquidity coverage ratio ("LCR") is designed to ensure that a covered bank or BHC maintains an adequate level of unencumbered high-quality liquid assets to cover expected net cash outflows over a 30-day time horizon under an acute liquidity stress scenario. The NSFR is designed to promote more medium- and long-term funding of the assets and activities of banking organizations over a one-year time horizon. Under the Tailoring Rules, Category IV firms with less than \$50 billion in weighted short-term wholesale funding, such as us, are not subject to any LCR or NSFR requirement.

We are subject to certain liquidity requirements under the Tailoring Rules including liquidity buffer, stress testing, risk management and reporting requirements. In addition, as a Category IV firm, we are required to calculate collateral positions monthly, establish a set of liquidity risk limits, and monitor certain elements of intraday liquidity risk exposures.

Resolution Planning

Category IV firms such as CFG are no longer required to submit resolution plans under section 165(d) of the Dodd-Frank Act. However, CBNA is required to periodically file an IDI resolution plan with the FDIC. This plan enables the FDIC, as receiver, to resolve the institution under applicable receivership provisions of the FDIA in a manner that ensures that depositors receive access to their insured deposits within one business day of the institution's failure, maximizes the net present value return from the sale or disposition of the institution's assets and minimizes the amount of any loss to the institution's creditors. In 2021, the FDIC issued a Statement on Resolution Plans for IDIs that, among other things, established a three-year filing cycle for banks with \$100 billion or more in total assets, such as CBNA, and provided details regarding the content of the resolution plans that filers are required to prepare. CBNA submitted its most recent resolution plan to the FDIC on December 1, 2022.

On August 29, 2023, the FDIC issued a proposal that would require IDIs with total assets of \$100 billion or more, including CBNA, to submit a more robust resolution plan biennially that includes a comprehensive strategy from the point of failure to liquidation or return of the institution to the private sector. The identified strategy must ensure timely access to insured deposits, maximize value from the sale or disposition of assets, minimize losses realized by creditors, and address potential risks of adverse effects on U.S. economic conditions or financial stability. In addition, the strategy generally expects, but does not require, a default scenario whereby the FDIC, as receiver of the failed institution, operates the institution under a bridge bank. The proposal also enhances how the credibility of resolution plans will be assessed, expands expectations regarding engagement and capabilities testing, and requires IDIs to demonstrate the capability to promptly establish a virtual data room in the run-up to or upon failure. The proposal provides that IDIs submit their initial resolution plan no earlier than 270 days from the effective date of the amended rule. Comments on the proposal were due by November 30, 2023. We are in the process of evaluating the impact of the proposal on our business.

Long-Term Debt Requirements

On August 29, 2023, the federal banking regulators issued a proposal that would require large bank holding companies and IDIs with total assets of \$100 billion or more, such as CFG and CBNA, to maintain a minimum amount of long-term debt. The joint agency proposal aims to increase the resolvability and resiliency of large banking organizations by mandating a long-term debt requirement to provide the regulatory agencies additional resources to resolve failed banking organizations, foster depositor confidence, and decrease costs to the DIF in the event of a large banking organization failure. Under the proposal, large bank holding companies and IDIs would each be required to maintain a minimum amount of eligible long-term debt equal to the greater of 6 percent of RWA, 3.5 percent of average total consolidated assets, and 2.5 percent of total leverage exposure for those banks subject to the supplementary leverage ratio. The proposal also prohibits large banking organizations from engaging in certain activities that could complicate their resolution and discourages them from holding long-term debt issued by other banks to reduce interconnectedness. The proposal provides for a three-year transition period, with 25 percent of the long-term debt requirement to be met one year after the rule is finalized, 50 percent after two years, and 100 percent after three years. Comments on the proposal were due by January 16, 2024. We continue to evaluate the full impact of the proposal.

Standards for Safety and Soundness

The FDIA requires the federal banking regulators to prescribe operational and managerial standards for all IDIs, including CBNA. Regulations and interagency guidelines adopted by these agencies set forth the safety and soundness standards used to identify and address problems at IDIs before capital becomes impaired. If an agency determines that a bank fails to satisfy any standard, it may require the bank to submit an acceptable plan to achieve compliance, consistent with deadlines for the submission and review of such safety and soundness compliance plans. If, after being notified to submit a compliance plan, an institution fails to submit an acceptable compliance plan or fails in any material respect to implement an acceptable compliance plan, the agency must issue an order directing action to correct the deficiency and may issue an order directing other types of actions that an undercapitalized institution is subject to under the FDIA as discussed in "Federal Deposit Insurance Act" below. If an institution fails to comply with such an order, the agency may seek to enforce such order in judicial proceedings and to impose civil money penalties.

Federal Deposit Insurance Act

The FDIA requires, among other things, that federal banking regulators take “prompt corrective action” with respect to IDIs that do not meet minimum capital requirements, as described above in “Capital and Stress Testing Requirements.” The FDIA sets forth the following five capital categories: “well-capitalized,” “adequately capitalized,” “undercapitalized,” “significantly undercapitalized” and “critically undercapitalized.” An IDI’s capital category is determined based on how its capital levels compare with various relevant capital measures and certain other factors that are established by regulation. The federal banking regulators must take certain mandatory supervisory actions, and are authorized to take other discretionary actions, with respect to institutions that are undercapitalized, significantly undercapitalized or critically undercapitalized, with the actions becoming more restrictive and punitive the lower the institution’s capital category. Under existing rules, an IDI that is not an advanced approaches institution, such as CBNA, is deemed to be “well capitalized” if it has a CET1 ratio of at least 6.5%, a tier 1 capital ratio of at least 8%, a total capital ratio of at least 10%, and a tier 1 leverage ratio of at least 5%.

The FRB’s regulations which are applicable to BHCs, such as the Parent Company, separately define “well capitalized” as having a tier 1 capital ratio of at least 6% and a total capital ratio of at least 10%. As described above under “Bank and Financial Holding Company Regulation”, a FHC that is not well capitalized and well managed (or whose bank subsidiaries are not well capitalized and well managed) under applicable prompt corrective action standards may be restricted in certain of its activities and ultimately may lose FHC status. As of December 31, 2023, both the Parent Company and CBNA were well-capitalized.

The FDIA prohibits insured banks from accepting brokered deposits or offering interest rates on any deposits significantly higher than the prevailing rate in the bank’s normal market area or nationally, depending upon where the deposits are solicited, unless it is “well-capitalized,” or it is “adequately capitalized” and receives a waiver from the FDIC. A bank that is “adequately capitalized” and accepts brokered deposits under a waiver from the FDIC may not pay an interest rate on any deposit in excess of 75 basis points over certain prevailing market rates. The FDIA imposes no such restrictions on a bank that is “well-capitalized.”

Deposit Insurance

The DIF provides insurance coverage for certain deposits, up to a standard maximum deposit insurance amount of \$250,000 per depositor based on ownership right and capacity category codes and is funded through assessments on IDIs based on the risk each institution poses to the DIF. CBNA accepts customer deposits insured by the DIF and, therefore, must pay insurance premiums. The FDIC may increase CBNA’s insurance premiums based on various factors, including the FDIC’s assessment of its risk profile. The FDIC also requires large depository institutions, including CBNA, to maintain enhanced deposit account recordkeeping and related information technology system capabilities to facilitate prompt calculation of insured deposits if such an institution was taken into FDIC receivership.

The FDIC, as required under the FDIA, established a plan in September 2020 to restore the DIF reserve ratio, 1.13% as of September 30, 2023, to meet or exceed the statutory minimum of 1.35% within eight years. This plan did not include an increase in the deposit insurance assessment rate. During 2022, the FDIC determined that the DIF reserve ratio was at risk of not reaching the statutory minimum by the statutory deadline of September 30, 2028, absent an increase in assessment rates. In October 2022, the FDIC adopted a final rule to increase initial base deposit insurance assessment rates by 2 basis points, beginning with the first quarterly assessment period of 2023. This increase in assessment rates was intended to improve the likelihood that the DIF reserve ratio will reach the required minimum by the statutory deadline of September 30, 2028.

In November 2023, the FDIC approved a final rule to impose special assessments to recover the loss to the DIF arising from the protection of uninsured depositors in connection with the systemic risk determination announced on March 12, 2023, following the closures of Silicon Valley Bank and Signature Bank, as required by the FDIA. Under the final rule, the special assessment is levied on an IDI’s assessment base, which is equal to estimated uninsured deposits as reported on the institution’s December 31, 2022 Call Report, excluding the first \$5 billion in estimated uninsured deposits. The special assessment is imposed at an annual rate of approximately 13.4 basis points and will be collected over eight quarterly assessment periods beginning with the first quarter of 2024.

The FDIC's current estimate of the loss attributable to this systemic risk determination is \$16.3 billion. This estimate will be periodically adjusted as assets are sold, liabilities are satisfied, and receivership expenses are incurred. The FDIC would cease collection of special assessments before the end of the initial eight-quarter collection period if they expect the loss to be less than expected assessment collections. The FDIC also reserves the right to impose an extended special assessment collection period after the initial eight-quarter period to collect the difference between losses and amounts collected, and impose a one-time final shortfall special assessment after both receiverships terminate.

Based on the final rule and related accounting guidance, CBNA's special assessment is approximately \$225 million and was recognized in other operating expense in the Company's Consolidated Statement of Operations for the year ended December 31, 2023. CBNA's special assessment is subject to change if the eventual loss to the DIF differs from the FDIC's current estimate.

Dividends

Various federal statutory provisions and regulations, as well as regulatory expectations, limit the amount of dividends that we and our subsidiaries may pay.

Our payment of dividends to our stockholders is subject to oversight by the FRB. In particular, the FRB reviews the dividend policies and share repurchases of a large BHC based on capital plans submitted as part of the CCAR process and the results of stress tests, as discussed above. In addition to other limitations, our ability to make any capital distributions, including dividends and share repurchases, is subject to the prior approval of the FRB if we are required to resubmit our capital plan. See "Capital and Stress Testing Requirements" above.

Dividends payable by CBNA, as a national bank subsidiary, are limited to the lesser of the amount calculated under a "recent earnings" test and an "undivided profits" test. Under the recent earnings test, a dividend may not be paid if the total of all dividends declared during any calendar year exceeds the sum of current year net income and retained net income of the two preceding years, less any required transfers to surplus, unless the national bank obtains the approval of the OCC. Under the undivided profits test, a dividend may not be paid in excess of the entity's "undivided profits" (generally accumulated net profits that have not been paid out as dividends or transferred to surplus). Federal banking regulatory agencies have issued policy statements that provide that FDIC-insured depository institutions and their holding companies should generally pay dividends only out of current operating earnings.

Support of Subsidiary Bank

The Parent Company is required to serve as a source of financial and managerial strength to CBNA and, under appropriate conditions, to commit resources to support CBNA. This support may be required by the FRB at times when the Parent Company may not have the financial resources to do so, or when doing so may not serve our interests or those of our shareholders or creditors. In addition, any capital loans by a BHC to a subsidiary bank are subordinate in right of payment to deposits and certain other indebtedness of such subsidiary bank. In the event of a BHC's bankruptcy, any commitment by the BHC to a federal bank regulatory agency to maintain the capital of a subsidiary bank will be assumed by the bankruptcy trustee and entitled to a priority of payment.

Transactions with Affiliates and Insiders

Sections 23A and 23B of the Federal Reserve Act establish certain quantitative limits and other prudential requirements for loans, purchases of assets, and certain other transactions between a member bank or its subsidiaries and its affiliates. The term "member bank" includes national banks such as CBNA.

Section 23A prohibits a bank from entering a "covered transaction" with an affiliate if, after the transaction, the aggregate amount of the bank's covered transactions with that affiliate would exceed 10% of the bank's capital stock and surplus, or the aggregate amount of the bank's covered transactions with all of its affiliates would exceed 20% of the bank's capital stock and surplus. Covered transactions include loans and other extensions of credit to an affiliate, investments in the securities of an affiliate, purchases of assets from an affiliate, and certain other transactions that expose the bank to the credit risks of its affiliates.

Section 23B of the Federal Reserve Act requires that transactions, including all covered transactions, be on terms substantially the same, or at least as favorable to the bank, as those prevailing at the time for comparable transactions with non-affiliates (the "Market Terms Requirement"). In addition to covered transactions, the Market Terms Requirement applies to certain other transactions between CBNA and its affiliates, including services between CBNA and the Parent Company and loans to CBNA from the Parent Company.

Under sections 22(g) and (h) of the Federal Reserve Act and the FRB's Regulation O, we are also subject to quantitative restrictions on extensions of credit to executive officers, directors, principal stockholders and their related interests. These extensions of credit may not exceed certain quantitative limits, must be made on substantially the same terms as those currently prevailing in the market for comparable transactions with third parties, and must not involve more than the normal risk of repayment or present other unfavorable features. Certain extensions of credit also require the approval of our Board.

Volcker Rule

The Dodd-Frank Act prohibits banks and their affiliates from engaging in proprietary trading and investing in, sponsoring and having certain relationships with private funds such as certain hedge funds or private equity funds. This statutory provision is commonly called the "Volcker Rule." Under this rule, we are viewed as having "moderate" trading assets and liabilities, which subjects us to a simplified compliance program requirement that is appropriate for our activities, size, scope, and complexity. This Volcker Rule does not have a material impact on Citizens.

Consumer Financial Protection Regulations

The retail activities of banks are subject to a variety of statutes and regulations designed to protect consumers and promote lending to various sectors of the economy and population. These laws include, but are not limited to, the Equal Credit Opportunity Act, the Fair Debt Collection Practices Act, the Fair Credit Reporting Act, the Truth in Lending Act, the Home Mortgage Disclosure Act, the Service Members Civil Relief Act, the Expedited Funds Availability Act, the Right to Financial Privacy Act, the Truth in Savings Act, the Electronic Funds Transfer Act, and their respective federal regulations and state law counterparts.

In addition to these federal laws and regulations, the guidance and interpretations of the various federal agencies charged with the responsibility of implementing such regulations also influence loan and deposit operations.

The CFPB has broad rulemaking, supervisory, examination and enforcement authority over various consumer financial protection laws, including those referenced above, fair lending laws and certain other statutes. The CFPB also has examination and primary enforcement authority with respect to depository institutions with \$10 billion or more in assets, including the authority to prevent unfair, deceptive or abusive acts or practices in connection with the offering of consumer financial products. The OCC also examines our retail activities.

The Dodd-Frank Act permits states to adopt stricter consumer protection laws and standards than those adopted at the federal level, and in certain circumstances allows state attorneys general to enforce compliance with both the state and federal laws and regulations on banks like us.

Protection of Customer Personal Information and Cybersecurity

The privacy provisions of GLBA generally prohibit financial institutions, including us, from disclosing nonpublic personal financial information of consumer customers to third parties for certain purposes unless customers have the opportunity to opt out of the disclosure. The Fair Credit Reporting Act restricts information sharing among affiliates for marketing purposes. Both the Fair Credit Reporting Act and Regulation V, which are issued by the FRB, govern the use and provision of information to consumer reporting agencies.

The federal banking regulators regularly issue guidance regarding cybersecurity intended to enhance cyber risk management standards among financial institutions. Financial institutions are expected to design multiple layers of security controls to establish lines of defense and to ensure that their risk management processes also address the risk posed by compromised customer credentials, including security measures to reliably authenticate customers when accessing internet-based services of the financial institution. Further, a financial institution's management is expected to maintain sufficient business continuity planning processes to ensure the rapid recovery, resumption and maintenance of the institution's operations after a cyber-attack involving destructive malware or other compromise of customer data and/or systems. A financial institution is also expected to develop appropriate processes to enable recovery of data and business operations and address rebuilding network capabilities and restoring data if the institution or its critical service providers fall victim to this type of cyber-attack or compromise. If we fail to observe the regulatory guidance, we could be subject to various regulatory sanctions, including financial penalties. For a further discussion of risks related to cybersecurity, see Item 1A "Risk Factors."

A financial institution is also required to notify its primary banking regulator within 36 hours of computer-security incidents that have materially disrupted or degraded, or is reasonably likely to materially disrupt or degrade its:

- ability to carry out banking operations, activities, or processes, or deliver banking products and services to a material portion of its customer base;
- business lines, including associated operations, services, functions, and support, that upon failure would result in a material loss of revenue, profit, or franchise value; or
- operations, including associated services, functions, and support, the failure or discontinuance of which would pose a threat to the financial stability of the United States.

In addition, in August 2023, the SEC adopted a final rule that requires the disclosure of material cybersecurity incidents on Form 8-K. Registrants must describe the material aspects of the nature, scope and timing of the incident, as well as the impact of the incident on the registrant. The final rule also requires registrants to describe, on Form 10-K, their processes for assessing, identifying and managing material risks from cybersecurity threats and whether such risks have materially affected the registrant. Registrants must also describe Board oversight of risks from cybersecurity threats and management's role and expertise in assessing and managing material risks from such threats. See Item 1C "Cybersecurity" for more information.

State regulators have also been active in implementing privacy and cybersecurity standards and regulations. Recently, several states have adopted laws and regulations requiring certain financial institutions to implement cybersecurity programs and provide details with respect to these programs. In addition, many states have recently implemented or modified their data breach notification and data privacy requirements. We expect this trend of state-level activity to continue and are continually monitoring developments in the states in which we operate.

Community Reinvestment Act

The CRA requires CBNA's primary federal bank regulatory agency, the OCC, to evaluate the bank's record in meeting the credit needs of the communities it serves, including low- and moderate-income neighborhoods and individuals. Institutions are assigned one of four ratings: "Outstanding," "Satisfactory," "Needs to Improve," or "Substantial Noncompliance." A bank's CRA record is considered by regulatory agencies in evaluating mergers, acquisitions and applications to open a branch or facility. In addition, the CRA record of a subsidiary bank of a FHC is considered if a FHC wishes to commence certain new financial activities or to acquire a company engaged in such activities, which requires a rating of at least "satisfactory." CBNA received an "Outstanding" rating on its most recent CRA evaluation.

On October 24, 2023, the federal banking regulators issued a joint final rule that revises the agencies' CRA regulations. The primary provisions of the final rule, along with the most significant changes from the existing CRA regulatory framework, are outlined below:

- a tiered evaluation framework is established based on a bank's asset size, similar to the existing CRA regulatory framework;
- the geographic area in which banks may be evaluated for performance is expanded to include areas outside of where they have physical locations in order to capture the varied activities a bank conducts, such as online and mobile banking, and the communities in which it operates;
- bank retail lending and community development financing will be evaluated using a new metrics-based approach; and
- clarifies eligible CRA activities, such as affordable housing.

The final rule takes effect on April 1, 2024, with staggered compliance dates of January 1, 2026, and January 1, 2027 for certain reporting requirements. We are in the process of evaluating the impact of the final rule on our business.

Compensation

Our compensation practices are subject to oversight by the federal banking regulators. Guidance issued by the federal banking regulators is designed to ensure that incentive compensation arrangements take into account risk and are consistent with safe and sound practices. The guidance sets forth the following three key principles with respect to incentive compensation arrangements:

- the arrangements should provide employees with incentives that appropriately balance risk and financial results in a manner that does not encourage employees to expose their organizations to imprudent risk;
- the arrangements should be compatible with effective controls and risk management; and
- the arrangements should be supported by strong corporate governance.

The U.S. financial regulators, including the FRB, the OCC and the SEC, jointly proposed regulations in 2011 and again in 2016 to implement the incentive compensation requirements of Section 956 of the Dodd-Frank Act. These regulations have not been finalized.

Anti-Money Laundering

The Bank Secrecy Act (“BSA”) and the Patriot Act contain anti-money laundering (“AML”) and financial transparency provisions intended to detect and prevent the use of the U.S. financial system for money laundering and terrorist financing activities. The BSA, as amended by the Patriot Act, requires depository institutions and their holding companies to maintain an AML program, verify the identity of customers and certain beneficial owners for legal entity customers, monitor for and report suspicious transactions, report on cash transactions exceeding specified thresholds, and respond to requests for information by regulatory authorities and law enforcement agencies. We are also required to provide our employees with AML training, designate an AML compliance officer, and undergo an annual, independent audit to assess the effectiveness of our AML program. We have implemented policies, procedures, and internal controls that are designed to comply with these AML requirements. Financial services regulators are focusing their examinations on AML compliance, and we continue to monitor and augment, where necessary, our AML compliance programs. The federal banking agencies are required, when reviewing bank and bank holding company acquisition or merger applications, to take into account the effectiveness of the AML activities of the applicants.

The Anti-Money Laundering Act of 2020 (“AMLA”), enacted in January 2021 as part of the National Defense Authorization Act, requires the U.S. Treasury Department to issue National Anti-Money Laundering and Countering the Financing of Terrorism Priorities and conduct studies and issue regulations that may, over the next few years, significantly alter some of the due diligence, recordkeeping and reporting requirements that the BSA and the Patriot Act impose on financial institutions. The AMLA also increases penalties for violations of the BSA and significantly expands a whistleblower award program both of which could increase the prospect of regulatory enforcement. In 2021, the Financial Crimes Enforcement Network (FinCEN), a bureau of the U.S. Treasury Department, issued the priorities for AML and countering the financing of terrorism policy, as required under the AMLA. These priorities include corruption, cybercrime, terrorist financing, fraud, transnational crime, drug trafficking, human trafficking and proliferation financing.

Office of Foreign Assets Control Regulation

The U.S. has imposed economic sanctions that affect transactions with designated foreign countries, nationals and others, that are administered by OFAC. OFAC-administered sanctions targeting countries take many different forms and generally contain one or more of the following elements:

- restrictions on trade with or investment in a sanctioned country, including prohibitions against direct or indirect imports from and exports to a sanctioned country and prohibitions on U.S. persons engaging in financial transactions relating to, making investments in, or providing investment-related advice or assistance to, a sanctioned country; and
- a blocking of assets in which the government or specially designated nationals of the sanctioned country have an interest, by prohibiting transfers of property subject to U.S. jurisdiction, including property in the possession or control of U.S. persons. Blocked assets (e.g., property and bank deposits) cannot be paid out, withdrawn, set off or transferred in any manner without a license from OFAC.

Lists including the names of individuals and organizations suspected of aiding, harboring or engaging in terrorist acts, including the Specially Designated Nationals and Blocked Persons, is published and routinely updated by OFAC. We are responsible for, among other things, blocking accounts of, and transactions with, such targets and countries, prohibiting unlicensed trade and financial transactions with them and reporting blocked transactions after they occur. If we identify a name on any transaction, account or wire transfer that is on an OFAC list we must freeze the associated account, file a suspicious activity report and notify the appropriate authorities. Failure to comply with these sanctions could have serious legal and reputational consequences.

Regulation of Broker-Dealers

Our subsidiaries, Citizens Securities, Inc., and Citizens JMP Securities, LLC are registered broker-dealers with the SEC and subject to regulation and examination by the SEC as well as FINRA and other self-regulatory organizations. These regulations cover a broad range of matters, including capital requirements; sales and trading practices; use of client funds and securities; the conduct of directors, officers and employees; record-keeping and recording; supervisory procedures to prevent improper trading on material nonpublic information; qualification and licensing of sales personnel; and limitations on the extension of credit in securities transactions. In addition to federal registration, state securities commissions require the registration of certain broker-dealers.

Heightened Risk Governance Standards

CBNA is subject to OCC guidelines that impose heightened risk governance standards on large national banks with average total consolidated assets of \$50 billion or more. The guidelines set forth minimum standards for the design and implementation of a bank's risk governance framework and its associated oversight by a bank's board of directors. The guidelines are intended to protect the safety and soundness of covered banks and improve the ability of bank examiners to assess compliance with the OCC's expectations. Under the guidelines, a bank may use the risk governance framework of its parent company if it meets the minimum standards and the risk profiles of the parent company and the covered bank are substantially the same, along with certain other conditions. CBNA has elected to use the Parent Company's risk governance framework. A bank's board of directors is required to have two members who are independent of bank and parent company management, ensure that the risk governance framework meets the appropriate standards, provide active oversight and a credible challenge to management's recommendations and decisions, and ensure that decisions made by the parent company do not jeopardize the safety and soundness of the bank.

Intellectual Property

In the highly competitive banking industry in which we operate, trademarks, service marks and logos are important to the success of our business. We own and license a variety of trademarks, service marks, logos and pending registrations and are spending significant resources to develop our stand-alone brands.

Website Access to Citizens' Filings with the SEC and Corporate Governance Information

We maintain a website at investor.citizensbank.com. We make available on our website, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, including exhibits, and amendments to those reports that are filed or furnished to the SEC pursuant to Section 13(a) of the Securities Exchange Act of 1934. These documents are made available on our website as soon as reasonably practicable after they are electronically filed with or furnished to the SEC. The SEC also maintains an internet site (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. Information about our Board and its committees and corporate governance, including our Code of Business Conduct and Ethics, is available on our website at investor.citizensbank.com/about-us/investor-relations/corporate-governance.

ITEM 1A. RISK FACTORS

We are subject to a number of risks potentially impacting our business, financial condition, results of operations and cash flows. As a financial services organization, certain elements of risk are inherent in our transactions and operations and the business decisions we make. Therefore, we encounter risk as part of the normal course of our business and design a risk management framework and associated processes to help manage these risks.

Our success is dependent on our ability to identify, understand and manage the risks presented by our business activities so that we can appropriately balance risk taking with revenue generation and profitability. We discuss the primary risks we face and our risk management framework and associated processes and strategies in the “Risk Governance” section in Item 7.

You should carefully consider the following risk factors that may affect our business, financial condition, results of operations or cash flows. Other factors that could affect us are discussed in the “Forward-Looking Statements” section above. However, there may be additional risks that are not currently material or known, and factors besides those discussed below, or in this or other reports that we file or furnish with the SEC, that could adversely affect us. Therefore, the risks described in the risk factors below should not be considered a complete list of risks that we may encounter.

Risks Related to Our Business

We may not be able to successfully execute our business strategy.

Our business strategy is designed to maximize the full potential of our business and drive sustainable growth and enhanced profitability, with our success resting on our ability to distinguish ourselves. Our future success and the value of our stock depends, in part, on our ability to effectively implement our business strategy, including the cost savings and efficiency components, and achieve our financial performance goals, including the anticipated benefits of the Private Bank start-up investment and Investors acquisition. There are risks and uncertainties, many of which are not within our control, associated with each element of our strategy. If we are not able to successfully execute our business strategy, we may not achieve our financial performance goals and any shortfall may be material. See the “Business Strategy” section in Item 1 for further information.

Supervisory requirements and expectations on us as a financial holding company and a bank holding company and any regulator-imposed limits on our activities could adversely affect our ability to implement our strategic plan, expand our business, continue to improve our financial performance and make capital distributions to our stockholders.

Our operations are subject to extensive regulation, supervision and examination by the federal banking regulators, as well as the CFPB. As part of the supervisory and examination process, if we are unsuccessful in meeting the requirements and expectations that apply to us, regulatory agencies may from time to time take supervisory actions against us that may not be publicly disclosed. Such actions may include restrictions on our activities or the activities of our subsidiaries, informal (nonpublic) or formal (public) supervisory actions or public enforcement actions, including the payment of civil money penalties, which could increase our costs and limit our ability to implement our strategic plans and expand our business, and as a result could have a material adverse effect on our business, financial condition or results of operations. See the “Regulation and Supervision” section in Item 1 for further information.

Difficult economic conditions, including inflationary pressures, would likely have an adverse effect on our business, financial position and results of operations.

From March 2022 to July 2023, the FRB raised its benchmark interest rate eleven times in response to inflationary pressures throughout the economy. Financial markets remain volatile amidst the uncertainty of economic conditions, including potential recessionary conditions. Changes in interest rates can affect numerous aspects of our business and may impact our future performance. Also, see “Changes in interest rates may have an adverse effect on our profitability” below for more information on the risks associated with changes in interest rates.

Prolonged periods of inflation may impact our profitability by negatively impacting our costs and expenses, including increasing funding costs and expense related to talent acquisition and retention, and negatively impacting consumer demand and client purchasing power for our products and services. If significant inflation continues, our business could be negatively affected by, among other things, increased default rates leading to credit losses which could adversely impact our earnings and capital.

Any of the effects of these adverse economic conditions would likely have an adverse impact on our earnings, with the significance of the impact generally depending on the nature and severity of the economic conditions.

Our ability to meet our obligations, and the cost of funds to do so, depend on our ability to access identified sources of liquidity at a reasonable cost.

Liquidity risk is the risk arising from the inability to meet our obligations when they come due. We must maintain adequate funding to meet current and future obligations, including customer loan requests, customer deposit maturities and withdrawals, debt service, equipment and premises leases, and other cash commitments, under both normal operating conditions and under periods of company-specific and/or market stress.

We primarily rely on customer deposits to be a relatively stable and low-cost source of funding. In addition to customer deposits, our funding sources also include our ability to securitize loans in secondary markets, raise funds in the debt and equity capital markets, pledge loans and/or securities for borrowing from the FHLB, pledge securities as collateral for borrowing under repurchase agreements, and sell AFS securities.

Our ability to meet our obligations and support our operations could be materially affected by a variety of conditions, including market-wide illiquidity or disruption, a loss of market or customer confidence in the financial services industry generally or in the Company specifically, or reductions in one or more of our credit ratings. This could limit our ability to retain our deposits, securitize or sell assets, access the debt or equity capital markets, or otherwise borrow money at a reasonable cost. Additionally, these conditions, among others, if severe enough, could create unanticipated material outflows of cash due to, among other factors, draws on unfunded commitments or deposit attrition, which could have significant adverse impact on our liquidity. Further, changes to the FHLB's or the FRB's underwriting guidelines for wholesale borrowings or lending policies may limit or restrict our ability to borrow, and therefore could have a significant adverse impact on our liquidity.

Changes in interest rates may have an adverse effect on our liquidity and profitability.

Changes in interest rates can have a material impact on the value of our securities, a primary objective of which is to provide a ready source of contingent liquidity. An increase in rates could lower the collateral value of these securities, reducing the amount we could borrow, and lead to losses in the event of their sale.

Since our earning assets are primarily in the form of loans and debt securities, changes in interest rates can have a material impact our net interest income, net interest margin, fee income, and credit costs. Changes in interest rates can affect our net interest income and margin as our asset yields and funding costs may not rise or fall in parallel, causing our net interest income to increase or decrease and our margin to expand or contract. If our funding costs rise faster than our asset yields, or if our asset yields fall faster than our funding costs, our net interest income could decrease, and our margin could contract.

An increase in interest rates could cause lower demand for loans by customers, reducing our net interest income due to lower loan balances and origination-related fee income due to lower production volume, and could also have an adverse impact on our credit costs, as borrowers may have difficulty in making higher interest payments. Additionally, an increase in rates could cause recognition of losses on the debt securities in our AFS portfolio if the securities needed to be sold.

Similarly, a decrease in interest rates could lower our net interest income, net interest margin and fee income. We may be adversely affected by a prolonged period of low interest rates as it may result in us holding lower yielding loans and securities should rates rise rapidly after the period of low interest rates.

Changes in the spread between short-term and long-term interest rates (i.e., the yield curve) can also have a material impact on our net interest income and net interest margin. Typically, the yield curve is upward sloping, with short-term rates being lower than long-term rates. When the yield curve flattens or inverts, our net interest income and net interest margin may decrease if the cost of our short-term funding increases relative to the yield we can earn on our long-term assets.

Interest rates and the yield curve are highly sensitive to many factors that are beyond our control, including general economic conditions and the policies of various governmental and regulatory agencies and, in particular, the Federal Open Market Committee. Although we have policies and procedures designed to manage our interest rate risks, as further discussed in the "Risk Governance" section in Item 7, there can be no assurance that these policies and procedures will be effective in avoiding material adverse effects on our profitability.

We could fail to attract, retain or motivate highly-skilled and qualified personnel, including our senior management, other key employees or members of our Board, which could impair our ability to successfully execute our strategic plan and otherwise adversely affect our business.

Our ability to implement our strategic plan and our future success depends on our ability to attract, retain and motivate highly-skilled and qualified personnel, including our senior management and other key employees and directors. The marketplace for skilled personnel continues to be competitive, which means the cost of hiring, incentivizing and retaining skilled personnel may continue to rise. The failure to attract and retain highly skilled and qualified personnel could place us at a significant competitive disadvantage and impair our ability to implement our strategic plan successfully and achieve our performance targets, which could have a material adverse effect on our business, financial condition and results of operations.

Limitations on the manner in which regulated financial institutions, such as us, can compensate their officers and employees, including those contained in pending rule proposals implementing the requirements of Section 956 of the Dodd-Frank Act, may make it more difficult for such institutions to compete for talent with financial institutions and other companies not subject to these or similar limitations. If we are unable to compete effectively, our business, financial condition and results of operations could be adversely affected, perhaps materially.

A reduction in our credit ratings could have a material adverse effect on our business, financial condition and results of operations.

Credit ratings affect the cost and other terms upon which we are able to obtain funding. Rating agencies regularly evaluate us, and their ratings are based on a number of factors, including our financial strength and conditions affecting the financial services industry generally. Any downgrade in our ratings would likely increase our borrowing costs and could limit our access to capital markets, which would adversely affect our business. For example, a ratings downgrade could adversely affect our ability to sell or market our securities, including long-term debt, engage in certain longer-term derivatives transactions and retain our customers, particularly corporate customers who may require a minimum rating threshold in order to place funds with us. In addition, under the terms of our derivatives contracts, we may be required to maintain a minimum credit rating, post additional collateral or terminate such contracts. Any of these results of a ratings downgrade could increase our cost of funding, reduce our liquidity and have adverse effects on our business, financial condition and results of operations. For more information regarding our credit ratings, see the “Liquidity” section in Item 7.

Our financial performance may be adversely affected by deterioration in borrower credit quality.

Risks arising from actual or perceived changes in credit quality and uncertainty over the recoverability of amounts due from borrowers is inherent in our businesses. If the economic environment were to deteriorate, more of our borrowers may have difficulty in repaying their loans which could result in higher credit losses and increased loan loss provision expense. Further, our credit risk and credit losses may increase to the extent our loans are concentrated by loan type, industry segment, collateral type, borrower type, or location of the collateral or borrower.

A significant portion of our earnings assets are in the form of loans to borrowers across the U.S., primarily for residential, commercial and industrial, commercial real estate, education, auto and other retail purposes. A deterioration in economic conditions or changes in consumer or business behavior that negatively impacts home property or commercial property values could, in event of the borrower’s default, result in materially higher credit losses. Similarly, higher unemployment levels and higher interest rates can adversely affect our customers’ ability to repay their loans, which can negatively impact our credit performance.

The credit quality of our borrowers may deteriorate for a number of reasons that are outside our control, including prevailing economic and market conditions and collateral valuations. The trends and risks affecting borrower credit quality have caused, and in the future may cause, us to experience credit losses, impairment charges, increased repurchase demands, higher recovery costs, and an inability to engage in routine funding transactions, which could have a material adverse effect on our business, financial condition and results of operations.

Our framework for managing risks may not be effective in mitigating risk and loss.

Our risk management framework is made up of various processes and strategies to manage our risk exposure. The framework to manage risk, including the framework's underlying assumptions, may not be effective under all conditions and circumstances. If the risk management framework proves ineffective, we could suffer unexpected losses and could be materially adversely affected.

One of the main types of risks inherent in our business is credit risk. An important feature of our credit risk management system is to employ an internal credit risk control system through which we identify, measure, monitor and mitigate the existing and emerging credit risk of our customers. This process involves a detailed analysis of the customer or credit risk, taking into account both quantitative and qualitative factors, and is inherently subject to human error. In exercising their judgment, our employees may not always be able to assign an accurate credit rating to a customer or credit risk, which may result in our exposure to higher credit risks than indicated by our risk rating system.

In addition, we have undertaken certain actions to enhance our credit policies and guidelines to address potential risks associated with particular industries or types of customers. However, we may not be able to effectively implement these initiatives, or consistently follow and refine our credit risk management system. If any of the foregoing were to occur, it may result in an increase in the level of nonaccrual loans and a higher risk exposure for us, which could have a material adverse effect on us.

Changes in our accounting policies or in accounting standards could materially affect how we report our financial results and condition.

The FASB and SEC periodically change the financial accounting and reporting standards that govern the accounting for our financial results and the preparation of our consolidated financial statements. These changes can be hard to predict and can materially impact how we record and report our financial condition and results of operations. In some cases, we could be required to apply a new or revised standard retroactively, which would result in the recasting of our prior period financial statements.

Our financial and accounting estimates and risk management framework rely on analytical forecasting and models.

The processes we use to estimate loan losses, measure the fair value of financial instruments and estimate the effects of changing interest rates and other market measures on our financial condition and results of operations are reliant upon the use of analytical and forecasting models. Some of our tools and metrics for managing risk are based on observed historical market behavior, and we rely on quantitative models to measure risks and to estimate certain financial values. Models may be used in processes such as determining the pricing of various products, grading loans and extending credit, measuring interest rate and other market risks, predicting losses, assessing capital adequacy and calculating regulatory capital levels, as well as estimating the value of financial instruments and balance sheet items. Poorly designed or implemented models could adversely affect our business decisions if the information is inadequate. In addition, our models may fail to predict future risk exposures if the information used is inaccurate, obsolete or not sufficiently comparable to actual events as they occur. We seek to incorporate appropriate historical data in our models, but the range of market values and behaviors reflected in any period of historical data is not always predictive of future developments in any particular period and the period of data we incorporate into our models may turn out to be inappropriate for the future period being modeled. In these instances, our ability to manage risk would be limited and our risk exposure and losses could be significantly greater than our models indicated, which could harm our reputation and adversely affect our revenues and profits. Finally, information provided to our regulators based on poorly designed or implemented models could be inaccurate or insufficient. Some of the decisions that our regulators make, including those related to capital distributions to our stockholders, could be adversely affected due to their perception that the quality of the models used to generate the relevant information is insufficient.

The preparation of our financial statements requires us to make subjective determinations and use estimates that may vary from actual results and materially impact our financial condition and results of operations.

The preparation of consolidated financial statements in conformity with GAAP requires management to make significant estimates that affect the financial statements. Our accounting policies and methods are fundamental to how we record and report our financial condition and results of operations and, at times, require management to exercise judgment in their application so as to report our financial condition and results of operations in the most appropriate manner. Certain accounting policies are critical because they require management to make difficult, subjective or complex judgments about matters that are inherently uncertain and the likelihood that materially different estimates would result under different conditions or through the utilization of different assumptions. Our critical accounting estimates include the ACL, estimations of fair value and review of goodwill for impairment. If our estimates are inaccurate or need to be adjusted periodically, our financial condition and results of operations could be materially impacted. For more information regarding our use of estimates in the preparation of our consolidated financial statements, see Note 1 in Item 8 and the “Critical Accounting Estimates” section in Item 7.

Operational risks are inherent in our businesses.

Our operations depend on our ability to process a very large number of transactions efficiently and accurately while complying with applicable laws and regulations. Operational risk and losses can result from internal and external fraud; improper conduct or errors by employees or third parties; failure to document transactions properly or to obtain proper authorization; failure to comply with applicable legal and regulatory requirements and business conduct rules; equipment failures, including those caused by natural disasters or by electrical, telecommunications or other essential utility outages; business continuity and data security system failures, including those caused by computer viruses, cyber-attacks against us or our vendors, or unforeseen problems encountered while implementing new computer systems or upgrades to existing systems; or the inadequacy or failure of systems and controls, including those of our suppliers or counterparties. Although we implement risk controls and loss mitigation actions and devote substantial resources to developing efficient procedures, identifying and rectifying weaknesses in existing procedures and training staff, it is not possible to be certain that such actions have been or will be effective in controlling each of the operational risks we face. Any weakness in these systems or controls, or any breaches or alleged breaches of such laws or regulations, could result in increased regulatory supervision, enforcement actions and other disciplinary action, and have an adverse impact on our business, applicable authorizations and licenses, reputation and results of operations.

The financial services industry, including the banking sector, continues to make technological enhancements to meet customer preferences, as well as meet legal and regulatory requirements, and we may not be able to compete effectively as a result of these changes.

Technology within the financial services industry continues to evolve and new, unexpected technological changes could have a transformative effect on the way banks offer products and services. We believe our success depends, to a great extent, on our ability to utilize technology to offer products and services that address the needs of our customers and to create efficiencies in our operations. However, we may not be able to, among other things, keep up with the rapid pace of technological changes, effectively implement new technology-driven products and services, or be successful in marketing these products and services to our customers. As a result, our ability to compete effectively to attract or retain business may be impaired, and our business, financial condition or results of operations may be adversely affected.

In addition, changes in the legal and regulatory framework under which we operate require us to update our information systems to ensure compliance. Our need to review and evaluate the impact of ongoing rule proposals, final rules and implementation guidance from regulators further complicates the development and implementation of new information systems for our business. Regulatory guidance continues to be focused on the need for financial institutions to perform appropriate due diligence and ongoing monitoring of third-party vendor relationships, thus increasing the scope of management involvement and decreasing the efficiency otherwise resulting from our relationships with third-party technology providers. Given the significant number of ongoing regulatory reform initiatives, it is possible that we incur higher than expected information technology costs in order to comply with current and impending regulations. Also, see “Supervisory requirements and expectations on us as a financial holding company and a bank holding company and any regulator-imposed limits on our activities could adversely affect our ability to implement our strategic plan, expand our business, continue to improve our financial performance and make capital distributions to our stockholders.”

We are subject to a variety of cybersecurity risks that, if realized, could adversely affect how we conduct our business.

Evolving technologies and the increased sophistication and activities of organized crime, hackers, terrorists, nation-states, activists and other external parties present a significant information security risk to large financial institutions such as us. Third parties with whom we or our customers do business also present operational and information security risks to us, including security breaches or failures of their own systems. Risks related to cyber-attacks on our vendors and other third parties, including supply chain attacks affecting our software and information technology service providers, are on the rise as such attacks become more frequent and severe. Employee error, failure to follow security procedures, or malfeasance also present these risks. Our operations rely on the secure processing, transmission and storage of confidential information in our computer systems and networks as well as in the third-party computer systems and networks used to provide products and services on our behalf. Although we believe that we have appropriate information security procedures and controls based on our adherence to applicable laws and regulations and industry standards, our technologies, systems, and networks may be the target of cyber-attacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, theft, sale or loss or destruction of the confidential and/or proprietary information of CFG, and our customers, vendors, counterparties, or employees. We and our third-party vendors are under continuous threat of loss or network degradation due to cyber-attacks, such as computer viruses, malicious or destructive code, phishing attacks, ransomware, and Distributed Denial of Service (“DDoS”) attacks (collectively, “fraudulent schemes”). Also, our customers are routinely the target of fraudulent schemes. This is especially true as we continue to expand customer capabilities to utilize the Internet and other remote channels to transact business. Two of the most significant cyber-attack risks that we face as a result of these fraudulent schemes are potential loss of funds resulting from customers falling victim to cybercriminal communications directed to them or unauthorized access to sensitive customer data. Cybercriminals can use fraudulent schemes directly targeting our customers or our own systems to compromise and directly extract funds from a customer’s account or access sensitive customer data. Certain technology protections such as Customer Profiling and Step-Up Authentications are implemented so that we are compliant with the FFIEC Authentication and Access to Financial Institution Services and Systems guidelines.

As cyber threats continue to evolve, we may be required to expend significant additional resources to continue to modify or enhance our layers of defense, to investigate and remediate any information security vulnerabilities internally, to assess and mitigate issues associated with customers that have fallen victim to fraudulent schemes, and perform additional due diligence with respect to our third-party vendors. System enhancements and updates may also create risks associated with implementing new systems and integrating them with existing ones. Due to the complexity and interconnectedness of information technology systems, the process of enhancing our layers of defense can itself create a risk of system disruptions and security issues. In addition, addressing certain information security vulnerabilities, such as hardware-based vulnerabilities, may affect the performance of our information technology systems. The ability of our hardware and software providers to deliver patches and updates to mitigate vulnerabilities in a timely manner can introduce additional risks, particularly when a vulnerability is being actively exploited by threat actors. Cyber-attacks against the patches themselves have also proven to be a significant risk that companies will have to address going forward.

Despite our efforts to prevent a cyber-attack, a successful cyber-attack could persist for an extended period of time before being detected, and, following detection, could take considerable time for us to obtain full and reliable information about the cybersecurity incident and the extent, amount and type of information compromised. During the course of an investigation, we may not necessarily know the full effects of the incident or how to remediate it, and actions and decisions that are taken or made in an effort to mitigate risk may further increase the costs and other negative consequences of the incident. Moreover, new regulations may require us to disclose information about a cybersecurity event before it has been resolved or fully investigated.

The techniques used by cyber criminals change frequently, may not be recognized until launched and can be initiated from a variety of sources, including terrorist organizations and hostile foreign governments. These actors may attempt to fraudulently induce employees, customers or other third-party users of our systems to disclose sensitive information in order to gain access to data or our systems. In the event that a cyber-attack is successful, our business, financial condition or results of operations may be adversely affected. For a discussion of the guidance that regulators have released regarding cybersecurity and cyber risk management standards, see the “Regulation and Supervision” section of Item 1.

We rely heavily on communications and information systems to conduct our business.

Any failure, interruption or breach in the security of our communication and information systems, including due to cyber-attacks or our failure to adequately maintain and manage our systems or implement system changes and upgrades, could result in failures or disruptions in our customer relationship management, general ledger, deposit, loan and other systems. Although our policies and procedures are designed to prevent or limit the effect of the possible failure, interruption or security breach of our information systems, there can be no assurance that these policies and procedures will be successful and that any such failure, interruption or security breach will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failure, interruption or security breach of our information systems could require us to devote substantial resources to recovery and response efforts, damage our reputation, result in a loss of customer business, subject us to additional regulatory scrutiny or expose us to civil litigation and possible financial liability. Although we maintain insurance coverage for information security events, we may incur losses as a result of such events that are not insured against or not fully covered by our insurance.

We rely on third parties for the performance of a significant portion of our information technology.

We rely on third parties for the performance of a significant portion of our information technology functions and the provision of information technology and business process services including, but not limited to, the operation of our data communications networks, hosted services, and a wide range of other support services. The success of our business depends in part on the continuing ability of third parties to perform these functions and services in a timely and satisfactory manner, which performance could be disrupted or otherwise adversely affected due to failures or other information security events originating at the third parties or at the third parties' suppliers or vendors (so-called "fourth party risk"). We may not be able to effectively monitor or mitigate third or fourth-party risk, in particular as it relates to the use of common suppliers or vendors by the third parties that perform functions and services for us. If we experience a disruption in the provision of any functions or services performed by third parties, we may have difficulty in finding alternate providers on terms favorable to us and in reasonable time frames. If these services are not performed in a satisfactory manner, we would not be able to adequately serve our customers. In either situation, our business could incur significant costs and be adversely affected.

We are exposed to reputational risk and the risk of damage to our brands and the brands of our affiliates.

Our success and results depend on our reputation and the strength of our brands. We are vulnerable to adverse market perception as we operate in an industry where integrity, customer trust and confidence are paramount. We are exposed to the risk that litigation, employee misconduct, operational failures, the outcome of regulatory or other investigations or actions, press speculation and negative publicity, perception of our environmental, social and governance practices and disclosures, among other factors, could damage our brands or reputation. Our brands and reputation could also be harmed if we sell products or services that do not perform as expected or customers' expectations for the product are not satisfied.

Unpredictable catastrophic events, including pandemics, terrorist attacks, extreme weather events and other large-scale catastrophes, could have an adverse effect on our business, financial position and results of operations.

The occurrence of catastrophic events, including pandemics, terrorists attacks, extreme weather events, such as hurricanes, tropical storms, or tornadoes, and other large-scale catastrophes could adversely affect our business, financial condition or results of operations. Such events could affect the stability of our deposit base, impair the ability of our borrowers to repay outstanding loans, impair the value of collateral securing loans, and cause significant property damage or operational disruptions, resulting in loss of revenue or causing us to incur additional expenses.

Furthermore, although we maintain both business continuity and disaster recovery plans, if a terrorist attack, extreme weather event, or other catastrophe rendered our production and recovery data unusable, there can be no assurance that these plans and related capabilities will adequately protect us from such events, and our business, financial condition or results of operations could be adversely affected.

While the U.S. economy has generally recovered since the onset of the COVID disruption, a resurgence of pandemic conditions could reintroduce, or intensify, these impacts and adversely affect our business, financial condition and results of operations, as well as our liquidity and capital profile.

The effects of geopolitical instability may adversely affect us and create significant risks and uncertainties for our business, with the ultimate impact dependent on future developments, which are highly uncertain and unpredictable.

Ongoing geopolitical instability, such as the wars in Ukraine and the Middle East, has negatively impacted, and could in the future negatively impact, the global and U.S. economies, including by causing supply chain disruptions, rising prices for oil and other commodities, volatility in capital markets and foreign currency exchange rates, rising interest rates and heightened cybersecurity risks. The extent to which such geopolitical instability adversely affects our business, financial condition and results of operations, as well as our liquidity and capital profile, will depend on future developments, which are highly uncertain and unpredictable, including the extent and duration of the wars and the associated immeasurable humanitarian toll inflicted as a result. If geopolitical instability adversely affects us, it may also have the effect of heightening other risks related to our business.

Risks Related to Our Industry

Any deterioration in national economic conditions could have a material adverse effect on our business, financial condition and results of operations.

Our business is affected by national economic conditions, as well as perceptions of those conditions and future economic prospects. Changes in such economic conditions are not predictable and cannot be controlled. Adverse economic conditions, such as recent inflationary pressures, could require us to charge off a higher percentage of loans and increase the provision for credit losses, which would reduce our net income and otherwise have a material adverse effect on our business, financial condition and results of operations.

We operate in an industry that is highly competitive, which could result in losing business or margin declines and have a material adverse effect on our business, financial condition and results of operations.

We operate in a highly competitive industry, which could become even more competitive as a result of legislative, regulatory and technological changes, as well as continued consolidation. We face aggressive competition from other domestic and foreign lending institutions and from numerous other providers of financial services, including non-banking financial institutions that are not subject to the same regulatory restrictions as banks and BHCs, securities firms and insurance companies, and competitors that may have greater financial resources.

With respect to non-banking financial institutions, technology and other changes have lowered barriers to entry and made it possible for non-banks to offer products and services traditionally provided by banks. For example, consumers can maintain funds that would have historically been held as bank deposits in brokerage accounts or mutual funds. Consumers can also complete transactions such as paying bills and/or transferring funds directly without the assistance of banks. In addition, the emergence, adoption and evolution of new technologies that do not require intermediation, including distributed ledgers such as digital assets and blockchain, as well as advances in robotic process automation, could significantly affect the competition for financial services. The process of eliminating banks as intermediaries, known as “disintermediation,” could result in the loss of fee income, as well as the loss of customer deposits and the related income generated from those deposits. Some of our non-bank competitors are not subject to the same extensive regulations we are and, therefore, may have greater flexibility in competing for business. As a result of these and other sources of competition, we could lose business to competitors or be forced to price products and services on less advantageous terms to retain or attract clients, either of which would adversely affect our profitability.

Climate change manifesting as physical or transition risks could adversely affect our operations, businesses and customers.

There is increasing global concern over the risks of climate change and related environmental sustainability matters. The physical risks of climate change include discrete events, such as flooding and wildfires, and longer-term shifts in climate patterns, such as extreme heat, sea level rise, and more frequent and prolonged drought. Such events could disrupt our operations or those of our clients, customers, or service providers, including through direct damage to assets and indirect impacts from supply chain disruption and market volatility.

We are also exposed to risks associated with the transition to a lower-carbon economy in response to concerns around climate change. Such risks may result from changes in policies, laws and regulations, technologies, or market preferences that are intended to address climate change. These changes could materially and negatively impact our or our customers' business, results of operations, financial condition and reputation. This could occur as a result of our or our customers' involvement in, or decision not to participate in, certain industries or projects associated with exacerbating climate change, as well as any decisions we make to continue to conduct or change our activities in response to considerations related to climate change. Ongoing legislative or regulatory uncertainties and changes regarding climate risk management and practices may result in higher regulatory, compliance, credit and reputational risks and costs.

The conditions of other financial institutions or of the financial services industry could adversely affect our operations and financial condition.

Financial services institutions are typically interconnected as a result of trading, investment, liquidity management, clearing, counterparty and other relationships. Within the financial services industry, the default by any one institution could lead to defaults by other institutions. Concerns about, or a default by, one institution could lead to significant market and customer perception of the risk of similar problems at other institutions. This perception of risk could, in and of itself, lead to adverse impacts on liquidity. Liquidity problems and losses or defaults by other institutions, as the financial soundness of financial institutions is closely related as a result of these credit, trading, clearing and other relationships. Even the perceived lack of creditworthiness of, or questions about, a counterparty may lead to market-wide liquidity problems and losses or defaults by various institutions. This systemic risk may adversely affect financial intermediaries, such as clearing agencies, banks and exchanges with which we interact on a daily basis, or key funding providers such as the FHLBs, any of which could have a material adverse effect on our access to liquidity or otherwise have a material adverse effect on our business, financial condition and results of operations.

Risks Related to Regulations Governing Our Industry

As a financial holding company and a bank holding company, we are subject to comprehensive regulation that could have a material adverse effect on our business and results of operations.

As a FHC and a BHC, we are subject to comprehensive regulation, supervision and examination by the FRB. In addition, CBNA is subject to comprehensive regulation, supervision and examination by the OCC. Our regulators supervise us through regular examinations and other means that allow them to gauge management's ability to identify, assess and control risk in all areas of operations in a safe and sound manner and to ensure compliance with laws and regulations. In the course of their supervision and examinations, our regulators may require improvements in various areas. We may be required to devote substantial resources to meet supervisory expectations or remediate supervisory findings. In addition, the failure to meet supervisory expectations can result in practical limitations on the ability of a bank, BHC or FHC to engage in new activities, pursue growth opportunities, engage in acquisitions, return capital to shareholders through repurchases or dividends, or continue to conduct existing activities. If we are unable to implement and maintain any required actions in a timely and effective manner, we could become subject to informal (nonpublic) or formal (public) supervisory actions and public enforcement orders that could lead to significant restrictions on our existing business or on our ability to engage in any new business. Such forms of supervisory action could include, without limitation, written agreements, cease and desist orders, and consent orders and may, among other things, result in restrictions on our ability to pay dividends, requirements to increase capital, restrictions on our activities, the imposition of civil monetary penalties, and enforcement of such actions through injunctions or restraining orders. We could also be required to dispose of certain assets and liabilities within a prescribed period. The terms of any such supervisory or enforcement action could have a material adverse effect on our business, financial condition and results of operations.

We are a BHC that has elected to become a FHC pursuant to the Bank Holding Company Act. FHCs are allowed to engage in certain financial activities in which a BHC is not otherwise permitted to engage. However, to maintain FHC status, a BHC and all of its depository institution subsidiaries must be "well capitalized" and "well managed." If a BHC ceases to meet these capital and management requirements, there are many penalties it would be faced with, including the imposition of limitations or conditions on the conduct of its activities by the FRB, as well as the inability to undertake any of the broader financial activities permissible for FHCs or to acquire a company engaged in such financial activities without prior approval of the FRB. If a company does not return to compliance within 180 days, which period may be extended, the FRB may require divestiture of the company's depository institutions. If we fail to meet FHC requirements and remediate deficiencies in a timely manner, there could be a material adverse effect on our business, financial condition and results of operations.

Our regulators may impose restrictions or limitations on our operations.

From time to time, bank regulatory agencies take supervisory actions that restrict or limit a financial institution's activities and lead it to raise capital or subject it to other requirements. In addition, as part of our regular examination process, our regulators may advise us to conduct significant remediation activities or operate under various restrictions as a prudential matter. Any such actions or restrictions, if and in whatever manner imposed, could adversely affect our costs and revenues. Moreover, efforts to comply with any such nonpublic supervisory actions or restrictions may require material investments in additional resources and systems, as well as a significant commitment of managerial time and attention. As a result, such supervisory actions or restrictions, if and in whatever manner imposed, could have a material adverse effect on our business and results of operations.

The regulatory environment in which we operate continues to be subject to significant and evolving regulatory requirements that could have a material adverse effect on our business and earnings.

We are heavily regulated by multiple banking, consumer protection, securities and other regulatory authorities at the federal and state levels. This regulatory oversight is primarily established to protect depositors, the DIF, consumers of financial products, and the financial system as a whole, not for the protection of shareholders or other investors. Changes to statutes, regulations, rules or policies, including their interpretation, implementation or enforcement, could affect us in substantial and unpredictable ways, including by, for example, subjecting us to additional costs, limiting the types of financial services and other products we may offer, limiting our ability to pursue acquisitions and increasing the ability of third parties, including non-banks, to offer competing financial services and products. In recent years, we, together with the rest of the financial services industry, have faced particularly intense scrutiny, with many new regulatory initiatives and vigorous oversight and enforcement on the part of numerous regulatory and governmental authorities. Legislatures and regulators have pursued a broad array of initiatives intended to promote the safety and soundness of financial institutions, financial market stability, the transparency and liquidity of financial markets, and consumer and investor protection. Certain regulators and law enforcement authorities have also recently required admissions of wrongdoing and, in some cases, criminal pleas as part of the resolutions of matters brought by them against financial institutions. Any such resolution of a matter involving us could lead to increased exposure to civil litigation, could adversely affect our reputation, could result in penalties or limitations on our ability to do business or engage in certain activities and could have other negative effects. In addition, a single event or issue may give rise to numerous and overlapping investigations and proceedings, including by multiple federal and state regulators and other governmental authorities.

We are also subject to laws and regulations relating to the privacy of the information of our customers, employees, counterparties and others, and any failure to comply with these laws and regulations could expose us to liability and/or reputational damage. As new privacy-related laws and regulations are implemented, the time and resources needed for us to comply with those laws and regulations, as well as our potential liability for non-compliance and our reporting obligations in the case of data breaches, may significantly increase.

While there have been significant revisions to the laws and regulations applicable to us that have been finalized in recent years, there are other rules to implement changes that have yet to be proposed or enacted by our regulators. The final timing, scope and impact of these changes to the regulatory framework applicable to financial institutions remains uncertain. For more information on regulations to which we are subject and recent initiatives to reform financial institution regulation, see the "Regulation and Supervision" section in Item 1.

We are subject to capital adequacy and liquidity standards, and if we fail to meet these standards our financial condition and operations would be adversely affected.

We are subject to several capital adequacy and liquidity standards. To the extent that we are unable to meet these standards, our ability to make distributions of capital will be limited and we may be subject to additional supervisory actions and limitations on our activities. See "Regulation and Supervision" in Item 1 and the "Capital and Regulatory Requirements" and "Liquidity" sections in Item 7, for further discussion of the regulations to which we are subject.

The Parent Company could be required to act as a “source of strength” to CBNA, which would have a material adverse effect on our business, financial condition and results of operations.

FRB policy historically required BHCs to act as a source of financial and managerial strength to their subsidiary banks. The Dodd-Frank Act codified this policy as a statutory requirement. This support may be required by the FRB at times when we might otherwise determine not to provide it or when doing so is not otherwise in the interests of CFG or our stockholders or creditors, and may include one or more of the following:

- The Parent Company may be compelled to contribute capital to CBNA, including by engaging in a public offering to raise such capital. Furthermore, any extensions of credit from the Parent Company to CBNA that are included in CBNA’s capital would be subordinate in right of payment to depositors and certain other indebtedness of CBNA.
- In the event of a BHC’s bankruptcy, any commitment that the BHC had been required to make to a federal bank regulatory agency to maintain the capital of a subsidiary bank will be assumed by the bankruptcy trustee and entitled to priority of payment.
- In the event of impairment of the capital stock of CBNA, the Parent Company, as CBNA’s stockholder, could be required to pay such deficiency.

The Parent Company depends on CBNA for substantially all of its revenue, and restrictions on dividends and other distributions by CBNA could affect its liquidity and ability to fulfill our obligations.

As a BHC, the Parent Company is a separate and distinct legal entity from CBNA, our banking subsidiary. The Parent Company typically receives substantially all of its revenue from dividends from CBNA. These dividends are the principal source of funds to pay dividends on our equity and interest and principal on our debt. Various federal and/or state laws and regulations, as well as regulatory expectations, limit the amount of dividends that CBNA may pay to the Parent Company. Also, our right to participate in a distribution of assets upon a subsidiary’s liquidation or reorganization is subject to the prior claims of the subsidiary’s creditors. In the event CBNA is unable to pay dividends to the Parent Company, it may not be able to service debt, pay obligations or pay dividends on its common stock. The inability to receive dividends from CBNA could have a material adverse effect on our business, financial condition and results of operations. See the “Regulation and Supervision” section in Item 1 and the “Capital and Regulatory Matters” section in Item 7.

From time-to-time, we may become or are subject to regulatory actions that may have a material impact on our business.

We may become or are involved, from time to time, in reviews, investigations and proceedings (both formal and informal) by governmental and self-regulatory agencies regarding our business. These regulatory actions involve accounting, compliance and operational matters, among others, some of which may result in adverse judgments, settlements, fines, penalties, injunctions or other relief that may require changes to our business or otherwise materially impact our business.

In regulatory actions, such as those referred to above, it is inherently difficult to determine whether any loss is probable or whether it is possible to reasonably estimate the amount of any loss. We cannot predict with certainty if, how or when such proceedings will be resolved or what the eventual fine, penalty or other relief, conditions or restrictions, if any, may be, particularly for actions that are in their early stages of investigation. We may be required to make significant restitution payments to CBNA customers arising from certain compliance issues and also may be required to pay civil money penalties in connection with certain of these issues. This uncertainty makes it difficult to estimate probable losses which, in turn, can lead to substantial disparities between the reserves we may establish for such proceedings and the eventual settlements, fines, or penalties. Adverse regulatory actions could have a material adverse effect on our business, financial condition and results of operations.

We are and may be subject to litigation that may have a material impact on our business.

Our operations are diverse and complex and we operate in legal and regulatory environments that expose us to potentially significant litigation risk. In the normal course of business, we have been named, from time to time, as a defendant in various legal actions, including arbitrations, class actions and other litigation, arising in connection with our activities as a financial services institution, including with respect to alleged unfair or deceptive business practices, mis-selling of certain products, violations of contract or intellectual property rights, and other compliance or operational failures. Certain of the actual or threatened legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. In some cases, the entities that would otherwise be the primary defendants in such cases are bankrupt or in financial distress. Moreover, a number of recent judicial decisions have upheld the right of borrowers to sue lending institutions on the basis of various evolving legal theories, collectively termed “lender liability.” Generally, lender liability is founded on the premise that a lender has either violated a duty, whether implied or contractual, of good faith and fair dealing owed to the borrower or has assumed a degree of control over the borrower resulting in the creation of a fiduciary duty owed to the borrower or its other creditors or stockholders. This could increase the amount of private litigation to which we are subject. For more information regarding ongoing significant legal proceedings in which we may be involved, see Note 19 in Item 8.

Compliance with anti-money laundering and anti-terrorism financing rules involves significant cost and effort.

We are subject to rules and regulations regarding money laundering and the financing of terrorism. Monitoring compliance with anti-money laundering and anti-terrorism financing rules can put a significant financial burden on banks and other financial institutions and poses significant technical challenges. Although we believe our current policies and procedures are sufficient to comply with applicable rules and regulations, we cannot guarantee that our anti-money laundering and anti-terrorism financing policies and procedures completely prevent situations of money laundering or terrorism financing. Any such failure events may have severe consequences, including sanctions, fines and reputational consequences, which could have a material adverse effect on our business, financial condition or results of operations.

Risks Related to our Common Stock

Our stock price may be volatile, and you could lose all or part of your investment as a result.

You should consider an investment in our common stock to be risky, and you should invest in our common stock only if you can withstand a significant loss and wide fluctuation in the market value of your investment. The market price of our common stock could be subject to wide fluctuations in response to, among other things, the factors described in this “Risk Factors” section, and other factors, some of which are beyond our control. These factors include:

- quarterly variations in our results of operations or the quarterly financial results of companies perceived to be similar to us;
- changes in expectations as to our future financial performance, including financial estimates by securities analysts and investors;
- our announcements or our competitors’ announcements regarding new products or services, enhancements, significant contracts, acquisitions or strategic investments;
- fluctuations in the market valuations of companies perceived by investors to be comparable to us;
- failures of financial institutions perceived to be similar to us;
- future sales of our common stock;
- additions or departures of members of our senior management or other key personnel;
- changes in industry conditions or perceptions; and
- changes in applicable laws, rules or regulations and other dynamics.

Furthermore, the stock markets have experienced price and volume fluctuations that have affected and continue to affect the market price of equity securities of many companies. These fluctuations have often been unrelated or disproportionate to the operating performance of these companies. These broad market fluctuations, as well as general economic, systemic, political and market conditions, such as recessions, loss of investor confidence, interest rate changes or international currency fluctuations, may negatively affect the market price of our common stock.

If any of the foregoing occurs, it could cause our stock price to fall and may expose us to securities class action litigation that, even if unsuccessful, could be costly to defend and a distraction to management.

We may not repurchase shares or pay cash dividends on our common stock.

Holders of our common stock are only entitled to receive such dividends as our Board may declare out of funds legally available for such payments. Although we have historically declared cash dividends on our common stock, we are not required to do so and may reduce or eliminate our common stock dividend in the future, which could adversely affect the market price of our common stock. Also, as a BHC, our ability to repurchase shares and declare and pay dividends is dependent on certain federal regulatory considerations, including the rules of the FRB regarding capital adequacy and dividends. Additionally, we are also generally required to receive the FRB's approval for any dividends, share repurchases, or redemption of capital securities if we are required to resubmit our capital plan. Further, if we are unable to satisfy the capital requirements applicable to us for any reason, we may be limited in our ability to repurchase shares and declare and pay dividends on our capital stock. See the "Regulation and Supervision" section in Item 1 and the "Capital and Regulatory Matters" section in Item 7 for further discussion of the regulations to which we are subject.

"Anti-takeover" provisions and the regulations to which we are subject may make it more difficult for a third party to acquire control of us, even if the change in control would be beneficial to stockholders.

We are a BHC incorporated in the state of Delaware. Anti-takeover provisions in Delaware law and our restated certificate of incorporation and amended and restated bylaws, as well as regulatory approvals that would be required under federal law, could make it more difficult for a third party to take control of us and may prevent stockholders from receiving a premium for their shares of our common stock. These provisions could adversely affect the market price of our common stock and could reduce the amount that stockholders might get if we are sold.

Furthermore, banking laws impose notice, approval and ongoing regulatory requirements on any stockholder or other party that seeks to acquire direct or indirect "control" of an FDIC-insured depository institution. These laws include the Bank Holding Company Act and the Change in Bank Control Act.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

The Company's Cybersecurity Program ("CSP") drives an end-to-end, continuous process that protects our customers, colleagues, assets, premises, systems, and information (electronic and non-electronic), and is designed to ensure compliance with current and emerging federal and state laws and regulations. The CSP is designed to ensure the effective implementation of the Corporate Security and Resilience Operating Model across all business lines of the Company and is under the supervision of the Chief Security Officer ("CSO").

Non-Financial Risk Management coordinates the development, maintenance, and day-to-day oversight of the Company's Enterprise Risk Management Governance Framework ("the Framework"), which defines an integrated enterprise-wide approach to risk management. This centrally managed program is designed to ensure that all business lines play a role in the successful implementation of the CSP. The CSP aligns with the Framework, enabling the CSO to provide risk oversight to and drive accountability from the business lines.

The CSP is designed to assess and mitigate threats and risks to the Company. New and emerging threats are assessed through an intelligence lifecycle, which includes threat modeling. In addition, risk assessment processes drive risk identification and measurement related to security. Once risks are identified and measured, the Framework is leveraged to track and mitigate them. Control testing is utilized to demonstrate that risks are managed effectively, identify gaps in expected control operation, and develop appropriate remediation plans, in order to manage risk to the Company within tolerable limits.

As part of the Company's Third Party Risk Management Program and in support of the CSP, reviews for cybersecurity, business continuity, fraud, and other policy-related topics are performed for the onboarding of new vendors and ongoing monitoring of existing vendors. Ratings assigned to a vendor determine review frequency and scope. Results are reported to key stakeholders and identified issues are tracked and monitored.

The Company regularly reviews the nature of its business activities and modifies the CSP as appropriate. Many of the elements of the CSP are cyber defense related and are in place to reduce our risk to a wide range of potential cyber threats that may target our assets and information daily. The effectiveness of the CSP is assessed and measured periodically by various lines of defense within the Company and is conducted primarily through risk assessments, assurance testing, and an independent audit. External organizations are also routinely engaged to assess our CSP and test our perimeter defenses. The effectiveness of the CSP is reported periodically to the appropriate governance committees.

Governance

Under the guidance of our CSO, we maintain a comprehensive CSP designed to protect our employees, customers, assets, premises, systems, and information against unauthorized access, misuse, alteration, or destruction that could result in substantial harm or inconvenience to our customers, and loss or reputational damage. The CSP incorporates all of our security policies and covers the core elements of access control, infrastructure security, cybersecurity event and incident management, data protection, third-party vendor cyber risk oversight, payment security, and training and awareness. Independent assessment and benchmarking of the CSP are regularly completed, and the CSP is reviewed and assessed by federal regulators. While we look to numerous frameworks to ensure the CSP is maintained in line with regulatory expectations and industry best practices, the National Institute of Standards and Technology cybersecurity framework is the primary standard against which we benchmark ourselves.

Both the Risk and Audit Committees have oversight of the management of our cybersecurity risk. The Audit Committee is responsible for overseeing the CSP under its risk oversight responsibilities as it relates to financial controls. The Risk Committee is responsible for oversight of the management of cybersecurity risk consistent with the Framework.

The CSP is presented by the CSO to the Risk Committee annually for approval in conjunction with an annual cybersecurity briefing. This briefing provides an overall assessment of the effectiveness of the CSP and an outlook for the upcoming year. In addition to the annual cybersecurity briefing, the CSO provides updates on cybersecurity to the Risk Committee at each of its meetings. The Audit Committee and Board also receive regular cybersecurity updates as part of the reporting provided by the Technology/Cyber Oversight Committee, a management committee chaired by the CEO which provides executive oversight, guidance and transparency to key transformative initiatives designed to enhance our technology stability, cyber defenses and risk management capabilities. Further, to ensure the Board maintains the appropriate knowledge for providing effective oversight, it is provided with relevant cybersecurity training on an annual basis, with any additional training provided as requested.

ITEM 2. PROPERTIES

We lease five operations centers in Boston, Medford, and Westwood, Massachusetts; Pittsburgh, Pennsylvania; and Glen Allen, Virginia. We own two principal operations centers in Johnston and East Providence, Rhode Island. At December 31, 2023, our subsidiaries owned and operated a total of 60 facilities and leased an additional 1,193 facilities. We believe our current facilities are adequate to meet our needs. See Note 7 and Note 9 in Item 8 for more information regarding our premises and equipment, and leases, respectively.

ITEM 3. LEGAL PROCEEDINGS

Information required by this item is presented in Note 19 in Item 8 and is incorporated herein by reference.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on the New York Stock Exchange under the symbol "CFG." As of February 1, 2024, our common stock was owned by 7,086 holders of record (including Cede & Co.) and approximately 445,000 beneficial shareholders whose shares were held in "street name" through a broker or bank. Information relating to compensation plans under which our equity securities are authorized for issuance is presented in Item 12.

The following graph compares the cumulative total stockholder returns for our performance during the five-year period ended December 31, 2023 relative to the performance of the Standard & Poor's 500® index, a commonly referenced U.S. equity benchmark consisting of leading companies from diverse economic sectors; the KBW Nasdaq Bank Index ("BKX"), composed of 24 leading national money centers, regional banks and thrifts; and a group of other banks that constitute our peer regional banks. The graph assumes a \$100 investment at the closing price on December 31, 2018 in each of CFG common stock, the S&P 500 index, the BKX and the peer market-capitalization weighted average and assumes all dividends were reinvested on the date paid. The points on the graph represent the fiscal quarter-end amounts based on the last trading day in each subsequent fiscal quarter.

This graph shall not be deemed "soliciting material" or be filed with the Securities and Exchange Commission for purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities under that Section, and shall not be deemed to be incorporated by reference into any filing of Citizens Financial Group, Inc. under the Securities Act of 1933, as amended, or the Exchange Act.

	12/31/2023	12/31/2022	12/31/2021	12/31/2020	12/31/2019	12/31/2018
CFG	\$140	\$157	\$181	\$132	\$142	\$100
S&P 500 Index	207	164	200	156	131	100
KBW BKX Index	132	133	169	122	136	100
Peer Regional Bank Average	133	134	162	120	134	100

Issuer Purchase of Equity Securities

Details of the repurchases of the Company's common stock during the three months ended December 31, 2023 are included below:

Period	Total Number of Shares Repurchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Dollar Amount of Shares That May Yet Be Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾
October 1, 2023 - October 31, 2023	329	\$16.82	—	\$1,094,000,058
November 1, 2023 - November 30, 2023	335	\$23.43	—	\$1,094,000,058
December 1, 2023 - December 31, 2023	691	\$12.41	—	\$1,094,000,058

⁽¹⁾ Reflects shares repurchased to satisfy applicable tax withholding obligations in connection with an employee share-based compensation plan and the forfeiture of unvested restricted stock awards.

⁽²⁾ On February 17, 2023, the Company announced that its Board of Directors increased the capacity under its common share repurchase program by an additional \$1.15 billion, which was incremental to the \$850 million of capacity remaining as of December 31, 2022 under the prior June 2022 authorization.

Common stock share repurchases may be executed in the open market or in privately negotiated transactions, including under Rule 10b5-1 plans and accelerated share repurchase and other structured transactions. The timing and exact amount of future share repurchases will be subject to various factors, including the Company's capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations.

INTRODUCTION

Citizens Financial Group, Inc. is one of the nation's oldest and largest financial institutions, with \$222.0 billion in assets as of December 31, 2023. Headquartered in Providence, Rhode Island, we offer a broad range of retail and commercial banking products and services to individuals, small businesses, middle-market companies, large corporations and institutions. We help our customers reach their potential by listening to them and by understanding their needs in order to offer tailored advice, ideas and solutions. In Consumer Banking, we provide an integrated experience that includes mobile and online banking, a full-service customer contact center and the convenience of approximately 3,200 ATMs and more than 1,100 branches in 14 states and the District of Columbia. Consumer Banking products and services include a full range of banking, lending, savings, wealth management and small business offerings. In Commercial Banking, we offer a broad complement of financial products and solutions, including lending and leasing, deposit and treasury management services, foreign exchange, interest rate and commodity risk management solutions, as well as loan syndication, corporate finance, merger and acquisition, and debt and equity capital markets capabilities. More information is available at www.citizensbank.com.

The following MD&A is intended to assist readers in their analysis of the accompanying Consolidated Financial Statements and supplemental financial information. It should be read in conjunction with the Consolidated Financial Statements and Notes to Consolidated Financial Statements in Item 8, as well as other information contained in this document.

Non-GAAP Financial Measures

This document contains non-GAAP financial measures denoted as “Underlying” results and “including AOCI impact.” Underlying results for any given reporting period exclude certain items that may occur in that period which management does not consider indicative of our on-going financial performance. We believe these non-GAAP financial measures provide useful information to investors because they are used by management to evaluate our operating performance and make day-to-day operating decisions. In addition, we believe our Underlying results in any given reporting period reflect our on-going financial performance in that period and, accordingly, are useful to consider in addition to our GAAP financial results. We further believe the presentation of Underlying results increases comparability of period-to-period results.

Other companies may use similarly titled non-GAAP financial measures that may be calculated differently from the way we calculate such measures. Accordingly, our non-GAAP financial measures may not be comparable to similar measures used by such companies. We caution investors not to place undue reliance on such non-GAAP financial measures, but to consider them with the most directly comparable GAAP measures. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for our results reported under GAAP.

Non-GAAP measures are denoted throughout our MD&A by the use of the term “Underlying.” Where there is a reference to these metrics in that paragraph, all measures that follow are on the same basis when applicable. For more information on the computation of non-GAAP financial measures, see “Non-GAAP Financial Measures and Reconciliations.”

FINANCIAL PERFORMANCE

Key Highlights

Net income decreased \$465 million, with earnings per diluted common share down \$0.97 to \$3.13 compared to 2022.

Results reflect notable items of \$357 million or \$0.75 per diluted common share, net of tax benefit, compared to \$352 million or \$0.74 per diluted common share, net of tax benefit, in 2022.

Table 1: Notable Items

(dollars in millions)	Year Ended December 31, 2023					
	Less: notable items					Underlying results (non-GAAP)
	Reported results (GAAP)	Integration related costs ⁽¹⁾	TOP and other ⁽²⁾	FDIC special assessment ⁽³⁾	Provision	
Noninterest expense	\$5,507	\$104	\$177	\$225	\$—	\$5,001
Income tax expense	422	(28)	(63)	(58)	—	571

(dollars in millions)	Year Ended December 31, 2022					
	Less: notable items					Underlying results (non-GAAP)
	Reported results (GAAP)	Integration related costs ⁽¹⁾	TOP and other ⁽²⁾	FDIC special assessment	Provision ⁽⁴⁾	
Provision for credit losses	\$474	\$—	\$—	\$—	\$169	\$305
Noninterest income	2,009	(31)	—	—	—	2,040
Noninterest expense	4,892	213	49	—	—	4,630
Income tax expense	582	(58)	(9)	—	(43)	692

⁽¹⁾ Includes integration related costs associated with acquisitions for the years ended December 31, 2023 and 2022, and mark-to-market losses on loans acquired from Investors classified as LHFS for the year ended December 31, 2022.

⁽²⁾ Includes our TOP transformational and revenue and efficiency initiatives for the years ended December 31, 2023 and 2022, a one-time deferred tax benefit for the year ended December 31, 2023 and income tax impacts related to legacy tax matters for the year ended December 31, 2022.

⁽³⁾ Represents an industry-wide FDIC special assessment. For more information, see “Regulation and Supervision - Deposit Insurance” in Item 1.

⁽⁴⁾ Includes the initial provision for credit losses tied to the HSBC transaction and Investors acquisition. As required by purchase accounting, a fair value mark for performing loans including both credit and interest rate components is recorded in addition to the provision for credit losses expense, thus the credit exposure has been “double counted.”

- Net income available to common stockholders decreased \$469 million to \$1.5 billion compared to 2022.
 - On an Underlying basis, which excludes notable items, net income available to common stockholders of \$1.8 billion compared to \$2.3 billion in 2022.
 - On an Underlying basis, earnings per diluted common share of \$3.88 compared to \$4.84 in 2022.
- Total revenue increased \$203 million to \$8.2 billion compared to 2022, driven by an increase of 4% in net interest income, including the impacts of the HSBC transaction and Investors acquisition.
- The efficiency ratio of 67.0% compared to 61.0% in 2022.
 - On an Underlying basis, the efficiency ratio of 60.8% compared to 57.5% in 2022.
- ROTCE of 10.9% compared to 13.9% in 2022.
 - On an Underlying basis, ROTCE of 13.5% compared to 16.4%.
- Tangible book value per common share of \$30.91 increased 11% from 2022.

For additional information regarding our financial performance, see “Results of Operations – 2023 compared with 2022” included in this report.

RESULTS OF OPERATIONS – 2023 compared with 2022

Net Interest Income

Net interest income is our largest source of revenue and is the difference between the interest earned on interest-earning assets (generally loans, leases and investment securities) and the interest expense incurred in connection with interest-bearing liabilities (generally deposits and borrowed funds). The level of net interest income is primarily a function of the difference between the effective yield on our average interest-earning assets and the effective cost of our interest-bearing liabilities. These factors are influenced by the pricing and mix of interest-earning assets and interest-bearing liabilities which, in turn, are impacted by external factors such as economic conditions, competition for loans and deposits, the monetary policy of the FRB and market interest rates. For further discussion, refer to “Market Risk – Non-Trading Risk” and “Risk Governance.”

Table 2: Major Components of Net Interest Income

	Year Ended December 31,						Change	
	2023			2022			Average	Yields/
(dollars in millions)	Average Balances	Income/Expense	Yields/Rates	Average Balances	Income/Expense	Yields/Rates	Balances	Rates (bps)
Assets

Net interest income and net interest margin		\$6,241	3.09 %		\$6,012	3.10 %		(1)
Net interest income and net interest margin, FTE ⁽¹⁾		\$6,258	3.10 %		\$6,023	3.10 %		—
Memo: Total deposits (interest-bearing and demand)	\$175,305	\$3,145	1.79 %	\$172,108	\$651	0.38 %	\$3,197	141

⁽¹⁾ Net interest income and net interest margin is presented on a FTE basis using the federal statutory tax rate of 21%. The FTE impact is predominantly attributable to commercial and industrial loans for the periods presented.

Net interest income increased \$229 million, or 4%, compared to 2022, reflecting stable net interest margin and growth of 4% in average interest-earning assets, including the impacts of the HSBC transaction and Investors acquisition.

Net interest margin on a FTE basis was neutral compared to 2022, reflecting higher interest-earning asset growth and associated yields, offset by increased funding costs.

Average interest-earning assets increased \$7.6 billion, or 4%, compared to 2022, primarily attributable to growth in loans and leases reflecting the impacts of the HSBC transaction and Investors acquisition, and growth in investments.

Average deposits increased \$3.2 billion, or 2%, compared to 2022, primarily attributable to the impacts of the HSBC transaction and Investors acquisition.

Average total borrowed funds increased \$2.9 billion compared to 2022, driven by an increase in FHLB advances and secured borrowings collateralized by auto loans.

Table 3: Changes in Net Interest Income Due to Average Volume and Average Rate

(dollars in millions)	Year Ended December 31,		
	2023 Versus 2022		
	Average Volume ⁽¹⁾	Average Rate ⁽¹⁾	Net Change

Total borrowed funds	116	305	421
Total interest expense	250	2,665	2,915
Net interest income	(\$79)	\$308	\$229

⁽¹⁾ Volume and rate changes are allocated on a consistent basis using the respective percentage changes in average balances and average rates.

Noninterest Income

Table 4: Noninterest Income

(dollars in millions)	Year Ended December 31,		Change	Percent
	2023	2022		
Service charges and fees	\$410	\$420	(\$10)	(2%)
Capital markets fees	319	368	(49)	(13)
Card fees	296	273	23	8
Trust and investment services fees	259	249	10	4
Mortgage banking fees	242	261	(19)	(7)
Foreign exchange and derivative products	183	188	(5)	(3)
Letter of credit and loan fees	168	159	9	6
Securities gains, net	28	9	19	211
Other income ⁽¹⁾	78	82	(4)	(5)
Noninterest income	\$1,983	\$2,009	(\$26)	(1%)

⁽¹⁾ Includes bank-owned life insurance income and other income for all periods presented.

The primary drivers for the change in noninterest income for the year ended December 31, 2023, compared to 2022, are highlighted below.

- The decline in capital markets fees reflects lower loan syndication, underwriting and M&A advisory fees.
- Mortgage banking fees declined driven by lower production and servicing fees and a decline in MSR valuation, net of hedge impact.
- The decline in service charges and fees reflects the elimination of the non-sufficient funds fee in Consumer Banking.
- Card fees increased given higher transaction volumes.
- Trust and investment services fees reflect increased sales activity and asset management fees.

Noninterest Expense

Table 5: Noninterest Expense

(dollars in millions)	Year Ended December 31,		Change	Percent
	2023	2022		
Salaries and employee benefits	\$2,599	\$2,549	\$50	2%
Equipment and software	756	648	108	17
Outside services	687	700	(13)	(2)
Occupancy	492	410	82	20
Other operating expense	973	585	388	66
Noninterest expense	\$5,507	\$4,892	\$615	13%

The increase in noninterest expense for the year ended December 31, 2023, compared to 2022, was driven by salaries and employee benefits reflecting the Private Bank start-up investment, equipment and software driven by software maintenance and amortization costs, and other operating expense associated with FDIC deposit insurance, fraud losses, advertising, and pension costs. The increase in FDIC deposit insurance reflects CBNA's special assessment of \$225 million and an increase in the deposit insurance assessment rate of two basis points that commenced with the first quarterly assessment period in 2023. For more information regarding CBNA's special assessment, see "Regulation and Supervision - Deposit Insurance" in Item 1.

Provision for Credit Losses

The provision for credit losses is the result of a detailed analysis performed to estimate our ACL. The total provision for credit losses includes the provision for loan and lease losses and the provision for unfunded commitments. Refer to “Analysis of Financial Condition – Credit Quality” for more information.

Provision expense of \$687 million for 2023 compares to \$474 million for 2022. The provision expense for 2023 reflects higher reserves against the Commercial Real Estate Office portfolio primarily driven by rising interest rates and return to office dynamics.

Income Tax Expense

Income tax expense of \$422 million decreased \$160 million and our effective income tax rate of 20.8% decreased from 21.9% compared to 2022. These decreases were driven by lower pre-tax income, the favorable impact of certain tax matters and additional benefits from tax-advantaged investments, partially offset by the adoption of the proportional amortization method for qualified investments in tax credit structures in 2023 and increased non-deductible FDIC premium expense.

Business Operating Segments

We have three business operating segments: Consumer Banking, Commercial Banking, and Non-Core. During the third quarter of 2023, our indirect auto and certain purchased consumer loan portfolios were transferred from the Consumer Banking segment into a new Non-Core segment to reflect the manner in which management is currently assessing performance and allocating resources. This new segment structure aligns with our recently announced balance sheet optimization strategy to discontinue the origination of certain non-strategic lending portfolios. Prior period results have been revised to conform to the new segment presentation.

For more information regarding our business operating segments see Note 26.

The following table presents certain financial data of our business operating segments. Total business operating segment financial results differ from total consolidated financial results. These differences are reflected in Other non-segment operations. See Note 26 for additional information.

Table 6: Selected Financial Data for Business Operating Segments

(dollars in millions)	Consumer Banking		Commercial Banking		Non-Core	
	Year Ended December 31,		Year Ended December 31,		Year Ended December 31,	
	2023	2022	2023	2022	2023	2022
Net interest income	\$4,187	\$3,649	\$2,292	\$2,103	(\$129)	\$378
Noninterest income	1,067	1,063	784	845	—	—
Total revenue	5,254	4,712	3,076	2,948	(129)	378
Noninterest expense	3,542	3,255	1,295	1,223	123	136
Profit (loss) before credit losses	1,712	1,457	1,781	1,725	(252)	242
Net charge-offs	280	174	250	46	78	52
Income (loss) before income tax expense (benefit)	1,432	1,283	1,531	1,679	(330)	190
Income tax expense (benefit)	373	328	378	375	(86)	48
Net income (loss)	\$1,059	\$955	\$1,153	\$1,304	(\$244)	\$142
Average Balances:						
Total assets	\$72,693	\$68,027	\$76,028	\$74,919	\$13,745	\$18,121
Total loans and leases ⁽¹⁾	66,356	62,523	72,937	70,992	13,669	18,048
Deposits	116,980	114,482	47,155	49,898	—	—
Interest-earning assets	66,999	63,289	73,321	71,276	13,675	18,048

⁽¹⁾ Includes LHFS.

Consumer Banking

Net interest income increased \$538 million compared to 2022, driven by higher net interest margin reflecting higher interest-earning asset yields given higher market interest rates and growth in average interest-earning assets, including the impacts of the HSBC transaction and Investors acquisition. This increase was partially offset by higher funding costs.

Noninterest income increased \$4 million compared to 2022, driven by card fees given higher transaction volumes and trust and investment services fees reflecting increased sales activity and asset management fees. This increase was partially offset by mortgage banking fees reflecting lower servicing and production fees and a decline in MSR valuation, net of hedge impact, and service charges and fees given the elimination of the non-sufficient funds fees.

Noninterest expense increased \$287 million compared to 2022, driven by salaries and benefits reflecting the Private Bank start-up investment, equipment and software driven by software maintenance and amortization costs, and other operating expense associated with advertising and fraud losses.

Net charge-offs increased \$106 million compared to 2022, driven by other retail and education as credit losses continue to gradually normalize from pandemic-era lows.

Commercial Banking

Net interest income increased \$189 million compared to 2022, driven by higher net interest margin reflecting higher interest-earning asset yields given higher market interest rates and growth in average interest-earning assets, including the impact of the Investors acquisition. This increase was partially offset by higher funding costs.

Noninterest income decreased \$61 million compared to 2022, driven by capital markets fees reflecting lower loan syndication, underwriting and M&A advisory fees, and foreign exchange and derivative products revenue reflecting lower client hedging activity. This decline was partially offset by service charges and fees reflecting the benefit of acquisitions and improvement in Treasury Solutions fees and card fees given higher transaction volumes.

Noninterest expense increased \$72 million compared to 2022, driven primarily by salaries and employee benefits, and equipment and software driven by software maintenance and amortization costs.

Net charge-offs increased \$204 million compared to 2022, reflecting an increased net charge-off level in the Commercial Real Estate Office portfolio primarily driven by rising interest rates and return to office dynamics, and the normalization of credit losses from pandemic-era lows.

Non-Core

Net interest income decreased \$507 million compared to 2022, driven by the highest-cost implied marginal funding sources during 2023, including secured borrowings collateralized by auto loans, FHLB advances and, to the extent necessary to fully fund the Non-Core segment, brokered certificates of deposit.

Net charge-offs increased \$26 million compared to 2022, driven by auto as credit losses continue to gradually normalize from pandemic-era lows.

RESULTS OF OPERATIONS – 2022 compared with 2021

For a description of our results of operations for 2022, see the “Results of Operations – 2022 compared with 2021” section of Item 7 in our 2022 Form 10-K.

ANALYSIS OF FINANCIAL CONDITION

Securities

Table 7: Amortized Cost and Fair Value of Securities

(dollars in millions)	December 31, 2023		December 31, 2022	
	Amortized Cost ⁽¹⁾	Fair Value	Amortized Cost	Fair Value
U.S. Treasury and other	\$4,493	\$4,380	\$3,678	\$3,486
State and political subdivisions	1	1	2	2
Mortgage-backed securities:

Mortgage-backed securities:				
Federal agencies and U.S. government sponsored entities	\$8,696	\$7,887	\$9,253	\$8,506
Total mortgage-backed securities	8,696	7,887	9,253	8,506
Asset-backed securities	488	463	581	536
Total debt securities held to maturity	\$9,184	\$8,350	\$9,834	\$9,042
Total debt securities available for sale and held to maturity	\$40,913	\$38,127	\$36,292	\$33,049
Equity securities, at cost ⁽²⁾	\$869	\$869	\$1,058	\$1,058
Equity securities, at fair value ⁽²⁾	173	173	153	153

⁽¹⁾ Excludes portfolio level basis adjustments of \$60 million for securities designated in active fair value hedge relationships. The basis adjustments represent a reduction to the amortized cost of the securities being hedged.

⁽²⁾ Included in other assets in the Consolidated Balance Sheets.

The primary objective of the securities portfolio is to provide a ready source of liquidity. The portfolio primarily includes high quality, highly liquid investments reflecting our ongoing commitment to maintain strong contingent liquidity levels and pledging capacity.

As of December 31, 2023, U.S. Treasuries and mortgage-backed securities issued by GNMA and GSEs represent 96% of the fair value of our debt securities portfolio, with approximately \$31.4 billion of unencumbered high-quality liquid securities serving as potential collateral for borrowings from the FHLB, FRB discount window, the Fixed Income Clearing Corporation bilateral repurchase agreement market, and the Bank Term Funding Program. The Bank Term Funding Program expires in March 2024 and we have not participated in this program through December 31, 2023. Securities are pledged at par value instead of fair value under this program.

For further discussion of the use of our securities as liquidity collateral see the “Regulation and Supervision – Liquidity Requirements” and “Liquidity Risk Management and Governance” sections in this document.

We manage our securities portfolio duration and convexity risk through asset selection and securities structure, and maintain duration levels within our risk appetite in the context of the broader interest rate risk framework and limits. As of December 31, 2023, the portfolio’s average effective duration, including recent hedging actions to reduce duration, was 3.9 years compared to 5.8 years as of December 31, 2022.

Asset-backed securities	—	—	488	4.01	—	—	—	—	488	4.01
Total debt securities held to maturity	—	—	488	4.01	—	—	8,696	2.31	9,184	2.40
Total debt securities	\$—	— %	\$5,102	2.98 %	\$3,735	3.18 %	\$32,076	3.51 %	\$40,913	3.41 %

⁽¹⁾ Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without incurring penalties.

⁽²⁾ The weighted-average yield is computed based on a constant effective interest rate over the contractual life of each security and considers the contractual coupon, amortization of premiums and accretion of discounts. Yields exclude the impact of related hedging derivatives.

Loans and Leases

Table 9: Composition of Loans and Leases, Excluding LHFS

(dollars in millions)	December 31,		Change	Percent
	2023	2022		
Commercial and industrial	\$43,826	\$51,836	(\$8,010)	(15)%
Commercial real estate	29,471	28,865	606	2
Leases	1,148	1,479	(331)	(22)
Total commercial	74,445	82,180	(7,735)	(9)
Residential mortgages	31,332	29,921	1,411	5
Home equity	15,040	14,043	997	7
Automobile	8,258	12,292	(4,034)	(33)
Education	11,834	12,808	(974)	(8)
Other retail	5,050	5,418	(368)	(7)
Total retail	71,514	74,482	(2,968)	(4)
Total loans and leases	\$145,959	\$156,662	(\$10,703)	(7)%

The decrease in total loans and leases as of December 31, 2023 compared to December 31, 2022 reflects a \$7.7 billion decrease in commercial due to loans sold as part of balance sheet optimization actions and market conditions driving lower client demand. Retail declined \$3.0 billion, driven by planned Non-Core portfolio runoff in auto, education and other retail, partially offset by growth in mortgage and home equity.

Table 10: Fixed and Variable Rate Loans and Leases by Maturity

December 31, 2023

(dollars in millions)	1 Year or Less ⁽¹⁾	After 1 Year Through 5 Years ⁽¹⁾	After 5 Years Through 15 Years ⁽¹⁾	After 15 Years ⁽¹⁾	Total Loans and Leases

Total loans and leases	\$28,182	\$64,004	\$35,425	\$18,348	\$145,959

⁽¹⁾ Maturity is based on scheduled principal repayment date.

⁽²⁾ Includes floating-rate commercial loans hedged to fixed rate to manage our exposure to the variability in interest cash flows. See “Market Risk” for additional information regarding our use of interest rate derivatives to hedge our loan portfolio.

Credit Quality

The ACL is a reserve to absorb estimated future credit losses in accordance with GAAP. For additional information regarding the ACL, see “Critical Accounting Estimates – Allowance for Credit Losses” and Note 6.

The ACL as of December 31, 2023 compared to December 31, 2022 reflects a reserve increase of \$78 million. For further information see Note 6.

Total retail	342	73,013	0.47	218	73,075	0.30
Total loans and leases	\$609	\$152,217	0.40 %	\$270	\$149,344	0.18 %

For the year ended December 31, 2023, net charge-offs increased \$339 million and the net charge-off ratio increased 22 basis points compared to 2022.

For the year ended December 31, 2023, the increase in net charge-offs reflects a \$124 million increase in retail, primarily other retail and education, and a \$215 million increase in commercial, with increases in commercial real estate and commercial and industrial. The increase in commercial real estate was driven by Commercial Real Estate Office while the commercial and industrial increase reflects company-specific idiosyncratic charge-offs. Retail is increasing from pandemic lows as expected.

Commercial Loan Asset Quality

Our commercial portfolio consists of traditional commercial and industrial loans, commercial leases, and commercial real estate loans. We utilize internal risk ratings to monitor credit quality for commercial loans and leases. For more information on internal risk ratings see Note 6.

Total commercial criticized balances of \$8.4 billion at December 31, 2023 increased \$2.9 billion compared to December 31, 2022, and declined \$524 million compared to September 30, 2023.

Commercial and industrial criticized balances of \$3.4 billion at December 31, 2023 increased from \$3.1 billion at December 31, 2022, primarily driven by the impact of rising interest rates and certain sector-specific labor challenges in the Arts, entertainment and recreation sector, as well as the trade sectors.

Commercial real estate criticized balances of \$5.0 billion at December 31, 2023 increased from \$2.4 billion at December 31, 2022, primarily driven by the combined impacts of interest rates and return-to-office dynamics on the Office sector and the impacts of interest rates on the Multi-family sector. Approximately 98% of commercial real estate loans remain current on payments as of December 31, 2023.

For more information on the distribution of commercial loans by vintage date and internal risk rating, see Note 6.

⁽¹⁾ Credit tenant lease includes loans to nationally recognized tenants with high credit ratings and life sciences includes loans to provide lab and office space for tenants involved in the study and development of scientific discoveries.

⁽²⁾ Includes Georgia, Maryland, North Carolina, South Carolina and Virginia.

Retail Loan Asset Quality

We utilize credit scores provided by FICO, which are generally refreshed on a quarterly basis, and payment and delinquency status, among other data points, to monitor credit quality for retail loans. FICO credit scores represent current and historical national industry-wide consumer level credit performance data, which management believes are the strongest indicator of potential credit losses over the contractual life of the loan and a good predictor of a borrower's future payment performance.

Table 18: Retail Loan Portfolio Analysis

	December 31, 2023					December 31, 2022				
	Current	Days Past Due and Accruing				Current	Days Past Due and Accruing			
		30-59	60-89	90+	Nonaccrual		30-59	60-89	90+	Nonaccrual
Residential mortgages ⁽¹⁾	97.34 %	0.90 %	0.38 %	0.82 %	0.56 %	97.68 %	0.32 %	0.15 %	1.07 %	0.78 %
Home equity	97.34	0.55	0.22	—	1.89	97.68	0.46	0.14	—	1.72

Table 19: Retail Asset Quality Metrics

	December 31, 2023	December 31, 2022
Average refreshed FICO for total portfolio	772	770
CLTV ratio for secured real estate ⁽¹⁾	50 %	50 %

⁽¹⁾ The real estate secured portfolio CLTV is calculated as the mortgage and second lien loan balance divided by the most recently available value of the property.

For more information on the aging of accruing and nonaccrual retail loans, and the distribution of retail loans by vintage date and FICO score, see Note 6.

Deposits

Table 20: Composition of Deposits

(dollars in millions)	December 31, 2023	% of Total Deposits	December 31, 2022	% of Total Deposits
Demand	\$37,107	21%	\$49,283	27%
Money market	53,812	30	49,905	28
Checking with interest	31,876	18	39,721	22
Savings	27,983	16	29,805	16
Term	26,564	15	12,010	7
Total deposits	\$177,342	100%	\$180,724	100%

Total deposits as of December 31, 2023 decreased compared to December 31, 2022, driven by our balance sheet optimization efforts. In addition, as rates rose 100 basis points during 2023, we saw continued migration of lower cost deposits to higher-yielding products, with non-interest bearing deposits now representing approximately 21% of our total deposits.

Table 21: Uninsured and Insured/Secured Deposits

(dollars in millions)	December 31, 2023	December 31, 2022
Total deposits	\$177,342	\$180,724
Estimated uninsured deposits ⁽¹⁾	73,584	88,883
Less: Uninsured affiliate deposits eliminated in consolidation	14,650	6,479
Less: Preferred deposits ⁽¹⁾⁽²⁾	7,486	9,635
CFG adjusted estimated uninsured deposits, excluding preferred deposits	51,448	72,769
Total estimated insured/secured deposits	\$125,894	\$107,955
Insured/secured deposits to total deposits	71%	60%

⁽¹⁾ As reported on CBNA's Call Report.

⁽²⁾ Represents uninsured deposits of states and political subdivisions that are secured or collateralized as required under state law.

Table 22: Term Deposits in Excess of the FDIC Insurance Limit by Remaining Maturity

(dollars in millions)	December 31, 2023
Three months or less	\$1,591
After three months through six months	550
After six months through twelve months	515
After twelve months	83
Total term deposits ⁽¹⁾	\$2,739

⁽¹⁾ Includes term deposits per account in excess of \$250,000.

Borrowed Funds

Total borrowed funds of \$14.0 billion as of December 31, 2023 decreased \$1.9 billion compared to December 31, 2022, driven by a decline in FHLB advances, partially offset by the issuance of secured borrowings collateralized by auto loans. For more information regarding our borrowed funds see "Liquidity" and Note 13.

CAPITAL AND REGULATORY MATTERS

As a BHC and FHC, we are subject to regulation and supervision by the FRB. Our banking subsidiary, CBNA, is a national banking association primarily regulated by the OCC. Our regulation and supervision continues to evolve as the legal and regulatory frameworks governing our operations continue to change. For more information, see the “Regulation and Supervision” section in Item 1.

Capital Adequacy Process

Our assessment of capital adequacy begins with our Board-approved risk appetite and risk management framework. This framework provides for the identification, measurement and management of material risks. Capital requirements are determined for actual and forecasted risk portfolios using applicable regulatory capital methodologies. The assessment also considers the possible impacts of approved and proposed changes to regulatory capital requirements. Key analytical frameworks, including scenario analysis and stress testing, supplement our base line forecast to help inform a range of potential outcomes. A governance framework supports our capital planning process, including capital management policies and procedures that document capital adequacy metrics and limits, as well as our Capital Contingency Plan and the active engagement of both the Board and senior management in oversight and decision-making.

Forward-looking assessments of capital adequacy provide for the development of a single capital plan, which is periodically submitted to the FRB, that covers both us and our banking subsidiary. We prepare this plan in accordance with the Capital Plan Rule and we participate annually in the FRB’s horizontal capital review as part of their normal supervisory process, which includes an assessment of specific capital planning areas.

The FRB regularly supervises and evaluates our capital adequacy and capital planning processes, including the submission of an annual capital plan approved by our Board of Directors or one of its committees. Under the FRB’s capital requirements we must maintain capital ratios above the sum of the regulatory minimum and SCB requirement to avoid restrictions on capital distributions and discretionary bonus payments. The FRB utilizes the supervisory stress test to determine our SCB, which is re-calibrated with each biennial supervisory stress test and updated annually to reflect our planned common stock dividends. As an institution subject to Category IV standards, we are subject to biennial supervisory stress testing in even-numbered years; however, the FRB required us to participate in the 2023 CCAR supervisory stress test to incorporate the effects of the Investors acquisition. Our SCB associated with the 2023 supervisory stress test was 4.0%, effective October 1, 2023 through September 30, 2024.

Regulations relating to capital planning, regulatory reporting, stress testing and capital buffer requirements applicable to firms like us are presently subject to rule-making and potential further guidance and interpretation by the applicable federal regulators. We will continue to evaluate the impact of these and any other prudential regulatory changes, including their potential resultant changes in our regulatory and compliance costs and expenses.

Regulatory Capital Ratios and Capital Composition

Under the current U.S. Basel III capital framework, we and our banking subsidiary, CBNA, must meet the following specific minimum requirements: CET1 capital ratio of 4.5%, tier 1 capital ratio of 6.0%, total capital ratio of 8.0% and tier 1 leverage ratio of 4.0%. As a BHC, our SCB of 4.0% is imposed on top of the three minimum risk-based capital ratios listed above and a CCB of 2.5% is imposed on top of the three minimum risk-based capital ratios listed above for CBNA.

For additional discussion of the U.S. Basel III capital framework and its related application, see the “Regulation and Supervision” section in Item 1. The table below presents the regulatory capital ratios for CFG and CBNA under the U.S. Basel III Standardized rules:

Table 23: Regulatory Capital Ratios Under the U.S. Basel III Standardized Rules

	December 31, 2023		December 31, 2022		Required Minimum Capital Ratio ⁽¹⁾
(dollars in millions)	Amount	Ratio	Amount	Ratio

Tier 1 capital					
CFG	20,372	11.8	20,588	11.1	10.0
CBNA	19,411	11.3	20,669	11.2	8.5
Total capital					
CFG	23,608	13.7	23,755	12.8	12.0
CBNA	22,453	13.0	23,534	12.7	10.5
Tier 1 leverage					
CFG	20,372	9.3	20,588	9.3	4.0
CBNA	19,411	8.9	20,669	9.4	4.0
Risk-weighted assets					
CFG	172,601		185,224		
CBNA	172,094		184,781		
Quarterly adjusted average assets ⁽²⁾					
CFG	219,591		220,779		
CBNA	218,974		220,182		

⁽¹⁾ Represents minimum requirement under the current capital framework plus the SCB of 4.0% and CCB of 2.5% for CFG and CBNA, respectively. The SCB and CCB are not applicable to the Tier 1 leverage ratio.

⁽²⁾ Represents total average assets less certain amounts deducted from Tier 1 capital.

At December 31, 2023, CFG’s CET1 and tier 1 capital ratios increased compared to December 31, 2022, primarily driven by net income and a \$12.6 billion decrease in RWA, partially offset by dividends, common share repurchases, and a decrease in the modified CECL transition amount as we entered the second year of the CECL three-year transition period. Lower commercial and auto loans were the key drivers for the decline in RWA.

At December 31, 2023, CBNA’s CET1 and tier 1 capital ratios increased slightly compared to December 31, 2022. Net income and a \$12.7 billion decrease in RWA, primarily driven by lower commercial and auto loans, was partially offset by dividend payments to the Parent Company and a decrease in the modified CECL transition amount as we entered the second year of the CECL three-year transition period.

At December 31, 2023, CFG’s and CBNA’s total capital ratios increased driven by their respective changes in CET1 and tier 1 capital described above and a reduction in the modified AACL transition amount.

At December 31, 2023, CFG’s tier 1 leverage ratio was stable compared to December 31, 2022, whereas CBNA’s tier 1 leverage ratio decreased. CBNA’s tier 1 leverage ratio reflects a decline in quarterly adjusted average assets and changes in tier 1 capital described above.

Table 24: Capital Composition Under the U.S. Basel III Capital Framework

(dollars in millions)	December 31, 2023	December 31, 2022
Total common stockholders' equity	\$22,328	\$21,676
Exclusions:		
Modified CECL transitional amount	192	288
Net unrealized (gains)/losses recorded in accumulated other comprehensive income (loss), net of tax:		
Debt securities	2,338	2,771
Derivatives	1,087	1,416
Unamortized net periodic benefit costs	333	373
Deductions:		
Goodwill, net of deferred tax liability	(7,779)	(7,780)
Other intangible assets, net of deferred tax liability	(134)	(170)
Deferred tax assets that arise from tax loss and credit carryforwards	(7)	—
Total common equity tier 1 capital	18,358	18,574
Qualifying preferred stock	2,014	2,014
Total tier 1 capital	20,372	20,588
Qualifying subordinated debt ⁽¹⁾	1,319	1,427
Allowance for credit losses	2,318	2,240
Exclusions from tier 2 capital:		
Modified AACL transitional amount	(249)	(374)
Allowance on PCD assets	(152)	(126)
Adjusted allowance for credit losses	1,917	1,740
Total capital	\$23,608	\$23,755

⁽¹⁾ As of December 31, 2023 and 2022, the amount of non-qualifying subordinated debt excluded from regulatory capital was \$482 million and \$367 million, respectively. See Note 13 for more details on our outstanding subordinated debt.

Capital Transactions

We completed the following capital transactions during 2023:

- Repurchased \$906 million of our outstanding common stock;
- Declared quarterly common stock dividends of \$0.42 per share, aggregating to \$808 million; and
- Declared preferred stock dividends aggregating to \$117 million.

For additional detail regarding our common and preferred stock dividends see Note 17.

In February 2023, our Board of Directors increased our common share repurchase authorization to \$2.0 billion, which was an increase of \$1.15 billion above the \$850 million of capacity remaining as of December 31, 2022 under the prior June 2022 authorization. See “Issuer Purchase of Equity Securities” in Item 5 above for information regarding our available capacity to repurchase shares at December 31, 2023. All future capital distributions are subject to consideration and approval by our Board of Directors prior to execution. The timing and amount of future dividends and share repurchases will depend on various factors, including our capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations.

Recent Regulatory Developments

Bank Failures

On April 28, 2023, the FRB issued a report relative to its review of the supervision and regulation of Silicon Valley Bank (“SVB”). The report details the FRB’s assessment of the primary causes for SVB’s failure and emphasizes the FRB’s view that supervision and regulation need to be strengthened based on its findings. As a result, the FRB stated it intends to evaluate its supervisory and regulatory framework, with a focus on the following areas:

- Regulatory tailoring framework, including a reassessment of a range of rules for banks with \$100 billion or more in assets;
- Management of interest rate risk;
- Liquidity risk, commencing with the risks of uninsured deposits; and
- Capital requirements.

Proposals addressing the regulatory tailoring framework and capital requirements were issued by the regulatory agencies during the third quarter of 2023. See the “Regulation and Supervision” section in Item 1 for more information.

We will continue to monitor and address changes to the FRB’s supervisory and regulatory framework that may result from this targeted review by the FRB and their associated impact on our business, financial condition or results of operations.

AOCI Impact on Regulatory Capital

Under the current applicable regulatory capital rules we have made the AOCI opt-out election, which enables us to exclude components of AOCI from regulatory capital. As noted in the “Capital and Stress Testing Requirements” section of “Regulation and Supervision” in Item 1, the regulatory agencies are considering the inclusion of AOCI components in regulatory capital for Category IV firms like us, notably the AOCI relative to securities and pension.

The following table presents our regulatory capital ratios including the AOCI impact from securities and pension, which we believe provides useful information in light of recent events and the potential for change in the regulatory capital framework.

Table 25: AOCI Impact on Regulatory Capital

(dollars in millions)	December 31, 2023					
	CFG			CBNA		
	CET1	Tier 1	Total	CET1	Tier 1	Total
Regulatory capital, including AOCI impact:						
Regulatory capital (as reported)	\$18,358	\$20,372	\$23,608	\$19,411	\$19,411	\$22,453
Unrealized gains (losses) on securities and pension	(2,671)	(2,671)	(2,671)	(2,649)	(2,649)	(2,649)
Deferred tax assets - securities and pension AOCI	(15)	(15)	(15)	(16)	(16)	(16)
Regulatory capital, including AOCI impact (non-GAAP)	\$15,672	\$17,686	\$20,922	\$16,746	\$16,746	\$19,788
Risk-weighted assets, including AOCI impact:						
Risk-weighted assets (as reported)	\$172,601	\$172,601	\$172,601	\$172,094	\$172,094	\$172,094
Unrealized gains (losses) on securities and pension	(722)	(722)	(722)	(701)	(701)	(701)
Deferred tax assets - securities and pension AOCI	2,188	2,188	2,188	2,168	2,168	2,168
Risk-weighted assets, including AOCI impact (non-GAAP)	\$174,067	\$174,067	\$174,067	\$173,561	\$173,561	\$173,561
Ratio:						
Regulatory capital ratio (as reported)	10.6 %	11.8 %	13.7 %	11.3 %	11.3 %	13.0 %
Regulatory capital ratio, including AOCI impact (non-GAAP)	9.0 %	10.2 %	12.0 %	9.6 %	9.6 %	11.4 %

LIQUIDITY

We consider the effective and prudent management of liquidity fundamental to our safety and soundness. We define liquidity as our ability to meet our obligations when they come due. As a financial institution, we must maintain operating liquidity to meet expected daily and forecasted cash-flow requirements, as well as contingent liquidity to meet unexpected (stress scenario) funding requirements. Reflecting the importance of meeting all unexpected and stress-scenario funding requirements, we identify and manage contingent liquidity, consisting of cash balances at the FRB, unencumbered high-quality liquid securities and unused FHLB borrowing capacity. Separately, we also identify and manage asset liquidity as a subset of contingent liquidity, consisting of cash balances at the FRB and unencumbered high-quality liquid securities. We maintain additional secured borrowing capacity at the FRB discount window, but do not view this as a primary means of funding, but rather a potential source in a stressed environment or during a market disruption. We manage liquidity at the consolidated enterprise level and at each material legal entity.

Parent Company Liquidity

Our Parent Company's primary sources of cash are dividends and interest received from CBNA resulting from investing in bank equity and subordinated debt as well as externally issued preferred stock, senior debt and subordinated debt. Uses of cash include the routine cash flow requirements as a bank holding company, including periodic share repurchases and payments of dividends, interest and expenses; the needs of subsidiaries, including CBNA for additional equity and, as required, its need for debt financing; and the support for extraordinary funding requirements when necessary. To the extent the Parent Company has relied on wholesale borrowings, uses also include payments of related principal and interest.

Our Parent Company's cash and cash equivalents represent a source of liquidity that can be used to meet various needs and totaled \$2.9 billion and \$1.6 billion as of December 31, 2023 and 2022, respectively.

During the years ended December 31, 2023 and 2022, the Parent Company declared dividends on common stock of \$808 million and \$779 million, respectively, and declared dividends on preferred stock of \$117 million and \$113 million, respectively.

During the years ended December 31, 2023 and 2022, the Parent Company repurchased \$906 million and \$153 million, respectively, of its outstanding common stock.

On January 23, 2024, CFG issued \$1.25 billion in six-year 5.841% fixed-to-floating rate senior notes.

CBNA Liquidity

As CBNA's primary business involves taking deposits and making loans, a key role of liquidity management is to ensure that customers have timely access to funds. Liquidity management also involves maintaining sufficient liquidity to repay wholesale borrowings, pay operating expenses and support extraordinary funding requirements when necessary. In the ordinary course of business the liquidity of CBNA is managed by matching sources and uses of cash. The primary sources of bank liquidity include deposits from our consumer and commercial customers; payments of principal and interest on loans and debt securities; and wholesale borrowings, as needed, and as described under "Liquidity Risk Management and Governance." The primary uses of bank liquidity include withdrawals and maturities of deposits; payment of interest on deposits; funding of loans and related commitments; and funding of securities purchases. To the extent that CBNA has relied on wholesale borrowings, uses also include payments of related principal and interest. For further information on CBNA's outstanding debt see Note 13.

During the year ended December 31, 2023, CBNA completed the following transactions:

- Issued \$450 million of 5.284% fixed-to-floating rate senior notes;
- Redeemed \$750 million of senior notes due March 2023; and
- Issued \$3.5 billion of secured borrowings collateralized by auto loans.

On January 23, 2024, CBNA issued approximately \$1.5 billion of secured borrowings collateralized by auto loans.

Liquidity Risk

Liquidity risk is the risk arising from the inability to meet our obligations when they come due. We must maintain adequate funding to meet current and future obligations, including customer loan requests, customer deposit maturities and withdrawals, debt service, equipment and premises leases, and other cash commitments, under both normal operating conditions and under periods of company-specific and/or market stress.

We primarily rely on customer deposits to be a relatively stable and low-cost source of funding. In addition to customer deposits, our funding sources also include our ability to securitize loans in secondary markets, raise funds in the debt and equity capital markets, pledge loans and/or securities for borrowing from the FHLB, pledge securities as collateral for borrowing under repurchase agreements, and sell AFS securities.

Credit ratings assigned by agencies such as Moody's, Standard and Poor's, and Fitch impact our access to unsecured wholesale market funds and to large uninsured customer deposits and are presented in the table below.

Table 26: Credit Ratings

	December 31, 2023		
	Moody's	Standard and Poor's	Fitch
Citizens Financial Group, Inc.:			
Long-term issuer	Baa1	BBB+	BBB+
Short-term issuer	NR	A-2	F1
Subordinated debt	Baa1	BBB	BBB
Preferred Stock	Baa3	BB+	BB
Citizens Bank, National Association:			
Long-term issuer	Baa1	A-	BBB+
Short-term issuer	NR	A-2	F1
Long-term deposits	A1	NR	A-
Short-term deposits	P-1	NR	F1

NR = Not Rated

We currently have a “stable” outlook at Standard & Poor's, a “negative” outlook at Moody's and a “stable” outlook at Fitch. Changes in our public credit ratings could affect both the cost and availability of our wholesale funding.

Existing and evolving regulatory liquidity requirements represent another key driver of systemic liquidity conditions and liquidity management practices. The FRB and OCC regularly evaluate our liquidity as part of the overall supervisory process. In addition, we are subject to existing and evolving regulatory liquidity requirements, some of which are subject to further rulemaking, guidance and interpretation by the applicable federal regulators. For further discussion, see the “Liquidity Requirements” section under “Regulation and Supervision” in Item 1.

Liquidity Risk Management and Governance

Liquidity risk is measured and managed by the Funding and Liquidity unit within our Treasury group in accordance with policy guidelines promulgated by our Board and the Asset Liability Committee. The Funding and Liquidity unit is responsible for maintaining a liquidity management framework that effectively manages liquidity risk. Processes within this framework include, but are not limited to, regular and comprehensive reporting, including current levels versus threshold limits for a broad set of liquidity metrics and early warning indicators, explanatory commentary relating to emerging risk trends and, as appropriate, recommended remedial strategies, liquidity stress testing, contingency funding plans, and collateral management.

Our Funding and Liquidity unit's primary goals are to deliver and maintain prudent levels of operating liquidity to support expected and projected funding requirements, contingent liquidity to support unexpected funding requirements resulting from idiosyncratic, systemic, and combination stress events, and regulatory liquidity requirements in a timely manner from stable and cost-efficient funding sources. We seek to accomplish these goals by funding loans with stable deposits, by prudently controlling dependence on wholesale funding, particularly short-term unsecured funding, and by maintaining ample available liquidity, including a contingent liquidity buffer of unencumbered high-quality loans and securities.

We maintain a contingency funding plan designed to ensure that liquidity sources are sufficient to meet ongoing obligations and commitments, particularly in a stressed environment or during a market disruption. The plan identifies members of the liquidity contingency team and provides a framework for management to follow, including notification and escalation of potential liquidity stress events.

In response to the recent U.S. bank failures, the FRB established the Bank Term Funding Program to make additional funding available to eligible depository institutions to ensure the ability to meet the needs of all depositors. This program was designed to provide another source of liquidity against the par value of high-quality securities, eliminating the need to sell these securities during times of stress. The Company is eligible to borrow under this program, which expires in March 2024, based on its existing eligibility for primary credit under the FRB discount window. The Company has taken steps to support readiness but has not participated in the program through December 31, 2023.

As of December 31, 2023:

- Organically generated deposits continue to be our primary source of funding, resulting in a consolidated period-end loans-to-deposits ratio, excluding LHFS, of 82.3%;
 - Estimated insured/secured deposits comprise 71% of our consolidated deposit base of \$177.3 billion.
- Our total available liquidity, comprised of contingent liquidity and available discount window capacity, was approximately \$78.8 billion;
 - Contingent liquidity was \$57.1 billion, consisting of unencumbered high-quality liquid securities of \$31.4 billion, unused FHLB capacity of \$15.9 billion, and our cash balances at the FRB of \$9.8 billion; and
 - Available discount window capacity was \$21.7 billion, defined as available total borrowing capacity from the FRB based on identified collateral, which is primarily secured by non-mortgage commercial and retail loans.

For a summary of our sources and uses of cash by type of activity for the years ended December 31, 2023, 2022 and 2021, see the Consolidated Statements of Cash Flows in Item 8.

The Funding and Liquidity unit monitors a variety of liquidity and funding metrics and early warning indicators and metrics, including specific risk thresholds limits. These monitoring tools are broadly classified as follows:

- Current liquidity sources and capacities, including cash balances at the FRB, free and liquid securities, and secured borrowing capacity at the FHLB and FRB discount window;
- Liquidity stress sources, including idiosyncratic, systemic and combined stresses, in addition to evolving regulatory requirements; and
- Current and prospective exposures, including secured and unsecured wholesale funding, and spot and cumulative cash-flow gaps across a variety of horizons.

Further, certain of these metrics are monitored individually for CBNA and for our consolidated enterprise on a daily basis, including cash position, unencumbered securities, asset liquidity and available FHLB borrowing capacity. In order to identify emerging trends and risks and inform funding decisions, specific metrics are also forecasted over a one-year horizon.

Contractual Obligations

In the ordinary course of business, we enter into contractual obligations that may require future cash payments, including customer deposit maturities and withdrawals, debt service, lease obligations and other cash commitments. For more information regarding these obligations, see Notes 9, 12 and 13.

Off-Balance Sheet Arrangements

We engage in a variety of activities that are not reflected in our Consolidated Balance Sheets that are generally referred to as “off-balance sheet arrangements.” For more information on these types of activities, see Note 19.

CRITICAL ACCOUNTING ESTIMATES

Our audited Consolidated Financial Statements included in this Report are prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires us to establish accounting policies and make estimates that affect amounts reported in our audited Consolidated Financial Statements.

An accounting estimate requires assumptions and judgments about uncertain matters that could have a material effect on our audited Consolidated Financial Statements. Estimates are made using facts and circumstances known at a point in time. Changes in those facts and circumstances could produce results substantially different from those estimates. Our most significant accounting policies and estimates and their related application are discussed below. See Note 1 for further discussion of our significant accounting policies.

Allowance for Credit Losses

The ACL increased from \$2.2 billion at December 31, 2022 to \$2.3 billion at December 31, 2023.

Our ACL as of December 31, 2023 accounts for an economic forecast over our two-year reasonable and supportable period with peak unemployment of approximately 5% and peak-to-trough GDP decline of approximately 0.4%. This forecast reflects a mild recession over the two-year reasonable and supportable period. This compares to our December 31, 2022 forecast which reflected peak unemployment of approximately 6% with a more adverse peak-to-trough GDP decline of approximately 1.4%.

Our determination of the ACL is sensitive to changes in forecasted macroeconomic conditions during the reasonable and supportable forecast period. To illustrate the sensitivity, we applied a more pessimistic scenario than that described above which reflects deeper real GDP contraction across our two-year reasonable and supportable forecast period, resulting in a 1.7% peak-to-trough decline in real GDP. Excluding consideration of qualitative adjustments, this scenario would result in a quantitative lifetime loss estimate of approximately 1.10x our modeled period-end ACL, or an increase of approximately \$233 million. This analysis relates only to the modeled credit loss estimate and not to the overall period-end ACL, which includes qualitative adjustments.

Because several quantitative and qualitative factors are considered in determining the ACL, this sensitivity analysis does not necessarily reflect the nature and extent of future changes in the ACL or even what the ACL would be under these economic circumstances. The sensitivity is intended to provide insights into the impact of adverse changes in the macroeconomic environment and the corresponding impact to modeled loss estimates. The hypothetical determination does not incorporate the impact of management judgment or other qualitative factors that could be applied in the actual estimation of the ACL and does not imply any expectation of future deterioration in our loss rates.

It remains difficult to estimate how changes in economic forecasts might affect our ACL because such forecasts consider a wide variety of variables and inputs, and changes in the variables and inputs may not occur at the same time or in the same direction, and such changes may have differing impacts by product type. The variables and inputs may be idiosyncratically affected by risks to the economy, including changing monetary and fiscal policies, impacts from the recent stress on the banking industry, and their impact on inflationary trends. Changes in one or multiple of the key macroeconomic variables may have a material impact to our estimation of expected credit losses.

For additional information regarding the ACL, see Note 6.

Goodwill

The acquisition method of accounting requires that assets acquired and liabilities assumed in business combinations are recorded at their fair values. Business combinations typically result in goodwill, which is subject to ongoing periodic impairment tests based on the fair values of the reporting units to which the goodwill has been attributed. We review the goodwill of each reporting unit for impairment on an annual basis as of October 31st or more frequently if events or circumstances change that indicate an impairment may exist. When assessing goodwill for impairment, a qualitative assessment may be made to determine whether it is more-likely-than-not that the fair value of a reporting unit is below its carrying value. Alternatively, a quantitative assessment may be performed without performing a qualitative assessment. At December 31, 2023, goodwill totaled \$8.2 billion, including \$6.9 billion from pre-IPO acquisitions, and is assigned to our reporting units as follows: \$5.5 billion to Commercial Banking, including \$4.7 billion from pre-IPO acquisitions, and \$2.7 billion to Consumer Banking, including \$2.2 billion from pre-IPO acquisitions.

The process of evaluating the fair value of a reporting unit is subjective, involving management assumptions and estimates and the use of external or internal valuations. Valuation techniques include discounted cash flow and market approach analysis. In the fourth quarter of 2023, the quantitative impairment test estimated the fair value of the reporting units using an equal weighting of an income approach (i.e., discounted cash flows method) and market-based approach (i.e., the guideline public company method). The guideline public company method utilizes comparable public company information and key valuation multiples, and considers a market control premium associated with cost synergies and other cash flow benefits that arise from obtaining control over a reporting unit, and guideline transactions, when applicable.

Under the income approach, cash flow projections are based on multi-year financial forecasts developed for each reporting unit that consider key business drivers such as new business initiatives, customer retention standards, market share changes, anticipated loan and deposit growth, fees and expenses, forward interest rates, historical performance, credit performance, and industry and economic trends, among other considerations. The projection of net interest income and noninterest expense are the most significant inputs to the financial projections of the Commercial Banking and Consumer Banking reporting units. The long-term earnings growth rate used in determining the terminal value of each reporting unit was 3% as of October 31, 2023, based on management's assessment of the minimum expected terminal growth rate of each reporting unit. Discount rates are estimated based on the Capital Asset Pricing Model, which considers the risk-free interest rate, market risk premium, beta, and unsystematic risk adjustments specific to a particular reporting unit. The discount rates are also calibrated based on risks related to the projected cash flows of each reporting unit. A discount rate of 13% was utilized for the Commercial Banking and Consumer Banking reporting units as of October 31, 2023.

We performed a quantitative goodwill impairment assessment in the fourth quarter of 2023 as part of our annual impairment assessment. Based on this quantitative assessment, we concluded that the estimated fair value of the Consumer Banking and Commercial Banking reporting units exceeded their carrying value. The Commercial Banking reporting unit's fair value exceeded its carrying value by approximately 10%. Circumstances that could negatively impact the future fair value of the Commercial Banking reporting unit include a sustained decrease in our stock price, decline in industry peer multiples, deterioration in the reporting unit's forecasts, and an increase in the discount rate driven by an increase in the risk-free rate or the risk we may not achieve our forecasted cash flows.

We monitored events and circumstances during the period from October 31, 2023 through December 31, 2023, including macroeconomic and market factors, industry and banking sector events, Company-specific performance indicators, a comparison of management's forecast and assumptions to those used in its October 31, 2023 quantitative impairment test, and the sensitivity of the October 31, 2023 quantitative test results to changes in assumptions through December 31, 2023. Based on these considerations, management concluded that it was not more-likely-than-not that the fair value of either of its reporting units is below its respective carrying amount as of December 31, 2023.

For additional information regarding Goodwill, see Note 10.

Fair Value

We assess the fair value of assets and liabilities by applying various valuation methodologies which may involve a significant degree of judgment, particularly when active markets do not exist for the items being valued. Quoted market prices are used to estimate the fair value of certain assets such as trading assets, investment securities and residential real estate loans held for sale. Assumptions are used to estimate the fair value of items for which an observable active market does not exist and include discount rates, rates of return on assets, repayment rates, cash flows, default rates, costs of servicing and liquidation values. The use of different assumptions could produce significantly different fair value estimates, which could have a material impact on our results of operations, financial condition or fair value disclosures.

We also assess whether there are any declines in fair value below the carrying value of assets that require recognition of a loss in the Consolidated Statements of Operations, including certain investments, capitalized servicing assets, goodwill, and core deposit and other intangible assets.

For additional information regarding our fair value measurements, see Note 20.

ACCOUNTING AND REPORTING DEVELOPMENTS

Accounting standards issued but not adopted as of December 31, 2023

Pronouncement	Summary of Guidance	Effects on Financial Statements
Improvements to Reportable Segment Disclosures <i>Issued November 2023</i>	- Requires disclosure of significant segment expenses regularly provided to the chief operating decision maker ("CODM") - Requires disclosure of an amount for <i>other segment items</i> by reportable segment and a description of its composition - Requires disclosure of the title and position of the CODM	- Required effective date: January 1, 2024 for our annual disclosures and January 1, 2025 for our interim disclosures. Early adoption is permitted. - Adoption is not expected to have a material impact on our Consolidated Financial Statements, but is expected to have a meaningful impact on our required disclosures in the Business Operating Segments Note to the Consolidated Financial Statements.
Improvements to Income Tax Disclosures <i>Issued December 2023</i>	- Requires an annual income tax rate reconciliation table that includes specific categories and other significant categories, disaggregated by nature, that exceed 5% of income tax expense at the statutory tax rate - Requires a qualitative description of the states and local jurisdictions that make up more than 50% of the effect of the state and local income tax category - Requires description of the nature, effect and underlying causes of the reconciling items and the judgment used in categorizing these items - Requires annual disclosure of income taxes paid, net of refunds received, disaggregated by federal, state, and foreign taxes, and further disaggregated by individual jurisdictions that exceed 5% of total income taxes paid, net of refunds received - Requires disclosure of 1) income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign, and 2) income tax expense (or benefit) from continuing operations disaggregated by federal, state and foreign - Eliminates the requirement to disclose the nature and estimate of the change in unrecognized tax benefits expected in the next twelve months - Eliminates the requirement to disclose the cumulative amount of each type of temporary difference when a deferred tax liability is not recognized because of the exceptions to comprehensive recognition of deferred taxes related to subsidiaries and corporate joint ventures	- Required effective date: January 1, 2025 for our annual disclosures and January 1, 2026 for our interim disclosures. Early adoption is permitted. - Adoption is not expected to have a material impact on our Consolidated Financial Statements, but is expected to have a meaningful impact on our required disclosures in the Income Taxes Note to the Consolidated Financial Statements.
Accounting for and Disclosure of Crypto Assets <i>Issued December 2023</i>	- Applies to assets that meet the definition of intangible assets, do not provide the asset holder with enforceable rights to goods, services or other assets, reside on a distributed ledger, are secured through cryptography, are fungible, and are not created or issued by the reporting entity or its related parties - Required to subsequently measure these assets at fair value - Required to present crypto assets measured at fair value separately from other intangible assets and changes from the remeasurement of crypto assets separately from changes in the carrying amounts of other intangible assets	- Required effective date: January 1, 2025, with early adoption permitted. - Adoption is not expected to have an impact on our Consolidated Financial Statements.

RISK GOVERNANCE

We are committed to maintaining a strong, integrated and proactive approach to the management of all risks to which we are exposed in pursuit of our business objectives. A key aspect of our Board's responsibility as the main decision-making body is setting our risk appetite to ensure that the levels of risk that we are willing to accept in the attainment of our strategic business and financial objectives are clearly understood.

To enable our Board to carry out its objectives, it has delegated authority for risk management activities, as well as governance and oversight of those activities, to a number of Board and executive management level risk committees. The Executive Risk Committee, chaired by the Chief Risk Officer, is responsible for oversight of risk across the enterprise and actively considers our inherent material risks, analyzes our overall risk profile and seeks confirmation that the risks are being appropriately identified, assessed and mitigated. Reporting to the Executive Risk Committee are the following committees covering specific areas of risk: Compliance and Operational Risk, Model Risk, Credit Policy, Asset Liability, Business Initiatives Review, and Conduct and Ethics.

Risk Framework

Our risk management framework is embedded in our business through a "Three Lines of Defense" model which defines responsibilities and accountabilities for risk management activities.

First Line of Defense

The business lines, including their associated support functions, are the first line of defense and are accountable for identifying, assessing, managing, and controlling the risks associated with the products and services they provide. The business lines are responsible for performing regular risk assessments to identify and assess the material risks that arise in their area of responsibility, complying with relevant risk policies, testing and certifying the adequacy and effectiveness of their operational and financial reporting controls on a regular basis, establishing and documenting operating procedures, and establishing a governance structure for identifying and managing risk.

Second Line of Defense

The second line of defense includes independent monitoring and control functions accountable for the development of risk and control frameworks and related policies, and their associated implementation. This centralized risk function is independent from the business and is accountable for overseeing and challenging our business lines on the effective management of their risks, including, but not limited to, credit, market, operational, regulatory, reputational, interest rate, liquidity, legal and strategic risks.

Third Line of Defense

Our Internal Audit function is the third line of defense providing independent assurance of the effectiveness of our internal controls, governance practices, and culture so that risk is managed appropriately for the size, complexity, and risk profile of the organization. Internal Audit has complete and unrestricted access to all of our records, physical properties and personnel. Internal Audit issues a report following each internal review and provides an audit opinion to the Board's Audit Committee on a quarterly basis.

Credit Review reports to the Chief Audit Executive and provides the Board, senior management and other stakeholders with independent assurance on the quality of credit portfolios and adherence to agreed Credit Risk Appetite and Credit Policies and processes. In line with its procedures and regulatory expectations, the Credit Review function undertakes a program of portfolio testing, assessing and reporting through four Risk Pillars of Asset Quality, Rating and Data Integrity, Risk Management and Credit Risk Appetite.

Risk Appetite

Risk appetite is a strategic business and risk management tool. We define our risk appetite as the maximum limit of acceptable risk beyond which we could be unable to achieve our strategic objectives and capital adequacy obligations.

Our principal non-market risks include credit, operational, regulatory, reputational, liquidity and strategic risks. We are also subject to certain market risks which include potential losses arising from changes in interest rates, foreign exchange rates, equity prices, commodity prices and/or other relevant market rates or prices. Market risk in our business arises from trading activities that serve customer needs, including hedging of interest rates, foreign exchange risk and non-trading activities within capital markets. We have established enterprise-wide policies and methodologies to identify, measure, monitor and report on market risk. We actively manage both trading and non-trading market risks. See “Market Risk” for further information. Our risk appetite is reviewed and approved annually by the Board Risk Committee.

Credit Risk

Overview

Credit risk represents the potential for loss arising from a customer, counterparty, or issuer failing to perform in accordance with the contractual terms of the obligation. While the majority of our credit risk is associated with lending activities, we do engage with other financial counterparties for a variety of purposes including investing, asset and liability management, and trading activities. Given the financial impact of credit risk on our earnings and balance sheet, the assessment, approval and management of credit risk represents a major part of our overall risk-management responsibility.

Objective

The independent Credit Risk Function is responsible for reviewing and approving credit risk appetite across all lines of business and credit products, approving larger and higher-risk credit transactions, monitoring portfolio performance, identifying problem credit exposures, and ensuring remedial management.

Organizational Structure

Management and oversight of credit risk is the responsibility of both the business line and the second line of defense. The second line of defense, the independent Credit Risk Function, is led by the Chief Credit Officer who oversees all credit risk and reports to the Chief Risk Officer. The Chief Credit Officer, acting in a manner consistent with Board policies, has responsibility for, among other things, the governance process around policies, procedures, risk acceptance criteria, credit risk appetite, limits and authority delegation. The Chief Credit Officer and team also have responsibility for credit approvals for larger and higher-risk transactions and oversight of line of business credit risk activities. Reporting to the Chief Credit Officer are the heads of the second line of defense credit functions specializing in: Consumer Banking, Commercial Banking, Citizens Restructuring Management, Portfolio and Corporate Reporting, ALLL Analytics, Current Expected Credit Loss, and Credit Policy and Administration. Each team under these leaders is composed of experienced credit professionals.

Governance

The primary mechanisms used to govern our credit risk function are our consumer and commercial credit policies. These policies outline the minimum acceptable lending standards that align with our desired risk appetite. Material changes in our business model and strategies that identify a need to change our risk appetite or highlight a risk not previously contemplated are identified by the individual committees and presented to the Credit Policy Committee, Executive Risk Committee and the Board Risk Committee for approval, as appropriate.

Key Management Processes

We employ a comprehensive and integrated risk control program to proactively identify, measure, monitor, and mitigate existing and emerging credit risks across the credit life cycle including origination, account/portfolio management, and loss mitigation and recovery.

Consumer

On the Consumer Banking side of credit risk, our teams use models to evaluate consumer loans across the life cycle of the loan. Credit scoring models are used to forecast the probability of default of an applicant at origination. When approving customers for a new loan or extension of an existing credit line, credit scores are used in conjunction with other credit risk variables such as affordability, length of term, collateral value, collateral type, and lien subordination.

Lending authority is granted by the second line of defense credit risk function to each underwriter to ensure proper oversight of the underwriting teams. The amount of delegated authority depends on the experience of the individual. We periodically evaluate the performance of each underwriter and annually reauthorize their delegated authority. Only senior members of the second line of defense credit risk team are authorized to approve significant exceptions to credit policies. It is not uncommon to make exceptions to established policies when compensating factors are present. There are exception limits which, when reached, trigger a comprehensive analysis.

Credit scores and collateral values are refreshed at regular intervals once an account is established to allow for proactive identification of increasing or decreasing levels of credit risk. Our approach to managing credit risk is highly analytical and, where appropriate, is automated to ensure consistency and efficiency.

Commercial

On the Commercial Banking side of credit risk, risk management begins with defined credit products and policies and is separated into commercial and industrial loans, CRE and leases. Within commercial and industrial loans and leases there are separate verticals established for certain specialty products (e.g., asset-based lending, leasing, franchise finance, health care, technology and mid-corporate). A “specialty vertical” is a stand-alone team of industry or product specialists. Substantially all activity that falls under the ambit of the defined industry or product is managed through a specialty vertical when one exists. CRE also operates as a specialty vertical.

Commercial transactions are subject to individual analysis and approval at origination and, with few exceptions, are subject to a formal annual review requirement. The underwriting process includes the establishment and approval of credit grades that establish the PD and LGD. All material transactions require the approval of both a business line approver and an independent credit approver with the requisite level of delegated authority. The approval level of a particular credit facility is determined by the size of the credit relationship as well as the PD. The checks and balances in the credit process and the independence of the credit approver function are designed to appropriately assess and sanction the level of credit risk being accepted, facilitate the early recognition of credit problems when they occur, and to provide for effective problem asset management and resolution. All authority to grant credit is delegated through the independent Credit Risk function and is closely monitored and updated annually at a minimum.

The primary factors considered in commercial credit approvals are the financial strength of the borrower, assessment of the borrower’s management capabilities, cash flows from operations, industry sector trends, type and sufficiency of collateral, type of exposure, transaction structure, and the general economic outlook. While these are the primary factors considered, there are a number of other factors that may be considered in the decision process. In addition to the credit analysis conducted during the approval process at origination and annual review, our Credit Review group performs testing to provide an independent review and assessment of the quality of the portfolio and new originations. This group conducts portfolio reviews on a risk-based cycle to evaluate individual loans and validate risk ratings, as well as test the consistency of the credit processes and the effectiveness of credit risk management.

The maximum level of credit exposure to individual credit borrowers is limited by policy guidelines based on the perceived risk of each borrower or related group of borrowers. Concentration risk is managed through limits on industry asset class and loan quality factors. We focus predominantly on extending credit to commercial customers with existing or expandable relationships within our primary markets, although we do engage in lending opportunities outside our primary markets if we believe that the associated risks are acceptable and aligned with strategic initiatives.

Substantially all loans categorized as Classified are managed by a specialized group of credit professionals.

MARKET RISK

Market risk refers to potential losses arising from changes in interest rates, foreign exchange rates, equity prices, commodity prices and/or other relevant market rates or prices. Modest market risk arises from trading activities that serve customer needs, including the hedging of interest rate and foreign exchange risk. As described below, the market risk arising from our non-trading banking activities, such as the origination of loans and deposit-gathering, is more significant. We have established enterprise-wide policies and methodologies to identify, measure, monitor and report market risk. We actively manage market risk for both non-trading and trading activities.

Non-Trading Risk

Our non-trading banking activities expose us to market risk. This market risk is composed of interest rate risk, as we have no commodity risk and de minimis direct currency and equity risk. We also have market risk related to capital markets loan originations, as well as the valuation of our MSRs.

Interest Rate Risk

Interest rate risk emerges from the balance sheet after the aggregation of our assets, liabilities and equity. We refer to this non-trading risk embedded in the balance sheet as “structural interest rate risk” or “interest rate risk in the banking book.”

A major source of structural interest rate risk is a difference in the repricing of assets relative to liabilities and equity. There are differences in the timing and drivers of rate changes reflecting the maturity and/or repricing of assets and liabilities. For example, the rate earned on a commercial loan may reprice monthly with changes in the benchmark rate, while the rate paid on debt or certificates of deposit may be fixed for a longer period. There may also be differences in the drivers of rate changes. Loans may be tied to a specific index rate such as SOFR or Prime, while deposits may not be as correlated with such rates and more dependent upon competitive demand. Due to these basis differences, net interest income is sensitive to changes in spreads between certain indices or repricing rates.

A primary source of our structural interest rate risk relates to faster repricing of floating-rate loans relative to core deposit funding. This source of asset sensitivity is more biased toward the short end of the yield curve.

The secondary source of our interest rate risk is driven by longer term rates comprising the rollover or reinvestment risk on fixed-rate loans, as well as prepayment risk on mortgage-related loans and securities funded by non-rate sensitive deposits and equity.

Another important source of structural interest rate risk relates to the potential exercise of explicit or embedded options. For example, most consumer loans can be prepaid without penalty and most consumer deposits can be withdrawn without penalty. The exercise of such options by customers can exacerbate the timing differences discussed above.

The primary goal of interest rate risk management is to control exposure to interest rate risk within policy limits approved by our Board. These limits and guidelines reflect our tolerance for interest rate risk over both short-term and long-term horizons. To ensure that exposure to interest rate risk is managed within our risk appetite, we measure the exposure and hedge it, as necessary. The Treasury Asset and Liability Management team is responsible for measuring, monitoring and reporting on our structural interest rate risk position. These exposures are reported on a monthly basis to the Asset Liability Committee and at Board meetings.

We measure structural interest rate risk through a variety of metrics intended to quantify both short-term and long-term exposures. The primary method we use to quantify interest rate risk is simulation analysis in which we model net interest income from assets, liabilities and hedge derivative positions under various interest rate scenarios over a three-year horizon. Exposure to interest rate risk is reflected in the variation of forecasted net interest income across these scenarios.

Key assumptions in this simulation analysis relate to the behavior of interest rates and spreads, changes in product balances and the behavior of our loan and deposit customers in different rate environments. Repricing characteristics and balance fluctuations of deposits with indeterminate (i.e., non-contractual) maturities, as well as the pace of mortgage prepayments are the most significant behavioral assumptions. We utilize product level models that consider specific product characteristics and composition of the deposit portfolio, along with current and forward-looking market dynamics, to project deposit rates. Similarly, we employ dynamic prepayment and mortgage rate models to project prepayment behaviors specific to each of our product offerings. These models are developed based on internal performance data over prior interest rate cycles and calibrated to our experience and outlook for rates across a diverse set of market environments. We assess our models and assumptions periodically by running sensitivity analyses to determine the impact of changes to inputs or assumptions on our risk results, which are reported to the Asset Liability Committee.

Since we cannot predict the future path of interest rates, we use simulation analysis to project net interest income under various interest rate scenarios including a “most likely” (implied forward) scenario, as well as a variety of extreme and unlikely scenarios. These scenarios may assume gradual ramping of the overall level of interest rates, immediate shocks to the level of rates and various yield curve twists in which movements in short- or long-term rates predominate. Generally, projected net interest income in any interest rate scenario is compared to net interest income in a base case where market-forward rates are realized.

The table below reports net interest income exposures against a variety of interest rate scenarios. Our policies involve measuring exposures as a percentage change in net interest income over the next year due to either instantaneous or gradual parallel changes in rates relative to the market implied forward yield curve. As the following table illustrates, our balance sheet is marginally asset-sensitive; net interest income would benefit from an increase in interest rates, while exposure to a decline in interest rates is within limits established and monitored by senior management. While an instantaneous and severe shift in interest rates is included in this analysis, we believe that any actual shift in interest rates would be more gradual and, therefore, have a more modest impact.

The table below presents the sensitivity of net interest income to various parallel yield curve shifts from the market implied forward yield curve:

Table 27: Sensitivity of Net Interest Income

Basis points	Estimated % Change in Net Interest Income over 12 Months	
	December 31,	
	2023	2022
Instantaneous Change in Interest Rates		
+200	— %	4.8%
+100	0.5	2.4
-100	(1.5)	(2.5)
-200	(3.0)	(5.6)
Gradual Change in Interest Rates		
+200	0.4 %	2.7%
+100	0.5	1.4
-100	(1.0)	(1.4)
-200	(1.9)	(3.0)

We continue to manage asset sensitivity within the scope of our policy, changing market conditions and changes in our balance sheet. The Company’s base case net interest income assumes the forward-rate path implied by the yield curve is realized, which reflects a Fed Funds rate of 4.25% at the end of 2024, reflecting five 25 basis point reductions beginning in the second quarter of 2024. The rate risk exposure is then measured based on assumed changes from that base case rate path.

As of December 31, 2023, our asset sensitivity has shifted to a more neutral position compared to 2022. This reflects the impacts of changes in our balance sheet mix, including securities, loans, deposits, borrowed funds and ongoing hedge activity, which is primarily comprised of received fixed swaps that offset our naturally asset-sensitive balance sheet. Our sensitivity profile exhibits asymmetry for up and down rate scenarios as we expect to see incremental deposit migration to higher rate products in response to rising rate scenarios compared to declining rate scenario.

We use a valuation measure of exposure to structural interest rate risk, EVE, as a supplement to net interest income simulations. EVE complements net interest income simulation analysis as it estimates risk exposure over a long-term horizon. EVE measures the extent to which the economic value of assets, liabilities and off-balance sheet instruments may change in response to fluctuations in interest rates. This analysis is highly dependent upon assumptions applied to assets and liabilities with non-contractual maturities. We employ sophisticated models for prepayments and deposit pricing and attrition, which provide a granular view of cash flows based on the unique characteristics of the underlying products and customer segments. The change in value is expressed as a percentage of regulatory capital.

We use interest rate contracts as part of our ALM strategy to manage exposure to the variability in the interest cash flows on our floating-rate assets and wholesale funding, the variability in the fair value of AFS securities, and to hedge market risk on fixed-rate capital markets debt issuances.

The following table presents interest rate derivative contracts that we have entered into as of December 31, 2023 and 2022.

Table 28: Interest Rate Derivative Contracts Used to Manage Non-Trading Interest Rate Exposure

	December 31, 2023				December 31, 2022			
		Weighted Average				Weighted Average		
(dollars in millions)	Notional Amount	Maturity (Years)	Fixed Rate	Reset Rate	Notional Amount	Maturity (Years)	Fixed Rate	Reset Rate
Fair value hedges:								
Asset conversion swaps:								
AFS securities:								
Pay fixed/receive SOFR	\$5,365	6.2	3.8 %	5.4 %	\$—	—	— %	— %
Liability conversion swaps:								
Long-term borrowed funds:								
Receive fixed/pay 3-month LIBOR	—	—	—	—	1,000	1.6	2.7	4.7
Receive fixed/pay SOFR	500	1.9	2.6	5.6	—	—	—	—
Total fair value hedges	5,865				1,000			
Cash flow hedges:								
Asset conversion swaps:								
Loans:								
Swaps								
Receive fixed/pay SOFR	17,780	0.8	4.0	5.4	500	2.7	3.5	4.3
Receive fixed/pay SOFR - forward-starting	31,250	2.9	3.3	4.6	13,500	3.2	3.0	4.5
Receive fixed/pay 1-month LIBOR	—	—	—	—	15,250	3.8	1.8	4.3
Receive fixed/pay 1-month LIBOR - forward-starting	—	—	—	—	2,000	5.2	2.9	4.9
Basis swaps								
Receive SOFR/pay 1-month term SOFR	5,000	1.0	—	5.3/5.3	—	—	—	—
Receive SOFR/pay 1-month term SOFR - forward-starting	14,000	2.7	—	5.2/5.1	7,000	3.3	—	4.4/4.4
			Floor Rate	Cap Rate			Floor Rate	Cap Rate
Options								
Interest rate collars ⁽¹⁾	1,000	1.5	2.5	3.7	—	—	—	—
Interest rate collars - forward-starting ⁽¹⁾	500	2.5	2.7	4.4	1,500	2.8	2.6	3.9
Floor spreads - forward-starting ⁽²⁾	2,500	2.8	2.2/3.2	—	—	—	—	—
Total cash flow hedges	72,030				39,750			
Total hedges	\$77,895				\$40,750			

⁽¹⁾ Weighted average floor and cap rates represent strike rates through which CFG will receive interest if the SOFR rate falls below the floor strike rate and pay interest if the SOFR rate exceeds the cap strike rate.

⁽²⁾ Weighted average floor rate represents strike rates for the short and long interest rate floors, respectively. CFG will receive interest if the SOFR rate falls below the upper strike rate and pay interest if the SOFR rate falls below the lower strike rate, effectively hedging the corridor between the two strike rates. The structure also includes a short cap and a long floor which are utilized to neutralize the initial premium.

The following table presents the average active notional amounts for our interest rate derivatives, based on contract effective date, for the next five years:

Table 29: Average Active Notional for Interest Rate Derivative Contracts

(dollars in millions)	Year Ended				
	2024	2025	2026	2027	2028
Fair value hedges					
Pay fixed/receive SOFR ⁽¹⁾	\$5,365	\$5,359	\$5,131	\$4,275	\$4,143
Receive fixed/pay SOFR ⁽²⁾	500	441	—	—	—
Cash flow hedges					
Receive fixed/pay SOFR ⁽²⁾	25,783	30,094	21,900	7,589	210
Receive SOFR/pay 1-month term SOFR	12,186	13,052	8,847	1,952	—
Interest rate collars	1,260	1,001	240	—	—
Floor spreads	1,488	2,500	1,467	460	—
Total	\$46,582	\$52,447	\$37,585	\$14,276	\$4,353
Weighted average receive fixed rate	3.2 %	3.2 %	3.5 %	3.7 %	2.6 %
Weighted average pay fixed rate	3.8	3.8	3.7	3.7	3.7

⁽¹⁾ Pay fixed rate leg of the interest rate derivative contract is included in the computation of the weighted average pay fixed rate.

⁽²⁾ Receive fixed rate leg of the interest rate derivative contract is included in the computation of the weighted average receive fixed rate.

Table 30: Pre-Tax Gains (Losses) Recorded in the Consolidated Statements of Operations and the Consolidated Statements of Comprehensive Income on Cash Flow Hedges

(dollars in millions)	Year Ended December 31,	
	2023	2022
Amount of pre-tax net gains (losses) recognized in OCI	(\$145)	(\$1,806)
Amount of pre-tax net gains (losses) reclassified from AOCI into interest income	(596)	(111)
Amount of pre-tax net gains (losses) reclassified from AOCI into interest expense	—	(4)

Using the interest rate curve at December 31, 2023, we estimate that approximately \$914 million in pre-tax net losses related to cash flow hedge strategies will be reclassified from AOCI to net interest income over the next 12 months, including \$460 million from terminated swaps. This amount could differ from amounts actually recognized due to changes in interest rates, hedge de-designations and the addition of other hedges subsequent to December 31, 2023.

LIBOR Transition

In July 2017, the United Kingdom's FCA announced that it would no longer require banks to submit LIBOR rates after 2021. On March 5, 2021, the FCA formally announced the future cessation of 1-week and 2-month U.S. Dollar LIBOR rates as of December 31, 2021, with all other U.S. Dollar LIBOR tenors ceasing as of June 30, 2023. In the United States, the Alternative Reference Rates Committee, a group of private-market participants convened to help ensure a successful transition away from U.S. Dollar LIBOR, identified SOFR as its recommended alternative rate.

On March 15, 2022, the Adjustable Interest Rate (LIBOR) Act (the "LIBOR Act") was signed into law, with the FRB adopting its final rule, effective February 27, 2023, to implement the LIBOR Act on December 16, 2022. The final rule addresses references to LIBOR in contracts that (i) are governed by U.S. law; (ii) will not mature before June 30, 2023; and (iii) lack fallback provisions providing for a clearly defined and practical replacement for LIBOR. The Company assessed the impact of this legislation and applied its provisions accordingly to transition its LIBOR contracts to an alternative rate.

As of June 30, 2023, the Company's transition and remediation efforts were complete, with ongoing monitoring for LIBOR-based financial instruments that will transition to alternative rates at their next interest rate reset date.

Capital Markets

A key component of our capital markets activities is the underwriting and distribution of corporate credit facilities to finance merger and acquisition transactions for our clients. We have a rigorous risk management process around these activities, including a limit structure capping our underwriting risk, potential loss, and sub-limits for specific asset classes. Further, the ability to approve underwriting exposure is delegated only to senior level individuals in the credit risk management and capital markets organizations with each transaction adjudicated in the Loan Underwriting Approval Committee.

Mortgage Servicing Rights

We have market risk associated with the value of residential MSRs, which are impacted by various types of inherent risks, including duration, basis, convexity, volatility and yield curve.

As part of our overall risk management strategy we enter into various free-standing derivatives, such as interest rate swaps, interest rate swaptions, interest rate futures and forward contracts to purchase mortgage-backed securities to economically hedge the change in fair value of our MSRs. As of December 31, 2023 and 2022, the fair value of our MSRs was \$1.6 billion and \$1.5 billion, respectively, and the total notional amount of related derivative contracts was \$15.1 billion and \$12.9 billion, respectively. Gains and losses on MSRs and the related derivatives used for hedging are included in mortgage banking fees in the Consolidated Statements of Operations.

As with our traded market risk-based activities, earnings at risk excludes the impact of MSRs. MSRs are captured under our single price risk management framework that is used for calculating a management value at risk consistent with the definition used by banking regulators.

Trading Risk

We are exposed to market risk primarily through client facilitation activities including derivatives and foreign exchange products as well as underwriting and market making activities. Exposure is created as a result of changes in interest rates and related basis spreads and volatility, foreign exchange rates, equity prices, and credit spreads on a select range of interest rates, foreign exchange, commodities, equity securities, corporate bonds and secondary loan instruments. These securities underwriting and trading activities are conducted through CBNA and Citizens JMP Securities, LLC.

Client facilitation activities consist primarily of interest rate derivatives, financially settled commodity derivatives and foreign exchange contracts where we enter into offsetting trades with a separate counterparty or exchange to manage our market risk exposure. In addition, we operate trading desks covering secondary loans, corporate bonds, and equity securities, with the objective of meeting secondary liquidity needs of our issuing clients' transactions and investor clients. We do not engage in any trading activities to benefit from short-term price differences.

Market Risk Governance

The process of setting our market risk limit is established in accordance with the formal enterprise risk appetite process and policy, which reflects the strategic and enterprise level articulation of opportunities for creating franchise value set to the boundaries of how much market risk to assume. Dealing authorities represent the key control tool in the management of market risk that allows the cascading of the risk appetite throughout the enterprise. A dealing authority sets the operational scope and tolerances within which a business and/or trading desk is permitted to operate, which is reviewed annually at a minimum. Dealing authorities are structured to accommodate client facing trades and hedges needed to manage the risk profile, with responsibility for remaining within established tolerances residing with the business. Key risk indicators, including VaR, open foreign currency positions and single name risk are monitored daily and reported against tolerances consistent with our risk appetite and business strategy to the appropriate business line management and risk counterparts.

Market Risk Measurement

We use VaR as a statistical measure for estimating potential exposure of our traded market risk in normal market conditions. Our VaR framework for risk management and regulatory reporting is the same. Risk management VaR is based on a one-day holding period to a 99% confidence level and regulatory VaR is based on a ten-day holding period to the same confidence level. In addition to VaR, non-statistical measurements for measuring risk such as sensitivity analysis, market value and stress testing are employed.

Our market risk platform and associated market risk and valuation models capture correlation effects across all our “covered positions” and allow for aggregation of market risk across products, risk types, business lines and legal entities. We measure, monitor and report market risk for management and regulatory capital purposes.

VaR Overview

The market risk measurement model is based on historical simulation. The VaR measure estimates the extent of any fair value losses on trading positions that may occur due to broad market movements (General VaR) such as changes in the level of interest rates, foreign exchange rates, equity prices and commodity prices. It is calculated on the basis that current positions remain relatively unaltered over the course of a given holding period with the assumption that markets are sufficiently liquid to allow the business to close its positions, if required, within this holding period. Based on the composition of our “covered positions,” we also use a standardized add-on approach for the loan trading and high yield bond desks’ Specific Risk capital, which estimates the extent of any losses that may occur from factors other than broad market movements. The General VaR approach is expressed in terms of a confidence level over the past 500 trading days. The internal VaR measure, used as the basis of the main VaR trading limits, is a 99% confidence level with a one-day holding period, indicating that a loss greater than the VaR is expected to occur, on average, on only one day in 100 trading days (i.e., 1% of the time). Theoretically, there should be a loss event greater than VaR two to three times per year. The regulatory measure of VaR is a 99% confidence level with a ten-day holding period. The historical market data applied to calculate the VaR is updated on a two-business day lag. Refer to “Market Risk Regulatory Capital” below for details of our ten-day VaR metrics for the quarters ended December 31, 2023 and 2022.

Market Risk Regulatory Capital

The U.S. banking regulators’ “Market Risk Rule” covers the calculation of market risk capital. Under this rule all of our client facing trades and associated hedges maintain a net low risk and qualify as “covered positions.” The internal management VaR measure is calculated based on the same population of trades that is utilized for regulatory VaR.

Table 31: Results of Modeled and Non-Modeled Measures for Regulatory Capital Calculations

(dollars in millions)	For the Three Months Ended December 31, 2023				For the Three Months Ended December 31, 2022			
	Period End	Average	High	Low	Period End	Average	High	Low
Market Risk Category								
Interest Rate	\$3	\$3	\$5	\$2	\$3	\$2	\$3	\$1
Foreign Exchange Currency Rate	—	—	2	—	—	—	—	—
Credit Spread	1	1	2	1	2	2	2	2
Commodity	—	—	—	—	—	—	—	—
General VaR	4	4	6	3	5	3	5	2
Specific Risk VaR	—	—	—	—	—	—	—	—
Total VaR	\$4	\$4	\$6	\$3	\$5	\$3	\$5	\$2
Stressed General VaR	\$4	\$7	\$14	\$3	\$12	\$10	\$15	\$6
Stressed Specific Risk VaR	—	—	—	—	—	—	—	—
Total Stressed VaR	\$4	\$7	\$14	\$3	\$12	\$10	\$15	\$6
Market Risk Regulatory Capital	\$33				\$39			
Specific Risk Not Modeled Add-on	17				20			
de Minimis Exposure Add-on	1				—			
Total Market Risk Regulatory Capital	\$51				\$59			
Market Risk-Weighted Assets	\$643				\$739			

Stressed VaR

SVaR is an extension of VaR and utilizes a longer historical look-back horizon, fixed from January 3, 2005, to identify headline risks from more volatile periods and to provide a counterbalance to VaR, which may be low during periods of low volatility. The holding period for profit and loss determination is ten days. In addition to its utilization for risk management purposes, SVaR is a component of market risk regulatory capital. We calculate SVaR daily under its own dynamic window regime whereby values of the ten-day, 99% VaR are calculated over all 260-day periods that can be obtained from the complete historical data set. Refer to “Market Risk Regulatory Capital” above for SVaR metrics.

Sensitivity Analysis

Sensitivity analysis is the measure of exposure to a single risk factor, such as a one basis point change in rates or credit spread. We conduct and monitor sensitivity on interest rates, basis spreads, foreign exchange exposures, option prices and credit spreads. Since VaR is based on previous moves in market risk factors over recent periods, it may not be an accurate predictor of future market moves. Sensitivity analysis complements VaR as it provides an indication of risk relative to each factor irrespective of historical market moves and is an effective tool in evaluating the appropriateness of hedging strategies and concentrations.

Stress Testing

Conducting a stress test of a portfolio consists of running risk models with the inclusion of key variables that simulate various historical or hypothetical scenarios. For historical stress tests, profit and loss results are simulated for select time periods corresponding to the most volatile underlying returns, while hypothetical stress tests aim to consider concentration risk, illiquidity under stressed market conditions and risk arising from our trading activities that may not be fully captured by our other risk-measurement methodologies. Hypothetical scenarios also assume that market moves occur simultaneously and no repositioning or hedging activity takes place to mitigate losses as market events unfold. Stress tests of our trading positions are generated daily.

VaR Model Review and Validation

Our market risk measurement models are independently reviewed and subject to ongoing performance analysis by the model owners. This independent review and validation focuses on model methodology, market data and performance and is the responsibility of Citizens’ Model Risk Management and Validation team. This team challenges the assumptions used and quantitative techniques employed, including the theoretical justification supporting them, and performs an assessment of the soundness of the required data over time. The quantitative impact of the major underlying modeling assumptions is estimated (e.g., through developing alternative models), if possible. The market risk models may be periodically enhanced due to changes in market price levels and price action regime behavior. The Market Risk Management and Validation team conducts internal validation before a new or changed model element is implemented and before a change is made to market data mapping.

VaR Backtesting

Backtesting is one form of validation of the VaR model and is run daily. The Market Risk Rule requires a comparison of our internal VaR measure to the actual net trading revenue (excluding fees, commissions, reserves, intra-day trading and net interest income) for each day over the preceding year (the most recent 250 business days). Any observed loss in excess of the VaR number is taken as an exception. The level of exceptions determines the multiplication factor used to derive the VaR and SVaR-based capital requirement for regulatory reporting purposes, when applicable. We perform sub-portfolio backtesting as required under the Market Risk Rule, using models approved by our banking regulators for interest rate, credit spread and foreign exchange positions.

The following graph shows our daily net trading revenue and total internal, modeled VaR for the year ended December 31, 2023.

NON-GAAP FINANCIAL MEASURES AND RECONCILIATIONS

For more information on the computation of non-GAAP financial measures, see “Introduction – Non-GAAP Financial Measures,” included in this Report. The following table presents computations of non-GAAP financial measures representing our “Underlying” results used in the MD&A:

Table 32: Reconciliations of Non-GAAP Measures

		Year Ended December 31,

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. The Company's system of internal control over financial reporting is designed, under the supervision of the Chief Executive Officer and the Chief Financial Officer, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's system of internal control over financial reporting as of December 31, 2023 based on the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control – Integrated Framework (2013)*. Based on that assessment, management concluded that, as of December 31, 2023, the Company's internal control over financial reporting is effective.

The Company's internal control over financial reporting as of December 31, 2023 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their accompanying report appearing on page [83](#), which expresses an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of
Citizens Financial Group, Inc.
Providence, Rhode Island

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Citizens Financial Group, Inc. and its subsidiaries (the "Company") as of December 31, 2023 and 2022, the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows, for each of the three years in the period ended December 31, 2023, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 16, 2024, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing a separate opinion on the critical audit matters or on the accounts or disclosures to which they relate.

Allowance for Credit Losses - Refer to Note 6 to the consolidated financial statements

Critical Audit Matter Description

The Company's estimate of expected credit losses in its loan and lease portfolios is recorded in the ACL. The ACL is maintained at a level the Company believes to be appropriate to absorb expected lifetime credit losses over the contractual life of a loan or lease and on the unfunded lending commitments. The determination of the ACL is based on periodic evaluation of the loan and lease portfolios and unfunded lending commitments that are not unconditionally cancellable. A number of relevant underlying factors, including key assumptions and evaluation of quantitative and qualitative information, are considered.

Key assumptions used in the ACL measurement process include the use of a two-year reasonable and supportable economic forecast period followed by a one-year reversion period to historical credit loss information.

The quantitative evaluation of the adequacy of the ACL utilizes a single economic forecast as its foundation and is primarily based on econometric models that use known or estimated data as of the balance sheet date and forecasted data over the reasonable and supportable period. Known and estimated data include current PD, LGD and EAD for commercial loans, timing and amount of expected draws for unfunded lending commitments, FICO, LTV, and term for retail loans. The mix and level of loan balances, delinquency levels, assigned risk ratings, previous loss experience, current business conditions, amounts and timing of expected future cash flows, and factors particular to specific commercial credits such as competition, business and management performance are also considered. Forward-looking economic assumptions include real gross domestic product, unemployment rate, interest rate curve, and changes in collateral values. This data is accumulated to estimate expected credit losses over the contractual life of the loans and leases, adjusted for expected prepayments. Historical information, such as financial statements for commercial customers or consumer credit ratings, may not be as important to estimating future expected losses as forecasted inputs to the models during volatile economic time periods.

The ACL may also be affected by a variety of qualitative factors that the Company considers that are not measured in the statistical procedures including uncertainty related to the economic forecasts, loan growth, backtesting results, credit underwriting policy exceptions, regulatory and audit findings, and peer comparisons. The qualitative allowance is further affected by sensitivity analysis for certain industry sectors or loan classes, including CRE office.

Given the size of the loan and lease portfolios and unfunded commitments and the subjective nature of estimating the ACL, including the estimated impact of the factors noted above and related economic forecasting uncertainty, auditing the ACL involved a high degree of auditor judgment and an increased extent of effort.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the ACL for the loan and lease portfolios and unfunded commitments included the following, among others:

- We tested the effectiveness of controls over the (i) selection of the economic forecasts, (ii) development, execution, and monitoring of the econometric models, (iii) estimation of management's adjustments to the modeled reserves in the industry sectors facing challenges in the current macroeconomic environment, (iv) determination of the qualitative allowance, and (v) overall calculation and disclosure of the ACL.
- With the assistance of credit specialists, we (i) evaluated the reasonableness of the econometric models and related assumptions, (ii) assessed the reasonableness of design, theory, and logic of the econometric models for estimating expected credit losses, (iii) tested the accuracy of the data input into the econometric models, and (iv) tested the arithmetic accuracy of the models' calculations of the expected credit losses.
- We (i) evaluated the appropriateness and relevance of the qualitative factors, including management's consideration of the economic forecasting uncertainty and adjustments to the modeled reserves for the industry sectors facing challenges in the current macroeconomic environment, (ii) tested the accuracy and evaluated the relevance of the historical loss data used in determining the qualitative allowance, (iii) evaluated the reasonableness of the Company's assessment and determination of the qualitative factors and related impact on the estimation of the qualitative allowance and (iv) tested the arithmetic accuracy of the calculation of the qualitative allowance.
- We tested the arithmetic accuracy of the calculation of the overall ACL and assessed the reasonableness of the related disclosures.

Goodwill - Refer to Note 10 to the consolidated financial statements

Critical Audit Matter Description

Management has identified and assigned goodwill to two reporting units, Consumer Banking and Commercial Banking.

Management reviews the goodwill of each reporting unit for impairment on an annual basis as of October 31st or more frequently if events or circumstances change that indicate an impairment may exist.

Management performed a quantitative goodwill impairment test due to a triggering event in the third quarter of 2023 in addition to performing a quantitative impairment test associated with its annual assessment date. In both instances, the fair value of the Company's reporting units was determined using a combination of income and market-based approaches. Under the income approach, key assumptions included cash flow projections based on multi-year forecasts, long-term earnings growth rate, and discount rates. Under the market-based approach, key assumptions included determination of comparable public companies, valuation multiples, and utilization of a market control premium associated with cost synergies and other cash flow benefits that arise from obtaining control over a reporting unit, and guideline transactions, when applicable.

We identified the goodwill impairment tests as a critical audit matter because these fair value determinations require management to make significant estimates and assumptions. Performing audit procedures to evaluate the reasonableness of these estimates and assumptions required a high degree of auditor judgment and an increased extent of effort, including the involvement of our valuation specialists.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the valuation of the Company's reporting units included the following, among others:

- We tested the design, implementation, and operating effectiveness of internal controls over the goodwill impairment tests, including controls over the (i) accounting and valuation conclusions reached by management, (ii) relevant business and valuation assumptions, and (iii) determination of its operating segments and reporting units.
- With the assistance of internal valuation specialists, we (i) evaluated the appropriateness of the valuation methodology used and the reasonableness of the valuation and business assumptions, including the selection of discount rates, market multiples, and long-term earnings growth rate, (ii) assessed the mathematical accuracy of the valuation calculations, and (iii) assessed the reasonableness of the consolidated Company valuation in comparison to the Company's market capitalization.
- We tested the completeness and accuracy of the data used in the valuation of the commercial and consumer reporting units.
- We tested the reasonableness of Management's forecast used in the valuation of the commercial and consumer reporting units.

/s/ Deloitte & Touche LLP

Boston, Massachusetts

February 16, 2024

We have served as the Company's auditor since 2000.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of
Citizens Financial Group, Inc.
Providence, Rhode Island

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Citizens Financial Group, Inc. and its subsidiaries (the “Company”) as of December 31, 2023, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2023, of the Company and our report dated February 16, 2024, expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

⁽¹⁾ Primarily includes cash paid of \$355 million to acquire Investors less \$287 million in cash acquired, and \$143 million and \$23 million of cash paid for the HSBC transaction and acquisition of DH Capital, LLC, respectively, for the year ended December 31, 2022.

⁽²⁾ Cash and cash equivalents include cash and due from banks and interest-bearing cash and due from banks as reflected on the Consolidated Balance Sheets.

The accompanying Notes to Consolidated Financial Statements are an integral part of these statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The Company is a regional bank holding company organized under Delaware law and headquartered in Providence, Rhode Island. Through its bank subsidiary, CBNA, the Company provides a broad range of retail and commercial banking products and services to individuals, small businesses, middle-market companies, large corporations and institutions. The Company's retail branch network is primarily located in the New England, Mid-Atlantic and Midwest regions, with certain lines of business serving national markets.

Basis of Presentation

The Consolidated Financial Statements include the accounts of Citizens and its subsidiaries, including VIEs in which Citizens is a primary beneficiary, and are presented in accordance with GAAP. Investments in VIEs in which the Company does not have the ability to exercise significant influence are not consolidated. All intercompany transactions and balances have been eliminated in consolidation.

During the third quarter of 2023, the Company's indirect auto and certain purchased consumer loan portfolios were transferred from the Consumer Banking segment into a new Non-Core segment to reflect the manner in which management is currently assessing performance and allocating resources. Prior period results have been revised to conform to the new segment presentation. See Note 26 for additional information.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the determination of the ACL, fair value measurements and the evaluation and measurement of goodwill impairment.

Significant Accounting Policies

The following table identifies the Company's significant accounting policies and the Note and Page where a detailed description of each policy can be found.

	<u>Note</u>	<u>Page</u>
Cash and Due From Banks	3	96

Accounting Pronouncements Adopted in 2023

Pronouncement	Summary of Guidance	Effects on Financial Statements
Troubled Debt Restructurings and Vintage Disclosures <i>Issued March 2022</i>	- Effective date: January 1, 2023. - Eliminates the separate recognition and measurement guidance for TDRs. - Requires evaluation of all modifications to borrowers experiencing financial difficulty (or FDMs) to determine whether the modification results in a new loan or continuation of an existing loan. - Requires expected credit losses measured under a discounted cash flow method to be determined using an effective interest rate based on the modified (not original) contractual terms of the loan. - Enhances disclosures by creditors for modifications of receivables from borrowers experiencing financial difficulty in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay or a term extension. - Requires disclosure of current period gross charge-offs by vintage year for loans and net investments in leases. - Transition is prospective, with an option to adopt the recognition and measurement guidance for TDRs on a modified retrospective basis, resulting in a cumulative-effect adjustment to retained earnings in the period of adoption.	- The Company adopted the new standard on January 1, 2023, and elected to apply the new measurement and recognition guidance for legacy TDRs under the modified retrospective transition method. - Adoption did not have a material impact on the Company's Consolidated Financial Statements. Required disclosures and discussion of significant accounting policies for modifications to borrowers experiencing financial difficulty are included in Note 6.
Fair Value Hedging - Portfolio Layer Method <i>Issued March 2022</i>	- Effective date: January 1, 2023. - Replaces the 'last-of-layer' method. - Allows the designation of multiple layers in a closed portfolio of financial assets. - Permits hedging of non-prepayable and prepayable assets. - Prohibits the consideration of basis adjustments when measuring expected credit losses of assets in the closed portfolio or determining whether an AFS security is impaired. - The guidance on hedging multiple layers in a closed portfolio is applied prospectively. The guidance on the accounting for fair value basis adjustments is applied on a modified retrospective basis.	- The Company adopted the new standard on January 1, 2023. - Adoption did not have a material impact on the Company's Consolidated Financial Statements.
Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method <i>Issued March 2023</i>	- Effective date: January 1, 2024. - Permits use of the proportional amortization method of accounting for all tax equity investments provided that certain conditions are met. - Proportional amortization method is elected on a tax-credit-program-by-tax-credit-program basis. - Permits adoption under the modified retrospective method or retrospective method through a cumulative-effect adjustment to retained earnings as of the beginning of the current period or first period presented, respectively. Early adoption is permitted.	- The Company adopted the new standard on January 1, 2023 for renewable energy and new markets tax credit investments under the modified retrospective approach. - Adoption resulted in a cumulative-effect reduction of \$26 million, net of taxes, to retained earnings and a corresponding reduction to other assets of \$101 million and other liabilities of \$75 million, reflecting the elimination of deferred tax liabilities associated with renewable energy investments that qualify for the proportional amortization method of accounting. - Refer to Note 11 for additional information.

NOTE 2 - ACQUISITIONS

Acquisition of HSBC

On February 18, 2022, CBNA closed on its HSBC transaction, which included 66 branches in the New York City metropolitan area, 9 branches in the Mid-Atlantic/Washington D.C. area, and 5 branches in Southeast Florida. The acquired liabilities and assets included approximately \$6.3 billion in deposits and \$1.5 billion in loans. The transaction resulted in an increase to goodwill of \$120 million, which was allocated to the Consumer business segment as of December 31, 2022.

The impact of the HSBC transaction, along with supplemental pro forma information as if the HSBC transaction had occurred on January 1, 2021, are not material to the Company's Consolidated Statements of Operations.

The HSBC transaction was accounted for as a business combination. Accordingly, the assets acquired and liabilities assumed from HSBC were recorded at fair value as of the transaction date. The determination of fair value requires management to make estimates about discount rates, future expected cash flows, market conditions and other future events that are highly subjective in nature and are subject to change. The fair value of the assets acquired and liabilities assumed from HSBC were deemed final as of June 30, 2022 and are not material to the Company's Consolidated Balance Sheet.

Investors Acquisition

On April 6, 2022, Citizens completed its Investors acquisition pursuant to an agreement and plan of merger entered into on July 28, 2021. Pursuant to the terms of the agreement, Investors merged with Citizens, with Citizens as the surviving corporation, and Investors Bank, a New Jersey state-chartered bank and wholly-owned subsidiary of Investors, merged with CBNA, with CBNA as the surviving bank. The Investors acquisition built Citizens' physical presence in the Mid-Atlantic region with the addition of 154 branches located in the greater New York City and Philadelphia metropolitan areas and across New Jersey.

Upon closing of the acquisition, each share of Investors common stock was converted into 0.297 of a share of the Company's common stock. This conversion, coupled with the conversion of equity awards noted below under "Share-Based Compensation Activity", resulted in an increase of approximately 73.6 million basic and diluted shares. The Company also paid \$1.46 in cash to shareholders of Investors for each share they owned.

The Investors acquisition was accounted for as a business combination. Accordingly, the assets acquired and liabilities assumed from Investors were recorded at fair value as of the closing date. The determination of fair value requires management to make estimates about discount rates, future expected cash flows, market conditions and other future events that are highly subjective in nature and are subject to change. Fair value estimates related to the assets acquired and liabilities assumed from Investors were subject to adjustment for up to one year after the closing date as new information was obtained about facts and circumstances that existed as of the closing date that, if known, would have affected the measurement of the amounts recognized as of that date.

Share-Based Compensation Activity

Under the terms of the merger agreement with Investors, stock options and restricted shares granted by Investors that were outstanding as of April 6, 2022 were converted into CFG awards and remained subject to their original terms and conditions. Citizens issued 1,151,301 stock options and 259,316 restricted shares in connection with the transaction.

The following table includes an allocation of the consideration paid for the fair value of the identifiable tangible and intangible assets acquired and liabilities assumed from Investors:

(dollars in millions, except per share data)	April 6, 2022
Consideration	
CFG common shares issued	72,148,855
CFG share price on April 6, 2022	\$42.08
Fair value of consideration for outstanding common stock	\$3,036
Cash paid	355
Consideration related to equity awards	19
Fair value of merger consideration	3,410
Assets acquired	
Cash and equivalents	287
Investment securities	3,826
Loans held for sale	2,162
Net loans and leases	20,139
Premises and equipment	62
Core deposit intangible and other intangible assets	119
Other assets ⁽¹⁾	919
Total assets acquired	27,514
Liabilities assumed	
Deposits	20,217
Borrowed funds	4,097
Other liabilities ⁽¹⁾	677
Total liabilities assumed	24,991
Less: Net assets	2,523
Goodwill ⁽¹⁾	\$887

⁽¹⁾ Reflects purchase accounting adjustments made during 2023.

Goodwill of \$887 million recorded in connection with the acquisition resulted from the expected synergies, operational efficiencies and expertise of Investors. The amount of goodwill recorded reflected the increased market share and related synergies that resulted from the acquisition, and represents the excess purchase price over the estimated fair value of the net assets acquired from Investors. The goodwill was allocated to the Company's Commercial Banking and Consumer Banking business operating segments and is not deductible for income tax purposes.

Intangible assets from the Investors acquisition consisted of core deposits and naming rights. For additional information regarding the Company's goodwill and intangible assets see Note 10.

The following table includes the fair value and unpaid principal balance of the loans acquired from Investors:

(dollars in millions)	April 6, 2022	
	Unpaid Principal Balance	Fair Value
Commercial and industrial	\$3,021	\$2,899
Commercial real estate	13,310	13,065
Leases	9	9
Total commercial	16,340	15,973
Residential mortgages	3,949	3,889
Home equity	267	273
Other retail	4	4
Total retail	4,220	4,166
Net loans and leases	\$20,560	\$20,139

Fair value as of April 6, 2022 reflected a credit mark of \$101 million on PCD funded loans recorded through purchase accounting, and an accretable discount of \$320 million comprised of \$179 million in interest rate mark and \$141 million in non-PCD credit mark.

The following is a description of the methods used to determine the fair value of significant assets and liabilities:

Cash and Equivalents

The carrying amount of cash and cash equivalents is a reasonable estimate of fair value based on the short-term nature of these assets.

Investment Securities

Fair value estimates for AFS securities were determined by third-party pricing vendors. The third-party vendors use a variety of methods when pricing securities that incorporate relevant market data to arrive at an estimate of what a buyer in the marketplace would pay for a security under current market conditions. These methods include the use of quoted prices for an identical or similar security and an alternative market-based or income approach like the discounted cash flow pricing model. Substantially all of the investment securities acquired in connection with the Investors acquisition were sold subsequent to closing to align with Citizens' portfolio management strategy.

Loans held for sale

Loans held for sale are valued based on quoted market prices, where available, prices for other traded loans with similar characteristics, and purchase commitments and bid information from market participants. The prices are adjusted as necessary to take into consideration the specific characteristics of certain loans that are priced based on the pricing of similar loans.

Loans and Leases

Fair values for loans and leases are based on a discounted cash flow methodology that considered factors including type of loan and lease and related collateral, fixed or variable interest rate, term, amortization status, credit loss and prepayment expectations, market interest rates and other market factors (e.g., liquidity) from the perspective of a market participant. Loans and leases were grouped together according to similar characteristics when applying various valuation techniques. The discount rates used are based on current market rates for new originations of comparable loans and leases and include adjustments for liquidity. The probability of default, loss given default, exposure at default and prepayment assumptions are the key factors driving credit losses which are embedded into the estimated cash flows.

Premises and Equipment

Fair value of premises is based on a market approach using third-party appraisals and broker opinions of value for land, office and branch space.

Core Deposit Intangible

Fair value of core deposit intangible represents the value of certain client deposit relationships, estimated utilizing the favorable source of funds method. Appropriate consideration was given to deposit costs including servicing costs, client retention and alternative funding source costs at the time of acquisition. The discount rate used was derived taking into account the estimated cost of equity, risk-free return rate and risk premium for the market, and specific risk related to the asset's cash flows. The core deposit intangible is being amortized over 10 years using an accelerated depreciation methodology.

Deposits

Fair value of time deposits was estimated by discounting contractual cash flows using current market rates for instruments with similar maturities. For deposits with no defined maturity, carrying value approximates fair value.

Borrowed Funds

The fair value of borrowed funds was estimated using a discounted cash flow methodology based on current incremental borrowing rates for similar types of instruments.

The following table presents the financial results of Investors from the date of acquisition through December 31, 2022. Investors was fully integrated into the Company's processes and systems during the first quarter of 2023; therefore, standalone financial results for Investors are no longer available.

(dollars in millions)	April 6, 2022 through December 31, 2022
Net interest income	\$627
Noninterest income	37
Net income	287

The following table presents unaudited supplemental pro forma financial information as if the Investors acquisition had occurred on January 1, 2021 and includes the impact of (i) amortizing and accreting fair value adjustments associated with loans and leases, (ii) the amortization of recognized intangible assets and the elimination of Investors' historical amortization of these assets, (iii) the elimination of Investors' historical accretion and amortization of deferred fees and costs on loans and leases, (iv) the elimination of Investors' historical accretion and amortization of discounts and premiums on loans and leases, debt securities and long-term borrowed funds and (v) the related estimated income tax effects. The pro forma financial information does not necessarily reflect the results that would have occurred had Citizens acquired Investors on January 1, 2021.

(dollars in millions)	Year Ended December 31,	
	2022	2021
Net interest income	\$6,226	\$5,342
Noninterest income	2,055	2,168
Net income ⁽¹⁾	2,408	2,376

⁽¹⁾ Excludes the acceleration of one-time executive compensation and Employee Stock Ownership Plan expenses of \$122 million incurred by Investors in the first quarter of 2022.

In addition, the supplemental pro forma financial information includes non-recurring acquisition-related costs of \$335 million incurred during the year ended December 31, 2022, as summarized in the following table. These costs, along with the \$13 million incurred during 2021, are included in the first quarter of 2021 for the purpose of reporting supplemental pro forma financial information presented above.

(dollars in millions)	Year Ended December 31, 2022
Provision for credit losses ⁽¹⁾	\$145
Salaries and employee benefits ⁽²⁾	83
Outside services ⁽³⁾	61
Mark-to-market losses on LHFS portfolio ⁽⁴⁾	31
Other operating expense	15
Total acquisition-related costs	\$335

⁽¹⁾ Represents the initial provision for credit losses also recognized through a fair value mark as required by purchase accounting.

⁽²⁾ Comprised primarily of severance and employee retention costs.

⁽³⁾ Comprised primarily of technology, legal, advisory, and other professional related fees.

⁽⁴⁾ Represents mark-to-market losses on loans acquired from Investors classified as LHFS.

Under CECL, the Company is required to determine whether purchased loans held for investment have experienced more-than-insignificant deterioration in credit quality since origination. A variety of factors are considered in connection with the identification of more-than-insignificant deterioration in credit quality including, but not limited to, nonperforming status, delinquency, risk ratings, TDR classification, FICO scores and other qualitative factors. The amortized cost of a PCD loan is initially measured by adding the acquisition date estimate of expected credit losses to the loan's purchase price. The initial ALLL for PCD loans of \$101 million was established through an adjustment to the Investors loan balance and related purchase accounting mark. Non-PCD loans and PCD loans had a fair value of \$15.6 billion and \$4.5 billion at the acquisition date and unpaid principal balance of \$15.9 billion and \$4.7 billion, respectively. In accordance with U.S. GAAP there was no carryover of the ACL that was previously recorded by Investors. Subsequent to the acquisition, an ACL on non-PCD loans of \$145 million was recorded through provision expense for credit losses.

The following table presents PCD loan activity at the date of acquisition:

(dollars in millions)	April 6, 2022
Principal balance	\$4,685
ALLL at acquisition	(101)
Non-credit discount	(72)
Purchase price	\$4,512

NOTE 3 - CASH AND DUE FROM BANKS

For the purpose of reporting cash flows, cash and cash equivalents have original maturities of three months or less and include cash and due from banks and interest-bearing cash and due from banks. The Company had no material restrictions on the use or availability of its cash as of December 31, 2023 or 2022.

NOTE 4 - SECURITIES

Investments include debt, equity and other securities. Citizens classifies debt securities as AFS, HTM, or trading based on management's intent to hold to maturity at the time of purchase. Management reserves the right to change the initial classification of a security based on its intent to hold to maturity or as permitted by periodic changes in accounting guidance. Equity securities are recorded at fair value or at cost if there is not a readily determinable fair value.

Debt securities that will be held for indefinite periods of time and may be sold in response to changes in interest rates or prepayment risk, among other factors, are classified as AFS and reported at fair value, with unrealized gains and losses, net of taxes, reported in AOCI as a separate component of stockholders' equity. Gains and losses on the sale of AFS securities are recognized in noninterest income in the Consolidated Statements of Operations and are computed using the specific identification method.

Debt securities for which the Company has the ability and intent to hold to maturity are classified as HTM and reported at amortized cost. Transfers of debt securities to the HTM classification are recognized at fair value at the date of transfer.

Interest income for AFS and HTM debt securities is recorded on the accrual basis including the amortization of premiums and the accretion of discounts utilizing the effective interest method over the estimated lives of the individual securities. Citizens uses actual prepayment experience and estimates of future prepayments to determine the constant effective yield necessary to apply the effective interest method of income recognition. Estimates of future prepayments are based on the underlying collateral characteristics of each security and are derived from market sources. Judgment is involved in making determinations about prepayment expectations and in changing those expectations in response to changes in interest rates and macroeconomic conditions. The amortization of premiums and the accretion of discounts associated with mortgage-backed securities may be significantly impacted by changes in prepayment assumptions.

Securities classified as trading are held principally for sale in the near-term and carried at fair value, with changes in fair value recognized in earnings. Realized and unrealized gains and losses on such securities are reported in noninterest income in the Consolidated Statements of Operations.

Equity securities primarily consist of FHLB and FRB stock carried at cost and money market mutual fund investments held by the Company's broker-dealers carried at fair value with changes in fair value recognized in noninterest income. Equity securities are recorded in other assets on the Consolidated Balance Sheets, with those carried at cost reviewed at least annually for impairment. Valuation adjustments, to the extent necessary, are reported in noninterest income in the Consolidated Statements of Operations.

The following table presents the major components of securities at amortized cost and fair value:

(dollars in millions)	December 31, 2023				December 31, 2022			
	Amortized Cost ⁽¹⁾	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury and other	\$4,493	\$26	(\$139)	\$4,380	\$3,678	\$1	(\$193)	\$3,486
State and political subdivisions	1	—	—	1	2	—	—	2

Total debt securities held to maturity	\$9,184	\$9	(\$843)	\$8,350	\$9,834	\$4	(\$796)	\$9,042
Equity securities, at cost ⁽²⁾	\$869	\$—	\$—	\$869	\$1,058	\$—	\$—	\$1,058
Equity securities, at fair value ⁽²⁾	173	—	—	173	153	—	—	153

⁽¹⁾ Excludes portfolio level basis adjustments of \$60 million for securities designated in active fair value hedge relationships. The basis adjustments represent a reduction to the amortized cost of the securities being hedged.

⁽²⁾ Included in other assets in the Consolidated Balance Sheets.

Accrued interest receivable on debt securities totaled \$125 million and \$107 million as of December 31, 2023 and 2022, respectively, and is included in other assets in the Consolidated Balance Sheets.

The following table presents the amortized cost and fair value of debt securities by contractual maturity as of December 31, 2023. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without incurring penalties.

	Distribution of Maturities				
(dollars in millions)	1 Year or Less	After 1 Year through 5 Years	After 5 Years through 10 Years	After 10 Years	Total
Amortized cost:

Taxable interest income from investment securities as presented in the Consolidated Statements of Operations was \$1.2 billion, \$840 million and \$487 million for the years ended December 31, 2023, 2022 and 2021, respectively.

The following table presents realized gains and losses on sale of securities:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Gains	\$36	\$13	\$15
Losses	(8)	(4)	(5)
Securities gains, net	\$28	\$9	\$10

The following table presents the amortized cost and fair value of debt securities pledged:

(dollars in millions)	December 31, 2023		December 31, 2022	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Pledged against derivatives, to qualify for fiduciary powers, or to secure public and other deposits as required by law	\$5,619	\$5,305	\$3,966	\$3,527
Pledged as collateral for FHLB borrowing capacity	242	220	244	217
Pledged against repurchase agreements	—	—	—	—

The Company regularly enters into security repurchase agreements with unrelated counterparties, which involves the transfer of a security from one party to another, and a subsequent transfer of substantially the same security back to the original party. These repurchase agreements are typically short-term in nature and are accounted for as secured borrowed funds in the Company's Consolidated Balance Sheets. The Company recognized no offsetting of short-term receivables or payables as of December 31, 2023 or 2022.

Securitizations of mortgage loans retained in the investment portfolio for the years ended December 31, 2023 and 2022 were \$102 million and \$143 million, respectively. These securitizations include a substantive guarantee by a third party. The guarantors were FNMA and FHLMC in 2023 and 2022. The debt securities received from the guarantors are classified as AFS.

Impairment

Upon purchase of HTM investment securities and at each subsequent measurement date, Citizens is required to evaluate the securities for risk of loss over their life and, if necessary, establish an associated reserve. Recognition of a reserve for expected credit losses is not required if the amount the Company expects to realize is zero (commonly referred to as "zero expected credit losses"). The Company evaluated its existing HTM portfolio as of December 31, 2023 and concluded that 95% of HTM securities met the zero expected credit loss criteria and, therefore, no ACL was recognized. Lifetime expected credit losses on the remainder of the HTM portfolio were determined to be insignificant based on the modeling of the Company's credit loss position in the securities. The Company monitors the credit exposure through the use of credit quality indicators. For these securities, the Company uses external credit ratings or an internally derived credit rating when an external rating is not available. All securities were determined to be investment grade at December 31, 2023.

Citizens reviews its AFS debt securities for impairment at the individual security level on a quarterly basis, or more frequently if a potential loss triggering event occurs. The initial indicator of impairment for AFS debt securities is a decline in fair value below its amortized cost basis. The Company recognizes an impairment loss for any security that has declined in fair value below its amortized cost basis if management has the intent to sell the security or if it is more likely than not it will be required to sell the security before recovery of its amortized cost basis.

Estimating the recovery of the amortized cost basis of a debt security is based on an assessment of the cash flows expected to be collected. If the present value of the cash flows expected to be collected, discounted at the security's original effective yield, is less than the amortized cost basis, impairment equal to the shortfall in cash flows has occurred and Citizens must evaluate whether any impairment is attributable to credit-related factors. If credit-related factors exist, a credit-related impairment has occurred regardless of the Company's intent to hold the security until it recovers.

The credit-related portion of impairment is recognized as provision expense through the establishment of an allowance for AFS securities, to the extent the allowance does not reduce the carrying value of the AFS security below its current fair value. The remaining non-credit related portion of impairment is recognized in OCI. Improvement in credit losses in subsequent periods results in a reversal of the allowance for AFS securities and a corresponding decrease to provision expense, to the extent the allowance does not become negative. Accrued interest receivable on AFS debt securities is excluded from the balances used to calculate the allowance for AFS securities. All accrued and uncollected interest is immediately reversed against interest income when it is deemed uncollectible.

The following tables present AFS debt securities with fair values below their respective carrying values, separated by the duration the securities have been in a continuous unrealized loss position:

(dollars in millions)	December 31, 2023					
	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
U.S. Treasury and other	\$49	\$—	\$3,245	(\$139)	\$3,294	(\$139)
Mortgage-backed securities:						
Federal agencies and U.S. government sponsored entities	2,939	(24)	16,398	(1,833)	19,337	(1,857)
Other/non-agency	—	—	255	(24)	255	(24)
Total mortgage-backed securities	2,939	(24)	16,653	(1,857)	19,592	(1,881)
Collateralized loan obligations	56	—	607	(3)	663	(3)
Total	\$3,044	(\$24)	\$20,505	(\$1,999)	\$23,549	(\$2,023)

(dollars in millions)	December 31, 2022					
	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
U.S. Treasury and other	\$3,356	(\$193)	\$—	\$—	\$3,356	(\$193)
Mortgage-backed securities:						
Federal agencies and U.S. government sponsored entities	13,353	(1,136)	5,042	(1,062)	18,395	(2,198)
Other/non-agency	80	(8)	171	(21)	251	(29)
Total mortgage-backed securities	13,433	(1,144)	5,213	(1,083)	18,646	(2,227)
Collateralized loan obligations	785	(26)	421	(16)	1,206	(42)
Total	\$17,574	(\$1,363)	\$5,634	(\$1,099)	\$23,208	(\$2,462)

Citizens does not currently have the intent to sell these debt securities, and it is not more likely than not that the Company will be required to sell these debt securities prior to recovery of their amortized cost bases. Citizens has determined that credit losses are not expected to be incurred on the AFS debt securities identified with unrealized losses as of December 31, 2023. The unrealized losses on these debt securities reflect non-credit-related factors driven by changes in interest rates. Therefore, the Company has determined that these debt securities are not impaired.

NOTE 5 - LOANS AND LEASES

Loans are classified as held for investment when management has the intent and ability to hold the loan for the foreseeable future, or until maturity or payoff. Loans held for investment are reported at the amount of their outstanding principal, net of charge-offs, unearned income, deferred loan origination fees and costs, and unamortized premiums and discounts on purchased loans. Deferred loan origination fees and costs and premiums and discounts on purchased loans are amortized as an adjustment of yield over the life of the loan using the effective interest method. Unamortized amounts that remain when a loan is prepaid or sold are recorded as interest income or gain (loss) on sale, respectively. Credit card receivables include billed and uncollected interest and fees.

Interest income on loans is determined using the effective interest method, which calculates periodic interest income at a constant effective yield on the net investment in the loan, providing a constant rate of return over the loan term. Loans accounted for using the fair value option are measured at fair value with corresponding changes reported in mortgage banking fees for residential mortgage LHFS and in capital markets fees for commercial LHFS in the Consolidated Statements of Operations.

Commitment fees for loans that are likely to be drawn down, along with other credit-related fees, are deferred and recognized as an adjustment to the effective interest rate over the loan term. Commitment fees are recognized over the commitment period on a straight-line basis if it is unlikely that a loan will be drawn down and are reported in letter of credit and loan fees in the Consolidated Statements of Operations.

Loans and leases are disclosed in portfolio segments and classes. The Company's loan and lease portfolio segments are commercial and retail. The classes of loans and leases are: commercial and industrial, commercial real estate, leases, residential mortgages, home equity, automobile, education and other retail.

The following table presents loans and leases, excluding LHFS:

(dollars in millions)	December 31,	
	2023	2022
Commercial and industrial	\$43,826	\$51,836
Commercial real estate	29,471	28,865
Leases	1,148	1,479
Total commercial	74,445	82,180
Residential mortgages	31,332	29,921
Home equity	15,040	14,043
Automobile	8,258	12,292
Education	11,834	12,808
Other retail	5,050	5,418
Total retail	71,514	74,482
Total loans and leases	\$145,959	\$156,662

Accrued interest receivable on loans and leases held for investment totaled \$875 million and \$820 million as of December 31, 2023 and 2022, respectively, and is included in other assets in the Consolidated Balance Sheets.

Loans pledged as collateral for FHLB borrowing capacity, primarily residential mortgages and home equity products, totaled \$36.0 billion and \$38.4 billion at December 31, 2023 and 2022, respectively. Loans pledged as collateral to support the contingent ability to borrow at the FRB discount window, if necessary, were primarily comprised of education, automobile, commercial and industrial, and commercial real estate loans, and totaled \$31.9 billion and \$34.8 billion at December 31, 2023 and 2022, respectively.

Loans are classified as held for sale when management does not have the intent and ability to hold the loan for the foreseeable future. LHFS for which the fair value option is not elected are carried at the lower of amortized cost or fair value less costs to sell, with any write-downs or subsequent recoveries recognized in other income in the Consolidated Statements of Operations. Citizens has elected to account for residential mortgage LHFS and certain commercial LHFS at fair value. See Note 20 for additional information.

The following table presents the composition of LHFS:

(dollars in millions)	December 31, 2023			December 31, 2022		
	Residential Mortgages ⁽¹⁾	Commercial ⁽²⁾	Total	Residential Mortgages ⁽¹⁾	Commercial ⁽²⁾	Total
Loans held for sale at fair value	\$614	\$62	\$676	\$666	\$108	\$774
Other loans held for sale	—	103	103	—	208	208

⁽¹⁾ Residential mortgage LHFS are originated for sale.

⁽²⁾ Commercial LHFS at fair value consist of loans managed by the Company's commercial secondary loan desk. Other commercial LHFS primarily consist of loans associated with the Company's syndication business.

Citizens leases equipment for commercial use with a primary focus on middle-market and mid-corporate clients for large capital equipment acquisitions including railcars, trucks and trailers, and other equipment. The determination of whether an arrangement is a lease and the related lease classification are made at lease inception. Lease terms predominantly range from three to ten years and may include options to purchase the leased property prior to the end of the lease term. The Company does not have lease agreements that contain both lease and non-lease components.

A lessee is evaluated from a credit perspective using the same underwriting standards and procedures for a loan borrower. A lessee is expected to make rental payments based on its cash flows and the viability of its operations. Leases are not typically evaluated as collateral-based transactions and, therefore, the lessee's overall financial strength is the most important credit evaluation factor.

The components of the net investment in direct financing and sales-type leases, before ALLL, are presented below:

(dollars in millions)	December 31, 2023	December 31, 2022
Total future minimum lease rentals	\$942	\$1,193
Estimated residual value of leased equipment (non-guaranteed)	322	413
Initial direct costs	5	5
Unearned income	(121)	(132)
Total leases	\$1,148	\$1,479

Interest income on direct financing and sales-type leases for the years ended December 31, 2023, 2022 and 2021 was \$46 million, \$46 million and \$49 million, respectively, and is reported within interest and fees on loans and leases in the Consolidated Statements of Operations.

A maturity analysis of direct financing and sales-type lease receivables at December 31, 2023 is presented below:

Year	(dollars in millions)
2024	\$258
2025	213
2026	156
2027	133
2028	84
Thereafter	98
Total undiscounted future minimum lease rentals	\$942

NOTE 6 - CREDIT QUALITY AND THE ALLOWANCE FOR CREDIT LOSSES

Allowance for Credit Losses

The Company's estimate of expected credit losses in its loan and lease portfolios is recorded in the ACL and considers extensive historical loss experience, including the impact of loss mitigation and restructuring programs that the Company offers to borrowers experiencing financial difficulty, as well as projected loss severity as a result of loan default. The ACL is maintained at a level the Company believes to be appropriate to absorb expected lifetime credit losses over the contractual life of a loan or lease and on unfunded lending commitments. The determination of the ACL is based on periodic evaluation of loan and lease portfolios and unfunded lending commitments that are not unconditionally cancellable. A number of relevant underlying factors, including key assumptions and the evaluation of quantitative and qualitative information, are considered.

Key assumptions used in the ACL measurement process include the use of a two-year reasonable and supportable economic forecast period followed by a one-year reversion period to historical credit loss information. The evaluation of quantitative and qualitative information is performed by assessing groups of assets that share similar risk characteristics and certain individual loans and leases that do not share similar risk characteristics with the collective group. Loans are generally grouped by product type (e.g., commercial and industrial, commercial real estate, residential mortgage), and significant loan portfolios are assessed for credit losses using econometric models.

The quantitative evaluation of the adequacy of the ACL utilizes a single economic forecast as its foundation and is primarily based on econometric models that use known or estimated data as of the balance sheet date and forecasted data over the reasonable and supportable period. Known and estimated data include current PD, LGD and EAD for commercial loans, timing and amount of expected draws for unfunded lending commitments, FICO, LTV, and term for retail loans. The mix and level of loan balances, delinquency levels, assigned risk ratings, previous loss experience, current business conditions, amount and timing of expected future cash flows, and factors specific to commercial credits such as competition, business and management performance are also considered. Forward-looking economic assumptions include real GDP, unemployment rate, interest rate curve, and changes in collateral values. This data is accumulated to estimate expected credit losses over the contractual life of the loans and leases, adjusted for expected prepayments. Historical information, such as financial statements for commercial customers or consumer credit ratings, may not be as important to estimating future expected losses as forecasted inputs to the models during volatile economic time periods.

The ACL may also be affected by a variety of qualitative factors that the Company considers that are not measured in the statistical procedures including uncertainty related to economic forecasts, loan growth, backtesting results, credit underwriting policy exceptions, regulatory and audit findings, and peer comparisons. The qualitative allowance is further affected by sensitivity analysis for certain industry sectors or loan classes, including CRE office.

The measurement process results in specific or pooled allowances for loans, leases and unfunded lending commitments, and qualitative allowances that are determined and applied across the portfolio.

Certain loan portfolios don't require an econometric model to calculate expected credit losses. For these portfolios, approaches that are less data intensive and non-modeled are utilized to estimate credit losses as they are considered more efficient and practical for portfolios that have outstanding balances that are not material (e.g., runoff or closed portfolios, new products or products that are not significant to the Company's overall credit risk exposure).

Loans and leases that do not share similar risk characteristics are individually assessed for expected credit losses. Nonaccrual commercial and industrial, and commercial real estate loans with an outstanding balance of \$5 million or greater are assessed on an individual loan level basis. Generally, measurement of the ACL on an individual loan or lease is the present value of its future cash flows or the fair value of its underlying collateral, if the loan or lease is collateral dependent.

A loan is considered to be collateral dependent when repayment of the loan is expected to be provided substantially through the operation or sale of the underlying collateral, rather than by cash flows from the borrower's operations, income or other resources. Generally, this occurs when cash flows to repay the loan from all other available sources, including guarantors, are expected to be no more than nominal. Loans that are deemed to be collateral dependent are written down to the fair value, less costs to sell, as of the evaluation date and are reassessed each subsequent period, which may result in an increase or decrease to the ACL based on a corresponding change in the fair value of the collateral during the period. Any decrease to the ACL would be limited to the total amount previously written off for a given loan or lease.

Collateral values for residential mortgage and home equity loans are based on appraisals, which are updated every 90 days at a minimum, less estimated costs to sell. At December 31, 2023 and 2022, the Company had collateral-dependent residential mortgage and home equity loans totaling \$556 million and \$561 million, respectively.

Commercial loans are secured by various types of collateral, including real estate, inventory, equipment, accounts receivable, securities and cash, among others. Collateral values are generally based on appraisals for commercial real estate loans, which are updated based on management judgment on a case-by-case basis. At December 31, 2023 and 2022, the Company had collateral-dependent commercial loans totaling \$233 million and \$21 million, respectively.

The amortized cost basis of mortgage loans collateralized by residential real estate for which formal foreclosure proceedings were in-process was \$336 million and \$250 million as of December 31, 2023 and 2022, respectively.

Expected recoveries are considered in management's estimate of the ACL and may result in a reduction to the ACL balance. A negative ACL for a collateral dependent loan exists if the fair value of the collateral increases in a subsequent reporting period and cannot exceed the total amount previously charged off. Accrued interest receivable on loans and leases is excluded from asset balances used to calculate the ACL.

The Company estimates expected credit losses associated with off-balance sheet financial instruments such as standby letters of credit, financial guarantees and unfunded loan commitments that are not unconditionally cancellable. Off-balance sheet financial instruments are subject to individual reviews and are analyzed and segregated by risk according to the Company's internal risk rating scale. These risk classifications, in conjunction with historical loss experience, current and future economic conditions, timing and amount of expected draws, and performance trends within specific portfolio segments, are considered to estimate the allowance for unfunded lending commitments. The Company does not recognize a reserve for future draws from credit lines that are unconditionally cancellable (e.g., credit cards).

The ALLL and the allowance for unfunded lending commitments are reported in the allowance for loan and lease losses and other liabilities, respectively, in the Consolidated Balance Sheets. The provision for credit losses related to loan and lease portfolios and unfunded lending commitments is reported in provision (benefit) for credit losses in the Consolidated Statements of Operations.

Loan Charge-Offs

Commercial loans are charged-off when available information indicates that a loan, or portion thereof, is determined to be uncollectible. The determination of whether to recognize a charge-off involves many factors, including the prioritization of the Company's claim in bankruptcy, workout/restructuring expectations of the loan and valuation of the borrower's equity or loan collateral.

Retail loans are generally fully charged-off or written down to the net realizable value of the underlying collateral, with an offset to the ALLL, upon reaching specified stages of delinquency in accordance with standards established by the FFIEC. Residential real estate, credit card and unsecured open-end loans are generally charged-off in the month when the account becomes 180 days past due. Auto, education and unsecured closed-end loans are generally charged off in the month when the account becomes 120 days past due. Certain retail loans will be charged-off or written down to their net realizable value earlier in the following circumstances:

- FDMs that are determined to be collateral dependent.
- Loans to borrowers who have experienced an event (e.g., bankruptcy) that suggests a loss is either known or highly certain.
 - Residential real estate and auto loans are written down to fair value less costs to sell within 60 days of receiving notification of the bankruptcy filing, unless repayment is likely to occur, or when the loan subsequently becomes 60 days past due.
 - Credit card loans are fully charged-off within 60 days of receiving notification of the bankruptcy filing or other event.
 - Education loans are generally charged-off when the loan becomes 60 days past due after receiving notification of a bankruptcy.
- Auto loans are written down to fair value less costs to sell upon repossession of the collateral.

The following table presents a summary of changes in the ACL for the year ended December 31, 2023:

(dollars in millions)	Year Ended December 31, 2023		
	Commercial	Retail	Total
Allowance for loan and lease losses, beginning of period	\$1,060	\$923	\$1,983
Charge-offs	(285)	(472)	(757)
Recoveries	18	130	148
Net charge-offs	(267)	(342)	(609)
Provision expense (benefit) for loans and leases	457	267	724
Allowance for loan and lease losses, end of period	1,250	848	2,098
Allowance for unfunded lending commitments, beginning of period	207	50	257
Provision expense (benefit) for unfunded lending commitments	(32)	(5)	(37)
Allowance for unfunded lending commitments, end of period	175	45	220
Total allowance for credit losses, end of period	\$1,425	\$893	\$2,318

During the year ended December 31, 2023, net charge-offs of \$609 million and a provision for expected credit losses of \$687 million resulted in an increase of \$78 million to the ACL.

Our ACL as of December 31, 2023 accounts for an economic forecast over our two-year reasonable and supportable period with peak unemployment of approximately 5% and peak-to-trough GDP decline of approximately 0.4%. This forecast reflects a mild recession over the two-year reasonable and supportable period.

The following tables present a summary of changes in the ACL for the years ended December 31, 2022 and 2021:

(dollars in millions)	Year Ended December 31, 2022		
	Commercial	Retail	Total
Allowance for loan and lease losses, beginning of period	\$821	\$937	\$1,758
Allowance on PCD loans and leases at acquisition	99	2	101
Charge-offs ⁽¹⁾	(70)	(364)	(434)
Recoveries	18	146	164
Net charge-offs	(52)	(218)	(270)
Provision expense (benefit) for loans and leases ⁽²⁾	192	202	394
Allowance for loan and lease losses, end of period	1,060	923	1,983
Allowance for unfunded lending commitments, beginning of period	153	23	176
Provision expense (benefit) for unfunded lending commitments	53	27	80
Allowance on PCD unfunded lending commitments at acquisition	1	—	1
Allowance for unfunded lending commitments, end of period	207	50	257
Total allowance for credit losses, end of period	\$1,267	\$973	\$2,240

⁽¹⁾ Excludes \$34 million of charge-offs previously taken by Investors or recognized upon completion of the Investors acquisition under purchase accounting for the year ended December 31, 2022. The initial allowance for loan and lease losses on PCD assets included these amounts and, after charging these amounts off upon acquisition, the net impact for PCD assets was \$101 million of additional allowance for loan and lease losses.

⁽²⁾ Includes \$169 million of initial provision expense related to non-PCD loans and leases acquired from HSBC and Investors for the year ended December 31, 2022.

(dollars in millions)	Year Ended December 31, 2021		
	Commercial	Retail	Total
Allowance for loan and lease losses, beginning of period	\$1,233	\$1,210	\$2,443
Charge-offs	(218)	(321)	(539)
Recoveries	54	160	214
Net charge-offs	(164)	(161)	(325)
Provision expense (benefit) for loans and leases	(248)	(112)	(360)
Allowance for loan and lease losses, end of period	821	937	1,758
Allowance for unfunded lending commitments, beginning of period	186	41	227
Provision expense (benefit) for unfunded lending commitments	(33)	(18)	(51)
Allowance for unfunded lending commitments, end of period	153	23	176
Total allowance for credit losses, end of period	\$974	\$960	\$1,934

Credit Quality Indicators

The Company presents loan and lease portfolio segments and classes by credit quality indicator and vintage year. Citizens defines the vintage date for the purpose of this disclosure as the date of the most recent credit decision. Renewals are categorized as new credit decisions and reflect the renewal date as the vintage date, except for renewals of loans modified for borrowers experiencing financial difficulty, or FDMs, which are presented in the original vintage.

Citizens utilizes internal risk ratings to monitor credit quality for commercial loans and leases. These ratings are assigned at loan origination and are periodically reevaluated utilizing a risk-based approach, annually at a minimum, or any time management becomes aware of information affecting a borrower's ability to fulfill their obligations. The reevaluation process considers both quantitative and qualitative factors. The following categories are utilized to develop the ACL:

- Pass - includes obligations where the probability of default is considered low and repayment in full is expected in accordance with the contractual loan terms;
- Special Mention - includes obligations that have potential weakness that, if left uncorrected, may result in deterioration of the Company's credit position at some future date;
- Substandard Accrual - includes obligations that have well-defined weaknesses that could hinder normal repayment or collection of the debt, but are currently performing;
- Nonaccrual - includes obligations where management has determined that full payment of principal and interest is in doubt. For more information on nonaccrual loans and leases see "Nonaccrual and Past Due Assets" below.

For commercial and industrial loans, the performance of the borrower is monitored in a disciplined and regular manner based upon the level of credit risk inherent in the loan. To evaluate the level of credit risk, an internal risk rating is assigned reflecting the borrower's PD and LGD. This two-dimensional credit risk rating methodology provides granularity in the risk monitoring process. These ratings are generally reviewed annually at a minimum. The combination of the PD and LGD assigned ratings, which reflect credit quality characteristics as of the reporting date and are used as inputs into the loss forecasting process, capture both the expectation of default and loss severity in the event of default. Each loan is periodically reviewed by management based on the amount of the lending arrangement and risk rating assessment, with priority given to those loans which are perceived to be of higher risk, or loans for which credit quality is weakening (e.g., payment delinquency). Loans are proactively managed by utilizing various procedures that are customized to the risk of a given loan, including ongoing outreach to the borrower, assessment of the borrower's financial condition and appraisal of the collateral.

Credit risk associated with commercial real estate loans is managed similar to commercial and industrial loans by evaluating PD and LGD. Risks associated with commercial real estate activities are typically correlated to the loan structure, collateral location, project progress and business environment. As a result, these attributes are monitored and utilized in assessing credit risk. Periodic reviews are also performed to assess market/geographic risk and business unit/industry risk, which may result in increased scrutiny on loans that are perceived to be of higher risk, had adverse changes in risk ratings and/or areas that concern management. These reviews are designed to assess risk and facilitate actions to mitigate such risks.

Credit risk associated with leases is managed similar to commercial and industrial loans by evaluating PD and LGD. Reviews are generally performed annually based upon the dollar amount of the lease and the level of credit risk, and may be more frequent if circumstances warrant. The review process includes analysis of the following factors: equipment value/residual value, exposure levels, jurisdiction risk, industry risk, guarantor requirements, and regulatory compliance as applicable.

Commercial loans with renewal terms in the original contract are recognized as current year originations upon renewal unless the loan automatically renewed without a new credit decision. Citizens generally reserves the right to not renew the loan or lease until current underwriting is completed and approved.

The following table presents the amortized cost basis of commercial loans and leases by vintage date and internal risk rating as of December 31, 2023, and gross charge-offs by vintage date for the year ended December 31, 2023:

	Term Loans by Origination Year						Revolving Loans

⁽¹⁾ In the fourth quarter of 2023, the Company revised its presentation of commercial loans and leases by vintage date and internal risk rating to reflect how the Company currently manages the commercial credit portfolio. The Company now reports Substandard Accrual and Nonaccrual ratings, replacing previously reported ratings of Substandard and Doubtful, respectively. The prior period presentation was revised to conform to the new presentation. For more information regarding the Company's internal risk ratings, see "Credit Quality Indicators" above.

The following table presents the amortized cost basis of commercial loans and leases by vintage date and internal risk rating as of December 31, 2022:

⁽¹⁾ In the fourth quarter of 2023, the Company revised its presentation of commercial loans and leases by vintage date and internal risk rating to reflect how the Company currently manages the commercial credit portfolio. The Company now reports Substandard Accrual and Nonaccrual ratings, replacing previously reported ratings of Substandard and Doubtful, respectively. The prior period presentation was revised to conform to the new presentation. For more information regarding the Company's internal risk ratings, see "Credit Quality Indicators" above.

For retail loans, Citizens utilizes FICO credit scores and the loan's payment and delinquency status to monitor credit quality. Management believes FICO scores are the strongest indicator of credit losses over the contractual life of the loan and assist management in predicting the borrower's future payment performance. Scores are based on current and historical national industry-wide consumer level credit performance data.

The following table presents the amortized cost basis of retail loans by vintage date and current FICO score as of December 31, 2023, and gross charge-offs by vintage date for the year ended December 31, 2023:

Nonaccrual and Past Due Assets

Nonaccrual loans and leases are those on which accrual of interest is suspended. Loans, other than certain retail loans insured by U.S. government agencies, are placed on nonaccrual status when full payment of principal and interest is in doubt, unless the loan is both well-secured and in the process of collection.

When a loan is placed on nonaccrual status the accrued interest receivable is reversed against interest income and the amortization of any net deferred fees is suspended. Interest collected on nonaccrual loans and leases for which the ultimate collectability of principal is uncertain are generally applied to reduce the carrying value of the asset first. Otherwise, interest income may be recognized to the extent of the cash received if the loan is deemed fully collectible. A loan or lease may be returned to accrual status if:

- no principal and interest payments are due and unpaid, and repayment of the remaining contractual principal and interest is expected;
- the loan or lease has otherwise become well-secured and in the process of collection; or
- the borrower has made regularly scheduled payments in full for the prior six months and it is reasonably assured that the loan or lease will be brought current within a reasonable period.

Commercial and industrial loans, commercial real estate loans, and leases are generally placed on nonaccrual status when contractually past due 90 days or more, or earlier if management believes that the probability of collection is insufficient to warrant further accrual. Some of these loans and leases may remain on accrual status when contractually past due 90 days or more if management considers the loan collectible.

Residential mortgages are generally placed on nonaccrual status when past due 120 days, or sooner if determined to be collateral dependent, unless repayment of the loan is fully or partially guaranteed by the FHA, VA or USDA. Credit card balances are placed on nonaccrual status when past due 90 days or more and are restored to accrual status if they subsequently become less than 90 days past due. All other retail loans are generally placed on nonaccrual status when past due 90 days or more, or earlier if management believes that the probability of collection is insufficient to warrant further accrual. Loans less than 90 days past due may be placed on nonaccrual status due to the death of the borrower, fraud or bankruptcy.

The following tables present an aging analysis of accruing loans and leases, and nonaccrual loans and leases as of December 31, 2023 and 2022:

December 31, 2023							
(dollars in millions)	Days Past Due and Accruing				Nonaccrual	Total	Nonaccrual with no related ACL

Loan Modifications to Borrowers Experiencing Financial Difficulty

Effective January 1, 2023, the Company adopted accounting guidance that eliminates the separate recognition and measurement of TDRs. Upon adoption of this guidance, all loan modifications to borrowers experiencing financial difficulty, or FDMs, are evaluated to determine whether the modification should be accounted for as a new loan or a continuation of the existing loan. The existing loan is derecognized and the restructured loan is accounted for as a new loan if the effective yield on the restructured loan is at least equal to the effective yield for comparable loans with similar collection risk and the modification to the original loan is more than minor. Any unamortized fees and costs from the original loan are recognized in interest income when the new loan is granted. If a loan restructuring does not meet these conditions, the existing loan's amortized cost basis is carried forward and the modified loan is accounted for as a continuation of the existing loan. FDMs are generally accounted for as a continuation of the existing loan given the terms are typically not at market rates.

The Company offers loan modifications to retail and commercial borrowers as a result of its loss mitigation activities that may result in a payment delay, interest rate reduction, term extension, principal forgiveness, or combination thereof. Payment delays consist of modifications that result in a delay of contractual amounts due greater than three months over a rolling 12-month period.

Commercial loan modifications are offered on a case-by-case basis and generally include a payment delay, term extension and/or interest rate reduction. The Company does not typically offer principal forgiveness for commercial loans. Retail loan modifications are offered through structured loan modification programs, which are summarized below.

- Forbearance programs provide borrowers experiencing some form of hardship a period of time during which their contractual payment obligations are suspended, resulting in a payment delay and/or term extension.
- Other repayment plans are offered due to hardship and include an interest rate reduction and/or term extension designed to enable the borrower to return the loan to current status in an expeditious manner.
- Settlement agreements may be executed with borrowers experiencing a long-term hardship or who are delinquent, resulting in principal forgiveness. Upon fulfillment of the terms of the settlement agreement, the unpaid principal amount is forgiven resulting in a charge-off of the outstanding principal balance.
- Certain reorganization bankruptcy judgments may result in any one of the four modification types or some combination thereof.

Retail and commercial loans whose contractual terms have been modified in a FDM and are current at the time of the modification may remain on accrual status if there is demonstrated performance prior to the modification and payment in full under the modified terms is expected. Cash receipts on nonaccrual impaired loans, including nonaccrual loans involved in FDMs, are generally applied to reduce the unpaid principal balance. Certain FDMs that are current in payment status are classified as nonaccrual in accordance with regulatory guidance. Nonaccrual FDMs that meet the guidelines above for accrual status can be returned to accruing if supported by a well-documented evaluation of the borrowers' financial condition, and if they have been current for at least six months.

The following table presents the period-end amortized cost of loans to borrowers experiencing financial difficulty that were modified during the year ended December 31, 2023, disaggregated by class of financing receivable and modification type. The modification type reflects the cumulative effect of all FDMs received during the indicated period.

(dollars in millions)	Year Ended December 31, 2023							Total as a % of Loan Class ⁽¹⁾
	Interest Rate Reduction	Term Extension	Payment Delay	Principal Forgiveness	Interest Rate Reduction and Term Extension	Term Extension and Payment Delay	Total	
Commercial and industrial	\$1	\$252	\$69	\$—	\$1	\$2	\$325	0.74 %
Commercial real estate	—	522	—	—	70	1	593	2.01
Total commercial	1	774	69	—	71	3	918	1.23
Residential mortgages	8	77	3	—	20	1	109	0.35
Home equity	2	5	—	—	8	—	15	0.10
Automobile	—	—	—	—	—	—	—	—
Education	9	—	31	—	—	—	40	0.34
Other retail	11	—	—	—	—	—	11	0.22
Total retail	30	82	34	—	28	1	175	0.24
Total ⁽²⁾	\$31	\$856	\$103	\$—	\$99	\$4	\$1,093	0.75 %

⁽¹⁾ Represents the total amortized cost as of period-end divided by the period-end amortized cost of the corresponding loan class. Accrued interest receivable is excluded from amortized cost and is immaterial.

⁽²⁾ Excludes borrowers that had their debt discharged by means of a Chapter 7 bankruptcy filing.

The following table presents the financial effect of loans to borrowers experiencing financial difficulty that were modified during the year ended December 31, 2023, disaggregated by class of financing receivable.

	Year Ended December 31, 2023			
	Weighted-Average Interest Rate Reduction ⁽¹⁾⁽⁵⁾	Weighted-Average Term Extension (in Months) ⁽²⁾⁽⁵⁾	Weighted-Average Payment Deferral ⁽³⁾⁽⁵⁾	Amount of Principal Forgiven ⁽⁴⁾
Commercial and industrial	2.02 %	15	\$562,777	\$—
Commercial real estate	0.59	11	30,821	—
Residential mortgages	1.58	50	—	—
Home equity	2.64	120	1,366	—
Automobile	3.60	18	1,245	—
Education	4.76	—	6,134	—
Other retail	18.68	—	—	5

⁽¹⁾ Represents the weighted-average reduction of the loan's interest rate.

⁽²⁾ Represents the weighted-average extension of a loan's maturity date.

⁽³⁾ Represents the weighted-average amount of payments delayed as a result of the loan modification. Amounts are reported in whole dollars.

⁽⁴⁾ Amounts are recorded as charge-offs and are reported in millions.

⁽⁵⁾ Weighted based on period-end amortized cost.

The following table presents an aging analysis of the period-end amortized cost of loans to borrowers experiencing financial difficulty that were modified during the year ended December 31, 2023, disaggregated by class of financing receivable. A loan in a forbearance or repayment plan is reported as past due according to its contractual terms until contractually modified. Subsequent to modification, it is reported as past due based on its restructured terms.

	December 31, 2023					
		Days Past Due and Accruing				
(dollars in millions)	Current	30-59	60-89	90+	Nonaccrual	Total
Commercial and industrial	\$211	\$—	\$—	\$—	\$114	\$325

Other retail	—	—	—	—	—
Total retail	1	10	1	7	19
Total	\$1	\$112	\$44	\$7	\$164

Unfunded commitments related to loans modified during the year ended December 31, 2023 were \$221 million at December 31, 2023.

Troubled Debt Restructuring - Prior to the Adoption of ASU 2022-02

In situations where, for economic or legal reasons related to the borrower's financial difficulties, the Company grants a concession to the borrower that it would not otherwise consider, the related loan is classified as a TDR. Concessions granted in TDRs for all classes of loans may include lowering the interest rate, forgiving a portion of principal, extending the loan term, lowering scheduled payments for a specified period of time, waiving or delaying a scheduled payment of principal or interest for other than an insignificant time period, or capitalizing past due amounts. A rate increase can be a concession if the increased rate is lower than a market rate for debt with risk similar to that of the restructured loan. TDRs for commercial loans may also involve creating a multiple note structure, accepting non-cash assets, accepting an equity interest, or receiving a performance-based fee. In some cases, a TDR may involve multiple concessions.

Cash receipts on nonaccrual impaired loans, including nonaccrual loans involved in TDRs, are generally applied to reduce the unpaid principal balance. Certain TDRs that are current in payment status are classified as nonaccrual in accordance with regulatory guidance. Nonaccrual TDRs may be returned to accruing if supported by a well-documented evaluation of the borrowers' financial condition, and if they have been current for at least six months.

The ACL for loans previously identified as TDRs is measured at the product level based on post-modification credit attributes and use of an econometric model or at the fair value of collateral less costs to sell, if less than the loan's amortized cost basis. Any portion of the loan's amortized cost basis the Company does not expect to collect as a result of the modification is charged off at the time of modification. For retail TDR accounts assessed based on the fair value of collateral, any portion of the loan's recorded investment in excess of the collateral value less costs to sell is charged off at the time of modification or at the time of subsequent and regularly recurring valuations.

The following tables summarize loans modified during the year ended December 31, 2022. The balances represent the post-modification outstanding amortized cost basis and may include loans that became TDRs during the period and were subsequently paid off in full, charged off, or sold prior to period end. Pre-modification balances for modified loans approximate the post-modification balances shown.

		December 31, 2022			
		Amortized Cost Basis			
(dollars in millions)	Number of Contracts	Interest Rate Reduction ⁽¹⁾	Maturity Extension ⁽²⁾	Other ⁽³⁾	Total
Commercial and industrial	29	\$—	\$26	\$—	\$26
Total commercial	29	—	26	—	26
Residential mortgages	1,884	52	96	260	408
Home equity	381	4	2	19	25
Automobile	601	2	—	4	6
Education	631	—	—	25	25
Other retail	2,320	10	—	1	11
Total retail	5,817	68	98	309	475
Total	5,846	\$68	\$124	\$309	\$501

⁽¹⁾ Includes modifications that consist of multiple concessions, one of which is an interest rate reduction.

⁽²⁾ Includes modifications that consist of multiple concessions, one of which is a maturity extension (unless one of the other concessions was an interest rate reduction).

⁽³⁾ Includes modifications other than interest rate reductions or maturity extensions, such as lowering scheduled payments for a specified period of time, principal forgiveness, and capitalizing arrearages. The following are also included: deferrals, trial modifications, certain bankruptcies, loans in forbearance and prepayment plans. Modifications can include the deferral of accrued interest resulting in post-modification balances being higher than pre-modification.

Modified TDRs resulted in charge-offs of \$3 million for the year ended December 31, 2022. Unfunded commitments related to TDRs were \$81 million at December 31, 2022.

The following table provides a summary of TDRs that defaulted (became 90 days or more past due) within 12 months of their modification date:

(dollars in millions)	Year Ended December 31, 2022
Commercial	\$—
Retail ⁽¹⁾	242
Total	\$242

⁽¹⁾ Includes \$187 million of loans fully or partially government guaranteed by the FHA, VA, and USDA.

Concentrations of Credit Risk

The Company's lending activity is geographically well diversified with an emphasis in our core markets located in the New England, Mid-Atlantic and Midwest regions. Generally, loans are collateralized by assets including real estate, inventory, accounts receivable, other personal property and investment securities. As of December 31, 2023 and 2022, there were no material concentration risks within the commercial or retail loan portfolios. Exposure to credit losses arising from lending transactions may fluctuate with fair values of collateral supporting loans, which may not perform according to contractual agreements. The Company's policy is to collateralize loans to the extent necessary; however, unsecured loans are also granted on the basis of the financial strength of the applicant and the facts surrounding the transaction.

NOTE 7 - PREMISES, EQUIPMENT AND SOFTWARE

Premises and Equipment

Premises and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the life of the lease, including renewal options if exercise of those options is reasonably assured, or their estimated useful life, whichever is shorter.

Additions to premises and equipment are recorded at cost. The cost of major additions and improvements is capitalized. Repairs and maintenance and other costs that do not improve the property, extend the useful life or otherwise do not meet capitalization criteria are charged to expense as incurred. Citizens evaluates premises and equipment for impairment when events or circumstances indicate that the carrying value of such assets may not be recoverable.

A summary of the carrying value of premises and equipment is presented below:

(dollars in millions)	Useful Lives (years)	December 31,	
		2023	2022
Land and land improvements	10 - 75	\$143	\$144
Buildings and leasehold improvements	5 - 60	875	879
Furniture, fixtures and equipment	4 - 20	613	622
Construction in progress		77	61
Total premises and equipment, gross		1,708	1,706
Accumulated depreciation and amortization		(813)	(862)
Total premises and equipment, net		\$895	\$844

Depreciation charged to noninterest expense totaled \$115 million, \$107 million and \$98 million for the years ended December 31, 2023, 2022 and 2021, respectively, and is presented in the Consolidated Statements of Operations in either occupancy or equipment expense, as applicable.

Software

Costs related to computer software developed or obtained for internal use are capitalized if the projects improve functionality and provide long-term future operational benefits. Capitalized costs are amortized using the straight-line method over the asset's expected useful life, which is based on the basic pattern of consumption and economic benefits provided by the asset. The amortization of software commences when the asset, or identifiable component of the asset, is substantially complete and ready for its intended use. All other costs incurred in connection with an internal-use software project are expensed as incurred. Capitalized software is included in other assets in the Consolidated Balance Sheets.

Citizens had capitalized software assets of \$2.6 billion and related accumulated amortization of \$1.7 billion as of December 31, 2023 and 2022. Amortization expense was \$254 million, \$243 million and \$235 million for the years ended December 31, 2023, 2022 and 2021, respectively.

The estimated future amortization expense for capitalized software assets is presented below.

Year	(dollars in millions)
2024	\$237
2025	199
2026	136
2027	79
2028	23
Thereafter	—
Total ⁽¹⁾	\$674

⁽¹⁾ Excludes \$215 million of in-process software at December 31, 2023.

NOTE 8 - MORTGAGE BANKING AND OTHER SERVICED LOANS

The Company sells residential mortgages into the secondary market and retains no beneficial interest in these sales, but may retain the servicing rights for the loans sold. The Company may exercise its option to repurchase eligible government guaranteed residential mortgages or may be obligated to subsequently repurchase a loan if the purchaser discovers a representation or warranty violation such as noncompliance with eligibility or servicing requirements, or customer fraud that should have been identified in a loan file review.

Mortgage loans held for sale are accounted for at fair value on an individual loan basis. Changes in the fair value and realized gains and losses on the sales of mortgage loans, are reported in mortgage banking fees.

The following table summarizes activity related to residential mortgage loans sold with servicing rights retained:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Cash proceeds from residential mortgage loans sold with servicing retained	\$9,124	\$17,025	\$37,039
Repurchased residential mortgages ⁽¹⁾	—	87	1,381
Gain on sales ⁽²⁾	72	86	382
Contractually specified servicing, late and other ancillary fees ⁽²⁾	309	287	247

⁽¹⁾ Includes government insured or guaranteed loans repurchased through the exercise of the Company's removal of account provision option.

⁽²⁾ Reported in mortgage banking fees in the Consolidated Statements of Operations.

The Company recognizes the right to service residential mortgage loans for others, or MSR, when purchased or when servicing is contractually separated from the underlying mortgage loans sold with servicing rights retained. MSRs are reported in other assets in the Consolidated Balance Sheets. MSRs are measured using the fair value method, with any change in fair value during the period recorded in mortgage banking fees in the Consolidated Statements of Operations. The unpaid principal balance of residential mortgage loans related to our MSRs was \$97.4 billion and \$96.7 billion at December 31, 2023 and 2022, respectively. The Company manages the risk associated with changes in the value of the MSRs with an active economic hedging strategy, which includes the purchase of freestanding derivatives.

The following table summarizes changes in MSRs recorded using the fair value method:

(dollars in millions)	As of and for the Year Ended December 31,	
	2023	2022
Fair value as of beginning of the period	\$1,530	\$1,029
Amounts capitalized	127	279
Servicing rights acquired	—	16
Changes in unpaid principal balance during the period ⁽¹⁾	(166)	(137)
Changes in fair value during the period ⁽²⁾	61	343
Fair value at end of the period	\$1,552	\$1,530

⁽¹⁾ Represents changes in value of the MSRs due to i) passage of time including the impact from both regularly scheduled loan principal payments and partial paydowns, and ii) loans that paid off during the period.

⁽²⁾ Represents changes in value primarily driven by market conditions. These changes are recorded in mortgage banking fees in the Consolidated Statements of Operations.

The fair value of MSRs is estimated by using the present value of estimated future net servicing cash flows, taking into consideration actual and expected mortgage loan prepayment rates, discount rates, contractual servicing fee income, servicing costs, default rates, ancillary income, and other economic factors, which are determined based on current market interest rates. The valuation does not attempt to forecast or predict the future direction of interest rates.

The sensitivity analysis below presents the impact of an immediate 10% and 20% adverse change in key economic assumptions to the current fair value of MSRs. These sensitivities are hypothetical, with the effect of a variation in a particular assumption on the fair value of the MSRs calculated independently without changing any other assumption. Changes in one factor may result in changes in another (e.g., changes in interest rates, which drive changes in prepayment rates, could result in changes in discount rates), which may amplify or counteract the sensitivities. The primary risk inherent in the Company's MSRs is an increase in prepayments of the underlying mortgage loans serviced, which is largely dependent upon movements in market interest rates.

(dollars in millions)	December 31, 2023	December 31, 2022
Fair value	\$1,552	\$1,530
Weighted average life (years)	8.8	9.1
Weighted average constant prepayment rate	7.2%	6.8%
Decline in fair value from 10% adverse change	\$37	\$34
Decline in fair value from 20% adverse change	\$71	\$66
Weighted average option adjusted spread	630 bps	629 bps
Decline in fair value from 10% adverse change	\$43	\$43
Decline in fair value from 20% adverse change	\$87	\$86

The Company's mortgage banking derivatives include commitments to originate mortgages held for sale, certain loan sale agreements, and other financial instruments that meet the definition of a derivative. Refer to Note 14 for additional information.

Other Serviced Loans

Citizens engages in other servicing relationships from time to time. The following table presents the unpaid principal balance of other serviced loans:

(dollars in millions)	December 31, 2023	December 31, 2022
Education	\$502	\$602
Commercial and industrial ⁽¹⁾	94	91

⁽¹⁾ Represents the government guaranteed portion of SBA loans sold to outside investors.

NOTE 9 - LEASES

Citizens as Lessee

The Company determines if an arrangement is a lease at inception and records a right-of-use asset and a corresponding lease liability. A right-of-use asset represents the value of the Company's contractual right to use an underlying leased asset and a lease liability represents the Company's contractual obligation to make payments on the same asset. Operating and finance lease right-of-use assets and liabilities are recognized at the commencement date based on the present value of the lease payments over the non-cancelable lease term. In instances where the lease does not specify an implicit rate, the Company utilizes an incremental borrowing rate based on information available at the lease commencement date to determine the present value of the lease payments. The Company evaluates right-of-use assets for impairment when events or changes in circumstances indicate that the carrying value of the asset may not be recoverable.

The Company leases both equipment and real estate, including office and branch space, in the normal course of business. Lease terms predominantly range from one year to ten years and may include options to extend the lease, terminate the lease, or purchase the underlying asset at the end of the lease. Certain lease agreements include rental payments based on an index or are adjusted periodically for inflation. Lease components are accounted for as a single lease component when lease agreements contain lease and non-lease components and for certain real estate leases.

Leases with an initial term of 12 months or less are not recorded in the Company's Consolidated Balance Sheets and are recognized in occupancy expense in the Company's Consolidated Statements of Operations on a straight-line basis over the lease term. The Company may also enter into subleases with third parties for certain leased real estate properties that are no longer occupied.

The components of operating lease cost are presented below.

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Operating lease cost	\$221	\$216	\$161
Short-term lease cost	2	2	1
Variable lease cost	5	7	8
Sublease income	(1)	(1)	(4)
Total	\$227	\$224	\$166

Operating lease cost is recognized on a straight-line basis over the lease term and is recorded in occupancy and equipment and software in the Consolidated Statements of Operations.

Supplemental information related to the Company's operating lease arrangements is presented in the tables below:

(dollars in millions)	December 31, 2023	December 31, 2022	Affected Line Item in Consolidated Balance Sheets
Operating lease right-of-use assets	\$885	\$1,019	Other assets
Operating lease liabilities	977	1,066	Other liabilities
Weighted average remaining lease term (years)	7	7	—
Weighted average discount rate	3.10 %	2.74 %	—

(dollars in millions)	Year Ended December 31,

Total lease payments	1,085
Less: Interest	108
Present value of lease liabilities	\$977

Citizens as Lessor

Operating lease assets where Citizens was the lessor totaled \$254 million and \$260 million as of December 31, 2023 and 2022, respectively. Operating lease rental income associated with these assets is recognized in other income in the Consolidated Statements of Operations on a straight-line basis over the lease term.

Depreciation expense associated with operating lease assets is recorded on a straight-line basis over their estimated useful life and is included in other operating expense in the Consolidated Statements of Operations. Operating lease assets are reviewed for impairment on a periodic basis, with an impairment loss recognized in other operating expense if the carrying amount of the leased asset exceeds its fair value and is not recoverable. The carrying amount of a leased asset is not recoverable if its carrying value exceeds the sum of the undiscounted cash flows expected to result from the lease payments and the estimated residual value of the asset.

For a discussion of direct finance and sales-type leases where Citizens is the lessor, see Note 5.

NOTE 10 - GOODWILL AND INTANGIBLE ASSETS

Goodwill is the purchase premium associated with the acquisition of a business and is assigned to the Company's reporting units at the acquisition date. A reporting unit is a business operating segment or a component of a business operating segment. The Company has identified and assigned goodwill to two reporting units, Consumer Banking and Commercial Banking, based upon reviews of the structure of the Company's executive team and supporting functions, resource allocations and financial reporting processes. Goodwill no longer retains its association with a particular acquisition once assigned to a reporting unit, and all of the activities within a reporting unit, whether acquired or organically grown, are available to support the value of the goodwill.

Goodwill is subject to an annual impairment test and not amortized. Goodwill is reviewed for impairment annually as of October 31st and in interim periods when events or changes indicate the carrying value of one or more reporting units may not be recoverable. The Company has the option of performing a qualitative assessment of goodwill to determine whether it is more likely than not that the fair value of each reporting unit is less than the carrying value. If it is more likely than not that the fair value exceeds the carrying value, then no further testing is necessary; otherwise, a quantitative assessment of goodwill must be performed.

The Company may elect to bypass the qualitative assessment and perform a quantitative assessment, which is used to identify potential impairment and involves comparing each reporting unit's fair value to its carrying value, including goodwill. If the fair value of a reporting unit exceeds its carrying value inclusive of goodwill, applicable goodwill is deemed not to be impaired. If the carrying value of the reporting unit inclusive of goodwill exceeds fair value, an impairment loss is recognized for the excess, establishing a new basis in the goodwill, and cannot exceed the amount of goodwill assigned to the reporting unit. Subsequent reversal of goodwill impairment losses is not permitted.

The fair value of the Company's reporting units is determined using a combination of income and market-based approaches. The Company relies on several assumptions to estimate the fair value of its reporting units under the income-based approach including discount rate, projected loan losses, income tax and capital retention rates.

The Company performed a quantitative goodwill impairment assessment in the fourth quarter of 2023 as part of its annual impairment assessment. Based on this quantitative assessment, the Company concluded that the estimated fair value of the Consumer Banking and Commercial Banking reporting units exceeded their carrying value; therefore, the Company determined that there was no impairment to the carrying value of its goodwill as of December 31, 2023. The Commercial Banking reporting unit's fair value exceeded its carrying value by approximately 10%.

The Company monitored events and circumstances during the period from October 31, 2023 through December 31, 2023, including macroeconomic and market factors, industry and banking sector events, Company-specific performance indicators, a comparison of the Company's forecast and assumptions to those used in its October 31, 2023 quantitative impairment test, and the sensitivity of the October 31, 2023 quantitative test results to changes in assumptions through December 31, 2023. Based on these considerations, the Company concluded that it was not more-likely-than-not that the fair value of either of its reporting units is below its respective carrying amount as of December 31, 2023.

Changes in the carrying value of goodwill for the years ended December 31, 2023 and 2022 are presented below.

(dollars in millions)	Consumer Banking	Commercial Banking	Total
Balance at December 31, 2021	\$2,258	\$4,858	\$7,116
Business acquisitions	415	642	1,057
Balance at December 31, 2022	\$2,673	\$5,500	\$8,173
Business acquisitions	5	10	15
Balance at December 31, 2023	\$2,678	\$5,510	\$8,188

Accumulated impairment losses related to the Consumer Banking and Commercial Banking reporting units totaled \$5.9 billion and \$50 million, respectively, at December 31, 2023 and 2022. No impairment was recorded for the years ended December 31, 2023, 2022 or 2021.

Other Intangibles

Other intangible assets are recognized separately from goodwill if the asset arises as a result of contractual rights or if the asset is capable of being separated and sold, transferred or exchanged. These assets are amortized on a straight-line basis with the exception of core deposits, which are amortized using an accelerated methodology, and are subject to an annual impairment evaluation. Amortization expense is recorded in other operating expense in the Consolidated Statements of Operations.

A summary of the carrying value of intangible assets is presented below.

(dollars in millions)	Amortizable Lives (years)	December 31, 2023			December 31, 2022		
		Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Core deposits	10	\$144	\$44	\$100	\$144	\$20	\$124
Acquired technology	5 - 7	23	21	2	23	19	4
Acquired relationships	2 - 15	52	26	26	54	21	33
Naming Rights	5 - 10	33	12	21	33	7	26
Other	2 - 8	18	10	8	17	7	10
Total		\$270	\$113	\$157	\$271	\$74	\$197

As of December 31, 2023, all of the Company's intangible assets were being amortized. Amortization expense recognized on intangible assets was \$42 million, \$41 million and \$11 million for the years ended December 31, 2023, 2022 and 2021, respectively. The Company's projection of amortization expense is based on balances as of December 31, 2023. Future amortization expense may vary from these projections.

Estimated intangible asset amortization expense for the next five years is as follows:

Year	(dollars in millions)
2024	\$35
2025	32
2026	28
2027	24
2028	17

NOTE 11 - VARIABLE INTEREST ENTITIES

Citizens, in the normal course of business, engages in a variety of activities with entities that are considered VIEs, as defined by GAAP, with its variable interest arising from contractual, ownership or other monetary interests in the entity. A VIE typically does not have sufficient equity at risk to finance its activities without additional subordinated financial support from other parties. Citizens is the primary beneficiary of a VIE, and must consolidate it, if its variable interest provides it with the power to direct the activities that significantly impact the VIE and it has the right to receive benefits, or the obligation to absorb losses, that could potentially be significant to the VIE. Citizens considers both qualitative and quantitative factors regarding the nature, size and form of its involvement with the VIE to determine whether or not a variable interest held is significant to the VIE. Citizens assesses whether or not it is the primary beneficiary of a VIE on an ongoing basis.

Transfers of financial assets in which the Company has not surrendered control over the transferred assets are accounted for as a secured borrowing with a pledge of collateral. Control is generally considered surrendered when 1) the transferred assets are legally isolated from the Company and its creditors, even in bankruptcy, 2) the transferee has the right to pledge or exchange the transferred assets it received, with no condition that constrains the transferee from taking advantage of this right or that provides more than a trivial benefit to the Company, and 3) the Company does not maintain effective control over the transferred financial assets. Judgment is required to assess whether the Company maintains effective control over transferred financial assets.

Consolidated VIEs

The Company has consolidated VIEs related to secured borrowings collateralized by auto loans. The following table summarizes the carrying amount of assets and liabilities for the Company's consolidated VIEs:

(dollars in millions)	December 31, 2023
Assets:	
Cash and due from banks	\$13
Interest-bearing deposits in banks	106
Net loans and leases	3,194
Other assets	14
Total assets	\$3,327
Liabilities:	
Long-term borrowed funds	\$2,692
Other liabilities	8
Total liabilities	\$2,700

Secured Borrowings

Citizens utilizes a portion of its auto loan portfolio to support certain secured borrowing arrangements, which provide a source of funding for the Company and involves the transfer of auto loans to bankruptcy remote special purpose entities ("SPEs"). These SPEs then issue asset-backed notes to third-parties collateralized by the transferred loans. Citizens holds certain residual interests in the loans and, therefore, has a right to receive benefits or the obligation to absorb losses that could potentially be significant to the SPEs. In addition, the Company retains servicing for the transferred loans and, therefore, holds the power to direct the most significant activities that impact the economic performance of the SPEs. As a result, the Company concluded that it is the primary beneficiary of these SPEs and, accordingly, consolidates these VIEs.

The assets of a particular VIE are the primary source of funds to settle its obligations. Creditors of these VIEs do not have recourse to the general credit of the Company. The performance of the loans transferred to the SPEs is the most significant driver impacting the economic performance of the VIEs.

Unconsolidated VIEs

Citizens is involved with various VIEs that are not consolidated, including investments in entities that sponsor affordable housing, renewable energy and economic development projects, and asset-backed securities. In addition, Citizens provides lending facilities to special purpose entities. Citizens' maximum exposure to loss as a result of its involvement with these entities is limited to the balance sheet carrying amount of its investments, unfunded commitments, and the outstanding principal balance of loans to special purpose entities.

A summary of these investments is presented below:

	December 31,	
(dollars in millions)	2023	2022
Lending to special purpose entities included in loans and leases	\$4,760	\$4,578
LIHTC investment included in other assets	2,444	2,230
LIHTC unfunded commitments included in other liabilities	1,025	1,046
Asset-backed investments included in HTM securities	488	581
Renewable energy investments included in other assets	314	374
NMTC investments included in other assets	3	4

Lending to Special Purpose Entities

Citizens provides lending facilities to third-party sponsored special purpose entities. Because the sponsor for each respective entity has the power to direct how proceeds from the Company are utilized and maintains responsibility for any associated servicing commitments, Citizens is not the primary beneficiary of these entities. Accordingly, Citizens does not consolidate these VIEs. As of December 31, 2023 and 2022, the lending facilities had undrawn commitments to extend credit of \$2.7 billion and \$2.4 billion, respectively. For more information on commitments to extend credit see Note 19.

Asset-backed securities

The Company's investments in asset-backed securities are collateralized by education loans sold to a third-party sponsored VIE. Citizens acts as the primary servicer for the sold loans and receives a servicing fee. A third-party servicer is responsible for all loans that become significantly delinquent.

The Company's investment in asset-backed securities, as well as the primary servicing fee, are considered variable interests in the VIE since some of the losses of the VIE could be absorbed by the Company's interest in the asset-backed securities or the primary servicing fee. However, Citizens did not control the determination of the assets purchased by the VIE and does not control the servicing activities on significantly delinquent loans. Since these activities significantly impact the economic performance of the VIE, the Company has concluded that it is not the primary beneficiary of this VIE. Accordingly, Citizens does not consolidate the VIE.

Low Income Housing Tax Credit Partnerships

The purpose of the Company's LIHTC investments is to assist in achieving the goals of the CRA and to earn an adequate return of capital. LIHTC partnerships are managed by unrelated general partners that have the power to direct the activities which most significantly affect the performance of the partnerships and, therefore, Citizens is not the primary beneficiary of these partnerships. Accordingly, Citizens does not consolidate these VIEs.

Renewable Energy Entities

The Company's investments in certain renewable energy entities provide benefits from government incentives and other tax attributes (e.g., tax depreciation). As a tax equity investor, Citizens does not have the power to direct the activities which most significantly affect the performance of these entities and, therefore, is not the primary beneficiary of these entities. Accordingly, Citizens does not consolidate these VIEs.

Contingent commitments related to the Company's renewable energy investments were \$67 million at December 31, 2023, and are expected to be paid in varying amounts through 2026. These payments are contingent upon the level of electricity production attained by the renewable energy entity relative to its targeted threshold and changes in the production tax credit rates set by the Internal Revenue Service.

New Markets Tax Credit Program

The Company participates in the NMTC program which provides a tax incentive for private sector investment into economic development projects and businesses located in low-income communities. The United States Department of the Treasury oversees the program and it is directly administered by the Community Development Financial Institutions Fund.

The Company's investments in entities that sponsor economic development projects provide income tax credits to offset federal taxable income over a specified period of time. Independent third parties manage these entities and have the power to direct the activities which most significantly affect their performance. Therefore, Citizens is not the primary beneficiary of these entities and does not consolidate these VIEs as a result.

The Company applies the proportional amortization method to account for its LIHTC investments. Effective January 1, 2023, the Company made an election to account for its renewable energy and NMTC investments using the proportional amortization method under newly adopted accounting guidance. Under the proportional amortization method, the Company applies a practical expedient for its LIHTC and NMTC investments and amortizes the initial cost of qualifying investments in proportion to the income tax credits received in the current period as compared to the total income tax credits expected to be received over the life of the investment. For renewable energy investments, the Company amortizes the initial cost of qualifying investments in proportion to the income tax credits and other income tax benefits received in the current period as compared to the total income tax credits and other income tax benefits expected to be received over the life of the investment. The net amortization and income tax credits and other income tax benefits received are included as a component of income tax expense (benefit).

The following table summarizes the impact to the Consolidated Statements of Operations relative to the Company's tax credit programs for which it has elected to apply the proportional amortization method of accounting:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Tax credits recognized	\$334	\$236	\$202
Other tax benefits recognized	71	59	48
Amortization	(320)	(247)	(208)
Net benefit (expense) included in income tax expense	85	48	42
Other income	5	—	—
Allocated income (loss) on investments	(10)	—	—
Net benefit (expense) included in noninterest income	(5)	—	—
Net benefit (expense) included in the Consolidated Statements of Operations ⁽¹⁾	\$80	\$48	\$42

⁽¹⁾ Includes the impact of tax credit investments when the election to apply the proportional amortization method was in effect during the periods presented. For 2023, this includes LIHTC, renewable energy and NMTC investments, and for 2022 and 2021, includes LIHTC investments.

The Company did not recognize impairment losses resulting from the forfeiture or ineligibility of income tax credits or other circumstances during the years ended December 31, 2023, 2022 and 2021.

NOTE 12 - DEPOSITS

The following table presents the major components of deposits:

(dollars in millions)	December 31,	
	2023	2022
Demand	\$37,107	\$49,283
Money market	53,812	49,905
Checking with interest	31,876	39,721
Savings	27,983	29,805
Term	26,564	12,010
Total deposits	\$177,342	\$180,724

The following table presents the maturity distribution of term deposits by year as of December 31, 2023:

Year	(dollars in millions)
2024	\$25,529
2025	866
2026	74
2027	59
2028	33
2029 and thereafter	3
Total	\$26,564

The following table presents the remaining maturities of term deposits with a denomination of \$250,000 or more as of December 31, 2023:

(dollars in millions)	
Three months or less	\$2,559
After three months through six months	1,527
After six months through twelve months	1,358
After twelve months	229
Total term deposits	\$5,673

NOTE 13 - BORROWED FUNDS

Short-term borrowed funds

The following table presents a summary of the Company's short-term borrowed funds:

(dollars in millions)	December 31,	
	2023	2022
Other short-term borrowed funds	\$505	\$3
Total short-term borrowed funds	\$505	\$3

Long-term borrowed funds

The following table presents a summary of the Company's long-term borrowed funds:

(dollars in millions)	December 31,	
	2023	2022
Parent Company:		
3.750% fixed-rate subordinated debt, due July 2024	\$90	\$90
4.023% fixed-rate subordinated debt, due October 2024	17	17
4.350% fixed-rate subordinated debt, due August 2025	133	133
4.300% fixed-rate subordinated debt, due December 2025	336	336
2.850% fixed-rate senior unsecured notes, due July 2026	499	498
2.500% fixed-rate senior unsecured notes, due February 2030	298	298
3.250% fixed-rate senior unsecured notes, due April 2030	746	746
3.750% fixed-rate reset subordinated debt, due February 2031	69	69
4.300% fixed-rate reset subordinated debt, due February 2031	135	135
4.350% fixed-rate reset subordinated debt, due February 2031	60	61
2.638% fixed-rate subordinated debt, due September 2032	563	556
5.641% fixed-rate reset subordinated debt, due May 2037	398	397
CBNA's Global Note Program:		
3.700% senior unsecured notes, due March 2023 ⁽¹⁾	—	497
5.676% floating-rate senior unsecured notes, due March 2023 ⁽¹⁾⁽²⁾	—	250
2.250% senior unsecured notes, due April 2025	749	748
4.119% fixed/floating-rate senior unsecured notes, due May 2025	649	648
6.064% fixed/floating-rate senior unsecured notes, due October 2025	599	598
5.284% fixed/floating-rate senior unsecured notes, due January 2026	349	—
3.750% senior unsecured notes, due February 2026	483	475
4.575% fixed/floating-rate senior unsecured notes, due August 2028	798	797
Additional Borrowings by CBNA and Other Subsidiaries:		
Federal Home Loan Bank advances, 5.570% weighted average rate, due through 2041 ⁽³⁾	3,786	8,519
Secured borrowings, 6.026% weighted average rate, due through 2030 ⁽³⁾⁽⁴⁾	2,692	—
Other	18	19
Total long-term borrowed funds	\$13,467	\$15,887

⁽¹⁾ Notes were redeemed on February 27, 2023.

⁽²⁾ Rate disclosed reflects the floating rate as of December 31, 2023, or final floating rate as applicable.

⁽³⁾ Rate disclosed reflects the weighted average rate as of December 31, 2023.

⁽⁴⁾ Collateralized by auto loans. See Note 11 for additional information.

At December 31, 2023, the Company's long-term borrowed funds include principal balances of \$13.6 billion, unamortized debt issuance costs and discounts of \$74 million, and hedging basis adjustments of (\$17) million. At December 31, 2022, the Company's long-term borrowed funds include principal balances of \$16.0 billion, unamortized debt issuance costs and discounts of \$85 million, and hedging basis adjustments of (\$27) million. See Note 14 for further information about the Company's hedging of certain long-term borrowed funds.

Advances, lines of credit and letters of credit from the FHLB are collateralized primarily by residential mortgages and home equity products sufficient to satisfy the collateral maintenance level established by the FHLB. The utilized FHLB borrowing capacity, primarily for advances and letters of credit, was \$9.2 billion and \$15.7 billion at December 31, 2023 and 2022, respectively. The Company's available FHLB borrowing capacity was \$15.9 billion and \$11.5 billion at December 31, 2023 and 2022, respectively. Citizens can also borrow from the FRB discount window to meet short-term liquidity requirements. Collateral, including certain loans, is pledged to support this borrowing capacity. At December 31, 2023, the Company's unused secured borrowing capacity was approximately \$69.0 billion, which includes unencumbered securities, FHLB borrowing capacity, and FRB discount window capacity.

The following table presents a summary of maturities for the Company's long-term borrowed funds at December 31, 2023:

(dollars in millions)	Parent Company	CBNA and Other Subsidiaries	Consolidated
Year			
2024	\$107	\$363	\$470
2025	469	5,771	6,240
2026	499	2,019	2,518
2027	—	5	5
2028	—	1,745	1,745
2029 and thereafter	2,269	220	2,489
Total	\$3,344	\$10,123	\$13,467

NOTE 14 - DERIVATIVES

In the normal course of business, Citizens enters into derivative transactions to meet the financing and hedging needs of its customers and reduce its own exposure to fluctuations in interest rates and foreign currency exchange rates. These transactions include interest rate swap contracts, interest rate options, foreign exchange contracts, residential loan commitment rate locks, interest rate future contracts, swaptions, certain commodities, forward commitments to sell TBAs, forward sale contracts and purchase options. The Company does not use derivatives for speculative purposes.

The Company's derivative instruments are reported at fair value in the Consolidated Balance Sheets as derivative assets and derivative liabilities. Certain derivatives are cleared through central clearing houses. Cleared derivatives represent contracts executed bilaterally with counterparties in the OTC market that are novated to central clearing houses that become our counterparty. OTC-cleared derivative instruments are typically settled in cash each day based on their value from the previous day. Information regarding the valuation methodology and inputs used to estimate the fair value of the Company's derivative instruments is described in Note 20.

Derivative assets and liabilities are netted by counterparty in the Consolidated Balance Sheets if a "right of setoff" is established in a master netting agreement between the Company and the counterparty. This netted derivative asset or liability position is also netted against the fair value of any cash collateral that is pledged or received in accordance with a master netting agreement.

The following table presents derivative instruments included in the Consolidated Balance Sheets:

(dollars in millions)	December 31, 2023			December 31, 2022		
	Notional Amount	Derivative Assets	Derivative Liabilities	Notional Amount	Derivative Assets	Derivative Liabilities
Derivatives designated as hedging instruments:						
Interest rate contracts	\$86,895	\$173	\$44	\$42,250	\$16	\$53
Derivatives not designated as hedging instruments:						
Interest rate contracts	185,993	291	1,105	174,384	331	1,579
Foreign exchange contracts	32,528	434	378	29,475	527	519
Commodities contracts	1,251	685	640	1,103	953	942
TBA contracts	2,337	3	16	2,370	7	14
Other contracts	549	7	—	913	5	4
Total derivatives not designated as hedging instruments	222,658	1,420	2,139	208,245	1,823	3,058
Total gross derivatives	309,553	1,593	2,183	250,495	1,839	3,111
Less: Gross amounts offset in the Consolidated Balance Sheets ⁽¹⁾		(471)	(471)		(623)	(623)
Less: Cash collateral applied ⁽¹⁾		(682)	(150)		(374)	(579)
Total net derivatives presented in the Consolidated Balance Sheets		\$440	\$1,562		\$842	\$1,909

⁽¹⁾ Amounts represent the impact of enforceable master netting agreements that allow the Company to net settle positive and negative positions, as well as collateral paid and received.

The Company's derivative transactions are internally divided into three sub-groups: institutional, customer facilitation and residential loan. Certain derivative transactions within these sub-groups are designated as fair value or cash flow hedges, as described below:

Derivatives Designated As Hedging Instruments

The Company's institutional derivatives qualify for hedge accounting treatment. The net interest accruals on interest rate swaps designated in a fair value or cash flow hedge relationship are treated as an adjustment to interest income or interest expense of the item being hedged. All hedging relationships are formally documented at inception, as well as risk management objectives and strategies for undertaking various accounting hedges. In addition, the effectiveness of hedge relationships is monitored during the duration of the hedge period. The methods utilized to assess hedge effectiveness vary based on the hedge relationship and each relationship is monitored to ensure that management's initial intent continues to be satisfied. Hedge accounting treatment is discontinued when the derivative is terminated or when it is determined that a derivative is not expected to be, or has ceased to be, effective as a hedge. Changes in the fair value of a derivative are reflected in earnings after termination of the hedge relationship.

Fair Value Hedges

In a fair value hedge, changes in the fair value of both the derivative instrument and the hedged asset or liability attributable to the risk being hedged are recognized in the same income statement line item in the Consolidated Statements of Operations when the changes in fair value occur. During 2023, the Company entered into fair value hedges to manage interest rate risk within the AFS securities portfolio.

The following table presents the change in fair value of interest rate contracts designated as fair value hedges, as well as the change in fair value of the related hedged items attributable to the risk being hedged, included in the Consolidated Statements of Operations:

(dollars in millions)	Year Ended December 31,			Affected Line Item in the Consolidated Statements of Operations
	2023	2022	2021	
Interest rate swaps hedging long-term borrowed funds	\$10	(\$69)	(\$72)	Interest expense - long-term borrowed funds
Hedged long-term borrowed funds attributable to the risk being hedged	(10)	68	71	Interest expense - long-term borrowed funds
Interest rate swaps hedging LHFS	—	13	—	Interest and fees on other loans held for sale
Hedged LHFS attributable to the risk being hedged	—	(13)	—	Interest and fees on other loans held for sale
Interest rate swaps hedging debt securities available for sale	(48)	29	68	Interest income - investment securities
Hedged debt securities available for sale attributable to risk being hedged	50	(29)	(68)	Interest income - investment securities

The following table reflects amounts recorded in the Consolidated Balance Sheets related to cumulative basis adjustments for fair value hedges:

(dollars in millions)	December 31, 2023		December 31, 2022	
	Debt securities available for sale ⁽¹⁾	Long-term borrowed funds	Debt securities available for sale	Long-term borrowed funds
Carrying amount of hedged assets	\$7,253	\$—	\$—	\$—
Carrying amount of hedged liabilities	—	483	—	972
Cumulative amount of fair value hedging adjustments included in the carrying amount of the hedged items	60	(17)	—	(27)

⁽¹⁾ Includes the amortized cost basis of closed portfolios used to designate hedging relationships under the portfolio layer method. The hedged item is a layer of the closed portfolio which is expected to be remaining at the end of the hedging relationship. As of December 31, 2023, the amortized cost basis of the closed portfolios used in these hedging relationships was \$5.9 billion, including associated cumulative basis adjustments of \$39 million, and the amount of the designated hedging instruments was \$4.0 billion.

Cash Flow Hedges

In a cash flow hedge the entire change in the fair value of the interest rate swap included in the assessment of hedge effectiveness is initially recorded in OCI and is subsequently reclassified from AOCI to current period earnings (net interest income) in the same period that the hedged item affects earnings.

Citizens has entered into interest rate swap agreements designed to hedge a portion of the Company's floating-rate assets and liabilities. All of these swaps are deemed highly effective cash flow hedges. The Company has also entered into certain interest rate option agreements that utilize interest rate floors and caps, or some combination thereof, providing the ability to hedge the variability in cash flows within different interest rate bands. Option premiums paid and received are excluded from the assessment of hedge effectiveness and are amortized over the life of the instruments.

The following table presents the pre-tax net gains (losses) recorded in the Consolidated Statements of Operations and in the Consolidated Statements of Comprehensive Income related to derivative instruments designated as cash flow hedges:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Amount of pre-tax net gains (losses) recognized in OCI	(\$145)	(\$1,806)	(\$66)
Amount of pre-tax net gains (losses) reclassified from AOCI into interest income	(596)	(111)	183
Amount of pre-tax net gains (losses) reclassified from AOCI into interest expense	—	(4)	(48)

Using the interest rate curve at December 31, 2023 with respect to cash flow hedge strategies, the Company estimates that approximately \$914 million in pre-tax net losses will be reclassified from AOCI to net interest income over the next 12 months, including \$460 million related to terminated swaps. This amount could differ from amounts actually recognized due to changes in interest rates, hedge de-designations and the addition of other hedges subsequent to December 31, 2023.

Derivatives not designated as hedging instruments

The Company offers derivatives to customers in connection with their risk management needs. These derivatives primarily consist of interest rate, foreign exchange and commodity derivative contracts. Market risk exposure from customer transactions is primarily managed by entering into a variety of hedging transactions with third-party dealers. Gains and losses on customer-related derivatives are reported in foreign exchange and derivatives products in the Consolidated Statements of Operations.

Residential mortgage loans that will be sold in the secondary market and the related loan commitments, which are considered derivatives, are accounted for at fair value. Changes in the fair value of the loans and related commitments due to interest rate risk are hedged with forward contracts to sell mortgage-backed securities. Gains and losses on the loans and related commitments, and the derivatives used to economically hedge them, are reported in mortgage banking fees in the Consolidated Statements of Operations.

Residential MSRs are accounted for at fair value. Derivatives utilized to hedge the fair value of residential MSRs include interest rate futures, swaps, options, and forward contracts to purchase mortgage-backed securities. Gains and losses on residential MSRs and the related derivatives are reported in mortgage banking fees in the Consolidated Statements of Operations.

The following table presents the effect of economic hedges on noninterest income:

	Amounts Recognized in Noninterest Income for the Year Ended December 31,			Affected Line Item in the Consolidated Statements of Operations
(dollars in millions)	2023	2022	2021	
Economic hedge type:				
Customer interest rate contracts	(\$505)	(\$2,027)	(\$374)	Foreign exchange and derivative products
Derivatives hedging interest rate risk	551	2,090	401	Foreign exchange and derivative products
Customer foreign exchange contracts	94	(180)	(207)	Foreign exchange and derivative products
Derivatives hedging foreign exchange risk	14	313	305	Foreign exchange and derivative products
Customer commodity contracts	(900)	1,121	779	Foreign exchange and derivative products
Derivatives hedging commodity price risk	941	(1,097)	(770)	Foreign exchange and derivative products
Residential loan commitments	(34)	(284)	(208)	Mortgage banking fees
Derivatives hedging residential loan commitments and mortgage LHFS, at fair value	25	489	152	Mortgage banking fees
Derivative contracts used to hedge residential MSRs	(33)	(313)	(150)	Mortgage banking fees
Total	\$153	\$112	(\$72)	

NOTE 15 - EMPLOYEE BENEFIT PLANS

Pension and Other Postretirement Plans

Citizens maintains a non-contributory pension plan (the “Citizens Qualified Plan”) that was closed to new hires and re-hires effective January 1, 2009, and frozen to all participants effective December 31, 2012. Benefits under the Citizens Qualified Plan are based on employees’ years of service and highest 5-year average of eligible compensation. The Citizens Qualified Plan is funded on a current basis, in compliance with the requirements of the Employee Retirement Income Security Act of 1974.

In connection with the Investors acquisition, effective June 30, 2022, the Company withdrew from a multi-employer plan and transferred the plan assets into a newly established defined benefit pension plan sponsored by Citizens (the “Investors Qualified Plan”). The Investors Qualified Plan was closed to new hires and re-hires effective December 1, 2015, and future benefit accruals were frozen to all participants effective December 31, 2016.

The Citizens Qualified Plan and the Investors Qualified Plan are collectively referred to as the Company’s “Qualified Plans.”

Citizens also provides an unfunded, non-qualified supplemental retirement plan which was closed and frozen effective December 31, 2012, as well as postretirement benefit plans. As part of the Investors acquisition in 2022, the Company also obtained other frozen, non-qualified supplemental retirement and postretirement benefit plans. These plans are collectively referred to as the Company’s “Non-Qualified Plans.”

The Company's Qualified Plans and Non-Qualified Plans are collectively referred to as the Company's "Pension Plans." The Pension Plans' investments include equity-oriented and fixed income-oriented investments including, but not limited to, government obligations, corporate bonds, and common and collective equity and fixed income funds.

The following table presents changes in the fair value of the Company's Pension Plan assets, projected benefit obligation, funded status, and accumulated benefit obligation:

(dollars in millions)	Year Ended December 31,			
	Qualified Plans		Non-Qualified Plans	
	2023	2022	2023	2022
Fair value of plan assets as of January 1	\$1,182	\$1,390	\$—	\$—
Return on plan assets	169	(262)	—	—
Employer contributions	—	—	5	8
Benefits and administrative expenses paid	(70)	(76)	(5)	(8)
Fair value of plan assets from Investors acquisition	—	130	—	—
Fair value of plan assets as of December 31	1,281	1,182	—	—
Projected benefit obligation	880	868	99	94
Pension asset (obligation)	\$401	\$314	(\$99)	(\$94)
Accumulated benefit obligation	\$880	\$868	\$99	\$94

Actuarial losses related to the Pension Plans recognized in AOCI at December 31, 2023 and 2022 were \$446 million and \$504 million, respectively.

In 2024, Citizens does not plan to contribute to the Qualified Plans and expects to contribute \$10 million to the Non-Qualified Plans.

The following table presents the components of net periodic benefit cost (income) and other changes in plan assets and benefit obligations recognized in OCI for the Company's Pension Plans:

(dollars in millions)	Year Ended December 31,								
	Qualified Plans			Non-Qualified Plans			Total		
	2023	2022	2021	2023	2022	2021	2023	2022	2021
Service cost	\$4	\$3	\$3	\$—	\$—	\$—	\$4	\$3	\$3
Interest cost	46	34	31	5	3	3	51	37	34
Expected return on plan assets	(92)	(93)	(85)	—	—	—	(92)	(93)	(85)
Amortization of actuarial loss	15	11	14	2	3	3	17	14	17
Settlement	—	—	15	—	—	—	—	—	15
Net periodic benefit cost (income) ⁽¹⁾	(27)	(45)	(22)	7	6	6	(20)	(39)	(16)
Net actuarial loss (gain)	(44)	71	(73)	1	(19)	(1)	(43)	52	(74)
Amortization of actuarial loss	(15)	(11)	(14)	(2)	(3)	(3)	(17)	(14)	(17)
Settlement	—	—	(15)	—	—	—	—	—	(15)
Total recognized in OCI	(59)	60	(102)	(1)	(22)	(4)	(60)	38	(106)
Total recognized in net periodic benefit cost (income) and OCI	(\$86)	\$15	(\$124)	\$6	(\$16)	\$2	(\$80)	(\$1)	(\$122)

⁽¹⁾ In the Consolidated Statements of Operations, service cost is presented in salaries and employee benefits and all other components of net periodic benefit cost (income) are presented in other operating expense.

Costs under the Company's Pension Plans are actuarially computed and include current service costs and amortization of prior service costs over the participants' average future working lifetime. The actuarial cost method used in determining the net periodic benefit cost is the projected unit method. During 2021, lump sum payments made under the Citizens Qualified Plan triggered settlement accounting. In accordance with the applicable accounting guidance for defined benefit plans, the Company performed a remeasurement of the Citizens Qualified Plan and recognized a settlement loss.

The following table presents the expected future benefit payments for the Company's Pension Plans:

(dollars in millions)

Expected benefit payments by fiscal year ending:	
December 31, 2024	\$73
December 31, 2025	74
December 31, 2026	75
December 31, 2027	75
December 31, 2028	75
December 31, 2029 - 2033	366

401(k) Plan

Citizens sponsors a 401(k) Plan under which employee contributions are matched by the Company dollar for dollar up to 4% after the employee completes of one year of service. In addition, substantially all employees will receive an additional 1.5% of their eligible earnings after completion of one year of service, subject to limits set by the Internal Revenue Service. Amounts expensed by the Company were \$78 million in 2023 compared to \$86 million in 2022 and \$63 million in 2021.

NOTE 16 - ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table presents the changes in the balances, net of income taxes, of each component of AOCI:

(dollars in millions)	Net Unrealized Gains (Losses) on Derivatives	Net Unrealized Gains (Losses) on Debt Securities	Employee Benefit Plans	Total AOCI
Balance at January 1, 2021	(\$11)	\$380	(\$429)	(\$60)
Other comprehensive income (loss) before reclassifications	(49)	(528)	—	(577)

NOTE 17 - STOCKHOLDERS' EQUITY

Preferred Stock

The following table summarizes the Company's preferred stock:

	Liquidation value per share	December 31,			
		2023		2022	
(dollars in millions, except per share data)		Preferred Shares	Carrying Amount	Preferred Shares	Carrying Amount
Authorized (\$25 par value per share)		100,000,000		100,000,000	
Issued and outstanding:					
Series B	\$1,000	300,000	\$296	300,000	\$296
Series C	1,000	300,000	297	300,000	297
Series D	1,000 ⁽¹⁾	300,000 ⁽²⁾	293	300,000	293
Series E	1,000 ⁽¹⁾	450,000 ⁽³⁾	437	450,000	437
Series F	1,000	400,000	395	400,000	395
Series G	1,000	300,000	296	300,000	296
Total		2,050,000	\$2,014	2,050,000	\$2,014

⁽¹⁾ Equivalent to \$25 per depositary share.

⁽²⁾ Represented by 12,000,000 depositary shares each representing a 1/40th interest in the Series D Preferred Stock.

⁽³⁾ Represented by 18,000,000 depositary shares each representing a 1/40th interest in the Series E Preferred Stock.

The following table provides information related to the Company's preferred stock outstanding as of December 31, 2023:

Preferred Stock ⁽¹⁾	Issue Date	Number of Shares Issued	Dividend Dates ⁽²⁾	Annual Per Share Dividend Rate	Optional Redemption Date ⁽³⁾
Series B	May 24, 2018	300,000	Semi-annually beginning January 6, 2019 until July 6, 2023 Quarterly beginning October 6, 2023	6.000% until July 6, 2023 3 Mo. CME Term SOFR plus 3.265% beginning July 6, 2023 ⁽⁶⁾	July 6, 2023
Series C	October 25, 2018	300,000	Quarterly beginning January 6, 2019 until April 6, 2024 Quarterly beginning July 6, 2024	6.375% until April 6, 2024 3 Mo. CME Term SOFR plus 3.419% beginning April 6, 2024 ⁽⁶⁾	April 6, 2024
Series D	January 29, 2019	300,000 ⁽⁴⁾	Quarterly beginning April 6, 2019 until April 6, 2024 Quarterly beginning July 6, 2024	6.350% until April 6, 2024 3 Mo. CME Term SOFR plus 3.904% beginning April 6, 2024 ⁽⁶⁾	April 6, 2024
Series E	October 28, 2019	450,000 ⁽⁵⁾	Quarterly beginning January 6, 2020	5.000%	January 6, 2025
Series F	June 4, 2020	400,000	Quarterly beginning October 6, 2020 until October 6, 2025 Quarterly beginning January 6, 2026	5.650% until October 6, 2025 5 Yr. US Treasury rate plus 5.313% beginning October 6, 2025	October 6, 2025
Series G	June 11, 2021	300,000	Quarterly beginning October 6, 2021 until October 6, 2026 Quarterly beginning January 6, 2027	4.000% until October 6, 2026 5 Yr. US Treasury rate plus 3.215% beginning October 6, 2026	October 6, 2026

⁽¹⁾ Series B through D are non-cumulative fixed-to-floating rate perpetual preferred stock, Series E is non-cumulative fixed-rate perpetual preferred stock, and Series F and G are non-cumulative fixed-rate reset perpetual preferred stock. Except in limited circumstances, each series of preferred stock does not have voting rights.

⁽²⁾ Dividends are payable when declared by the Company's Board of Directors or an authorized committee thereof.

⁽³⁾ Redeemable at the Company's option, in whole or in part, on any dividend payment date on or after the date stated, or in whole but not in part, at any time within 90 days following a regulatory capital treatment event as defined in the applicable certificate of designations, in each case at a redemption price equal to \$1,000 per share plus any declared and unpaid dividends, without accumulation of any undeclared dividends. Under current rules, any redemption is subject to approval by the FRB.

⁽⁴⁾ Represented by 12,000,000 depositary shares each representing a 1/40th interest in the Series D Preferred Stock.

⁽⁵⁾ Represented by 18,000,000 depositary shares each representing a 1/40th interest in the Series E Preferred Stock.

⁽⁶⁾ Effective July 1, 2023, Series B through D transitioned from three-month USD LIBOR to three-month CME Term SOFR, plus a tenor spread adjustment of 0.26161%, as their benchmark replacement rate during their respective floating-rate periods due to the cessation of LIBOR on June 30, 2023.

Dividends

The following tables summarize the Company's dividend activity for the years ended December 31, 2023, 2022 and 2021.

(dollars in millions, except per share data)	Year Ended December 31,								
	2023			2022			2021		
	Dividends Declared per Share	Dividends Declared	Dividends Paid	Dividends Declared per Share	Dividends Declared	Dividends Paid	Dividends Declared per Share	Dividends Declared	Dividends Paid

Total preferred stock		\$117	\$120		\$113	\$113		\$113	\$113

Treasury Stock

The purchase of the Company's common stock is recorded at cost. Upon retirement, or if subsequently reissued, treasury stock is reduced by the cost of such stock on a first-in, first-out basis with differences recorded in additional paid-in capital or retained earnings, as applicable.

During the years ended December 31, 2023 and 2022, the Company repurchased \$906 million, or 28,473,805 shares, and repurchased \$153 million, or 3,815,922 shares, respectively, of its outstanding common stock, which are held in treasury stock.

NOTE 18 - SHARE-BASED COMPENSATION

Citizens has share-based employee compensation plans as outlined below, pursuant to which awards are granted to employees and non-employee directors. The Company has granted time-based restricted stock units and performance-based restricted stock units, which represent the right to receive shares of stock on a future date subject to applicable vesting conditions.

Citizens Financial Group, Inc. 2014 Omnibus Incentive Plan. The Company grants select employees time-based restricted stock units and performance-based restricted stock units under this plan. Time-based restricted stock units generally become vested ratably over a 3-year period and performance-based restricted stock units generally become vested in a single installment at the end of a 3-year performance period, depending on the level of performance achieved during such period relative to established targets. If a dividend is paid on shares underlying the awards prior to the date such shares are distributed, those dividends will be distributed following vesting in the same form as the dividend that was paid to common stockholders generally.

Citizens Financial Group, Inc. 2014 Non-Employee Directors Compensation Plan. The Company grants time-based restricted stock units to non-employee directors as compensation for their services under this plan. Restricted stock units granted to directors are fully vested on the grant date, with settlement of the awards deferred until a director's cessation of service. If a dividend is paid on the shares underlying the awards prior to the date such shares are distributed, they are reinvested into additional restricted stock units.

Citizens Financial Group, Inc. 2014 Employee Stock Purchase Plan. This plan provides eligible employees an opportunity to purchase CFG common stock at a 10% discount. Participants may contribute up to 10% of eligible compensation to the ESPP and may purchase up to \$25,000 worth of stock in any calendar year. Offering periods under the ESPP are quarterly, with shares of CFG common stock purchased on the last day of each quarter at a 10% discount from the fair market value, defined as the closing price on the day of purchase. Prior to the date the shares are purchased, participants have no rights or privileges as a stockholder with respect to shares purchased at the end of the offering period.

Restricted Stock Unit Activity

The following table presents the activity related to the Company's restricted stock unit activity:

	Year Ended December 31,					
	2023		2022		2021	
	Units	Weighted-Average Grant Price	Units	Weighted-Average Grant Price	Units	Weighted-Average Grant Price
Outstanding, January 1	3,876,601	\$43.06	3,502,956	\$38.23	3,496,231	\$34.37
Assumed	—	—	—	—	82,013	49.95
Granted	2,575,234	39.88	1,844,352	48.12	1,417,370	44.97
Vested & Distributed	(1,729,136)	40.84	(1,359,543)	37.47	(1,400,722)	38.88
Forfeited	(149,042)	42.92	(111,164)	43.36	(91,936)	35.00
Outstanding, December 31	4,573,657	\$42.23	3,876,601	\$43.06	3,502,956	\$38.23

There are 40,750,357 shares of common stock available for awards to be granted under the Omnibus Plan and Directors Plan. In addition, there are 2,991,009 shares available for issuance under the ESPP. Upon settlement of share-based awards, the Company generally issues new shares, but may also issue shares from treasury stock.

Compensation Expense

Citizens measures compensation expense related to stock awards based upon the fair value of the awards on the grant date. Compensation expense is adjusted for forfeitures as they occur. The related expense is charged to earnings on a straight-line basis over the requisite service period (i.e., vesting period) of the award. With respect to performance-based stock awards, compensation expense is adjusted upward or downward based upon the probability of achievement of performance. Awards that continue to vest after retirement are expensed over the shorter of the period of time from grant date to the final vesting date or from the grant date to the date when an employee is retirement eligible. Awards granted to employees who are retirement eligible at the grant date are generally expensed immediately.

Share-based compensation expense was \$87 million, \$84 million and \$59 million for the years ended December 31, 2023, 2022 and 2021, respectively. At December 31, 2023, the total unrecognized compensation expense for unvested awards granted was \$76 million. This expense is expected to be recognized over a weighted-average period of approximately two years.

Citizens recognized income tax benefits related to share-based compensation arrangements of \$16 million, \$19 million and \$12 million for the years ended December 31, 2023, 2022 and 2021, respectively.

NOTE 19 - COMMITMENTS AND CONTINGENCIES

A summary of outstanding off-balance sheet arrangements is presented below:

(dollars in millions)	December 31,	
	2023	2022
Commitments to extend credit	\$94,201	\$96,076
Letters of credit	1,977	2,119
Loans sold with recourse	96	92
Marketing rights	18	23
Risk participation agreements	3	4
Total	\$96,295	\$98,314

Commitments to Extend Credit

Commitments to extend credit are agreements to lend to customers in accordance with conditions contractually agreed upon in advance. Generally, the commitments have fixed expiration dates or termination clauses and may require payment of a fee. Since many of these commitments are expected to expire without being drawn upon, the contract amounts are not necessarily indicative of future cash requirements.

Letters of Credit

Letters of credit in the table above reflect commercial, standby financial and standby performance letters of credit. Financial and performance standby letters of credit are issued by the Company for the benefit of its customers. They are used as conditional guarantees of payment to a third party in the event the customer either fails to make specific payments (financial) or fails to complete a specific project (performance). The Company's exposure to credit loss in the event of counterparty nonperformance in connection with the above instruments is represented by the contractual amount of those instruments. Generally, letters of credit are collateralized by cash, accounts receivable, inventory or investment securities. Credit risk associated with letters of credit is considered in determining the appropriate amount of allowances for unfunded commitments. Standby letters of credit and commercial letters of credit are issued for terms of up to two years and one year, respectively.

Other Commitments

Citizens has additional off-balance sheet arrangements that are summarized below:

- **Marketing Rights** - During 2003, Citizens entered into a 25-year agreement to acquire the naming and marketing rights of a baseball stadium in Pennsylvania.
- **Loans sold with recourse** - Citizens is an originator and servicer of residential mortgages and routinely sells such mortgage loans in the secondary market and to GSEs. In the context of such sales, the Company makes certain representations and warranties regarding the characteristics of the underlying loans and, as a result, may be contractually required to repurchase such loans or indemnify certain parties against losses for certain breaches of those representations and warranties. The Company also sells the government guaranteed portion of certain SBA loans to outside investors, for which it retains the servicing rights.
- **Risk Participation Agreements** - RPAs are guarantees issued by the Company to other parties for a fee, whereby the Company agrees to participate in the credit risk of a derivative customer of the other party. The current amount of credit exposure is spread out over multiple counterparties. At December 31, 2023, the remaining terms on these RPAs ranged from less than one year to ten years.

Contingencies

The Company operates in a legal and regulatory environment that exposes it to potentially significant risks. A certain amount of litigation ordinarily results from the nature of the Company's banking and other businesses. The Company is a party to legal proceedings, including class actions. The Company is also the subject of investigations, reviews, subpoenas, and regulatory matters arising out of its normal business operations which, in some instances, relate to concerns about fair lending, unfair and/or deceptive practices, and mortgage-related issues. In addition, the Company engages in discussions with relevant governmental and regulatory authorities on a regular and ongoing basis regarding various issues, and any issues discussed or identified may result in investigatory or other action being taken. Litigation and regulatory matters may result in settlements, damages, fines, penalties, public or private censure, increased costs, required remediation, restrictions on business activities, or other impacts on the Company.

In these disputes and proceedings, the Company contests liability and the amount of damages as appropriate. Given their complex nature, and based on the Company's experience, it may be years before some of these matters are finally resolved. Moreover, before liability can be reasonably estimated for a claim, numerous legal and factual issues may need to be examined, including through potentially lengthy discovery and determination of important factual matters, and by addressing novel or unsettled legal issues relevant to the proceedings in question. The Company cannot predict with certainty if, how, or when such claims will be resolved or what the eventual settlement, fine, penalty or other relief, if any, may be, particularly for claims that are at an early stage in their development or where claimants seek substantial or indeterminate damages. The Company recognizes a provision for a claim when, in the opinion of management after seeking legal advice, it is probable that a liability exists and the amount of loss can be reasonably estimated. In many proceedings, however, it is not possible to determine whether any loss is probable or to estimate the amount of any loss.

Based on information currently available, the advice of legal counsel and other advisers, and established reserves, management believes that the aggregate liabilities, if any, potentially arising from these proceedings will not have a materially adverse effect on the Company's Consolidated Financial Statements.

NOTE 20 - FAIR VALUE MEASUREMENTS

Citizens measures or monitors many of its assets and liabilities on a fair value basis. Fair value is used on a recurring basis for assets and liabilities for which fair value is the required or elected measurement basis of accounting. Fair value is also used on a nonrecurring basis to evaluate assets for impairment or for disclosure purposes. Nonrecurring fair value adjustments typically involve the application of lower of cost or market accounting or write-downs of individual assets. Fair value measurement guidance is also applied to determine amounts reported for certain disclosures in this Note for assets and liabilities that are not required to be reported at fair value in the financial statements.

Fair Value Option

Citizens elected to account for residential mortgage LHFS and certain commercial and industrial, and commercial real estate LHFS at fair value. The election of the fair value option for financial assets and liabilities is optional and irrevocable. Applying fair value accounting to residential mortgage LHFS better aligns the reported results of the economic changes in the value of these loans and their related economic hedge instruments. Certain commercial and industrial, and commercial real estate LHFS are managed by a commercial secondary loan desk that provides liquidity to banks, finance companies and institutional investors. Fair value accounting is applied to these loans since the Company holds these loans with the intent to sell them in the near-term.

The following table presents the difference between the aggregate fair value and the aggregate unpaid principal balance of LHFS measured at fair value:

(dollars in millions)	December 31, 2023			December 31, 2022		
	Aggregate Fair Value	Aggregate Unpaid Principal	Aggregate Fair Value Greater (Less) Than Aggregate Unpaid Principal	Aggregate Fair Value	Aggregate Unpaid Principal	Aggregate Fair Value Greater (Less) Than Aggregate Unpaid Principal
Residential mortgage LHFS, at fair value	\$614	\$593	\$21	\$666	\$656	\$10
Commercial and industrial, and commercial real estate LHFS, at fair value	62	69	(7)	108	127	(19)

Residential Mortgage Loans Held for Sale

The fair value of residential mortgage LHFS is derived from observable mortgage security prices and includes adjustments for loan servicing value, agency guarantee fees, and other loan level attributes which are observable in the marketplace. Credit risk does not have a significant impact on the valuation of these loans as they are sold shortly after origination. Residential mortgage LHFS are classified as Level 2 in the fair value hierarchy given the observable market inputs utilized to value these loans.

Residential mortgage loans accounted for under the fair value option are initially measured at fair value when the financial asset is originated or purchased. Subsequent changes in fair value are recognized in mortgage banking fees in the Consolidated Statements of Operations.

Interest income on residential mortgage loans held for sale is calculated based on the contractual interest rate of the loan and is recorded in interest income in the Consolidated Statements of Operations.

Commercial and Industrial, and Commercial Real Estate Loans Held for Sale

The fair value of commercial and industrial, and commercial real estate LHFS is estimated using observable prices of similar loans that transact in the marketplace. External pricing services that provide fair value estimates based on quotes from various dealers transacting in the market, sector curves or benchmarking techniques are also utilized. Commercial and industrial, and commercial real estate loans managed by the commercial secondary loan desk are classified as Level 2 in the fair value hierarchy given the observable market inputs utilized to value these loans.

These commercial loans accounted for under the fair value option are initially measured at fair value when the financial asset is recognized. Subsequent changes in fair value are recognized in capital markets fees in the Consolidated Statements of Operations. Changes in the fair value of the commercial trading portfolio are due to changes in credit risk since the portfolio is comprised of floating-rate obligations only. These credit-related changes may include observed changes in overall credit spreads and/or changes to the creditworthiness of an individual borrower.

Interest income on commercial and industrial, and commercial real estate LHFS is calculated based on the contractual interest rate of the loan and is recorded in interest income in the Consolidated Statements of Operations.

Recurring Fair Value Measurements

Fair value is measured using the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based upon quoted market prices in an active market, if available, or observable market-based inputs or independently sourced parameters if quoted prices are not available. Inputs may include prices for similar assets or liabilities, yield curves, interest rates, prepayment speeds, and foreign exchange rates.

The Company carries certain assets and liabilities at fair value, including AFS securities, derivative instruments and other investment securities. In addition, the Company has elected to account for its residential mortgage LHFS and loans managed by the commercial secondary loan trading desk at fair value. Assets and liabilities carried at fair value are classified in accordance with the three-level valuation hierarchy:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar instruments, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by market data for substantially the full term of the asset or liability.
- Level 3. Unobservable inputs that are supported by little or no market information and that are significant to the fair value measurement.

Classification in the hierarchy is based upon the lowest level input that is significant to the fair value measurement of the asset or liability. For instruments classified in Levels 1 and 2 where inputs are primarily based upon observable market data, there is less judgment applied in arriving at the fair value. For instruments classified in Level 3, management judgment is more significant due to the lack of observable market data.

Fair value hierarchy classifications are reviewed and updated on a quarterly basis. Changes related to the observability of inputs in fair value measurements may result in a reclassification between the fair value hierarchy levels and are recognized based on period-end balances.

A variety of valuation techniques are utilized to measure the Company's assets and liabilities at fair value on a recurring basis, with those utilized for significant assets and liabilities presented below:

Debt securities available for sale

AFS debt securities are classified as Level 1 in the fair value hierarchy if quoted prices in active markets are available. Classes of securities that are valued using this market approach include debt securities issued by the U.S. Treasury. The fair value of a security is estimated under the market or income approach using pricing models if quoted market prices are not available. These securities are classified as Level 2 since they trade in active markets and the inputs to their valuations are observable. The pricing models used to value securities generally commence with market prices, or rates, for similar instruments, with adjustments made based on the characteristics of the instrument being valued. These adjustments reflect assumptions made regarding the sensitivity of each security's value to changes in interest rates and prepayment speeds. Classes of securities that are valued using this market approach include pooled mortgage "pass-through" securities, collateralized loan obligations, and other debt securities issued by U.S. GSEs and state and political subdivisions. The pricing models used to value securities under the income approach generally commence with the contractual cash flows of each security, with adjustments made based on forecasted prepayment speeds, default rates, and other market-observable information. The adjusted cash flows are then discounted at a rate derived from observed rates of return for comparable assets or liabilities that are traded in the market. Classes of instruments that are valued using this market approach include residential and commercial CMOs.

A majority of the Company's Level 1 and 2 debt securities are priced using an external pricing service. The pricing accuracy of this service is verified on a quarterly basis and involves the use of a secondary external vendor to provide valuations for the Company's securities portfolio for comparison purposes. Any valuation discrepancies exceeding a certain threshold are researched and, if necessary, corroborated by an independent outside broker.

In certain cases where there is limited activity or less transparency around inputs to the valuation model, securities are classified as Level 3.

Mortgage Servicing Rights

MSRs do not trade in an active market with readily observable prices and, therefore, are classified as Level 3 since their valuation utilizes significant unobservable inputs. The fair value is determined using a discounted cash flow model, which includes assumptions associated with weighted-average life, prepayment speed, and weighted-average option adjusted spread. The underlying assumptions and estimated values are corroborated by values received from independent third parties based on their review of the servicing portfolio and comparisons to market transactions. Refer to Note 8 for more information.

Derivatives

The Company's interest rate derivatives are traded in OTC markets where quoted market prices are not readily available. Fair value is determined through models that primarily use market observable inputs, such as swap rates and yield curves. These pricing models determine the sum of each instrument's fixed and variable cash flows, which are then discounted using an appropriate yield curve (i.e., Overnight Index Swap curve) to arrive at the fair value of each derivative instrument. The pricing models do not contain a high level of subjectivity as the methodologies used do not require significant judgment. Certain adjustments to the modeled price that market participants would make when pricing each instrument are also considered, including a credit valuation adjustment that reflects the credit quality of the derivative counterparty. The effect of exposure to a particular counterparty's credit is incorporated by netting their derivative contracts with the available collateral and calculating a credit valuation adjustment on the basis of the net position with the counterparty where permitted. This adjustment requires judgment on behalf of Company management; however, the total amount of this portfolio-level adjustment is not material to the total fair value of the interest rate derivative portfolio. Therefore, interest rate derivatives are classified as Level 2 in the fair value hierarchy.

The fair value of commodity derivatives uses the mid-point of market observable quoted prices as an input into the fair value model. These observed market prices, combined with other market observed inputs to derive the fair value of the instrument, generally classifies the commodity derivative as a Level 2 instrument.

The fair value of foreign exchange derivatives uses the mid-point of daily quoted currency spot prices. The valuation model estimates fair value based on these quoted prices along with interest rate yield curves and forward currency rates. Since all of these inputs are observable in the market, foreign exchange derivatives are classified as Level 2 in the fair value hierarchy.

The fair value of TBA contracts is estimated using observable prices of similar loan pools that transact in the marketplace, as well as sector curves and benchmarking techniques. Therefore, the TBA contracts are classified as Level 2 in the fair value hierarchy given the observable market inputs.

Other contracts primarily consist of interest rate lock commitments, which are valued utilizing loan closing rate assumptions that are internally generated. These assumptions are a significant unobservable input and, therefore, interest rate lock commitments are classified as Level 3 in the fair value hierarchy.

Equity Securities, at fair value

The fair value of money market mutual fund investments is determined based on unadjusted quoted market prices and is considered a Level 1 fair value measurement.

The following table presents assets and liabilities measured at fair value, including gross derivative assets and liabilities, on a recurring basis at December 31, 2023:

(dollars in millions)	Total	Level 1	Level 2	Level 3
Debt securities available for sale:				
Mortgage-backed securities	\$24,732	\$—	\$24,732	\$—
Collateralized loan obligations	664	—	664	—
State and political subdivisions	1	—	1	—
U.S. Treasury and other	4,380	4,380	—	—
Total debt securities available for sale	29,777	4,380	25,397	—
Loans held for sale, at fair value:				
Residential loans held for sale	614	—	614	—
Commercial loans held for sale	62	—	62	—
Total loans held for sale, at fair value	676	—	676	—
Mortgage servicing rights	1,552	—	—	1,552
Derivative assets:				
Interest rate contracts	464	—	464	—
Foreign exchange contracts	434	—	434	—
Commodities contracts	685	—	685	—
TBA contracts	3	—	3	—
Other contracts	7	—	—	7
Total derivative assets	1,593	—	1,586	7
Equity securities, at fair value ⁽¹⁾	115	115	—	—
Total assets	\$33,713	\$4,495	\$27,659	\$1,559
Derivative liabilities:				
Interest rate contracts	\$1,149	\$—	\$1,149	\$—
Foreign exchange contracts	378	—	378	—
Commodities contracts	640	—	640	—
TBA contracts	16	—	16	—
Other contracts	—	—	—	—
Total derivative liabilities	2,183	—	2,183	—
Total liabilities	\$2,183	\$—	\$2,183	\$—

⁽¹⁾ Excludes investments of \$58 million included in other assets in the Consolidated Balance Sheets that are measured at fair value using the net asset value per share (or its equivalent) practical expedient. These investments include capital contributions to private investment funds and have unfunded capital commitments of \$28 million at December 31, 2023, which may be called at any time during prescribed time periods. The credit exposure is generally limited to the carrying amount of investments made and unfunded capital commitments.

The following table presents assets and liabilities measured at fair value, including gross derivative assets and liabilities, on a recurring basis at December 31, 2022:

(dollars in millions)	Total	Level 1	Level 2	Level 3
Debt securities available for sale:				
Mortgage-backed securities	\$19,313	\$—	\$19,313	\$—
Collateralized loan obligations	1,206	—	1,206	—
State and political subdivisions	2	—	2	—
U.S. Treasury and other	3,486	3,486	—	—
Total debt securities available for sale	24,007	3,486	20,521	—
Loans held for sale, at fair value:				
Residential loans held for sale	666	—	666	—
Commercial loans held for sale	108	—	108	—
Total loans held for sale, at fair value	774	—	774	—
Mortgage servicing rights	1,530	—	—	1,530
Derivative assets:				
Interest rate contracts	347	—	347	—
Foreign exchange contracts	527	—	527	—
Commodities contracts	953	—	953	—

Equity securities, at fair value ⁽¹⁾	110	110	—	—
Total assets	\$28,260	\$3,596	\$23,129	\$1,535
Derivative liabilities:				
Interest rate contracts	\$1,632	\$—	\$1,632	\$—
Foreign exchange contracts	519	—	519	—
Commodities contracts	942	—	942	—
TBA contracts	14	—	14	—
Other contracts	4	—	—	4
Total derivative liabilities	3,111	—	3,107	4
Total liabilities	\$3,111	\$—	\$3,107	\$4

⁽¹⁾ Excludes investments of \$43 million included in other assets in the Consolidated Balance Sheets that are measured at fair value using the net asset value per share (or its equivalent) practical expedient. These investments include capital contributions to private investment funds and have unfunded capital commitments of \$42 million at December 31, 2022, which may be called at any time during prescribed time periods. The credit exposure is generally limited to the carrying amount of investments made and unfunded capital commitments.

The following table presents a roll forward of the balance sheet amounts for assets measured at fair value on a recurring basis and classified as Level 3:

(dollars in millions)	For the Year Ended December 31,			
	2023		2022	
	Mortgage Servicing Rights	Other Derivative Contracts	Mortgage Servicing Rights	Other Derivative Contracts
Beginning balance	\$1,530	\$1	\$1,029	\$38
Issuances	127	64	279	93
Acquisitions ⁽¹⁾	—	—	16	—
Settlements ⁽²⁾	(166)	(24)	(137)	154
Changes in fair value during the period recognized in earnings ⁽³⁾	61	(34)	343	(284)
Ending balance	\$1,552	\$7	\$1,530	\$1

⁽¹⁾ Represents MSRs acquired as part of the Investors acquisition.

⁽²⁾ For MSRs, represents changes in value of the MSRs due to i) passage of time including the impact from both regularly scheduled loan principal payments and partial paydowns, and ii) loans that paid off during the period. For other derivative contracts, represents the closeout of interest rate lock commitments.

⁽³⁾ Represents changes in value primarily driven by market conditions. These changes are recorded in mortgage banking fees in the Consolidated Statements of Operations.

The following table presents quantitative information about the Company's Level 3 assets, including the range and weighted-average of the significant unobservable inputs used to fair value these assets, as well as valuation techniques used.

			As of December 31, 2023	As of December 31, 2022
	Valuation Technique	Unobservable Input	Range (Weighted Average)	Range (Weighted Average)
Mortgage servicing rights	Discounted Cash Flow	Constant prepayment rate	6.70-14.55% CPR (7.23% CPR)	6.19-17.80% CPR (6.80% CPR)
		Option adjusted spread	398-1,058 bps (630 bps)	398-1,058 bps (629 bps)
Other derivative contracts	Internal Model	Pull through rate	24.90-99.70% (80.34%)	28.62-99.90% (83.71%)
		MSR value	(8.90)-141.24 bps (88.04 bps)	(1.60)-144.84 bps (95.80 bps)

Nonrecurring Fair Value Measurements

Fair value is also used on a nonrecurring basis to evaluate certain assets for impairment or for disclosure purposes. The following valuation techniques are utilized to measure significant assets for which the Company utilizes fair value on a nonrecurring basis:

Collateral-Dependent Loans

The carrying amount of collateral-dependent loans is compared to the appraised value of the collateral less costs to dispose and is classified as Level 2. Any excess of the carrying amount over the appraised value is charged to the ALLL.

The following table presents losses on assets measured at fair value on a nonrecurring basis and recorded in earnings:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Collateral-dependent loans	(\$138)	(\$4)	(\$27)

The following table presents assets measured at fair value on a nonrecurring basis:

(dollars in millions)	December 31, 2023				December 31, 2022			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Collateral-dependent loans	\$789	\$—	\$789	\$—	\$582	\$—	\$582	\$—

Fair Value of Financial Instruments

The following tables present the estimated fair value for financial instruments not recorded at fair value in the Consolidated Financial Statements. The carrying amounts are recorded in the Consolidated Balance Sheets under the indicated captions:

(dollars in millions)	December 31, 2023							
	Total		Level 1		Level 2		Level 3	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets:

Long-term borrowed funds	15,887	15,469	—	—	15,887	15,469	—	—

⁽¹⁾ During 2023, the Company revised its presentation of the loans and leases portfolio from a gross to net basis to better align with its presentation on the Consolidated Balance Sheets. The prior period presentation was revised to conform to the new presentation.

NOTE 21 - NONINTEREST INCOME

Revenues from Contracts with Customers

Revenue from contracts with customers is recognized based on the amount of consideration expected to be received upon the transfer of control of a good or service. The timing of recognition is dependent on whether a performance obligation is satisfied by transferring control of the product or service to a customer over time or at a point in time. Judgments made include the timing of when performance obligations are satisfied and determination of the transaction price.

The following tables present the components of revenue from contracts with customers disaggregated by revenue stream and business operating segment:

(dollars in millions)	Year Ended December 31, 2023				
	Consumer Banking	Commercial Banking	Non-Core	Other	Consolidated
Service charges and fees	\$277	\$131	\$—	\$1	\$409
Card fees	244	47	—	—	291
Capital markets fees	—	293	—	—	293
Trust and investment services fees	259	—	—	—	259
Other banking fees	3	11	—	—	14
Total revenue from contracts with customers	\$783	\$482	\$—	\$1	\$1,266
Total revenue from other sources ⁽¹⁾	284	302	—	131	717
Total noninterest income	\$1,067	\$784	\$—	\$132	\$1,983

(dollars in millions)	Year Ended December 31, 2022				
	Consumer Banking	Commercial Banking	Non-Core	Other	Consolidated
Service charges and fees	\$291	\$124	\$—	\$3	\$418
Card fees	228	43	—	—	271

Trust and investment services fees	249	1	—	—	250
Other banking fees	1	17	—	1	19
Total revenue from contracts with customers	\$769	\$526	\$—	\$4	\$1,299
Total revenue from other sources ⁽¹⁾	294	319	—	97	710
Total noninterest income	\$1,063	\$845	\$—	\$101	\$2,009

(dollars in millions)	Year Ended December 31, 2021				
	Consumer Banking	Commercial Banking	Non-Core	Other	Consolidated
Service charges and fees	\$302	\$105	\$—	\$—	\$407
Card fees	216	32	—	—	248
Capital markets fees	—	419	—	—	419
Trust and investment services fees	239	—	—	—	239
Other banking fees	—	12	—	—	12
Total revenue from contracts with customers	\$757	\$568	\$—	\$—	\$1,325
Total revenue from other sources ⁽¹⁾	466	241	—	103	810
Total noninterest income	\$1,223	\$809	\$—	\$103	\$2,135

⁽¹⁾ Includes bank-owned life insurance income of \$93 million, \$88 million and \$67 million for the years ended December 31, 2023, 2022 and 2021, respectively.

Citizens does not have any material contract assets, liabilities, or other receivables recorded on its Consolidated Balance Sheets related to revenues from contracts with customers as of December 31, 2023. Citizens has elected to exclude disclosure of unsatisfied performance obligations for contracts with an original expected length of one year or less and contracts for which the Company recognized revenue at the amount to which the Company has the right to invoice for services performed.

A description of the above components of revenue from contracts with customers is presented below:

Service Charges and Fees

Service charges and fees include fees earned from deposit products in lieu of compensating balances, service charges for deposit transactions performed by customers, and fees earned for cash management activities. Service charges on deposit products are recognized over the period in which the related service is provided and at a point in time upon completion of the requested service transaction. Fees on cash management products and servicing fees on loans sold without recognition of a servicing right are recognized over time as the services are provided.

Card Fees

Card fees include interchange income from credit and debit card transactions and are recognized upon settlement by the association network. Interchange rates are generally set by the association network based on purchase volume and other factors. Other card-related fees are recognized upon completion of the transaction. Costs related to card reward programs are recognized in current earnings as the rewards are earned by the customer and are presented as a reduction to card fees in the Consolidated Statements of Operations.

Capital Markets Fees

Capital markets fees include fees received from leading or participating in loan syndications, bond and equity underwriting services, and advisory fees. Loan syndication and underwriting fees are recognized as revenue when the Company has rendered all services to, and is entitled to collect the fee from, the borrower or the issuer, and there are no significant contingencies associated with the fee. Underwriting expenses passed through from the lead underwriter are recognized within other operating expense in the Consolidated Statements of Operations. Advisory fees for mergers and acquisitions are recognized over time, while valuation services and fairness opinions are recognized upon completion of the advisory service.

Trust and Investment Services Fees

Trust and investment services fees include fees from investment management and brokerage services. Fees from investment management services are based on asset market values and are recognized over the period in which the related service is provided. Brokerage services include custody fees, commission income, trailing commissions and other investment services. Custody fees are recognized on a monthly basis and commission income is recognized on trade date. Trailing commissions, such as 12b-1 fees, insurance renewal income, and income based on asset or investment levels in future periods are recognized when the asset balance is known, or the renewal occurs and the income is no longer constrained. For the years ended December 31, 2023, 2022 and 2021, the Company recognized trailing commissions of \$15 million, \$15 million and \$16 million, respectively, related to ongoing commissions from previous investment sales. Fees from other investment services are recognized upon completion of the service.

Other Banking Fees

Other banking fees include fees for various banking transactions such as letter of credit fees, foreign wire transfers and other services. These fees are recognized in a manner that reflects the timing of when transactions occur and as services are provided.

Revenue from Other Sources

Letter of Credit and Loan Fees

Letter of credit and loan fees primarily include fees received from letter of credit agreements as well as loan fees received from lending activities that cannot be deferred. These fees are recognized upon execution of the contract.

Foreign Exchange and Derivative Products

Foreign exchange and derivative products primarily include fees received from foreign exchange and interest rate derivative contracts executed with customers to meet their hedging and financing needs. These fees are generally recognized upon execution of the contracts. Foreign exchange and derivative products also include mark-to-market gains and losses recognized on these customer contracts and offsetting derivative contracts that are executed with external counterparties to hedge the foreign exchange and interest rate risk associated with the customer contracts.

Mortgage Banking Fees

Mortgage banking fees primarily include gains, or losses, on the sale of residential mortgages originated with the intent to sell and servicing fees on mortgages serviced by the Company. Mortgage banking fees also include valuation adjustments for mortgage LHFS that are measured at the lower of cost or fair value, as well as mortgage loans originated with the intent to sell that are measured at fair value under the fair value option. Changes in the value of MSRs are reported in mortgage fees and related income. For a further discussion of MSRs, see Note 8.

Other Income

Bank-owned life insurance is stated at its cash surrender value. Citizens is the beneficiary of life insurance policies on current and former officers of the Company. Net changes in the carrying amount of the cash surrender value are an adjustment of premiums paid in determining the expense or income recognized under the life insurance policy for the period.

NOTE 22 - OTHER OPERATING EXPENSE

The following table presents the details of other operating expense:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Marketing	\$187	\$166	\$111
Deposit insurance	390	96	66
Other	396	323	234
Other operating expense	\$973	\$585	\$411

NOTE 23 - INCOME TAXES

Income taxes are accounted for under the asset and liability method, resulting in two components of income tax expense: current and deferred. Current income tax expense approximates taxes to be paid or refunded for the current period while deferred income tax expense results from changes in gross deferred tax assets and liabilities between periods. Gross deferred tax assets and liabilities represent changes in taxes expected to be paid in the future due to the reversal of temporary differences between the financial statement carrying amount of existing assets and liabilities and their respective tax bases.

Citizens assesses the probability that positions taken, or expected to be taken, in its income tax returns will be sustained by taxing authorities. A “more likely than not” (i.e., more than 50 percent) recognition threshold must be met before a tax benefit can be recognized. Tax positions that are more likely than not to be sustained are reflected in the Company’s Consolidated Financial Statements.

The following table presents total income tax expense:

(dollars in millions)	Year Ended December 31,		
	2023	2022	2021
Income tax expense	\$422	\$582	\$658
Tax effect of changes in OCI	289	(1,319)	(199)
Total comprehensive income tax expense (benefit)	\$711	(\$737)	\$459

The following table presents the components of income tax expense:

(dollars in millions)	Current	Deferred	Total
Year Ended December 31, 2023			
U.S. federal	\$497	(\$135)	\$362
State and local	167	(107)	60
Total	\$664	(\$242)	\$422
Year Ended December 31, 2022			
U.S. federal	\$355	\$88	\$443
State and local	170	(31)	139
Total	\$525	\$57	\$582
Year Ended December 31, 2021			
U.S. federal	\$871	(\$345)	\$526
State and local	216	(84)	132
Total	\$1,087	(\$429)	\$658

The following table presents a reconciliation between the U.S. federal income tax rate and the Company's effective income tax rate:

(dollars in millions)	Year Ended December 31,					
	2023		2022		2021	
	Amount	Rate	Amount	Rate	Amount	Rate
U.S. federal income tax expense and tax rate	\$426	21.0 %	\$558	21.0 %	\$625	21.0 %
Increase (decrease) resulting from:						
State and local income taxes (net of federal benefit)	58	2.9	133	5.0	126	4.2
Bank-owned life insurance	(20)	(1.0)	(19)	(0.7)	(14)	(0.5)
Tax-exempt interest	(12)	(0.6)	(8)	(0.3)	(7)	(0.2)
Tax advantaged investments (including related credits)	(77)	(3.8)	(102)	(3.8)	(95)	(3.2)
Other tax credits	(3)	(0.1)	(9)	(0.3)	(7)	(0.2)
Adjustments for uncertain tax positions	5	0.2	1	—	3	0.1
Non-deductible FDIC insurance premiums	35	1.7	20	0.7	14	0.5
Legacy tax matters	—	—	3	0.1	—	—
Other	10	0.5	5	0.2	13	0.4
Total income tax expense and effective tax rate	\$422	20.8 %	\$582	21.9 %	\$658	22.1 %

The following table presents the significant components of the Company's deferred tax assets and liabilities:

(dollars in millions)	December 31,	
	2023	2022
Deferred tax assets:		
Other comprehensive income	\$1,291	\$1,546
Allowance for credit losses	555	511
Federal and state net operating and capital loss carryforwards	79	77
Accrued expenses	1,152	863
Investment and other tax credit carryforwards	130	131
Other	9	19
Total deferred tax assets	3,216	3,147
Valuation allowance	(137)	(133)
Deferred tax assets, net of valuation allowance	3,079	3,014
Deferred tax liabilities:		
Leasing transactions	297	287
Amortization of intangibles	421	413
Depreciation	532	470
Pension and other employee compensation plans	130	128
Partnerships	12	87
Deferred Income	3	12
MSRs	252	203
Total deferred tax liabilities	1,647	1,600
Net deferred tax asset (liability)	\$1,432	\$1,414

Deferred tax assets are recognized for net operating loss carryforwards, capital loss carryforwards and tax credit carryforwards. Valuation allowances are recorded, as necessary, to reduce deferred tax assets to the amount that management concludes is more likely than not to be realized.

At December 31, 2023, the Company had federal and state tax net operating loss carryforwards of \$651 million and capital loss carryforwards of \$152 million. The majority of the federal and state tax net operating loss carryforwards, if not utilized, will expire in varying amounts through 2042, while the capital loss and tax credit carryforwards expire in varying amounts through 2027 and 2030, respectively. Limitations on the ability to realize these carryforwards are reflected in the associated valuation allowance. At December 31, 2023, the Company had a valuation allowance of \$137 million against various deferred tax assets related to federal and state net operating losses, capital losses and state tax credits, as the Company's current assessment is that it is more likely than not that a portion of the deferred tax assets related to these items will not be realized.

Effective with the fiscal year ended September 30, 1997, the reserve method for bad debts was no longer permitted for tax purposes. The repeal of the reserve method required the recapture of the reserve balance in excess of certain base year reserve amounts attributable to years ended prior to 1988. At December 31, 2023, the Company's base year loan loss reserves attributable to years ended prior to 1988, for which no deferred income taxes have been provided, was \$557 million. This base year reserve may become taxable if certain distributions are made with respect to the stock of the Company or if CBNA ceases to qualify as a bank for tax purposes. No actions are planned that would cause any portion of this reserve to become taxable.

The Company files income tax returns in the U.S. federal jurisdiction and in various state and local jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal or state and local income tax examinations by major tax authorities for years before 2016.

The following table presents a reconciliation of the beginning and ending amount of unrecognized tax benefits:

(dollars in millions)	December 31,		
	2023	2022	2021
Balance at the beginning of the year	\$6	\$7	\$4
Gross increase for tax positions related to current year	1	—	1
Gross increase for tax positions related to prior years	1	—	3
Decrease for tax positions as a result of the lapse of the statutes of limitations	—	—	(1)
Decrease for tax positions related to settlements with taxing authorities	(1)	(1)	—
Balance at end of year	\$7	\$6	\$7

Tax positions are measured as the largest amount of tax benefit that has a greater than 50 percent likelihood of being realized upon settlement with a taxing authority. The difference between the benefit recognized and the tax benefit claimed on a tax return is referred to as an unrecognized tax benefit. Any adjustment to unrecognized tax benefits is recorded in income tax expense in the Consolidated Statements of Operations. The Company does not expect the balance of unrecognized tax benefits to significantly change in the next twelve months.

Interest and penalties related to unrecognized tax benefits are reported in income tax expense in the Consolidated Statements of Operations. The Company's liability for accrued interest related to unrecognized tax benefits was \$4 million as of December 31, 2023 and immaterial as of December 31, 2022. In addition, the income tax expense recognized for interest related to unrecognized tax benefits was \$3 million for the year ended December 31, 2023 and immaterial for the years ended December 31, 2022 and 2021. No amounts were accrued for penalties as of December 31, 2023 and 2022, and no penalties were recognized in income tax expense during the years ended December 31, 2023, 2022 and 2021.

NOTE 24 - EARNINGS PER SHARE

Basic EPS is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding during each period. Net income available to common stockholders represents net income less preferred stock dividends. Diluted EPS is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding during each period, inclusive of potential dilutive shares such as share-based payment awards and warrants using the treasury stock method.

(dollars in millions, except per share data)	Year Ended December 31,		
	2023	2022	2021
Numerator (basic and diluted):			
Net income	\$1,608	\$2,073	\$2,319
Less: Preferred stock dividends	117	113	113
Net income available to common stockholders	\$1,491	\$1,960	\$2,206
Denominator:			
Weighted-average common shares outstanding - basic	475,089,384	475,959,815	425,669,451
Dilutive common shares: share-based awards	1,603,764	1,843,327	1,766,367
Weighted-average common shares outstanding - diluted	476,693,148	477,803,142	427,435,818
Earnings per common share:			
Basic	\$3.14	\$4.12	\$5.18
Diluted ⁽¹⁾	3.13	4.10	5.16

⁽¹⁾ Potential dilutive common shares are excluded from the computation of diluted EPS in the periods where the effect would be antidilutive. Excluded from the computation of diluted EPS were weighted-average antidilutive shares totaling 2,210,857, 949,606 and 2,929 for the years ended December 31, 2023, 2022 and 2021, respectively.

NOTE 25 - REGULATORY MATTERS

As a BHC and FHC, the Company is subject to regulation and supervision by the FRB. Our banking subsidiary, CBNA, is a national banking association primarily regulated by the OCC.

Under the current U.S. Basel III capital framework, the Company and CBNA must meet the following specific minimum requirements: CET1 capital ratio of 4.5%, tier 1 capital ratio of 6.0%, total capital ratio of 8.0% and tier 1 leverage ratio of 4.0%. As a BHC, the Company's SCB of 4.0% is imposed on top of the three minimum risk-based capital ratios listed above and a CCB of 2.5% is imposed on top of the three minimum risk-based capital ratios listed above for CBNA. The Company's SCB will be re-calibrated with each biennial supervisory stress test and updated annually to reflect the Company's planned common stock dividends. In addition, the Company must not be subject to a written agreement, order or capital directive with any of its regulators. Failure to meet minimum capital requirements can result in the initiation of certain actions that, if undertaken, could have a material effect on the Company's Consolidated Financial Statements.

The following table presents the regulatory capital ratios for the Company and CBNA under the U.S. Basel III Standardized rules. The Company and CBNA have both declared as an "AOCI opt-out" institution, which means they are not required to recognize the AOCI impact of net unrealized gains and losses on debt securities and accumulated net gains and losses on cash flow hedges and certain defined benefit pension plan assets in regulatory capital. In addition, both entities elected to delay the estimated impact of CECL on regulatory capital for a two-year period ending December 31, 2021, followed by a three-year transition period ending December 31, 2024, to phase-in the aggregate amount of the capital benefit provided during the initial two-year delay.

(dollars in millions)	Actual		Required Minimum Capital	
	Amount	Ratio	Amount	Ratio ⁽¹⁾
As of December 31, 2023				
CET1 capital				
CFG	\$18,358	10.6 %	\$14,671	8.5 %
CBNA	19,411	11.3	12,047	7.0
Tier 1 capital				
CFG	20,372	11.8	17,260	10.0
CBNA	19,411	11.3	14,628	8.5
Total capital				
CFG	23,608	13.7	20,712	12.0
CBNA	22,453	13.0	18,070	10.5
Tier 1 leverage				
CFG	20,372	9.3	8,784	4.0
CBNA	19,411	8.9	8,759	4.0
As of December 31, 2022				
CET1 capital				
CFG	\$18,574	10.0 %	\$14,633	7.9 %
CBNA	20,669	11.2	12,935	7.0
Tier 1 capital				
CFG	20,588	11.1	17,411	9.4
CBNA	20,669	11.2	15,706	8.5
Total capital				
CFG	23,755	12.8	21,116	11.4
CBNA	23,534	12.7	19,402	10.5
Tier 1 leverage				
CFG	20,588	9.3	8,831	4.0
CBNA	20,669	9.4	8,807	4.0

⁽¹⁾ Represents minimum requirement under the current capital framework plus the SCB of 4.0% and CCB of 2.5% for CFG and CBNA, respectively. The SCB and CCB are not applicable to the Tier 1 leverage ratio.

The Company's capital distributions are subject to the oversight of the FRB. Under the FRB's SCB framework, failure to maintain risk-based capital ratios above the respective minimum requirements including the SCB would result in graduated restrictions on the Company's ability to make certain discretionary bonus payments and capital distributions, including common stock dividends and share repurchases. The timing and amount of future dividends and share repurchases will depend on various factors, including the Company's capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations. All future capital distributions are subject to consideration and approval by the Board of Directors prior to execution. See Note 17 for more information regarding the Company's common stock repurchases and dividends.

Dividends payable by CBNA, as a national bank subsidiary, are limited to the lesser of the amount calculated under a "recent earnings" test and an "undivided profits" test. Under the recent earnings test, a dividend may not be paid if the total of all dividends declared during any calendar year exceeds the sum of current year net income and retained net income of the two preceding years, less any required transfers to surplus, unless the national bank obtains the approval of the OCC. Under the undivided profits test, a dividend may not be paid in excess of the entity's "undivided profits" (generally accumulated net profits that have not been paid out as dividends or transferred to surplus). Federal banking regulatory agencies have issued policy statements that provide that FDIC-insured depository institutions and their holding companies should generally pay dividends only out of current operating earnings.

NOTE 26 - BUSINESS OPERATING SEGMENTS

Citizens is managed by its Chief Executive Officer on a segment basis. The Company's three business operating segments are Consumer Banking, Commercial Banking, and Non-Core. The business operating segments are determined based on the products and services provided, or the type of customer served. Each business operating segment has a segment head who reports directly to the Chief Executive Officer, who has final authority over resource allocation decisions and performance assessment. The business operating segments reflect this management structure and the manner in which financial information is currently evaluated by the Chief Executive Officer.

Developing and applying methodologies used to allocate items among the business operating segments is a dynamic process. Accordingly, financial results may be revised periodically as management systems are enhanced, methods of evaluating performance or product lines are updated, or our organizational structure changes.

See Note 1 for a description of segment changes made during 2023.

Reportable Segments

Segment results are determined based upon the Company's organizational and management structure, with balance sheet and statement of operations items assigned to each of the business segments. The results are not necessarily comparable with similar information reported by other financial institutions. A description of each reportable business operating segment is presented below:

Consumer Banking

The Consumer Banking segment serves consumer customers and small businesses with annual revenues of up to \$25 million. It offers traditional banking products and services including deposits, mortgage and home equity lending, credit cards, business loans, education loans, point-of-sale finance loans, and wealth management and investment services. Citizens Private Bank, launched during 2023, integrates wealth management and banking services to serve high net-worth individuals and families, as well as businesses.

The segment's distribution channels include a branch network, ATMs and a workforce of experienced specialists covering lending, savings and investment needs as well as a broad range of small business products and services. The Company's Consumer Banking value proposition is based on providing simple, easy to understand product offerings and a convenient banking experience with a more personalized approach.

Commercial Banking

The Commercial Banking segment primarily serves companies and institutions with annual revenues of \$25 million to more than \$3.0 billion and strives to be a trusted advisor to its clients and preferred provider for their banking needs. A broad complement of financial products and solutions are offered, including lending and leasing, deposit and treasury management services, foreign exchange, interest rate and commodity risk management solutions, as well as syndicated loans, corporate finance, mergers and acquisitions, and debt and equity capital markets capabilities.

The segment focuses on middle-market companies, large corporations and institutions and has dedicated teams with industry and product expertise in Aerospace, Defense and Government Services, Communications, Transportation and Logistics, Food and Restaurants, Human Capital Management, and Gaming. While the segment's business development efforts are predominantly focused in the Company's footprint, some of its specialized industry businesses also operate on a national basis. A key component of Commercial Banking's growth strategy is to present clients with ideas that help their businesses thrive and, in doing so, expand the breadth and depth of our banking relationship with them.

Non-Core

The Non-Core segment includes the Company's indirect auto and certain purchased consumer loan portfolios that were transferred from the Consumer Banking segment into this newly created segment during 2023. This new segment reflects the manner in which management is currently assessing performance and allocating resources and aligns with the Company's recently announced balance sheet optimization strategy to discontinue the origination of certain non-strategic lending portfolios.

Non-segment Operations

Other

Non-segment operations are classified as Other and include assets, liabilities, capital, revenues, provision (benefit) for credit losses, expenses and income tax expense not attributed to the Company's Consumer Banking, Commercial Banking, or Non-Core segments as well as treasury and community development.

Management accounting practices utilized by the Company to measure the performance and produce the results of its segments include the following:

Funds Transfer Pricing

The Company's FTP, a component of net interest income, ensures consistent business segment pricing behavior by removing interest rate risk from business performance. This risk is centrally managed within the Treasury function and reported in Other non-segment operations. Business operating segments are provided an interest credit for funding it generates and an interest charge for assets it holds. The sum of interest income/expense and FTP charges/credits for each business operating segment is its designated net interest income. The offset to FTP charges and credits is recorded in Other non-segment operations.

The Company employs a matched maturity FTP methodology for the Consumer Banking and Commercial Banking business operating segments with rates based on a product's repricing frequency and interest sensitivity, as well as other factors. The FTP charge for the Non-Core business operating segment is based on an implied reference pool of high-cost funding sources. This method applies a waterfall marginal funding approach referencing the Company's secured borrowings collateralized by auto loans, FHLB advances, and various other higher-cost deposit sources required to fully debt-fund the assets.

Provision for credit losses

The provision for credit losses for each business operating segment is based on actual net charge-offs recognized by the business operating segment. The difference between the consolidated provision for credit losses and total net charge-offs for all business operating segments is reflected in Other non-segment operations.

Income taxes

Income taxes are assessed to each business operating segment at a standard tax rate with the residual tax expense or benefit to arrive at the consolidated effective tax rate included in Other non-segment operations.

Expenses

Noninterest expenses incurred by centrally-managed operations or business lines that directly support the operations of another business line are charged to the applicable business line based on its utilization of those services.

Goodwill

Goodwill is allocated to the Consumer Banking and Commercial Banking business operating segments for impairment testing purposes.

Substantially all revenues generated and long-lived assets held by the Company's business operating segments are derived from customers that reside in the United States. No business operating segment earns revenue from a single external customer that represents ten percent or more of the Company's total revenues.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. The design of any disclosure controls and procedures is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this Annual Report on Form 10-K, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Annual Report on Form 10-K, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Annual Report on Form 10-K that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Annual Report on Internal Control over Financial Reporting, the Report of the Independent Registered Public Accounting Firm on the Consolidated Financial Statements and the Report of the Independent Registered Public Accounting Firm on Internal Control over Financial Reporting are included in Item 8.

ITEM 9B. OTHER INFORMATION

None.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

In Part III of this Report we refer to relevant sections of our 2024 Proxy Statement for the 2024 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days of the close of our 2023 fiscal year. Portions of our 2024 Proxy Statement, including the sections we refer to in this Report, are incorporated by reference into this Report.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required by this item is presented under the captions "Corporate Governance Matters" – "Director Nominees" and "Board Structure and Oversight Responsibilities" – "Corporate Governance Guidelines", "Committees of the Board", "Code of Business Conduct and Ethics" and "Other Items" - "Delinquent Section 16(a) Reporting" of our 2024 Proxy Statement, which is incorporated by reference into this item.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is presented under the captions "Executive Compensation Matters" – "Compensation Discussion and Analysis," "Compensation and HR Committee Report", "Executive Compensation Tables", "Termination of Employment and Change of Control", "Role of Risk Management in Compensation", "Dodd Frank Compensation Disclosure" – "CEO Pay Ratio" and "Pay Versus Performance", and "Corporate Governance Matters" - "Director Compensation" of our 2024 Proxy Statement, which is incorporated by reference into this item.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item regarding security ownership of certain beneficial owners and management is presented under the caption “Other Items” - “Security Ownership of Certain Beneficial Owners and Management” in our 2024 Proxy Statement, which is incorporated by reference into this item.

Information regarding our compensation plans under which CFG equity securities are authorized for issuance is included in the table below. Additional information regarding these plans is included in Note 18 in Item 8.

Equity Compensation Plan Information At December 31, 2023

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights ⁽³⁾	Weighted-average exercise price of outstanding options, warrants and rights (\$) ⁽⁴⁾	Number of securities remaining available (excluding securities reflected in first column) ⁽⁵⁾
Equity compensation plans approved by security holders	4,567,994	—	43,741,366
Equity compensation plans not approved by security holders	—	—	—
Total ⁽¹⁾⁽²⁾	4,567,994	—	43,741,366

⁽¹⁾ Excludes securities subject to the Investors Bancorp, Inc. 2006 Equity Incentive Plan and the Investors Bancorp, Inc. 2015 Equity Incentive Plan (“Investors Plans”). Although equity-based awards granted under the Investors Plans were converted into CFG awards and assumed in connection with the Investors acquisition in 2022, CFG does not intend to grant any awards under the Investors Plans. As of December 31, 2023, 393,426 stock options with a weighted-average exercise price of \$38.35 and 18,509 restricted shares were outstanding under the Investors Plans.

⁽²⁾ Excludes securities subject to the JMP Group LLC Amended and Restated Equity Incentive Plan (“JMP Plan”). Although equity-based awards granted under the JMP Plan were converted into CFG awards and assumed in connection with the JMP acquisition in 2021, CFG does not intend to grant any awards under the JMP Plan. As of December 31, 2023, 214,601 stock options with a weighted-average exercise price of \$19.45 and 5,663 restricted stock units were outstanding under the JMP Plan.

⁽³⁾ Represents the number of shares of common stock associated with outstanding time-based and performance-based restricted stock units.

⁽⁴⁾ Other than the stock options assumed in connection with the JMP and Investors acquisitions, CFG had no outstanding stock options.

⁽⁵⁾ Represents the number of shares remaining available for future issuance under the Citizens Financial Group, Inc. 2014 Omnibus Incentive Plan (39,532,535 shares), the Citizens Financial Group, Inc. 2014 Employee Stock Purchase Plan (2,991,009 shares), and the Citizens Financial Group, Inc. 2014 Non-Employee Directors Compensation Plan (1,217,822 shares).

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is set forth under the captions “Corporate Governance Matters” — “Board Governance and Oversight” — “Director Nominees” - “Director Independence” and “Related Person Transactions” of our 2024 Proxy Statement, which is incorporated by reference into this item.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is presented under the captions “Audit Matters” — “Pre-approval of Independent Auditor Services” and “Independent Registered Public Accounting Firm Fees” of our 2024 Proxy Statement, which is incorporated by reference into this item.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a)(1) Financial Statements

The following report of our independent registered public accounting firm and the consolidated financial statements of Citizens Financial Group, Inc. are included in Item 8 of this Form 10-K:

- Report of Independent Registered Public Accounting Firm on the Consolidated Financial Statements;
- Consolidated Balance Sheets as of December 31, 2023 and 2022;
- Consolidated Statements of Operations for the Years Ended December 31, 2023, 2022 and 2021;
- Consolidated Statements of Comprehensive Income for the Years Ended December 31, 2023, 2022 and 2021;
- Consolidated Statements of Changes in Stockholders’ Equity for the Years Ended December 31, 2023, 2022 and 2021;
- Consolidated Statements of Cash Flows for the Years Ended December 31, 2023, 2022 and 2021; and
- Notes to Consolidated Financial Statements.

(a)(2) Financial Statement Schedules

All required financial statement schedules for the Registrant are included in the audited Consolidated Financial Statements or related footnotes in Item 8.

**DESCRIPTION OF THE SECURITIES
REGISTERED PURSUANT TO SECTION 12 OF THE
SECURITIES EXCHANGE ACT OF 1934**

Citizens Financial Group, Inc. (“Citizens,” “we,” “our,” “us,” and the “Company”) has three classes of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”): (i) Common Stock, par value \$0.01 per share; (ii) Depositary Shares each representing a 1/40th Interest in a share of our 6.350% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series D, par value \$25.00 per share (the “Series D Preferred Stock”); and (iii) Depositary Shares each representing a 1/40th Interest in a share of our 5.000% Fixed-Rate Non-Cumulative Perpetual Preferred Stock, Series E, par value \$25.00 per share (the “Series E Preferred Stock”).

Authorized Capital Stock

Citizens’ authorized capital stock consists of 1,000,000,000 shares of common stock, par value \$0.01 per share and 100,000,000 shares of preferred stock, par value \$25.00 per share. All outstanding shares of our capital stock are fully paid and non-assessable.

Description of Common Stock

The following description of our common stock is a summary and does not purport to be complete and is qualified in its entirety by the applicable provisions of federal law governing bank holding companies, Delaware law and our restated certificate of incorporation and amended and restated bylaws. Our amended and restated certificate of incorporation and bylaws are incorporated by reference as Exhibits to our Annual Report on Form 10-K.

Voting rights

The holders of common stock are entitled to one vote per share on all matters to be voted upon by the stockholders, except on matters relating solely to terms of preferred stock.

For the election of directors, we have adopted a majority voting standard in uncontested elections and a plurality voting standard in contested elections. There are no cumulative voting rights.

Dividend rights

Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our Board of Directors (the “Board”) out of funds legally available therefor.

Rights upon liquidation

In the event of liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

Other rights

The holders of our common stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock.

Listing

Our common stock is traded on the New York Stock Exchange under the trading symbol “CFG.”

Description of Depositary Shares Representing Interests in Shares of Preferred Stock

The description set forth below of certain provisions of the deposit agreement and of the depositary shares and depositary receipts does not purport to be complete and is subject to and qualified in its entirety by reference to the forms of deposit agreement and depositary receipts relating to each series of preferred stock.

Citizens has the following depositary shares registered under Section 12 of the Exchange Act:

- Depositary Shares each representing 1/40th interest in a share of our Series D Preferred Stock; and
- Depositary Shares each representing 1/40th interest in a share of our Series E Preferred Stock.

We refer to the above series of preferred stock represented by depositary shares (the “Depositary Shares”), collectively, as the “Preferred Stock.”

General

Our Depositary Shares represent fractional interests in shares of the applicable series of Preferred Stock. Each Depositary Share represents a 1/40th ownership interest in a share of the applicable series of Preferred Stock, and are evidenced by a depositary receipt. We have deposited the underlying shares of Preferred Stock represented by the Depositary Shares with a depositary pursuant to a deposit agreement among us, Computershare Inc. and its wholly-owned subsidiary Computershare Trust Company, N.A., jointly acting as depositary, and the holders from time to time of the depositary receipts. Subject to the terms of the deposit agreement, each holder of a Depositary Share is entitled to all the rights and preferences of the shares of the applicable series of Preferred Stock (including dividend, voting, redemption and liquidation rights) in proportion to the applicable fraction of a share of the applicable series of Preferred Stock represented by each Depositary Share.

Dividends and Other Distributions

Each dividend on a Depositary Share is in an amount equal to 1/40th of the dividend declared on each share of the applicable series of Preferred Stock.

The depositary distributes all dividends and other cash distributions received in respect of Preferred Stock to the holders of record of the Depositary Shares in proportion to the number of Depositary Shares held by each holder. In the event of a distribution other than in cash, the depositary distributes property received by it to the holders of record of the Depositary Shares in proportion to the number of Depositary Shares held by each holder, unless the depositary determines that this distribution is not feasible, in which case the depositary may, with our approval, adopt a method of distribution that it deems equitable and practicable, including the sale of the property and distribution of the net proceeds from that sale to the holders of the Depositary Shares.

Record dates for the payment of dividends and other matters relating to the Depositary Shares are the same as the corresponding record dates for the applicable series of Preferred Stock.

The amounts distributed to holders of the Depositary Shares are reduced by any amounts required to be withheld by the depositary or by us on account of taxes or other governmental charges.

Redemption of the Depositary Shares

If we redeem any series of Preferred Stock represented by the Depositary Shares, the Depositary Shares will be redeemed from the proceeds received by the depositary resulting from the redemption of the applicable series of Preferred Stock held by the depositary. The redemption price per Depositary Share will be equal to 1/40th of the redemption price per share payable with respect to the Preferred Stock (equivalent to \$25 per Depositary Share), plus any declared and unpaid dividends, without accumulation of any undeclared dividends, on the shares of the Preferred Stock. Whenever we redeem shares of Preferred Stock held by the depositary, the depositary will redeem, as of the same redemption date, the number of the Depositary Shares representing shares of the Preferred Stock so redeemed.

In case of any redemption of less than all of the outstanding Depositary Shares, the Depositary Shares to be redeemed will be selected either pro rata or by lot. In any case, the depositary will redeem the Depositary Shares only in increments of 40 Depositary Shares and any integral multiple thereof. The depositary will provide notice of redemption to record holders of the Depositary Shares not less than 30 and not more than 60 days prior to the date fixed for redemption of the Preferred Stock and the related Depositary Shares.

Voting Rights of the Depositary Shares

Because each Depositary Share represents a 1/40th interest in the applicable series of Preferred Stock, holders of Depositary Shares are entitled to 1/40th of a vote per Depositary Share under those limited circumstances in which holders of the applicable series of Preferred Stock are entitled to a vote.

When the depositary receives notice of any meeting at which the holders of the applicable series of Preferred Stock are entitled to vote, the depositary will mail (or otherwise transmit by an authorized method) the information contained in the notice to the record holders of the Depositary Shares relating to the applicable series of Preferred Stock. Each record holder of the Depositary Shares on the record date, which will be the same date as the record date for the applicable series of Preferred Stock, may instruct the depositary to vote the amount of the Preferred Stock represented by the holder's Depositary Shares. To the extent possible, the depositary will vote the amount of the Preferred Stock represented by the Depositary Shares in accordance with the instructions it receives. We will agree to take all reasonable actions that the depositary determines are necessary to enable the depositary to vote as instructed. If the depositary does not receive specific instructions from the holders of any Depositary Shares, it will vote all Depositary Shares held by it proportionately with instructions received.

Charges of Depositary

We have agreed to pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We have agreed to pay associated charges of the depositary in connection with the initial deposit of the applicable series of Preferred Stock and any redemption of the applicable series of Preferred Stock. Holders of the Depositary Shares will pay transfer, income, and other taxes and governmental charges and such other charges as are expressly provided in the deposit agreement to be for their accounts. If these charges have not been paid by the holders of the Depositary Shares, the depositary may refuse to transfer Depositary Shares, withhold dividends and distributions, and sell the Depositary Shares.

Listing

The Depositary Shares representing the Series D Preferred Stock and the Series E Preferred Stock are traded on the New York Stock Exchange under the trading symbols “CFG PrD” and “CFG PrE”, respectively.

Form and Notices

Each series of Preferred Stock has been issued in registered form to the depositary, and the Depositary Shares have been issued in book-entry only form through The Depositary Trust Company (“DTC”). The depositary will forward to the holders of the Depositary Shares all reports, notices, and communications from us that are delivered to the depositary and that we are required to furnish to the holders of the applicable series of Preferred Stock.

Depositary

Computershare Inc. and Computershare Trust Company, N.A. are the joint depositary for the Depositary Shares. We may terminate such appointment and may appoint a successor depositary at any time and from time to time, provided that we will use our best efforts to ensure that there is, at all relevant times when the Preferred Stock is outstanding, a person or entity appointed and serving as such depositary.

Description of Preferred Stock

As described above, we have Depositary Shares registered under Section 12 of the Exchange Act that represent interests in the Preferred Stock. This section describes the Preferred Stock, interests in which are represented by the Depositary Shares. The following description of our Preferred Stock is a summary and does not purport to be complete and is qualified in its entirety by the applicable provisions of federal law governing bank holding companies, Delaware law, the Certificate of Designations for the applicable series of Preferred Stock, which are included as Exhibits to our amended and restated certificate of incorporation, and our amended and restated certificate of incorporation and bylaws. Our amended and restated certificate of incorporation and bylaws are incorporated by reference as Exhibits to this Annual Report on Form 10-K.

Other than as described below, the terms of the Series D Preferred Stock and the Series E Preferred Stock are substantially similar.

General

Under our amended and restated certificate of incorporation, we have authority to issue up to 100,000,000 shares of preferred stock, par value \$25.00 per share. Our Board is authorized without further stockholder action to cause the issuance of shares of preferred stock. Any additional preferred stock may be issued from time to time in one or more series, each with such voting powers, full or limited, or no voting powers, and such designations, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereof, as our Board (or a duly authorized committee) may determine prior to the time of issuance.

The Preferred Stock is not be convertible into, or exchangeable for, shares of our common stock or any other class or series of our other securities and are not be subject to any sinking fund or any other obligation of us for their repurchase or retirement. The Preferred Stock represents non-withdrawable capital, not be an account of an insurable type, and not insured or guaranteed by the Federal Deposit Insurance Corporation any other governmental agency or instrumentality.

Dividends

Holders of Preferred Stock are entitled to receive, when, as and if declared by our Board (or a duly authorized committee of our Board), only out of funds legally available therefor, non-cumulative cash dividends payable quarterly in arrears at the rate specified below:

- Series D Preferred Stock : cash dividends at a per annum rate equal to 6.350% until April 6, 2024 (the “*fixed rate period*”), and quarterly thereafter (the “*floating rate period*”) at the rate equal to the three month LIBOR (as defined below) plus 3.642%; and
- Series E Preferred Stock: cash dividends at a per annum rate equal to 5.000%.

In the case of the Series D Preferred Stock, the Company announced on June 23, 2023, that after June 30, 2023 due to the cessation of LIBOR, the three-month CME Term SOFR, as administered by CME Group Benchmark Administration, Ltd. (or any successor administrator), plus a tenor spread adjustment of 0.26161% (“SOFR Rate”) will be the benchmark replacement to be used, if and when necessary, for the Series D Preferred Stock that contemplated the use of three-month LIBOR as the reference rate during its floating rate period.

Each date on which dividends are payable is a “*dividend payment date*,” and dividends for each dividend payment date are payable with respect to the dividend period (or portion thereof) ending on the day preceding such respective dividend payment date, in each case to holders of record on the 15th calendar day before such dividend payment date or such other record date not more than 30 nor less than 10 days preceding such dividend payment date fixed for that purpose by our Board (or a duly authorized committee of our Board) in advance of payment of each particular dividend. For the Series E Preferred Stock and the Series D Preferred Stock during the fixed rate period, if any such date is not a business day, then such date will nevertheless be a dividend payment date, but dividends on the Preferred Stock, when, as and if declared, will be paid on the next succeeding business day (without adjustment in the amount of the dividend per share of the applicable series of Preferred Stock). For the Series D Preferred Stock during the floating rate period, if any such date that would otherwise be a dividend payment date is not a business day, then the next succeeding business day will be the applicable dividend payment date and dividends on the Series D Preferred Stock, when, as and if declared, will be paid on such next succeeding business day, unless such day falls in the next calendar month, in which case the dividend payment date will be brought forward to the immediately preceding day that is a business day.

The amount of the dividend per share of the Series D Preferred Stock will be calculated (a) for each dividend period (or portion thereof) in the fixed rate period, on the basis of a 360-day year consisting of twelve 30-day months, and (b) for each dividend period (or portion thereof) in the floating rate period, based on the actual number of days in the dividend period and a 360-day year. The amount of the dividend per share of the Series E Preferred Stock will be calculated for each dividend period (or portion thereof) on the basis of a 360-day year consisting of twelve 30-day months. We will not pay interest or any sum of money instead of interests on any dividend payment date that may be in arrears on any series of Preferred Stock.

Dividends on shares of Preferred Stock will not be cumulative and will not be mandatory. If our Board (or a duly authorized committee of our Board) does not declare a dividend on a series of Preferred Stock in respect of a dividend period, then holders of that series of Preferred Stock shall not be entitled to receive any dividends not declared by our Board (or a duly authorized committee of our Board) and no interest, or sum of money in lieu of interest, shall be payable in respect of any dividend not so declared, whether or not our Board (or a duly authorized committee of our Board) declares a dividend on that series of Preferred Stock or any other series of our preferred stock or on our common stock for any future dividend period.

In the case of the Series D Preferred Stock, “*three-month LIBOR*” for each dividend determination date related to the floating rate period will be determined by the calculation agent as follows:

- (i) The rate for deposits in U.S. dollars having an index maturity of three months as such rate is displayed on Bloomberg on page BBAM1 (or any other page as may replace such page on such service or any successor service for the purpose of displaying the London interbank rates of major banks for U.S. dollars) (“*Bloomberg BBAM1*”) as of 11:00 a.m., London time, on such dividend determination date. If no such rate so appears, three-month LIBOR on such dividend determination date will be determined in accordance with provision described in clause (ii) or (iii) below.
- (ii) With respect to a dividend determination date on which no rate is displayed on Bloomberg BBAM1 as specified in clause (i) above, the calculation agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the underwriters for the offering of the Series D Preferred Stock) in the London interbank market, as selected by us, and identified to the calculation agent, to provide the calculation agent with its offered quotation for deposits in U.S. dollars having an index maturity of three months, commencing on the first day of the related dividend period, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on such dividend determination date and in a principal amount that is representative for a single transaction in U.S. dollars in such market at such time. If at least two such quotations are so provided, then three-month LIBOR on such dividend determination date will be the arithmetic mean calculated by the calculation agent of such quotations. If fewer than two such quotations are so provided, then three-month LIBOR on such dividend determination date will be the arithmetic mean calculated by the calculation agent of the rates quoted at approximately 11:00 a.m., in New York City, on such dividend determination date by three major banks (which may include affiliates of the underwriters for the offering of the Series D Preferred Stock) in New York City selected by us, and identified to the calculation agent, for loans in U.S. dollars to leading European banks, having

an index maturity of three months and in a principal amount that is representative for a single transaction in U.S. dollars in such market at such time; provided, however, that if the banks so selected by us are not quoting as mentioned in this sentence, but a LIBOR Event (as defined below) has not occurred, three-month LIBOR determined as of a dividend determination date shall be three-month LIBOR in effect on such dividend determination date, or, in the case of the dividend period beginning April 6, 2024, the most recent three-month LIBOR that can be determined.

- (iii) Notwithstanding clauses (i) and (ii) above, if we, in our sole discretion, determine that three month LIBOR has been permanently discontinued or is no longer viewed as an acceptable benchmark for securities like the Series D Preferred Stock and we have notified the calculation agent of such determination (a “*LIBOR Event*”), the calculation agent will use, as directed by us, as a substitute for three-month LIBOR (the “*Alternative Rate*”) for each future dividend determination date, the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) that is consistent with market practice regarding a substitute for three-month LIBOR. As part of such substitution, the calculation agent will, as directed by us, make such adjustments to the Alternative Rate or the spread thereon, as well as the business day convention, dividend determination dates and related provisions and definitions (“*Adjustments*”), in each case that are consistent with market practice for the use of such Alternative Rate. Notwithstanding the foregoing, if we determine that there is no alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) that is consistent with market practice regarding a substitute for three-month LIBOR, we may, in our sole discretion, appoint an independent financial advisor (“*IFA*”) to determine an appropriate Alternative Rate and any Adjustments, and the decision of the IFA will be binding on us, the calculation agent and the holders of Series D Preferred Stock. If a LIBOR Event has occurred, but for any reason an Alternative Rate has not been determined or there is no such market practice for the use of such Alternative Rate (and, in each case, an IFA has not determined an appropriate Alternative Rate and Adjustments or an IFA has not been appointed), three-month LIBOR determined as of a dividend determination date shall be three-month LIBOR in effect on such dividend determination date; provided, however, that if this sentence is applicable with respect to the first dividend determination date related to the floating rate period, the dividend rate, business day convention and manner of calculating dividends applicable during the fixed rate period will remain in effect during the floating rate period.

The establishment of three-month LIBOR for each dividend period in the floating rate period by the calculation agent (including, for the avoidance of doubt, at the direction of us in the case of clause (iii)) or IFA, as applicable, shall (in the absence of manifest error) be final and binding. For the avoidance of doubt, any adjustments made pursuant to clause (iii) of the definition of three-month LIBOR shall not be subject to the vote or consent of the holders of the Series D Preferred Stock.

“*Dividend determination date*” means, with respect to a dividend period during the floating rate period, the second London banking day prior to the beginning of such dividend period.

“*London banking day*” means a day that is a Monday, Tuesday, Wednesday, Thursday or Friday and any day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Redemption

The Preferred Stock is perpetual and has no maturity date. The Preferred Stock is redeemable at our option, subject to receipt of any required regulatory approval, in whole or in part as follows:

- the Series D Preferred Stock is redeemable on any dividend payment date on or after the dividend payment date on April 6, 2024 at a cash redemption price of \$1,000 per share (equivalent to \$25 per Depositary Share), plus any declared and unpaid dividends, without regard to any undeclared dividends, to, but excluding, the redemption date; and
- the Series E Preferred Stock is redeemable on any dividend payment date on or after the dividend payment date on January 6, 2025 at a cash redemption price of \$1,000 per share (equivalent to \$25 per Depositary Share), plus any declared and unpaid dividends, without regard to any undeclared dividends, to, but excluding, the redemption date

Also, we may, redeem the shares of Preferred Stock, in whole but not in part, at any time within 90 days following a Regulatory Capital Treatment Event (as defined in the Certificate of Designations for such series), in each case, at a cash redemption price equal to the stated amount, together with any declared and unpaid dividends, without regard to any undeclared dividends, to but excluding the redemption date.

The Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. Holders of the Preferred Stock have no right to require redemption of any shares of Preferred Stock.

Restrictions on Dividends, Redemption and Repurchases

So long as any shares of Preferred Stock remains outstanding, unless dividends on all outstanding shares of Preferred Stock for the most recently completed dividend period have been paid in full or declared and a sum sufficient for the payment thereof has been set aside for payment, (i) no dividend may be declared or paid or set aside for payment, and no distribution may be made, on any junior stock (as defined in the Certificate of Designations for such series), (ii) no monies may be paid or made available for a sinking fund for the redemption or retirement of junior stock (a “*junior stock sinking fund payment*”), and

(iii) no shares of junior stock shall be purchased, redeemed or otherwise acquired for consideration by us, directly or indirectly, other than:

- any junior stock sinking fund payment, or any purchase, redemption or other acquisition of shares of junior stock, as a result of (x) a reclassification of junior stock for or into other junior stock, (y) the exchange or conversion of one share of junior stock for or into another share of junior stock or (z) the purchase of fractional interests in shares of junior stock under the conversion or exchange provisions of junior stock or the security being converted or exchanged;
- any junior stock sinking fund payment, or any purchase, redemption or other acquisition of shares of junior stock, through the use of the proceeds of a substantially contemporaneous sale of other shares of junior stock;
- repurchases, redemptions or other acquisitions of shares of junior stock in connection with (1) any employment contract, benefit plan or other similar arrangement with or for the benefit of any one or more employees, officers, directors or consultants or (2) a dividend reinvestment or stockholder stock purchase plan;
- any declaration of a dividend in connection with any stockholders' rights plan, or the issuance of rights, stock or other property under any stockholders' rights plan, or the redemption or repurchase of rights pursuant to the plan; or
- any dividend paid on junior stock in the form of stock, warrants, options or other rights where the dividend stock or the stock issuable upon exercise of such warrants, options or other rights is the same stock as that on which the dividend is being paid or is other junior stock.

However, the foregoing does not restrict the ability of us or any of our affiliates to engage in any market-making transactions or purchases in connection with the distribution of securities in the ordinary course of business.

The Certificate of Designations for each series also has provisions in case of partial payments on the Preferred Stock or other series of preferred stock that rank equally with the Preferred Stock.

Dividends on the Preferred Stock will not be declared, paid or set aside for payment if and to the extent such act would cause us to fail to comply with applicable laws and regulations.

Liquidation Rights

In the event of any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, holders of Preferred Stock will be entitled to receive out of our assets legally available for distribution to our stockholders (*i.e.*, after satisfaction of all our liabilities to creditors, if any) an amount equal to \$1,000 per share, plus any dividends that have been declared but not paid prior to the date of payment of distributions to stockholders, without regard to any undeclared dividends (the "*liquidation preference*").

If our assets are not sufficient to pay the liquidation preference in full to all holders of all holders of any class or series of our stock that ranks on a parity with the Preferred Stock in the distribution of assets on liquidation, dissolution or winding up of the Company, the amounts paid to the holders of the Preferred Stock and to the holders of all liquidation preference parity stock shall be *pro rata* in accordance with the respective aggregate liquidation preferences of the Preferred Stock and all such liquidation preference parity stock.

Voting Rights

Except as indicated below or otherwise required by law, the holders of the Preferred Stock do not have any voting rights.

Right to Elect Two Directors on Nonpayment of Dividends. Whenever dividends on any shares of the Preferred Stock, shall have not been declared and paid for the equivalent of three semi-annual or six full quarterly dividend payments, whether or not for consecutive dividend periods (a "*nonpayment*"), the holders of such shares, voting together as a class with holders of any and all other series of voting preferred stock then outstanding, are entitled to vote for the election of a total of two additional members of our Board (the "*preferred stock directors*"), provided that the election of any such directors shall not cause us to violate the corporate governance requirement of the New York Stock Exchange (or any other exchange on which our securities may be listed) that listed companies must have a majority of independent directors and provided further that our board of directors shall at no time include more than two preferred stock directors. In that event, the number of directors on our board of directors shall automatically increase by two, and the new directors shall be elected at a special meeting called at the request of the holders of record of at least 20% of the Preferred Stock or of any other series of voting preferred stock (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the stockholders, in which event such election shall be held at such next annual or special meeting of stockholders), and at each subsequent annual meeting. These voting rights will continue until dividends on the shares of the Preferred Stock for at least two consecutive semi-annual or four consecutive quarterly dividend periods, as applicable, following the nonpayment shall have been fully paid.

If and when dividends for at least two consecutive semi-annual or four consecutive quarterly dividend periods, as applicable, following a nonpayment have been paid in full on the Preferred Stock, the holders of the Preferred Stock shall be divested of the foregoing voting rights (subject to revesting in the event of each subsequent nonpayment), the term of office of each preferred stock director so elected shall terminate and the number of directors on the board of directors shall automatically decrease by two. In determining whether dividends have been paid for at least two consecutive semi-annual or four consecutive quarterly dividend periods, as applicable, following a nonpayment, we may take account of any dividend we elect to pay for any dividend period after the regular dividend payment date for that period has passed. Any preferred stock

director may be removed at any time without cause by the holders of record of a majority of the outstanding shares of the Preferred Stock. So long as a nonpayment shall continue, any vacancy in the office of a preferred stock director (other than prior to the initial election after a nonpayment) may be filled by the written consent of the preferred stock director remaining in office, or if none remains in office, by a vote of the holders of record of a majority of the outstanding shares of Preferred Stock; provided that the filling of any such vacancy shall not cause us to violate the corporate governance requirement of the New York Stock Exchange (or any other exchange on which our securities may be listed) that listed companies must have a majority of independent directors. Any such vote to remove, or to fill a vacancy in the office of, a preferred stock director may be taken only at a special meeting called at the request of the holders of record of at least 20% of the Series E Preferred Stock or of any other series of voting preferred stock (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the stockholders, in which event such election shall be held at such next annual or special meeting of stockholders). The preferred stock directors shall each be entitled to one vote per director on any matter.

Other Voting Rights

So long as any shares of Preferred Stock are outstanding, in addition to any other vote or consent of stockholders required by law or by our amended and restated certificate of incorporation, the vote or consent of the holders of at least two thirds of the shares of Preferred Stock at the time outstanding, voting together as a single class with any other series of preferred stock entitled to vote thereon (to the exclusion of all other series of preferred stock), given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, will be necessary for effecting or validating:

- Amendment of Certificate of Incorporation, By-laws or Certificate of Designations. Any amendment, alteration or repeal of any provision of our certificate of incorporation, by-laws or the certificate of designations for the Preferred Stock that would alter or change the voting powers, preferences or special rights of the Preferred Stock so as to affect them adversely; provided, however, that the amendment of the certificate of incorporation so as to authorize or create, or to increase the authorized amount of, any class or series of stock that does not rank senior to the Preferred Stock in either the payment of dividends (whether such dividends are cumulative or non-cumulative) or in the distribution of assets on any liquidation, dissolution or winding up of the Company shall not be deemed to affect adversely the voting powers, preferences or special rights of the Preferred Stock;
- Authorization of Senior Stock. Any amendment or alteration of the certificate of incorporation to authorize or create, or increase the authorized amount of, any shares of any class or series or any securities convertible into shares of any class or series of our capital stock ranking prior to the Preferred Stock in the payment of dividends or in the distribution of assets on any liquidation, dissolution or winding up of the Company; or
- Share Exchanges, Reclassifications, Mergers and Consolidations and Other Transactions. Any consummation of (x) a binding share exchange or reclassification involving the Preferred Stock or (y) a merger or consolidation of Citizens Financial Group, Inc. with another entity (whether or not a corporation), unless in each case (A) the shares of Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which we are not the surviving or resulting entity, the shares of Preferred Stock are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (B) such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and restrictions and limitations thereof, of the Preferred Stock immediately prior to such consummation, taken as a whole.

If an amendment, alteration, repeal, share exchange, reclassification, merger or consolidation described above would adversely affect one or more but not all series of voting preferred stock, then only the series affected and entitled to vote shall vote to the exclusion of all other series of preferred stock. If all series of preferred stock are not equally affected by the proposed amendment, alteration, repeal, share exchange, reclassification, merger or consolidation described above, there shall be required a two-thirds approval of each series that will have a diminished status.

Without the consent of the holders of the Preferred Stock, so long as such action does not adversely affect the rights, preferences, privileges and voting powers of the Preferred Stock, we may amend, alter, supplement or repeal any terms of the Preferred Stock:

- to cure any ambiguity, or to cure, correct or supplement any provision contained in the certificate of designations for the Series E Preferred Stock that may be defective or inconsistent; or
- to make any provision with respect to matters or questions arising with respect to the Preferred Stock that is not inconsistent with the provisions of the certificate of designations, including, without limitation, in the case of the Series D Preferred Stock, to implement the terms of clause (iii) of the definition of three-month LIBOR following the occurrence of a LIBOR Event.

The foregoing voting provisions will not apply if, at or prior to the time when the act with respect to which the vote would otherwise be required shall be effected, all outstanding shares of the Preferred Stock have been redeemed or called for redemption on proper notice and sufficient funds have been set aside by us for the benefit of the holders of the Preferred Stock to effect the redemption unless in the case of a vote or consent required to authorize senior stock if all outstanding shares of the Preferred Stock are being redeemed with the proceeds from the sale of the stock to be authorized.

Under current provisions of the Delaware General Corporation Law, the holders of issued and outstanding preferred stock are entitled to vote as a class, with the consent of the majority of the class being required to approve an amendment to our amended and restated certificate of incorporation if the amendment would increase or decrease the aggregate number of authorized shares of such class or increase or decrease the par value of the shares of such class.

No Preemptive and Conversion Rights

Holders of the Preferred Stock do not have any preemptive rights. The Preferred Stock is not convertible into or exchangeable for property or shares of any other series or class of our capital stock.

Anti-Takeover Effects of Some Provisions

Some provisions of our amended and restated certificate of incorporation and amended and restated bylaws could make the following more difficult:

- acquisition of control of us by means of a proxy contest or otherwise, or
- removal of our incumbent officers and directors.

These provisions, as well as our ability to issue preferred stock, are designed to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our Board. We believe that the benefits of increased protection give us the potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us, and that the benefits of this increased protection outweigh the disadvantages of discouraging those proposals, because negotiation of those proposals could result in an improvement of their terms.

Election and Removal of Directors. The number of directors that will constitute the Board will be fixed from time to time by resolution of our Board, excluding any directors elected by holders of preferred stock pursuant to provisions applicable in the case of certain events involving the non-payment of dividends. Our Board currently has 13 members.

Our amended and restated certificate of incorporation and amended and restated bylaws provide that directors may be removed, with or without cause, by an affirmative vote of holders of shares representing a majority of the outstanding shares then entitled to vote at an election of directors. Any vacancy occurring on our Board and any newly created directorship may be filled only by a vote of a majority of the remaining directors in office or by the sole director remaining in office.

Limits on Written Consents. Our amended and restated certificate of incorporation and amended and restated bylaws provide that stockholder action, other than actions by the holders of one or more classes of Preferred Stock, can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting.

Majority Approval Requirement. The Delaware General Corporation Law generally provides that the affirmative vote of the holders of a majority of the total voting power of the shares entitled to vote on any matter is required to amend a corporation's certificate of incorporation or bylaws, unless either a corporation's certificate of incorporation or bylaws require a greater percentage.

Other Limitations on Stockholder Actions. Our amended and restated bylaws also impose some procedural requirements on stockholders who wish to:

- make nominations in the election of directors,
- propose that a director be removed;
- propose any repeal or change in our amended and restated bylaws; or
- propose any other business to be brought before an annual or special meeting of stockholders.

Under these procedural requirements, as further specified in our amended and restated bylaws, in order to bring a proposal before a meeting of stockholders, a stockholder must generally deliver timely notice of a proposal pertaining to a proper subject for presentation at the meeting to our corporate secretary.

To be timely, a stockholder must generally deliver notice to the corporate secretary:

- in connection with an annual meeting of stockholders, not less than 120 days nor more than 150 days prior to the first anniversary of the date on which the annual meeting of stockholders was held in the immediately preceding year, but in the event that the date of the annual meeting is more than 30 days before or more than 70 days after the anniversary date of the preceding annual meeting of stockholders, a stockholder notice will be timely if received by us not later than the close of business (A) no earlier than 120 days prior to the annual meeting and (B) no later than 70 days prior to the date of the meeting or the 10th day following the day on which we first publicly announce the date of the annual meeting; or
- in connection with the election of a director at a special meeting of stockholders, (A) not earlier than 150 days prior to the date of the special meeting nor (B) later than the later of 120 days prior to the date of the special meeting or the 10th day following the day on which public announcement of the date of the special meeting was first made.

A stockholder may also submit a nomination for our Board or the proposal of other business by submitting a proposal to us in compliance with Rule 14a-8 or Rule 14a-9, as applicable, under the Exchange Act.

Our amended and restated bylaws also have proxy access and universal proxy requirements and procedures for stockholders to make nominations of candidates for election for directors before a meeting of stockholders.

If a stockholder fails to follow the requirements and procedures in our amended and restated bylaws, the stockholder's proposal or nomination will be ineligible and will not be voted on by our stockholders.

February 16, 2024

Subject: Citizens Financial Group, Inc. Annual Report on Form 10-K for the fiscal year ended
December 31, 2023 - File No. 001-36636

Dear Sirs:

Neither Citizens Financial Group, Inc. (the “Company”) nor any of its consolidated subsidiaries has outstanding any instrument with respect to its long-term debt, other than those filed as an exhibit to the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, under which the total amount of securities authorized exceeds 10% of the total assets of the registrant and its subsidiaries on a consolidated basis. In accordance with paragraph (b)(4)(iii) of Item 601 of Regulation S-K (17 CFR Sec. 229.601), the Company hereby agrees to furnish to the Securities and Exchange Commission, upon request, a copy of each instrument that defines the rights of holders of such long term debt not filed or incorporated by reference as an exhibit to the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Very truly yours,

CITIZENS FINANCIAL GROUP, INC.

/s/ Michael Soccio

Treasurer

**CITIZENS FINANCIAL GROUP, INC.
2014 OMNIBUS INCENTIVE PLAN**

**Restricted Stock Unit Award Agreement
Terms and Conditions**

Unless defined in this award agreement (this “**Award Agreement**”), capitalized terms shall have the meanings assigned to them in the Citizens Financial Group, Inc. 2014 Omnibus Incentive Plan (the “**Plan**”). In the event of a conflict among the provisions of the Plan and this Award Agreement, the provisions of the Plan shall prevail.

Section 1. *Grant of RSU Award.* Citizens Financial Group, Inc. (together with its Subsidiaries, the “**Company**”) has granted to the Participant (the “**Participant**”) (the Company and the Participant collectively, the “**Parties**”), an award (the “**Award**”) of the number of restricted share units (“**RSUs**”) specified in the Participant’s electronic account, effective on the “**Grant Date**” specified in the Participant’s electronic account. The Award is subject to the terms and conditions of the Plan and this Award Agreement. The Award is granted under the Plan, the provisions of which are incorporated herein by reference and made a part of this Award Agreement.

Section 2. *Issuance of RSUs.* Each RSU shall represent the right to receive one Share upon the vesting of such RSU, as determined in accordance with and subject to the terms of this Award Agreement and the Plan.

Section 3. *Rights as a Shareholder; Dividend Equivalents.*

(a) The Participant shall have no voting rights or any other rights as a shareholder of the Company with respect to the RSUs unless and until the Participant becomes the record owner of the Shares underlying such RSUs.

(b) If a dividend is declared on Shares during the period commencing on the Grant Date (including such date) and ending on the date on which the Shares underlying RSUs are distributed to the Participant pursuant to Section 6, the Participant shall be credited with dividend equivalents in the form and in an amount equal to the dividend that the Participant would have received had the Shares underlying the RSUs been distributed to the Participant as of the time at which such dividend is paid. Dividend equivalents will be subject to the same vesting and forfeiture restrictions as the RSUs to which they are attributable and will be paid on the same date that the RSUs to which they are attributable are settled in accordance with Section 6.

Section 4. *Restrictions on Transferability.* The RSUs granted hereunder shall not be assigned, sold, exchanged, pledged, hypothecated, transferred, alienated or otherwise disposed of or hedged, in any manner (including through the use of any cash-settled instrument), whether voluntarily or involuntarily, and whether by operation of law or otherwise, other than by will or by the laws of descent and distribution, by the Participant. Any sale, exchange, transfer, assignment, pledge, hypothecation, or other disposition in violation of the provisions of this Section 4 shall be null and void and any RSU which is hedged in any manner shall immediately be forfeited. All of the terms and conditions of the Plan and this Award Agreement shall be binding upon any permitted successors and assigns.

Section 5. *Vesting; Change of Control; Vesting and Forfeiture Upon a Termination of Employment.*

(a) *Vesting.* The Award will be subject to the vesting schedule specified in the Participant’s electronic account.

(b) *Change of Control.* If the Participant is terminated by the Company without Cause, or the Participant resigns from employment with the Company with Good Reason, within twenty four (24) months after a Change of Control (a “**Change of Control Termination**”), all unvested RSUs shall fully vest on the Participant’s termination date and shall be distributed to the Participant pursuant to Section 6.

(c) *Vesting and Forfeiture Upon Termination of Employment.*

i. *Termination Without Cause.* If the Participant is terminated by the Company without Cause (other than a Change of Control Termination), the Participant's RSUs shall continue to vest in accordance with Section 5(a) as though the Participant was still employed by the Company on each applicable vesting date, *provided, however*, that the Participant does not engage in any Detrimental Activity during the Participant's post-employment vesting period.

ii. *Retirement; Disability.* If the Participant's employment is terminated due to Retirement or Disability, the Participant's RSUs shall continue to vest in accordance with Section 5(a) as though the Participant was still employed by the Company on each applicable vesting date, *provided, however*, that the Participant (A) does not engage in any Detrimental Activity and (B) does not become employed by any company in the financial services industry, in each case, during the Participant's post-employment vesting period. *[Retirement treatment only applicable to annual awards and buy-out awards.]*

iii. *Death.* If the Participant is terminated due to death, the Participant's RSUs shall fully vest on the Participant's date of death and shall be distributed to the Participant's Beneficiary pursuant to Section 6.

iv. *Forfeiture.* If the Participant is terminated by the Company with Cause or the Participant resigns for any reason (other than a Change of Control Termination), any unvested RSUs shall be forfeited in their entirety on the Participant's termination date without any payment to the Participant. In addition, if (A) the Participant's employment is terminated by the Company without Cause (other than a Change of Control Termination) and the Participant engages in any Detrimental Activity during the Participant's post-employment vesting period, or (B) the Participant's employment is terminated due to Retirement or Disability and the Participant either (I) engages in any Detrimental Activity, or (II) becomes employed by any company in the financial services industry, in either case, during the Participant's post-employment vesting period, any unvested RSUs shall be forfeited in their entirety on the date that the Participant engages in such Detrimental Activity or becomes employed by any company in the financial services industry, as applicable, without any payment to the Participant.

Section 6. *Distribution on Vesting.* Subject to the provisions of this Award Agreement, upon the vesting of any of the RSUs, the Company shall deliver to the Participant (or the Participant's Beneficiary, in the event of the Participant's death prior to distribution), as soon as reasonably practicable after the vesting date (or the Participant's termination date, as applicable), one Share for each RSU, provided that such delivery of Shares shall be made no later than the end of the calendar year in which they vest or, if later, by the 15th day of the third calendar month after the vesting date provided that the Participant shall not be permitted, directly or indirectly, to designate the taxable year of the payment. Upon such delivery, such Shares shall be fully assignable, saleable and transferable by the Participant, provided that any such assignment, sale, transfer or other alienation with respect to such Shares shall be in accordance with applicable securities laws.

Section 7. *Repayment Requirement.* If the Participant's employment is terminated (or notice to terminate is given by the Participant or the Company) for any reason other than death, Disability, Retirement, or termination by the Company without Cause within twelve (12) months of the date the Participant commences employment with the Company, any unvested RSUs shall be forfeited in their entirety on the Participant's termination date without any payment to the Participant and the Participant shall be required to repay the Company within 14 days of the Participant's termination date the net value (following any applicable tax and other statutory deductions) of any Shares that the Participant received pursuant to this Award Agreement. *[For buy-out awards only]*

Section 8. *Notice Prior to the Participant's Voluntary Separation from Employment.* In partial consideration for the Participant's eligibility for and receipt of any award granted under the Plan, the Participant agrees to provide the Company with prior notice of the Participant's voluntary separation from employment, regardless of the reason for such separation. Such notice shall be no less than the greater of (a) the notice period applicable to the Participant's employee level as specified in the Company's Separation from Employment Policy as it exists at the time the Participant provides such notice or (b) the period specified in any other written agreement between the Participant and the Company.

Section 9. *Restrictive Covenants.*

(a) *Non-Solicitation of Employees.* In addition to the Participant's obligations detailed in this Award Agreement, the Participant agrees and reaffirms that, at any time during the Participant's employment and for twelve (12) months following the date the Participant ceases to be employed by the Company for any reason, or if longer, during the remaining vesting period (the "**Restricted Period**"), and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, whether for the Participant's own account or for any person or entity other than the Company or any Company Affiliate hire, employ, solicit for employment or hire, or attempt to solicit for employment or hire, any person who is employed by the Company or any Company Affiliate during the Restricted Period, nor shall the Participant directly or indirectly induce any such employee to terminate his or her employment or accept employment with anyone other than a Company Affiliate, or otherwise interfere with the relationship between the Company and/or any Company Affiliate and any of their employees during the Restricted Period. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 9(a) if an entity with which the Participant is associated hires or engages any employee of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in hiring or identifying such person as a potential recruit or assisting in the recruitment of such employee.

(b) *Non-Solicitation of, and Non-Interference with, Customers and Prospective Clients.* The Participant agrees that during the Participant's employment and during the Restricted Period, and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, for any person or entity other than the Company or any Company Affiliate, solicit, assist in soliciting for or accept business from any customer of the Company or any Company Affiliate, nor will the Participant induce or encourage any such customer to discontinue or diminish his, her or its relationship or prospective relationship with the Company or any Company Affiliate, or divert business away from the Company or any Company Affiliate; provided, however, that general solicitation through advertisement shall not constitute solicitation for purposes of this provision. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 9(b) if an entity with which the Participant is associated accepts business from a customer or client of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in soliciting or identifying such customer or client as a potential customer or client of the competing entity.

(c) *Representations.* The Participant agrees that all of the foregoing restrictions are reasonable and necessary to protect the Company's and/or any Company Affiliate's business and their Confidential Information and that the Participant's eligibility for and receipt of any award under the Plan, are independently and together good and valuable consideration to compensate him or her for agreeing to all restrictions contained in this Award Agreement. The Participant also acknowledges, represents and warrants that the Participant's knowledge, skills and abilities are sufficient to permit the Participant to earn a satisfactory livelihood without violating these provisions. Further, the Participant agrees that the Participant shall not, following the termination of the Participant's employment with the Company, represent or hold the Participant out as being in any way connected with the business of the Company or any Company Affiliate.

(d) *Blue Pencil.* It is expressly understood and agreed that although the Participant and the Company consider the restrictions contained in this section to be reasonable, if a final judicial determination is made by an arbitrator or a court of competent jurisdiction that the time or territory or any other restriction contained in this Award Agreement is an unenforceable restriction against the Participant, the provisions of this Award Agreement shall not be rendered void but shall be deemed amended to apply as to such maximum time and territory and to such maximum extent as such court may judicially determine or indicate to be enforceable. Alternatively, if an arbitrator or a court of competent jurisdiction finds that any restriction contained in this Award Agreement is unenforceable, and such restriction cannot be amended so as to make it enforceable, such finding shall not affect the enforceability of any of the other restrictions contained herein.

(e) *Injunctive Relief.* In the event of a breach or threatened breach of this Section 9 or the Participant's engaging in Detrimental Activity, and to the extent permissible by law in the state the Participant resides, the Participant agrees that the Company will be entitled to injunctive relief in a court of appropriate jurisdiction to remedy any such breach or threatened breach, the Participant acknowledging that damages would be inadequate and insufficient.

Section 10. *Tax Liability; Withholding Requirements.* The Participant shall be solely responsible for any applicable taxes (including, without limitation, income and excise taxes) and penalties, and any interest that accrues thereon, that the Participant incurs in connection with the receipt, vesting or settlement of any RSU granted hereunder. The Company shall be authorized to withhold from the Award the amount (in cash or Shares, or any combination thereof) of applicable withholding taxes due in respect of the Award, its settlement or any payment or transfer under the Award and to take such other action (including providing for elective payment of such amounts in cash or other property by the Participant) as may be necessary in the opinion of the Company to satisfy all obligations for the payment of such taxes; provided, however, that no Shares shall be withheld with a value exceeding the maximum statutory tax rates in the applicable tax jurisdictions.

Section 11. *Recoupment/Clawback.* The Participant hereby acknowledges and agrees that in order to comply with applicable law (including, without limitation, the Dodd-Frank Wall Street Reform and Consumer Protection Act), regulatory authority, and policies of the Company, the Committee retains the right at all times to decrease or terminate all awards and payments under the Plan, and any and all amounts payable under the Plan, or paid under the Plan, shall be subject to clawback, forfeiture, and reduction to the extent determined necessary to comply with applicable law, regulatory authority, and/or policies of the Company, including as a result of risk-related events.

Section 12. *No Right to Continued Employment.* Neither the Plan nor this Award Agreement shall confer upon the Participant any right to continue to be employed by the Company and the receipt of the Award does not confer any rights on the Participant other than those expressly set forth in this Award Agreement or the Plan.

Section 13. *Section 409A of the Code.* This Award Agreement is intended to comply with the requirements of Section 409A of the Code and the regulations thereunder, and the provisions of this Award Agreement shall be interpreted in a manner that satisfies the requirements of Section 409A of the Code, and this Award Agreement shall be operated accordingly. If any provision of this Award Agreement or any term or condition of the RSUs would otherwise conflict with this intent, the provision, term or condition shall be interpreted and deemed amended so as to avoid this conflict. Notwithstanding anything else in this Award Agreement, if the Board considers a Participant to be a "specified employee" under Section 409A of the Code at the time of such Participant's "separation from service" (as defined in Section 409A of the Code), and the amount hereunder is "deferred compensation" subject to Section 409A of the Code any distribution that otherwise would be made to such Participant with respect to RSUs as a result of such separation from service shall not be made until the date that is six months after such separation from service, except to the extent that earlier distribution would not result in such Participant's incurring interest or additional tax under Section 409A of the Code. If the Award includes a "series of installment payments" (within the meaning of Section 1.409A-2(b)(2)(iii) of the Treasury Regulations), the Participants' right to the series of installment payments shall be treated as a right to a series of separate payments and not as a right to a single payment. Notwithstanding the foregoing, the tax treatment of the benefits provided under this Award Agreement is not warranted or guaranteed, and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by the Participant on account of non-compliance with Section 409A of the Code.

Section 14. *Miscellaneous.*

(a) *Definitions.* For purposes of this Award Agreement:

i. **"Cause"** means:

(1) any conviction (including a plea of guilty or of nolo contendere or entry into a pre-trial diversion program) of the Participant for the commission of a felony or any conviction of any criminal offense within the scope of Section 19 of the Federal Deposit Insurance Act, 12 U.S.C. § 1829;

(2) the Participant commits an act of gross misconduct, fraud, embezzlement, theft or material dishonesty in connection with the Participant's duties or in the course of the Participant's employment with the Company or any of its affiliates;

(3) failure on the part of the Participant to perform his or her employment duties in any material respect, which is not cured to the reasonable satisfaction of the Company within 30 days after the Participant receives written notice of such failure; or

(4) the Participant engages in Detrimental Activity.

ii. **"Company Affiliate"** means the Company's parents, subsidiaries, affiliates or their respective successors (collectively, the "Company Affiliates" and each a "Company Affiliate").

iii. **"Detrimental Activity"** includes the following:

(1) The Participant's disclosure to any unauthorized person, firm, or corporation or use or attempt to use for his or her own advantage or to the advantage of any other person, firm or corporation, any confidential information relating to the business affairs or trade secrets of the Company or any of its affiliates, howsoever obtained or provided, during the course of, or as a result of, his or her employment (the **"Confidential Information"**). Confidential Information includes, but is not limited to, information relating to employees, customers and suppliers (former, actual and potential), Company contracts, pricing structures, financial and marketing details, business plans, any technical data, designs, formulae, product lines, intellectual property, research activities and any information which may be deemed to be commercially or price sensitive in nature, whether printed, typed, handwritten, videotaped, transmitted or transcribed on data files or on any other type of media, including but not limited to electronic and digital media, whether or not labeled as "confidential";

(2) The Participant violates the obligations set forth in Section 9(a) or 9(b) of this Award Agreement.

(3) Making any false or disparaging comments about the Company or any of its subsidiaries, affiliates, employees, officers, or directors; or

(4) Engaging in any activity which in the opinion of the Company is not consistent with providing an orderly handover of the Participant's responsibilities.

The Participant agrees that the foregoing restrictions are reasonable and necessary to protect the Company's business and that the grant of this Award, along with the benefits and attributes of the Participant's employment by the Company, is good and valuable consideration to compensate the Participant for agreeing to these restrictions. Notwithstanding anything to the contrary in this Award Agreement or otherwise, nothing shall limit the Participant's rights under applicable law to provide truthful information to any governmental entity or to file a charge with or participate in an investigation conducted by any governmental entity. Notwithstanding the foregoing, the Participant agrees to waive his or her right to recover monetary damages in connection with any charge, complaint or lawsuit filed by the Participant or anyone else on the Participant's behalf (whether involving a governmental entity or not); provided that the Participant is not agreeing to waive, and this Award Agreement shall not be read as requiring the Participant to waive, any right the Participant may have to receive an award for information provided to any governmental entity. The Participant is hereby notified that the immunity provisions in Section 1833 of title 18 of the United States Code provide that an individual cannot be held criminally or civilly liable under any federal or state trade secret law for any disclosure of a trade secret that is made (1) in confidence to federal, state or local government officials, either directly or indirectly, or to an attorney, and is solely for the purpose of reporting or investigating a suspected violation of the law, (2) under seal in a complaint or other document filed in a lawsuit or other proceeding, or (3) to the Participant's attorney in connection with a lawsuit for retaliation for reporting a suspected violation of law (and the trade secret may be used in the court proceedings for such lawsuit) as long as any document containing the trade secret is filed under seal and the trade secret is not disclosed except pursuant to court order.

iv. **"Disability"** means the Participant is entitled to, and has begun to receive, long-term disability benefits under the long-term disability plan of the Company in which the Participant participates.

v. **"Good Reason"** means any of the following changes, as compared to the Participant's terms of employment prior to a Change of Control:

(1) a material diminution in the Participant's authority, duties, or responsibilities;

(2) a material diminution in the Participant's base salary other than a general reduction in base salary that affects all similarly situated employees; or

(3) a relocation of the Participant's principal place of employment by more than 50 miles from his or her current principal place of employment, unless the new principal place of employment is closer to the Participant's home address.

Provided, however, that the Participant must give written notice to the Company within 30 days of the initial existence of any of the foregoing changes, the Company shall have 30 days upon receipt of such notice to remedy the condition so as to eliminate the Good Reason, and if not remedied, the Participant's employment must terminate no later than 60 days following the expiration of such cure period. Notwithstanding the foregoing, the Participant's continued employment shall not constitute a waiver of the Participant's rights with respect to any circumstance constituting Good Reason under this Award Agreement.

vi. **"Retirement"** means the Participant's age plus years of service (in each case, including completed months) equals or exceeds 65, with a minimum of at least five years of service with the Company.

(b) *Notices.* All notices, requests and other communications under this Award Agreement shall be in writing and shall be delivered in person (by courier or otherwise), mailed by certified or registered mail, return receipt requested, or sent by facsimile transmission or by e-mail or any other form of electronic transmission or delivery approved by the Committee, as follows:

if to the Company, to:

Citizens Financial Group, Inc.
600 Washington Blvd.
Stamford, CT 06901
Attention: Corporate Secretary

if to the Participant, to the address that the Participant most recently provided to the Company, or to such other address, facsimile number, e-mail address or such other form of electronic transmission or delivery as such party may hereafter specify for the purpose by notice to the other parties hereto. All such notices, requests and other communications shall be deemed received on the date of receipt by the recipient thereof if received prior to 5:00 p.m. on a business day in the place of receipt. Otherwise, any such notice, request or communication shall be deemed received on the next succeeding business day in the place of receipt. Notwithstanding anything to the contrary contained in this Award Agreement or in the Plan, the Company may, in its sole discretion, deliver and, by acceptance of this grant, the Participant hereby explicitly and unambiguously consents and agrees to the receipt and delivery of, any notices permitted or required hereunder, documents related to any Awards granted under the Plan and/or any other information (including, without limitation, information required to be delivered to the Participant pursuant to applicable securities laws) regarding the Company and the Subsidiaries or the Plan by electronic means, including but not limited to through the Participant's electronic account, through another on-line or electronic account system established and maintained by the Company or another third party designated by the Company or via the Company website. Such consent shall remain in effect throughout the Participant's term of employment or service with the Company and thereafter until withdrawn in writing by the Participant. The Participant acknowledges that the Participant may receive from the Company a paper copy of any notices or documents delivered electronically at no cost to the Participant by contacting the Company by telephone or in writing.

(c) *Entire Agreement.* This Award Agreement and the Plan (including the terms specified in the Participant's electronic account, as noted in Section 1 and Section 5 above) constitute the entire agreement and understanding between the parties in respect of the subject

matter hereof and supersede all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

(d) *Severability.* If any provision of this Award Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or this Award Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Award Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Award Agreement shall remain in full force and effect.

(e) *Amendment; Waiver.* No amendment or modification of any provision of this Award Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant, *provided* that the Company may amend or modify this Award Agreement without the Participant's consent in accordance with the provisions of the Plan or as otherwise set forth in this Award Agreement. No waiver of any breach or condition of this Award Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Award Agreement, or any waiver of any provision of this Award Agreement, shall be effective only in the specific instance and for the specific purpose for which made or given.

(f) *Assignment.* Neither this Award Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

(g) *Successors and Assigns; No Third-Party Beneficiaries.* This Award Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Award Agreement, express or implied, is intended to confer on any Person other than the Company and the Participant, and their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Award Agreement.

(h) *Governing Law; Waiver of Jury Trial.* This Award Agreement shall be governed by the laws of the State of Delaware, without application of the conflicts of law principles thereof. By acknowledging this Award Agreement electronically or signing it manually, as applicable, the Participant waives any right that the Participant may have to trial by jury in respect of any litigation based on, arising out of, under or in connection with this Award Agreement or the Plan.

(i) *Discretionary Nature.* The grant of the RSUs does not create any contractual right or other right in the Participant to receive any RSUs or other Awards in the future. Future grants of Awards, if any, shall be at the sole discretion of the Company.

(j) *Participant Undertaking; Acceptance.* The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the RSUs pursuant to this Award Agreement. The Participant acknowledges receipt of a copy of the Plan and this Award Agreement and understands that material definitions and provisions concerning the RSUs and the Participant's rights and obligations with respect thereto are set forth in the Plan. The Participant has read carefully, and understands, the provisions of this Award Agreement and the Plan.

(k) *Dispute Resolution.* Except as provided in Section 9(e) above and the last sentence of this paragraph to the fullest extent permitted by law, the Company and the Participant agree to waive their rights to seek remedies in court, including but not limited to rights to a trial by jury. The Company and each Participant agree that any dispute between or among them and/or their affiliates arising out of, relating to or in connection with this Plan shall be resolved in accordance with a confidential two-step dispute resolution procedure involving: (a) Step One: non-binding mediation, and (b) Step Two: binding arbitration under the Federal Arbitration Act, 9 U.S.C. § 1, et. seq., or state law, whichever is applicable. Any such mediation or arbitration hereunder shall be under the auspices of the American Arbitration Association ("**AAA**") pursuant to its then current AAA Employment Arbitration Rules (the "**Rules**"). No arbitration shall be

initiated or take place with respect to a given dispute if the parties have successfully achieved a mutually agreed to resolution of the dispute as a result of the Step One mediation. The mediation session(s) and, if necessary, the arbitration hearing shall be held in the city/location selected by the Company in its sole discretion. The arbitration (if the dispute is not resolved by mediation) shall be conducted by a single AAA arbitrator, selected by the Company in its sole discretion. Any award rendered by the arbitrator, including with respect to responsibility for AAA charges (including the costs of the mediator and arbitrator), shall be final and binding, and judgment may be entered on it in any court of competent jurisdiction. In the unlikely event the AAA refuses to accept jurisdiction over a dispute, the Company and each Participant agree to submit to JAMS mediation (formerly known as Judicial Arbitration and Mediation Services) and arbitration applying the JAMS equivalent of the Rules. If AAA and JAMS refuse to accept jurisdiction, or if the Company concludes that but for this Award Agreement, multiple single plaintiff arbitration claims filed could have been brought as a class and/or collective action in state or Federal court, and the administrative fees for arbitrating those cases exceed \$50,000, the Parties shall forego the use of AAA or JAMS. In that event, the Parties shall meet and confer to select a mutually agreeable arbitrator. If the Parties are unable to agree upon an arbitrator, then each Party shall select five (5) arbitrators to place on a list. Arbitrators placed on the list must be licensed to practice law in any state (or have previously been licensed and have always been and remain in good standing with their respective bar associations) and must have previously served as a neutral arbitrator for at least one dispute involving an employment matter. Each side shall alternate in striking an arbitrator from the list, with the last remaining arbitrator selected to adjudicate the matter. The Parties shall mutually agree or flip a coin to determine which party strikes first. Should the selected arbitrator have a conflict or otherwise refuse or be unable to serve, the arbitrator struck immediately prior shall serve as the arbitrator. The Rules, as amended by this Award Agreement, shall continue to apply to the greatest extent possible to the arbitration.

(l) *Waiver of Class Action and Representative Action Claims.* Except as otherwise required under applicable law, the Parties expressly intend and agree that: (a) class action and representative action procedures shall not be asserted, nor will they apply, in any arbitration, court claim or any other judicial proceeding pursuant to this Agreement; (b) each will not assert class action or representative action claims against the other in arbitration or otherwise; and (c) the Parties shall only submit their own, individual claims in arbitration or otherwise and will not seek to represent the interests of any other person. Further, the Parties expressly intend and agree that any claims by the Participant will not be joined, consolidated, or heard together with claims of any other Participants, regardless of whether the Parties can agree to arbitrate the claim or must proceed through another venue. Notwithstanding anything to the contrary in the Rules, and the general grant of authority to the arbitrator of the power to determine issues of arbitrability, the arbitrator shall have no jurisdiction or authority to compel any class or collective claim, to consolidate different arbitration proceedings, or to join any other party to an arbitration between the Parties.

(m) *Captions.* Captions provided herein are for convenience only and shall not affect the scope, meaning, intent or interpretation of the provisions of this Award Agreement.

(n) *Nature of Payments.* Any and all grants or deliveries related to the RSUs hereunder shall constitute special incentive payments to the Participant and shall not be taken into account in computing the amount of salary or compensation of the Participant for the purpose of determining any retirement, death or other benefits under (i) any retirement, bonus, life insurance or other employee benefit plan of the Company, or (ii) any agreement between the Company and the Participant, except as such plan or agreement shall otherwise expressly provide.

(o) *Data Privacy.* The Participant understands that the Company and its affiliates and hold certain personal information about the Participant, including but not limited to the Participant's name, home address and telephone number, birthdate, social insurance number or other identification number, compensation, details of all Awards or any other entitlement to Shares for the purpose of administering the Plan (the "Data"). As a condition of receipt of this Award, the Participant explicitly consents to the collection, use, transfer and retention, in electronic or other form, of the Data by and among, as applicable, the Company, its affiliates and any third parties assisting the Company in administration of the Plan (including but not limited to any broker or other third party with whom the Participant may elect to deposit Shares), in each case, for the purpose of administering the Participant's participation in the Plan.

**CITIZENS FINANCIAL GROUP, INC.
2014 OMNIBUS INCENTIVE PLAN**

**Performance Stock Unit Award Agreement
Terms and Conditions**

Unless defined in this award agreement (this “**Award Agreement**”), capitalized terms shall have the meanings assigned to them in the Citizens Financial Group, Inc. 2014 Omnibus Incentive Plan (the “**Plan**”). In the event of a conflict among the provisions of the Plan and this Award Agreement, the provisions of the Plan shall prevail.

Section 1. *Grant of PSU Award.* Citizens Financial Group, Inc. (together with its Subsidiaries, the “**Company**”) has granted to the Participant (the “**Participant**”) (the Company and the Participant collectively, the “**Parties**”), an award (the “**Award**”) of the target number of performance stock units specified in the Participant's electronic account, effective on the “**Grant Date**” specified in the Participant's electronic account. The Award is subject to the terms and conditions of the Plan and this Award Agreement. The Award is granted under the Plan, the provisions of which are incorporated herein by reference and made a part of this Award Agreement.

Section 2. *Issuance of PSUs.* Each performance stock unit (“**PSU**”) shall represent the right to receive one Share upon the vesting of such PSU, as determined in accordance with and subject to the terms of this Award Agreement and the Plan. The number of PSUs that the Participant will actually earn will be determined in accordance with the terms of this Award Agreement and a schedule to be provided to the Participant.

Section 3. *Rights as a Shareholder; Dividend Equivalents.*

(a) The Participant shall have no voting rights or any other rights as a shareholder of the Company with respect to the PSUs unless and until the Participant becomes the record owner of the Shares underlying such PSUs.

(b) If a dividend is declared on Shares during the period commencing on the Grant Date (including such date) and ending on the date on which the Shares underlying PSUs are distributed to the Participant pursuant to Section 7, the Participant shall be credited with dividend equivalents in the form and in an amount equal to the dividend that the Participant would have received had the Shares underlying the PSUs been distributed to the Participant as of the time at which such dividend is paid. Dividend equivalents will be subject to the same vesting and forfeiture restrictions as the PSUs to which they are attributable and will be paid on the same date that the PSUs to which they are attributable are settled in accordance with Section 7.

Section 4. *Restrictions on Transferability.* The PSUs granted hereunder shall not be assigned, sold, exchanged, pledged, hypothecated, transferred, alienated or otherwise disposed of or hedged, in any manner (including through the use of any cash-settled instrument), whether voluntarily or involuntarily, and whether by operation of law or otherwise, other than by will or by the laws of descent and distribution, by the Participant. Any sale, exchange, transfer, assignment, pledge, hypothecation, or other disposition in violation of the provisions of this Section 4 shall be null and void and any PSU which is hedged in any manner shall immediately be forfeited. All of the terms and conditions of the Plan and this Award Agreement shall be binding upon any permitted successors and assigns.

Section 5. *Performance Assessment.*

(a) Except in the event of a Change of Control, the number of PSUs earned by the Participant for the Performance Period will be determined in accordance with a schedule to be provided to the Participant. The Committee shall determine, in its sole discretion, the number of PSUs earned by the Participant.

(b) Promptly following the end of the Performance Period (and no later than 60 days following the end of the Performance Period), the Committee will review and certify in writing (i) whether, and to what extent, performance has been achieved in accordance with a schedule to be provided to the Participant, and (ii) the number of PSUs that the Participant shall earn, if any,

subject to compliance with the requirements of Section 6. The Committee's certification shall be final, conclusive and binding on the Participant, and on all other persons, to the maximum extent permitted by law.

Section 6. *Vesting; Change of Control; Vesting and Forfeiture Upon a Termination of Employment.*

(a) *Vesting.* The number of PSUs earned by the Participant, if any, determined as set forth in Section 5(b), will vest and become nonforfeitable following the end of the Performance Period on the vesting date identified in the Participant's electronic account (the "**Vesting Date**"), subject to the Participant's continued service from the Grant Date through the Vesting Date.

(b) *Change of Control.* In the event of a Change of Control prior to the end of the Performance Period:

i. The Committee will review and certify in writing whether, and to what extent, performance has been achieved through the date of the Change of Control, and the number of PSUs that the Participant shall earn, if any, subject to compliance with the requirements of this Section 6(b). The Committee's certification shall be final, conclusive and binding on the Participant, and on all other persons, to the maximum extent permitted by law.

ii. Following the Change of Control, the PSUs will remain subject to forfeiture and conditioned on the Participant's continued service from the Grant Date through the Vesting Date; *provided, however*, that if the Participant is terminated by the Company without Cause, or the Participant resigns from employment with the Company with Good Reason, within twenty four (24) months after the Change of Control (a "**Change of Control Termination**"), the PSUs earned by the Participant, as determined by the Committee pursuant to Section 6(b)(i), shall fully vest on the Participant's termination date and shall be distributed to the Participant in accordance with Section 7.

(c) *Vesting and Forfeiture Upon Termination of Employment.*

i. *Termination Without Cause.* If the Participant is terminated by the Company without Cause (other than a Change of Control Termination) on or after the first anniversary of the Performance Period Start Date, the PSUs earned by the Participant as set forth in Section 5(b) shall vest on the Vesting Date in accordance with Section 6(a) as though the Participant was still employed by the Company on the Vesting Date; *provided, however*, that the Participant does not engage in any Detrimental Activity during the Participant's post-employment vesting period.

ii. *Retirement; Disability.* If the Participant's employment is terminated by reason of Retirement or Disability, the PSUs earned by the Participant as set forth in Section 5(b) shall vest on the Vesting Date in accordance with Section 6(a) as though the Participant was still employed by the Company on the Vesting Date; *provided, however*, that the Participant (A) does not engage in any Detrimental Activity and (B) does not become employed by any company in the financial services industry, in each case, during the Participant's post-employment vesting period.

iii. *Death.* If the Participant is terminated due to death, the target number of PSUs shall fully vest on the Participant's date of death and shall be distributed to the Participant's Beneficiary in accordance with Section 7.

iv. *Forfeiture.* If the Participant is terminated by the Company with Cause or the Participant resigns for any reason (other than a Change of Control Termination), any unvested PSUs shall be forfeited in their entirety on the Participant's termination date without any payment to the Participant. If the Participant's employment is terminated by the Company without Cause (other than a Change of Control Termination) prior to the first anniversary of the Performance Period Start Date, any unvested PSUs shall be forfeited in their entirety on the Participant's termination date without any payment to the Participant. In addition, if (A) the Participant's employment is terminated by the Company without Cause (other than a Change of Control Termination) and the Participant engages in any Detrimental Activity during the Participant's post-employment vesting period, or (B) the Participant's employment is terminated due to Retirement or Disability and the Participant either (I) engages in any Detrimental Activity, or (II) becomes

employed by any company in the financial services industry, in either case, during the Participant's post-employment vesting period, any unvested PSUs shall be forfeited in their entirety on the date that the Participant engages in such Detrimental Activity or becomes employed by any company in the financial services industry, as applicable, without any payment to the Participant.

Section 7. *Distribution on Vesting.* Subject to the provisions of this Award Agreement, upon the vesting of any of the PSUs, the Company shall deliver to the Participant (or the Participant's Beneficiary, in the event of the Participant's death prior to distribution), as soon as reasonably practicable after the Vesting Date (or the Participant's termination date, as applicable), one Share for each PSU, *provided* that such delivery of Shares shall be made no later than March 15 of the calendar year immediately following the year in which the Vesting Date (or the Participant's termination date, as applicable) occurs. Upon such delivery, such Shares shall be fully assignable, saleable and transferable by the Participant, *provided* that any such assignment, sale, transfer or other alienation with respect to such Shares shall be in accordance with applicable securities laws.

Section 8. *Notice Prior to the Participant's Voluntary Separation from Employment.* In partial consideration for the Participant's eligibility for and receipt of any award granted under the Plan, the Participant agrees to provide the Company with prior notice of the Participant's voluntary separation from employment, regardless of the reason for such separation. Such notice shall be no less than the greater of (a) the notice period applicable to the Participant's employee level as specified in the Company's Separation from Employment Policy as it exists at the time the Participant provides such notice or (b) the period specified in any other written agreement between the Participant and the Company.

Section 9. *Restrictive Covenants.*

(a) *Non-Solicitation of Employees.* In addition to the Participant's obligations detailed in this Award Agreement, the Participant agrees and reaffirms that, at any time during the Participant's employment and for twelve (12) months following the date the Participant ceases to be employed by the Company for any reason, or if longer, during the remaining vesting period (the "**Restricted Period**"), and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, whether for the Participant's own account or for any person or entity other than the Company or any Company Affiliate hire, employ, solicit for employment or hire, or attempt to solicit for employment or hire, any person who is employed by the Company or any Company Affiliate during the Restricted Period, nor shall the Participant directly or indirectly induce any such employee to terminate his or her employment or accept employment with anyone other than a Company Affiliate, or otherwise interfere with the relationship between the Company and/or any Company Affiliate and any of their employees during the Restricted Period. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 9(a) if an entity with which the Participant is associated hires or engages any employee of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in hiring or identifying such person as a potential recruit or assisting in the recruitment of such employee.

(b) *Non-Solicitation of, and Non-Interference with, Customers and Prospective Clients.* The Participant agrees that during the Participant's employment and during the Restricted Period, and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, for any person or entity other than the Company or any Company Affiliate, solicit, assist in soliciting for or accept business from any customer of the Company or any Company Affiliate, nor will the Participant induce or encourage any such customer to discontinue or diminish his, her or its relationship or prospective relationship with the Company or any Company Affiliate, or divert business away from the Company or any Company Affiliate; provided, however, that general solicitation through advertisement shall not constitute solicitation for purposes of this provision. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 9(b) if an entity with which the Participant is associated accepts business from a customer or client of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in soliciting or identifying such customer or client as a potential customer or client of the competing entity.

(c) *Representations.* The Participant agrees that all of the foregoing restrictions are reasonable and necessary to protect the Company's and/or any Company Affiliate's business and

their Confidential Information and that the Participant's eligibility for and receipt of any award under the Plan, are independently and together good and valuable consideration to compensate him or her for agreeing to all restrictions contained in this Award Agreement. The Participant also acknowledges, represents and warrants that the Participant's knowledge, skills and abilities are sufficient to permit the Participant to earn a satisfactory livelihood without violating these provisions. Further, the Participant agrees that the Participant shall not, following the termination of the Participant's employment with the Company, represent or hold the Participant out as being in any way connected with the business of the Company or any Company Affiliate.

(d) *Blue Pencil.* It is expressly understood and agreed that although the Participant and the Company consider the restrictions contained in this section to be reasonable, if a final judicial determination is made by an arbitrator or a court of competent jurisdiction that the time or territory or any other restriction contained in this Award Agreement is an unenforceable restriction against the Participant, the provisions of this Award Agreement shall not be rendered void but shall be deemed amended to apply as to such maximum time and territory and to such maximum extent as such court may judicially determine or indicate to be enforceable. Alternatively, if an arbitrator or a court of competent jurisdiction finds that any restriction contained in this Award Agreement is unenforceable, and such restriction cannot be amended so as to make it enforceable, such finding shall not affect the enforceability of any of the other restrictions contained herein.

(e) *Injunctive Relief.* In the event of a breach or threatened breach of this Section 9 or the Participant's engaging in Detrimental Activity, and to the extent permissible by law in the state the Participant resides, the Participant agrees that the Company will be entitled to injunctive relief in a court of appropriate jurisdiction to remedy any such breach or threatened breach, the Participant acknowledging that damages would be inadequate and insufficient.

Section 10. *Tax Liability; Withholding Requirements.* The Participant shall be solely responsible for any applicable taxes (including, without limitation, income and excise taxes) and penalties, and any interest that accrues thereon, that the Participant incurs in connection with the receipt, vesting or settlement of any PSU granted hereunder. The Company shall be authorized to withhold from the Award the amount (in cash or Shares, or any combination thereof) of applicable withholding taxes due in respect of the Award, its settlement or any payment or transfer under the Award and to take such other action (including providing for elective payment of such amounts in cash or other property by the Participant) as may be necessary in the opinion of the Company to satisfy all obligations for the payment of such taxes; provided, however, that no Shares shall be withheld with a value exceeding the maximum statutory tax rates in the applicable tax jurisdictions.

Section 11. *Recoupment/Clawback.* The Participant hereby acknowledges and agrees that in order to comply with applicable law (including, without limitation, the Dodd-Frank Wall Street Reform and Consumer Protection Act), regulatory authority, and policies of the Company, the Committee retains the right at all times to decrease or terminate all awards and payments under the Plan, and any and all amounts payable under the Plan, or paid under the Plan, shall be subject to clawback, forfeiture, and reduction to the extent determined necessary to comply with applicable law, regulatory authority, and/or policies of the Company, including as a result of risk-related events.

Section 12. *No Right to Continued Employment.* Neither the Plan nor this Award Agreement shall confer upon the Participant any right to continue to be employed by the Company and the receipt of the Award does not confer any rights on the Participant other than those expressly set forth in this Award Agreement or the Plan.

Section 13. *Section 409A of the Code.* This Award Agreement is intended to comply with the requirements of Section 409A of the Code and the regulations thereunder, and the provisions of this Award Agreement shall be interpreted in a manner that satisfies the requirements of Section 409A of the Code, and this Award Agreement shall be operated accordingly. If any provision of this Award Agreement or any term or condition of the PSUs would otherwise conflict with this intent, the provision, term or condition shall be interpreted and deemed amended so as to avoid this conflict. Notwithstanding anything else in this Award Agreement, if the Board considers a Participant to be a "specified employee" under Section 409A of the Code at the time of such Participant's "separation from service" (as defined in Section 409A of the Code), and the amount hereunder is "deferred compensation" subject to Section 409A of the Code any

distribution that otherwise would be made to such Participant with respect to PSUs as a result of such separation from service shall not be made until the date that is six months after such separation from service, except to the extent that earlier distribution would not result in such Participant's incurring interest or additional tax under Section 409A of the Code. If the Award includes a "series of installment payments" (within the meaning of Section 1.409A-2(b)(2)(iii) of the Treasury Regulations), the Participants' right to the series of installment payments shall be treated as a right to a series of separate payments and not as a right to a single payment. Notwithstanding the foregoing, the tax treatment of the benefits provided under this Award Agreement is not warranted or guaranteed, and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by the Participant on account of non-compliance with Section 409A of the Code.

Section 14. *Miscellaneous.*

(a) *Definitions.* For purposes of this Award Agreement:

i. **"Cause"** means:

(1) any conviction (including a plea of guilty or of nolo contendere or entry into a pre-trial diversion program) of the Participant for the commission of a felony or any conviction of any criminal offense within the scope of Section 19 of the Federal Deposit Insurance Act, 12 U.S.C. § 1829;

(2) the Participant commits an act of gross misconduct, fraud, embezzlement, theft or material dishonesty in connection with the Participant's duties or in the course of the Participant's employment with the Company or any of its affiliates;

(3) failure on the part of the Participant to perform his or her employment duties in any material respect, which is not cured to the reasonable satisfaction of the Company within 30 days after the Participant receives written notice of such failure; or

(4) the Participant engages in Detrimental Activity.

ii. **"Company Affiliate"** means the Company's parents, subsidiaries, affiliates or their respective successors (collectively, the "Company Affiliates" and each a "Company Affiliate").

iii. **"Detrimental Activity"** includes the following:

(1) The Participant's disclosure to any unauthorized person, firm, or corporation or use or attempt to use for his or her own advantage or to the advantage of any other person, firm or corporation, any confidential information relating to the business affairs or trade secrets of the Company or any of its affiliates, howsoever obtained or provided, during the course of, or as a result of, his or her employment (the **"Confidential Information"**). Confidential Information includes, but is not limited to, information relating to employees, customers and suppliers (former, actual and potential), Company contracts, pricing structures, financial and marketing details, business plans, any technical data, designs, formulae, product lines, intellectual property, research activities and any information which may be deemed to be commercially or price sensitive in nature, whether printed, typed, handwritten, videotaped, transmitted or transcribed on data files or on any other type of media, including but not limited to electronic and digital media, whether or not labeled as "confidential";

(2) The Participant violates the obligations set forth in Section 9(a) or 9(b) of this Award Agreement.

(3) Making any false or disparaging comments about the Company or any of its subsidiaries, affiliates, employees, officers, or directors; or

(4) Engaging in any activity which in the opinion of the Company is not consistent with providing an orderly handover of the Participant's responsibilities.

The Participant agrees that the foregoing restrictions are reasonable and necessary to protect the Company's business and that the grant of this Award, along with the benefits and attributes of the Participant's employment by the Company, is good and valuable consideration to compensate the Participant for agreeing to these restrictions. Notwithstanding anything to the contrary in this Award Agreement or otherwise, nothing shall limit the Participant's rights under applicable law to provide truthful information to any governmental entity or to file a charge with or participate in an investigation conducted by any governmental entity. Notwithstanding the foregoing, the Participant agrees to waive his or her right to recover monetary damages in connection with any charge, complaint or lawsuit filed by the Participant or anyone else on the Participant's behalf (whether involving a governmental entity or not); provided that the Participant is not agreeing to waive, and this Award Agreement shall not be read as requiring the Participant to waive, any right the Participant may have to receive an award for information provided to any governmental entity. The Participant is hereby notified that the immunity provisions in Section 1833 of title 18 of the United States Code provide that an individual cannot be held criminally or civilly liable under any federal or state trade secret law for any disclosure of a trade secret that is made (1) in confidence to federal, state or local government officials, either directly or indirectly, or to an attorney, and is solely for the purpose of reporting or investigating a suspected violation of the law, (2) under seal in a complaint or other document filed in a lawsuit or other proceeding, or (3) to the Participant's attorney in connection with a lawsuit for retaliation for reporting a suspected violation of law (and the trade secret may be used in the court proceedings for such lawsuit) as long as any document containing the trade secret is filed under seal and the trade secret is not disclosed except pursuant to court order.

iv. **"Disability"** means the Participant is entitled to, and has begun to receive, long-term disability benefits under the long-term disability plan of the Company in which the Participant participates.

v. **"Good Reason"** means any of the following changes, as compared to the Participant's terms of employment prior to a Change of Control:

(1) a material diminution in the Participant's authority, duties, or responsibilities;

(2) a material diminution in the Participant's base salary other than a general reduction in base salary that affects all similarly situated employees; or

(3) a relocation of the Participant's principal place of employment by more than 50 miles from his or her current principal place of employment, unless the new principal place of employment is closer to the Participant's home address.

Provided, however, that the Participant must give written notice to the Company within 30 days of the initial existence of any of the foregoing changes, the Company shall have 30 days upon receipt of such notice to remedy the condition so as to eliminate the Good Reason, and if not remedied, the Participant's employment must terminate no later than 60 days following the expiration of such cure period. Notwithstanding the foregoing, the Participant's continued employment shall not constitute a waiver of the Participant's rights with respect to any circumstance constituting Good Reason under this Award Agreement.

vi. **"Performance Period"** means the period beginning on [] and ending on [].

vii. **"Performance Period Start Date"** means the date that the Performance Period begins, as set forth in Section 14(a)(vi).

viii. **"Retirement"** means the Participant's age plus years of service (in each case, including completed months) equals or exceeds 65, with a minimum of at least five years of service with the Company.

(b) *Notices.* All notices, requests and other communications under this Award Agreement shall be in writing and shall be delivered in person (by courier or otherwise), mailed by certified or registered mail, return receipt requested, or sent by facsimile transmission or by e-mail or any other form of electronic transmission or delivery approved by the Committee, as follows:

if to the Company, to:

Citizens Financial Group, Inc.
600 Washington Blvd.
Stamford, CT 06901
Attention: Corporate Secretary

if to the Participant, to the address that the Participant most recently provided to the Company, or to such other address, facsimile number, e-mail address or such other form of electronic transmission or delivery as such party may hereafter specify for the purpose by notice to the other parties hereto. All such notices, requests and other communications shall be deemed received on the date of receipt by the recipient thereof if received prior to 5:00 p.m. on a business day in the place of receipt. Otherwise, any such notice, request or communication shall be deemed received on the next succeeding business day in the place of receipt. Notwithstanding anything to the contrary contained in this Award Agreement or in the Plan, the Company may, in its sole discretion, deliver and, by acceptance of this grant, the Participant hereby explicitly and unambiguously consents and agrees to the receipt and delivery of, any notices permitted or required hereunder, documents related to any Awards granted under the Plan and/or any other information (including, without limitation, information required to be delivered to the Participant pursuant to applicable securities laws) regarding the Company and the Subsidiaries or the Plan by electronic means, including but not limited to through the Participant's electronic account, through another on-line or electronic account system established and maintained by the Company or another third party designated by the Company or via the Company website. Such consent shall remain in effect throughout the Participant's term of employment or service with the Company and thereafter until withdrawn in writing by the Participant. The Participant acknowledges that the Participant may receive from the Company a paper copy of any notices or documents delivered electronically at no cost to the Participant by contacting the Company by telephone or in writing.

(c) *Entire Agreement.* This Award Agreement and the Plan (including the terms specified in the Participant's electronic account, as noted in Section 1 and Section 6 above) constitute the entire agreement and understanding between the parties in respect of the subject matter hereof and supersede all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

(d) *Severability.* If any provision of this Award Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or this Award Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Award Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Award Agreement shall remain in full force and effect.

(e) *Amendment; Waiver.* No amendment or modification of any provision of this Award Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant, *provided* that the Company may amend or modify this Award Agreement without the Participant's consent in accordance with the provisions of the Plan or as otherwise set forth in this Award Agreement. No waiver of any breach or condition of this Award Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Award Agreement, or any waiver of any provision of this Award Agreement, shall be effective only in the specific instance and for the specific purpose for which made or given.

(f) *Assignment.* Neither this Award Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

(g) *Successors and Assigns; No Third-Party Beneficiaries.* This Award Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Award Agreement, express or implied, is intended to confer on any Person other than the Company and the Participant, and their respective heirs, successors, legal representatives and permitted

assigns, any rights, remedies, obligations or liabilities under or by reason of this Award Agreement.

(h) *Governing Law; Waiver of Jury Trial.* This Award Agreement shall be governed by the laws of the State of Delaware, without application of the conflicts of law principles thereof. By acknowledging this Award Agreement electronically or signing it manually, as applicable, the Participant waives any right that the Participant may have to trial by jury in respect of any litigation based on, arising out of, under or in connection with this Award Agreement or the Plan.

(i) *Discretionary Nature.* The grant of the PSUs does not create any contractual right or other right in the Participant to receive any PSUs or other Awards in the future. Future grants of Awards, if any, shall be at the sole discretion of the Company.

(j) *Participant Undertaking; Acceptance.* The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the PSUs pursuant to this Award Agreement. The Participant acknowledges receipt of a copy of the Plan and this Award Agreement and understands that material definitions and provisions concerning the PSUs and the Participant's rights and obligations with respect thereto are set forth in the Plan. The Participant has read carefully, and understands, the provisions of this Award Agreement and the Plan.

(k) *Dispute Resolution.* Except as provided in Section 9(e) above and the last sentence of this paragraph to the fullest extent permitted by law, the Company and the Participant agree to waive their rights to seek remedies in court, including but not limited to rights to a trial by jury. The Company and each Participant agree that any dispute between or among them and/or their affiliates arising out of, relating to or in connection with this Plan shall be resolved in accordance with a confidential two-step dispute resolution procedure involving: (a) Step One: non-binding mediation, and (b) Step Two: binding arbitration under the Federal Arbitration Act, 9 U.S.C. § 1, et. seq., or state law, whichever is applicable. Any such mediation or arbitration hereunder shall be under the auspices of the American Arbitration Association ("**AAA**") pursuant to its then current AAA Employment Arbitration Rules (the "**Rules**"). No arbitration shall be initiated or take place with respect to a given dispute if the parties have successfully achieved a mutually agreed to resolution of the dispute as a result of the Step One mediation. The mediation session(s) and, if necessary, the arbitration hearing shall be held in the city/location selected by the Company in its sole discretion. The arbitration (if the dispute is not resolved by mediation) shall be conducted by a single AAA arbitrator, selected by the Company in its sole discretion. Any award rendered by the arbitrator, including with respect to responsibility for AAA charges (including the costs of the mediator and arbitrator), shall be final and binding, and judgment may be entered on it in any court of competent jurisdiction. In the unlikely event the AAA refuses to accept jurisdiction over a dispute, the Company and each Participant agree to submit to JAMS mediation (formerly known as Judicial Arbitration and Mediation Services) and arbitration applying the JAMS equivalent of the AAA Rules. If AAA and JAMS refuse to accept jurisdiction, or if the Company concludes that but for this Award Agreement, multiple single plaintiff arbitration claims filed could have been brought as a class and/or collective action in state or Federal court, and the administrative fees for arbitrating those cases exceed \$50,000, the Parties shall forego the use of AAA or JAMS. In that event, the Parties shall meet and confer to select a mutually agreeable arbitrator. If the Parties are unable to agree upon an arbitrator, then each Party shall select five (5) arbitrators to place on a list. Arbitrators placed on the list must be licensed to practice law in any state (or have previously been licensed and have always been and remain in good standing with their respective bar associations) and must have previously served as a neutral arbitrator for at least one dispute involving an employment matter. Each side shall alternate in striking an arbitrator from the list, with the last remaining arbitrator selected to adjudicate the matter. The Parties shall mutually agree or flip a coin to determine which party strikes first. Should the selected arbitrator have a conflict or otherwise refuse or be unable to serve, the arbitrator struck immediately prior shall serve as the arbitrator. The Rules, as amended by this Award Agreement, shall continue to apply to the greatest extent possible to the arbitration.

(l) *Waiver of Class Action and Representative Action Claims.* Except as otherwise required under applicable law, the Parties expressly intend and agree that: (a) class action and representative action procedures shall not be asserted, nor will they apply, in any arbitration, court claim or any other judicial proceeding pursuant to this Agreement; (b) each will not assert class action or representative action claims against the other in arbitration or otherwise; and (c) the

Parties shall only submit their own, individual claims in arbitration or otherwise and will not seek to represent the interests of any other person. Further, the Parties expressly intend and agree that any claims by the Participant will not be joined, consolidated, or heard together with claims of any other Participants, regardless of whether the Parties can agree to arbitrate the claim or must proceed through another venue. Notwithstanding anything to the contrary in the Rules, and the general grant of authority to the arbitrator of the power to determine issues of arbitrability, the arbitrator shall have no jurisdiction or authority to compel any class or collective claim, to consolidate different arbitration proceedings, or to join any other party to an arbitration between the Parties.

(m) *Captions.* Captions provided herein are for convenience only and shall not affect the scope, meaning, intent or interpretation of the provisions of this Award Agreement.

(n) *Nature of Payments.* Any and all grants or deliveries related to the PSUs hereunder shall constitute special incentive payments to the Participant and shall not be taken into account in computing the amount of salary or compensation of the Participant for the purpose of determining any retirement, death or other benefits under (i) any retirement, bonus, life insurance or other employee benefit plan of the Company, or (ii) any agreement between the Company and the Participant, except as such plan or agreement shall otherwise expressly provide.

(o) *Data Privacy.* The Participant understands that the Company and its affiliates hold certain personal information about the Participant, including but not limited to the Participant's name, home address and telephone number, birthdate, social insurance number or other identification number, compensation, details of all Awards or any other entitlement to Shares for the purpose of administering the Plan (the "**Data**"). As a condition of receipt of this Award, the Participant explicitly consents to the collection, use, transfer and retention, in electronic or other form, of the Data by and among, as applicable, the Company, its affiliates and any third parties assisting the Company in administration of the Plan (including but not limited to any broker or other third party with whom the Participant may elect to deposit Shares), in each case, for the purpose of administering the Participant's participation in the Plan.

December 2023 Amendment
CFG Voluntary Executive Deferred Compensation Plan Fifth Amendment

Effective for Plan Years beginning on and after January 1, 2024, the CFG Voluntary Executive Deferred Compensation Plan Amended and Restated September 1, 2014 (the "Plan"), is hereby amended as follows.

Payment of In-Service Accounts

Effective January 1, 2024, the first sentence of Section 5.5(c) of the Plan is hereby amended in its entirety as follows:

Provided that a Participant is actively employed with the Employer, as determined consistent with Section 409A of the Code and the regulations promulgated thereunder, benefits from each of the Participant's In-Service Accounts shall be paid in a lump sum or annual installments as specified by the Participant in his or her applicable Participation Agreements and shall commence in January of a year specified by the Participant in his or her applicable Participation Agreement.

Except as amended herein, the Plan is confirmed in all other respects.

Executed this 20th day of December, 2023 by and on behalf of Citizens Financial Group, Inc. by its duly authorized officer.

Deferred Cash Award Agreement
Terms and Conditions

Section 1. *Grant of Deferred Cash Award.* Citizens Financial Group, Inc. (together with its Subsidiaries, the “**Company**”) has granted to the participant, as identified in such participant’s electronic account (the “**Participant**”) (the Company and the Participant collectively, the “**Parties**”), in exchange for the Participant’s services to the Company, a cash award (the “**Award**”) in the amount specified in the Participant’s electronic account, effective on the “**Grant Date**” specified in the Participant’s electronic account. The Award is subject to the terms and conditions of this award agreement (the “**Award Agreement**”).

Section 2. *Restrictions on Transferability.* The Award granted under this Award Agreement shall not be assigned, sold, exchanged, pledged, hypothecated, transferred, alienated or otherwise disposed of or hedged, in any manner, whether voluntarily or involuntarily, and whether by operation of law or otherwise, other than by will or by the laws of descent and distribution, by the Participant. Any sale, exchange, transfer, assignment, pledge, hypothecation, or other disposition in violation of the provisions of this Section 2 shall be null and void and any portion of the Award that is hedged in any manner shall immediately be forfeited. All of the terms and conditions of this Award Agreement shall be binding upon any permitted successors and assigns.

Section 3. *Vesting; Change of Control; Vesting and Forfeiture Upon a Termination of Employment.*

(a) *Vesting.* The Award will be subject to the vesting schedule specified in the Participant’s electronic account.

(b) *Change of Control.* If the Participant is terminated by the Company without Cause, or the Participant resigns from employment with the Company with Good Reason, within twenty four (24) months after a Change of Control (a “**Change of Control Termination**”), the Award shall fully vest on the Participant’s termination date and shall be paid to the Participant pursuant to Section 4.

(c) *Vesting and Forfeiture Upon Termination of Employment.*

i. *Termination Without Cause.* If the Participant is terminated by the Company without Cause (other than a Change of Control Termination), the Award shall continue to vest in accordance with Section 3(a) as though the Participant was still employed by the Company on each applicable vesting date; *provided, however*, that the Participant does not engage in any Detrimental Activity during the Participant’s post-employment vesting period.

ii. *Retirement; Disability.* If the Participant’s employment is terminated due to Retirement or Disability, the Award shall continue to vest in accordance with Section 3(a) as though the Participant was still employed by the Company on each applicable vesting date, *provided, however*, that the Participant (A) does not engage in any Detrimental Activity and (B) does not become employed by any company in the financial services industry, in each case, during the Participant’s post-employment vesting period.

iii. *Death.* If the Participant is terminated due to death, the Award shall fully vest on the Participant’s date of death and shall be paid to the Participant’s Beneficiary pursuant to Section 4.

iv. *Forfeiture.* If the Participant is terminated by the Company with Cause or the Participant resigns for any reason (other than a Change of Control Termination), any unvested portion of the Award shall be forfeited in its entirety on the Participant’s termination date without any payment to the Participant. In addition, if (A) the Participant’s employment is terminated by the Company without Cause (other than a Change of Control Termination) and the Participant engages in Detrimental Activity during the Participant’s post-employment vesting period, or (B) the Participant’s employment is terminated due to Retirement or Disability and the Participant either (I) engages in any Detrimental Activity, or (II) becomes employed by any company in the

financial services industry, in either case, during the Participant's post-employment vesting period, any unvested portion of the Award shall be forfeited in its entirety on the date that the Participant engages in such Detrimental Activity or becomes employed by any company in the financial services industry, as applicable, without any payment to the Participant.

Section 4. *Distribution on Vesting.* Each portion of the Award that becomes vested pursuant to Section 3 shall be paid as soon as reasonably practicable on or after the applicable vesting date in an amount equal to the portion of the Award that became vested on that date; provided, however, that such payment shall be made no later than the end of the calendar year in which it vests or, if later, by the 15th day of the third calendar month after the vesting date provided that the Participant shall not be permitted, directly or indirectly, to designate the taxable year of the payment.

Section 5. *Notice Prior to the Participant's Voluntary Separation from Employment.* In partial consideration for the Participant's eligibility for and receipt of the Award, the Participant agrees to provide the Company with prior notice of the Participant's voluntary separation from employment, regardless of the reason for such separation. Such notice shall be no less than the greater of (a) the notice period applicable to the Participant's employee level as specified in the Company's Separation from Employment Policy as it exists at the time the Participant provides such notice or (b) the period specified in any other written agreement between the Participant and the Company.

Section 6. *Restrictive Covenants.*

(a) *Non-Solicitation of Employees.* In addition to the Participant's obligations detailed in this Agreement, the Participant agrees and reaffirms that, at any time during the Participant's employment and for twelve (12) months following the date the Participant ceases to be employed by the Company for any reason, or if longer, during the remaining vesting period (the "**Restricted Period**"), and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, whether for the Participant's own account or for any person or entity other than the Company or any Company Affiliate hire, employ, solicit for employment or hire, or attempt to solicit for employment or hire, any person who is employed by the Company or any Company Affiliate during the Restricted Period, nor shall the Participant directly or indirectly induce any such employee to terminate his or her employment or accept employment with anyone other than a Company Affiliate, or otherwise interfere with the relationship between the Company and/or any Company Affiliate and any of their employees during the Restricted Period. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 6(a) if an entity with which the Participant is associated hires or engages any employee of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in hiring or identifying such person as a potential recruit or assisting in the recruitment of such employee.

(b) *Non-Solicitation of, and Non-Interference with, Customers and Prospective Clients.* The Participant agrees that during the Participant's employment and during the Restricted Period, and to the extent permissible by law in the state the Participant resides, the Participant shall not, directly or indirectly, for any person or entity other than the Company or any Company Affiliate, solicit, assist in soliciting for or accept business from any customer of the Company or any Company Affiliate, nor will the Participant induce or encourage any such customer to discontinue or diminish his, her or its relationship or prospective relationship with the Company or any Company Affiliate, or divert business away from the Company or any Company Affiliate; provided, however, that general solicitation through advertisement shall not constitute solicitation for purposes of this provision. Anything to the contrary notwithstanding, the Company agrees that the Participant shall not be deemed in violation of this Section 6(b) if an entity with which the Participant is associated accepts business from a customer or client of the Company or a Company Affiliate, if the Participant was not, directly or indirectly, involved in soliciting or identifying such customer or client as a potential customer or client of the competing entity.

(c) *Representations.* The Participant agrees that all of the foregoing restrictions are reasonable and necessary to protect the Company's and/or any Company Affiliate's business and their Confidential Information and that the Participant's eligibility for and receipt of the Award, are independently and together good and valuable consideration to compensate him or her for agreeing to all restrictions contained in this Agreement. The Participant also acknowledges, represents and warrants that the Participant's knowledge, skills and abilities are sufficient to

permit the Participant to earn a satisfactory livelihood without violating these provisions. Further, the Participant agrees that the Participant shall not, following the termination of the Participant's employment with the Company, represent or hold the Participant out as being in any way connected with the business of the Company or any Company Affiliate.

(d) *Blue Pencil.* It is expressly understood and agreed that although the Participant and the Company consider the restrictions contained in this section to be reasonable, if a final judicial determination is made by an arbitrator or a court of competent jurisdiction that the time or territory or any other restriction contained in this Agreement is an unenforceable restriction against the Participant, the provisions of this Agreement shall not be rendered void but shall be deemed amended to apply as to such maximum time and territory and to such maximum extent as such court may judicially determine or indicate to be enforceable. Alternatively, if an arbitrator or a court of competent jurisdiction finds that any restriction contained in this Agreement is unenforceable, and such restriction cannot be amended so as to make it enforceable, such finding shall not affect the enforceability of any of the other restrictions contained herein.

(e) *Injunctive Relief.* In the event of a breach or threatened breach of this Section 6 or the Participant's engaging in Detrimental Activity, and to the extent permissible by law in the state the Participant resides, the Participant agrees that the Company will be entitled to injunctive relief in a court of appropriate jurisdiction to remedy any such breach or threatened breach, the Participant acknowledging that damages would be inadequate and insufficient.

Section 7. *Repayment Requirement.* If the Participant's employment is terminated (or notice to terminate is given by the Participant or the Company) for any reason other than death, Disability, Retirement, or termination by the Company without Cause within twelve (12) months of the date the Participant commences employment with the Company, any unvested portion of the Award shall be forfeited in its entirety on the Participant's termination date without any payment to the Participant and the Participant shall be required to repay the Company within 14 days of the Participant's termination date the net value (following any applicable tax and other statutory deductions) of any portion of the Award that the Participant received pursuant to this Award Agreement. *[For buy-out awards only]*

Section 8. *Tax Liability; Withholding Requirements.* The Participant shall be solely responsible for any applicable taxes (including, without limitation, income and excise taxes) and penalties, and any interest that accrues thereon, that the Participant incurs in connection with the receipt, vesting or payment of the Award. The Company shall be authorized to withhold from the Award any payment due or transfer made under the Award or from any compensation or other amount owing to the Participant the amount (in cash or other property, or any combination thereof) of applicable withholding taxes due in respect of the Award, its settlement or any payment or transfer under the Award and to take such other action (including providing for elective payment of such amounts in cash or other property by the Participant) as may be necessary in the opinion of the Company to satisfy all obligations for the payment of such taxes.

Section 9. *Recoupment/Clawback.* The Participant hereby acknowledges and agrees that in order to comply with applicable law (including, without limitation, the Dodd-Frank Wall Street Reform and Consumer Protection Act), regulatory authority, and policies of the Company, the Committee retains the right at all times to decrease or terminate the Award and payments under the Award, and any and all amounts payable under the Award, or paid under the Award, shall be subject to clawback, forfeiture, and reduction to the extent determined necessary to comply with applicable law, regulatory authority, and/or policies of the Company, including as a result of risk-related events.

Section 10. *No Right to Continued Employment.* The grant of the Award shall not be construed as giving a Participant the right to be retained in the employ of, or to continue to provide services to, the Company. The receipt of the Award is not intended to confer any rights on the Participant except as set forth in this Award Agreement.

Section 11. *Section 409A of the Code.* This Award Agreement is intended to comply with the requirements of Section 409A of the Code and the regulations thereunder, and the provisions of this Award Agreement shall be interpreted in a manner that satisfies the requirements of Section 409A of the Code, and this Award Agreement shall be operated accordingly. If any provision of this Award Agreement or any term or condition of the Award would otherwise conflict with this intent, the provision, term or condition shall be interpreted and deemed

amended so as to avoid this conflict. Notwithstanding anything else in this Award Agreement, if the Board considers a Participant to be a "specified employee" under Section 409A of the Code at the time of such Participant's "separation from service" (as defined in Section 409A of the Code), and the amount under the Award is "deferred compensation" subject to Section 409A of the Code any distribution that otherwise would be made to such Participant with respect to the Award as a result of such separation from service shall not be made until the date that is six months after such separation from service, except to the extent that earlier distribution would not result in such Participant's incurring interest or additional tax under Section 409A of the Code. If the Award includes a "series of installment payments" (within the meaning of Section 1.409A-2(b)(2)(iii) of the Treasury Regulations), the Participants' right to the series of installment payments shall be treated as a right to a series of separate payments and not as a right to a single payment. Notwithstanding the foregoing, the tax treatment of the benefits provided under this Award Agreement is not warranted or guaranteed, and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by the Participant on account of non-compliance with Section 409A of the Code.

Section 12. *Miscellaneous.*

(a) *Definitions.* For purposes of this Award Agreement:

i. **"Beneficiary"** means a person entitled to receive payments or other benefits that are available under the Award in the event of the Participant's death. If no such person can be named or is named by the Participant, or if no Beneficiary designated by the Participant is eligible to receive payments or other benefits that are available under the Award at the Participant's death, the Participant's Beneficiary shall be the Participant's estate. A Participant may designate a Beneficiary or change a previous Beneficiary designation only at such times as prescribed by the Company, in its sole discretion, and only by using forms and following procedures approved or accepted by the Company for that purpose.

ii. **"Board"** means the board of directors of Citizens Financial Group, Inc.

iii. **"Cause"** means:

(1) any conviction (including a plea of guilty or of nolo contendere or entry into a pre-trial diversion program) of the Participant for the commission of a felony or any conviction of any criminal offense within the scope of Section 19 of the Federal Deposit Insurance Act, 12 U.S.C. § 1829;

(2) the Participant commits an act of gross misconduct, fraud, embezzlement, theft or material dishonesty in connection with the Participant's duties or in the course of the Participant's employment with the Company or any of its affiliates;

(3) failure on the part of the Participant to perform his or her employment duties in any material respect, which is not cured to the reasonable satisfaction of the Company within 30 days after the Participant receives written notice of such failure; or

(4) the Participant engages in Detrimental Activity.

iv. **"Change of Control"** means the occurrence of any one or more of the following events:

(1) any person (as described in Section 3(a)(9) of the Exchange Act and used in Sections 13(d) and 14(d) of the Exchange Act, including a "group" as defined in Section 13(d) of the Exchange Act), other than an employee benefit plan or trust maintained by the Company, becomes the beneficial owner (as described in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company's outstanding securities entitled to vote generally in the election of directors;

(2) at any time during a period of twelve (12) consecutive months, individuals who at the beginning of such period constituted the Board and any new member of the Board whose election or nomination for election was approved by a vote of at least a majority of

the directors then still in office who either were directors at the beginning of such period or whose election or nomination for election was so approved, cease for any reason to constitute a majority of members of the Board; or

(3) the consummation of (A) a merger or consolidation of the Company with any other corporation or entity, other than a merger or consolidation that would result in the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or being converted into voting securities of the surviving entity or, if applicable, the ultimate parent thereof) at least 50% of the combined voting power and total fair market value of the securities of the Company or such surviving entity or parent outstanding immediately after such merger or consolidation, or (B) any sale, lease, exchange or other transfer to any person (as such term is described in clause (1) above) of assets of the Company, in one transaction or a series of related transactions, having an aggregate fair market value of more than 50% of the fair market value of the Company and its subsidiaries (the **"Company Value"**) immediately prior to such transaction(s), but only to the extent that, in connection with such transaction(s) or within a reasonable period thereafter, the Company's shareholders receive distributions of cash and/or assets having a fair market value that is greater than 50% of the Company Value immediately prior to such transaction(s).

Notwithstanding the foregoing or any provision of this Award Agreement to the contrary, if the Award provides for accelerated distribution on a Change of Control of amounts that constitute "deferred compensation" (as defined in Section 409A of the Code and the regulations thereunder), if the event that constitutes such Change of Control does not also constitute a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the Company's assets (in either case, as defined in Section 409A of the Code), such amount shall not be distributed on such Change of Control but instead shall vest as of the date of such Change of Control and shall be paid on the scheduled payment date specified in the Award Agreement, except to the extent that earlier distribution would not result in the Participant who holds such Award incurring interest or additional tax under Section 409A of the Code.

v. **"Code"** means the Internal Revenue Code of 1986, as amended from time to time, and the rules, regulations and guidance thereunder. Any reference to a provision in the Code shall include any successor provision thereto.

vi. **"Committee"** means the compensation committee of the Board unless another committee is designated by the Board. If there is no compensation committee of the Board and the Board does not designate another committee, references herein to the "Committee" shall refer to the Board.

vii. **"Company Affiliate"** means the Company's parents, subsidiaries, affiliates or their respective successors (collectively, the "Company Affiliates" and each a "Company Affiliate").

viii. **"Detrimental Activity"** includes the following:

(1) The Participant's disclosure to any unauthorized person, firm, or corporation or use or attempt to use for his or her own advantage or to the advantage of any other person, firm or corporation, any confidential information relating to the business affairs or trade secrets of the Company or any of its affiliates, howsoever obtained or provided, during the course of, or as a result of, his or her employment (the **"Confidential Information"**). Confidential Information includes, but is not limited to, information relating to employees, customers and suppliers (former, actual and potential), Company contracts, pricing structures, financial and marketing details, business plans, any technical data, designs, formulae, product lines, intellectual property, research activities and any information which may be deemed to be commercially or price sensitive in nature, whether printed, typed, handwritten, videotaped, transmitted or transcribed on data files or on any other type of media, including but not limited to electronic and digital media, whether or not labeled as "confidential";

(2) The Participant violates the obligations set forth in Section 6(a) or 6(b) of this Award Agreement.

(3) Making any false or disparaging comments about the Company or any of its subsidiaries, affiliates, employees, officers, or directors; or

(4) Engaging in any activity which in the opinion of the Company is not consistent with providing an orderly handover of the Participant's responsibilities.

The Participant agrees that the foregoing restrictions are reasonable and necessary to protect the Company's business and that the grant of this Award, along with the benefits and attributes of the Participant's employment by the Company, is good and valuable consideration to compensate the Participant for agreeing to these restrictions. Notwithstanding anything to the contrary in this Award Agreement or otherwise, nothing shall limit the Participant's rights under applicable law to provide truthful information to any governmental entity or to file a charge with or participate in an investigation conducted by any governmental entity. Notwithstanding the foregoing, the Participant agrees to waive his or her right to recover monetary damages in connection with any charge, complaint or lawsuit filed by the Participant or anyone else on the Participant's behalf (whether involving a governmental entity or not); provided that the Participant is not agreeing to waive, and this Award Agreement shall not be read as requiring the Participant to waive, any right the Participant may have to receive an award for information provided to any governmental entity. The Participant is hereby notified that the immunity provisions in Section 1833 of title 18 of the United States Code provide that an individual cannot be held criminally or civilly liable under any federal or state trade secret law for any disclosure of a trade secret that is made (1) in confidence to federal, state or local government officials, either directly or indirectly, or to an attorney, and is solely for the purpose of reporting or investigating a suspected violation of the law, (2) under seal in a complaint or other document filed in a lawsuit or other proceeding, or (3) to the Participant's attorney in connection with a lawsuit for retaliation for reporting a suspected violation of law (and the trade secret may be used in the court proceedings for such lawsuit) as long as any document containing the trade secret is filed under seal and the trade secret is not disclosed except pursuant to court order.

ix. **"Disability"** means the Participant is entitled to, and has begun to receive, long-term disability benefits under the long-term disability plan of the Company in which the Participant participates.

x. **"Exchange Act"** means the Securities Exchange Act of 1934, as amended.

xi. **"Good Reason"** means any of the following changes as compared to the Participant's terms of employment prior to a Change of Control:

(1) a material diminution in the Participant's authority, duties, or responsibilities;

(2) a material diminution in the Participant's base salary other than a general reduction in base salary that affects all similarly situated employees; or

(3) a relocation of the Participant's principal place of employment by more than 50 miles from his or her current principal place of employment, unless the new place of employment is closer to the Participant's home address.

Provided, however, that the Participant must give written notice to the Company within 30 days of the initial existence of any of the foregoing changes, the Company shall have 30 days upon receipt of such notice to remedy the condition so as to eliminate the Good Reason, and if not remedied, the Participant's employment must terminate no later than 60 days following the expiration of such cure period. Notwithstanding the foregoing, the Participant's continued employment shall not constitute a waiver of the Participant's rights with respect to any circumstance constituting Good Reason under this Award Agreement.

xii. **"Retirement"** means the Participant's age plus years of service (in each case, including completed months) equals or exceeds 65, with a minimum of at least five years of service with the Company.

(b) *Notices.* All notices, requests and other communications under this Award Agreement shall be in writing and shall be delivered in person (by courier or otherwise), mailed by certified or registered mail, return receipt requested, or sent by facsimile transmission or by e-mail or any other form of electronic transmission or delivery approved by the Committee, as follows:

if to the Company, to:

Citizens Financial Group, Inc.
600 Washington Blvd.
Stamford, CT 06901
Attention: Corporate Secretary

if to the Participant, to the address that the Participant most recently provided to the Company, or to such other address, facsimile number, e-mail address or such other form of electronic transmission or delivery as such party may hereafter specify for the purpose by notice to the other parties hereto. All such notices, requests and other communications shall be deemed received on the date of receipt by the Participant thereof if received prior to 5:00 p.m. on a business day in the place of receipt. Otherwise, any such notice, request or communication shall be deemed received on the next succeeding business day in the place of receipt. Notwithstanding anything to the contrary contained in this Award Agreement, the Company may, in its sole discretion, deliver and, by acceptance of this grant, the Participant hereby explicitly and unambiguously consents and agrees to the receipt and delivery of, any notices permitted or required hereunder, documents related to the Award and/or any other information (including, without limitation, information required to be delivered to the Participant pursuant to applicable securities laws) regarding the Company and the Subsidiaries or the Award by electronic means, including but not limited to through the Participant's electronic account, through another on-line or electronic account system established and maintained by the Company or another third party designated by the Company or via the Company website. Such consent shall remain in effect throughout the Participant's term of employment or service with the Company and thereafter until withdrawn in writing by the Participant. The Participant acknowledges that the Participant may receive from the Company a paper copy of any notices or documents delivered electronically at no cost to the Participant by contacting the Company by telephone or in writing.

(c) *Entire Agreement.* This Award Agreement (including the terms specified in the Participant's electronic account, as noted in Section 1 and Section 3) constitutes the entire agreement and understanding between the parties in respect of the subject matter hereof and supersedes all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

(d) *Severability.* If any provision of this Award Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify this Award Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Award Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Award Agreement shall remain in full force and effect.

(e) *Amendment; Waiver.* No amendment or modification of any provision of this Award Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant; provided, however, that the Company may amend or modify this Award Agreement without the Participant's consent to the extent any such amendment or modification is made to cause the Award to comply with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations, to impose any "clawback" or recoupment provisions on the Awards in accordance with Section 9, or as otherwise set forth in this Award Agreement. No waiver of any breach or condition of this Award Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Award Agreement, or any waiver of any provision of this Award Agreement, shall be effective only in the specific instance and for the specific purpose for which made or given.

(f) *Administration; Determinations.* The Award Agreement shall be administered by the Committee, which shall be appointed by the Board. All decisions of the Committee shall be final, conclusive and binding upon all parties, including the Company, its shareholders, and the Participant.

(g) *Dissolution or Liquidation.* In the event of the dissolution or liquidation of the Company, the Award will terminate immediately prior to the consummation of such action, unless otherwise determined by the Company.

(h) *Assignment.* Neither this Award Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

(i) *Successors and Assigns; No Third-Party Beneficiaries.* This Award Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Award Agreement, express or implied, is intended to confer on any person other than the Company and the Participant, and their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Award Agreement.

(j) *Governing Law; Waiver of Jury Trial.* This Award Agreement shall be governed by the laws of the State of Delaware, without application of the conflicts of law principles thereof. By acknowledging this Award Agreement electronically or signing it manually, as applicable, the Participant waives any right that the Participant may have to trial by jury in respect of any litigation based on, arising out of, under or in connection with this Award Agreement.

(k) *Unfunded Obligation.* The Award is an unfunded obligation and does not create and will not be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company and the Participant or any other person. To the extent that the Participant becomes vested in the Award and acquires a right to receive payments from the Company pursuant to this Award Agreement, that right will be no greater than the right of any unsecured general creditor of the Company.

(l) *Discretionary Nature.* The grant of the Award does not create any contractual right or other right in the Participant to receive any other Awards in the future. Future grants of Awards, if any, shall be at the sole discretion of the Company.

(m) *Participant Undertaking; Acceptance.* The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the Award pursuant to this Award Agreement. The Participant acknowledges receipt of a copy of this Award Agreement. The Participant has read carefully, and understands, the provisions of this Award Agreement.

(n) *Dispute Resolution.* Except as provided in Section 6(e) above and the last sentence of this paragraph to the fullest extent permitted by law, the Company and the Participant agree to waive their rights to seek remedies in court, including but not limited to rights to a trial by jury. The Company and the Participant agree that any dispute between or among them and/or their affiliates arising out of, relating to or in connection with this Award shall be resolved in accordance with a confidential two-step dispute resolution procedure involving: (a) Step One: non-binding mediation, and (b) Step Two: binding arbitration under the Federal Arbitration Act, 9 U.S.C. § 1, et. seq., or state law, whichever is applicable. Any such mediation or arbitration hereunder shall be under the auspices of the American Arbitration Association ("**AAA**") pursuant to its then current AAA Employment Arbitration Rules (the "**Rules**"). No arbitration shall be initiated or take place with respect to a given dispute if the parties have successfully achieved a mutually agreed to resolution of the dispute as a result of the Step One mediation. The mediation session(s) and, if necessary, the arbitration hearing shall be held in the city/location selected by the Company in its sole discretion. The arbitration (if the dispute is not resolved by mediation) shall be conducted by a single AAA arbitrator, selected by the Company in its sole discretion. Any award rendered by the arbitrator, including with respect to responsibility for AAA charges (including the costs of the mediator and arbitrator), shall be final and binding, and judgment may be entered on it in any court of competent jurisdiction. In the unlikely event the AAA refuses to accept jurisdiction over a dispute, the Company and the Participant agree to submit to JAMS mediation and arbitration applying the JAMS equivalent of the Rules. If AAA and JAMS refuse to accept jurisdiction, or if the Company concludes that but for this Award Agreement, multiple single plaintiff arbitration claims filed could have been brought as a class and/or collective action in state or Federal court, and the administrative fees for arbitrating those cases exceed \$50,000, the Parties shall forego the use of AAA or JAMS. In that event, the Parties shall meet and confer to

select a mutually agreeable arbitrator. If the Parties are unable to agree upon an arbitrator, then each Party shall select five (5) arbitrators to place on a list. Arbitrators placed on the list must be licensed to practice law in any state (or have previously been licensed and have always been and remain in good standing with their respective bar associations) and must have previously served as a neutral arbitrator for at least one dispute involving an employment matter. Each side shall alternate in striking an arbitrator from the list, with the last remaining arbitrator selected to adjudicate the matter. The Parties shall mutually agree or flip a coin to determine which party strikes first. Should the selected arbitrator have a conflict or otherwise refuse or be unable to serve, the arbitrator struck immediately prior shall serve as the arbitrator. The Rules, as amended by this Award Agreement, shall continue to apply to the greatest extent possible to the arbitration.

(o) *Waiver of Class Action and Representative Action Claims.* Except as otherwise required under applicable law, the Parties expressly intend and agree that: (a) class action and representative action procedures shall not be asserted, nor will they apply, in any arbitration, court claim or any other judicial proceeding pursuant to this Agreement; (b) each will not assert class action or representative action claims against the other in arbitration or otherwise; and (c) the Parties shall only submit their own, individual claims in arbitration or otherwise and will not seek to represent the interests of any other person. Further, the Parties expressly intend and agree that any claims by the Participant will not be joined, consolidated, or heard together with claims of any other Participants, regardless of whether the Parties can agree to arbitrate the claim or must proceed through another venue. Notwithstanding anything to the contrary in the Rules, and the general grant of authority to the arbitrator of the power to determine issues of arbitrability, the arbitrator shall have no jurisdiction or authority to compel any class or collective claim, to consolidate different arbitration proceedings, or to join any other party to an arbitration between the Parties.

(p) *Captions.* Captions provided herein are for convenience only and shall not affect the scope, meaning, intent or interpretation of the provisions of this Award Agreement.

(q) *Nature of Payments.* The Award granted hereunder shall constitute special incentive payments to the Participant and shall not be taken into account in computing the amount of salary or compensation of the Participant for the purpose of determining any retirement, death or other benefits under (i) any retirement, bonus, life insurance or other employee benefit plan of the Company, or (ii) any agreement between the Company and the Participant, except as such plan or agreement shall otherwise expressly provide.

(r) *Data Privacy.* The Participant understands that the Company and its affiliates hold certain personal information about the Participant, including but not limited to the Participant's name, home address and telephone number, birthdate, social insurance number or other identification number, compensation, and details of the Award for purposes of administration (the "**Data**"). As a condition of receipt of this Award, the Participant explicitly consents to the collection, use, transfer and retention, in electronic or other form, of the Data by and among, as applicable, the Company, its affiliates and any third parties assisting the Company in administration of the Award, in each case, for the purpose of administering the Award.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Bruce Van Saun, certify that:

1. I have reviewed this Annual Report on Form 10-K of Citizens Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, John F. Woods, certify that:

1. I have reviewed this Annual Report on Form 10-K of Citizens Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

John F. Woods

Chief Financial Officer

A signed original of this written statement required by Section 906 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff on request.

CITIZENS FINANCIAL GROUP INC.**CLAWBACK POLICY****1. Purpose**

Citizens Financial Group Inc. (the “Company”) has adopted this policy (this “Policy”) to provide for the recovery or “clawback” of certain incentive compensation in the event of a Restatement.

This Policy is intended to comply with, and will be interpreted to be consistent with, the requirements of Section 303A.14 of the New York Stock Exchange (“NYSE”) Listed Company Manual (the “Listing Standard”). Certain terms used in this Policy are defined in Section 10 below.

2. Statement of Policy

The Company shall recover reasonably promptly the amount of erroneously awarded Incentive-Based Compensation in the event that the Company is required to prepare an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a “Restatement”).

The Company shall recover erroneously awarded Incentive-Based Compensation in compliance with this Policy except to the extent provided under Section 7 below.

3. Administrative Matters**a. Effectiveness**

This Policy shall be effective as of December 1, 2023, upon approval by the Compensation and Human Resources Committee (the “CHRC”) of the board of directors of the Company (the “Board”).

b. Authority

The CHRC will administer this Policy. Any determination of the CHRC will be final, binding and conclusive and need not be uniform with respect to each individual covered by this Policy.

The CHRC may amend this Policy from time to time and may terminate this Policy at any time, in each case in its sole discretion and in accordance with applicable law.

c. Recordkeeping.

In the event of a Restatement, the Head of Reward shall compile and circulate to the members of the CHRC a list of the Incentive-Based Awards and the holders thereof that will be subject to this Policy, in advance of the meeting. The Corporate Secretary of the CHRC will keep minutes of the CHRC meetings.

d. Other Recoupment Rights; Event of Conflict

Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Company and its subsidiaries and affiliates under applicable law or pursuant to the terms of any similar Company policy or procedure or similar provision in any employment agreement, equity award agreement or similar agreement. For the avoidance of doubt, Incentive-Based Compensation received by an Executive Officer may be subject to both this Policy and the recovery procedure of the Company's Accountability Review Panel (the "ARP Procedure"). If there is any conflict between the terms of this Policy and the ARP Procedure, then such conflict or inconsistency shall be resolved by giving precedence to this Policy.

4. Scope of Policy

a. Covered Persons and Recovery Period.

This Policy applies to Incentive-Based Compensation received by a person:

- after beginning service as an Executive Officer,
- who served as an Executive Officer at any time during the performance period for that Incentive-Based Compensation,
- while the Company has a class of securities listed on a national securities exchange, and
- during the three completed fiscal years immediately preceding the date that the Company is required to prepare a Restatement (the "Recovery Period").

Notwithstanding this look-back requirement, the Company is only required to apply this Policy to Incentive-Based Compensation received on or after October 2, 2023.

For purposes of this Policy, Incentive-Based Compensation shall be deemed "received" in the Company's fiscal period during which the Financial Reporting Measure (as defined herein) specified in the Incentive-Based Compensation award is attained, even if the payment or grant of the Incentive-Based Compensation occurs after the end of that period.

b. Transition Period.

In addition to the Recovery Period, this Policy applies to any transition period (that results from a change in the Company's fiscal year) within or immediately following the Recovery Period (a "Transition Period"), provided that a Transition Period between the last day of the Company's previous fiscal year end and the first day of the Company's new fiscal year that comprises a period of nine to 12 months will be deemed a completed fiscal year.

c. Determining Recovery Period.

For purposes of determining the relevant Recovery Period, the date that the Company is required to prepare the Restatement is the earlier to occur of:

- the date the Board, a committee of the Board, or the officer or officers of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare a Restatement, and

- the date a court, regulator, or other legally authorized body directs the Company to prepare a Restatement.

For clarity, the Company's obligation to recover erroneously awarded Incentive-Based Compensation under this Policy is not dependent on if or when a Restatement is filed.

5. Amount Subject to Recovery

a. Recoverable Amount.

The amount of Incentive-Based Compensation subject to recovery under this Policy is the amount of Incentive-Based Compensation received that exceeds the amount of Incentive-Based Compensation that otherwise would have been received had it been determined based on the restated amounts, computed without regard to any taxes paid.

b. Covered Compensation Based on Stock Price or TSR.

For Incentive-Based Compensation based on stock price or total shareholder return ("TSR"), where the amount of erroneously awarded Incentive-Based Compensation is not subject to mathematical recalculation directly from the information in a Restatement, the recoverable amount shall be determined by the CHRC based on a reasonable estimate of the effect of the Restatement on the stock price or TSR upon which the Incentive-Based Compensation was received. In such event, the Company shall maintain documentation of the determination of that reasonable estimate and provide such documentation to NYSE.

6. Method of Recovery

Without limiting Section 4, the CHRC will have discretion in determining how to accomplish recovery of erroneously awarded Incentive-Based Compensation under this Policy, recognizing that different means of recovery may be appropriate in different circumstances.

7. Exceptions

The Company shall recover erroneously awarded Incentive-Based Compensation in compliance with this Policy except to the extent that the conditions set out below are met and the CHRC has made a determination that recovery would be impracticable:

a. Direct Expense Exceeds Recoverable Amount.

The direct expense paid to a third party to assist in enforcing this Policy would exceed the amount to be recovered; provided, however, that before concluding it would be impracticable to recover any amount of erroneously awarded Incentive-Based Compensation based on expense of enforcement, the Company shall make a reasonable attempt to recover such erroneously awarded Incentive-Based Compensation, document such reasonable attempt(s) to recover, and provide that documentation to NYSE.

b. Recovery from Certain Tax-Qualified Retirement Plans.

Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of 26 U.S.C. 401(a)(13) or 26 U.S.C. 411(a) and regulations thereunder.

8. Prohibition Against Indemnification

Notwithstanding the terms of any indemnification arrangement or insurance policy with any individual covered by this Policy, the Company shall not indemnify any Executive Officer or former Executive Officer against the loss of erroneously awarded Incentive-Based Compensation, including any payment or reimbursement for the cost of insurance obtained by any such covered individual to fund amounts recoverable under this Policy

9. Disclosure

The Company shall file all disclosures with respect to this Policy and recoveries under this Policy in accordance with the requirements of the U.S. Federal securities laws, including the disclosure required by the applicable Securities and Exchange Commission (“SEC”) filings.

10. Definitions

Unless the context otherwise requires, the following definitions apply for purposes of this Policy:

- a. “Executive Officer” means the Company’s president, principal financial officer, principal accounting officer (or if there is no such accounting officer, the controller), any vice-president of the Company in charge of a principal business unit, division, or function (such as sales, administration, or finance), any other officer who performs a policy-making function, or any other person who performs similar policymaking functions for the Company. Executive officers of the Company’s subsidiaries are deemed Executive Officers of the Company if they perform such policy making functions for the Company. Policy-making function is not intended to include policymaking functions that are not significant. Identification of an Executive Officer for purposes of this Policy will include at a minimum executive officers identified pursuant to 17 CFR 229.401(b).
- b. “Financial Reporting Measures” means any of the following: (i) measures that are determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements, and any measures that are derived wholly or in part from such measures, (ii) stock price and (iii) TSR. A Financial Reporting Measure need not be presented within the Company’s financial statements or included in a filing with the SEC.
- c. “Incentive-Based Compensation” means any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure.
